Miss Hertell, Dietitian.

IN MEMORIAM.

Major William James Gooding, president of the Board of Regents, died February, 1912. He had served his State honorably and faithfully all his life. A native of Hampton county, where he was born in November, 1835, he lived always near his birthplace. He received his education at Sandy Run, Lexington county, and at the South Carolina Military Academy. He was adjutant and afterwards, lieutenant-colonel of the Twelfth Regiment Infantry, South Carolina Militia, from 1855 to the beginning of the War Between the States. He was a member of the Legislature from Beaufort District in 1858 and 1860. He was Captain of Co. D, Twenty-fourth Regiment, S. C. Volunteer Infantry, in 1862, but resigned and enlisted in Co. D, Eleventh Regiment, in 1863. He became second lieutenant of that Company. Soon afterward he was so seriously wounded that he was incapacitated for further service in the field. He was made collector of war taxes for Beaufort District and held the position until the close of the war. In 1866 he became sheriff of Beaufort District, holding the position until 1868. Governor Hampton appointed him treasurer of Beaufort county in 1877, which position he held till Hampton county was established and he was appointed to the same position in the new county. He was a delegate to the Constitutional Convention of 1895, in which he was chairman of the Committee on Charitable and Penal Institutions.

One of the most important positions held by Major Goodwin was as Regent of the State Hospital for the Insane, to which he was appointed in 1880. This position he filled for upwards of thirty years, to the great advantage of the State, being for many years Vice President of the Board and for the last six years its President. During this long service he was rarely absent from its meetings. It is by those who served with him that the real value of Major Gooding's services have been most appreciated, for he was too modest himself even to direct attention to his services or merits. But the above enumeration of the honors that came to him unsolicited bear some testimony of the high esteem in which he was held by his neighbors, fellow-soldiers, Governors, friends and associates.

Death came to him unexpected in Hampton county the day of his return home from a meeting of the Board of Regents.

REPORT OF THE REGENTS.

To His Excellency, Cole. L. Blease, Governor.

Sir: The Board of Regents of the State Hospital for the Insane have the honor to present the Eighty-ninth Annual Report of that institution for the year 1912.

For the last two or three years the problems of the insane in our State have been in the hands of two boards. The Regents have been occupied in the management of the State Hospital in Columbia and in directing the farming operations at State Park. The development of the new institution at State Park has been in the hands of a separate Commission. This division of authority has its advantages and disadvantages.

The Ways and Means Committee of the last General Assembly, in its efforts to provide for the future development of State Park, referred to the general electors of the State the question of a million dollar bond issue, to be redeemed by the sale of the property in Columbia, now held in the name of the State by the Regents.

Although this measure was carried by a small majority, it failed of the necessary two-thirds vote required by the joint resolution. This result places the affairs of the Hospital in the same position they were in a year ago. In other words, the question of paramount importance is what is to be the policy of South Carolina in regard to the future care of the insane? If possible, the General Assembly should define the policy in accordance with which we are to administer the affairs of the institution under our care.

Four years ago the institution underwent a most rigid investigation, and following upon this, a large tract of land was secured in the sandhills. It was the purpose of the Regents in recommending that step and in was clearly the intention of the Legislature to provide for the colored insane in the country, and to develop the old plant in Columbia for white patients

At times there seems to be doubt about what is to be done with the property of the State Hospital in Columbia. This important question is for the General Assembly to determine and in our opinion does not come within the functions of our Board.

NURSES.

At the last session of the Legislature an attempt was made to degrade nurses who had served the State for at least two years in

caring for the patients in the State Hospital by imposing upon them additional service in other hospitals before being allowed to appear before the State Medical Examiners. Several hearings were held before Legislative Committees, with the result that an Act was passed giving the State Hospital nurses the same rights and privileges as the previous Act conferred on other nurses.

Our Board begs to express to your Excellency out gratitude for your interest in this matter in coming to the aid of the nurses in what we regard as a serious crisis in the history of the Hospital, and in seeing that justice was done to those who have given faithful service to the State for two or more years.

FINANCES.

As pointed out in the report of the Superintendent, the average per capita cost in the asylum of this country was $175 in 1910, and at present about $200. Our per capita has been $144.22, in 1910; $132.76, in 1911, and $168, in 1912. It will thus appear how much below the average our patients have been supported.

We are sorry to report this year a deficit of $18,397.79. This fact is explained by the expenditure of $27,000 for improvements and repairs upon an appropriation of $15,000, although $25,000 was our estimate last year as presented to the General Assembly. We have also expended $———— on farming operations at State Park. These two items, amounting to $————, show wherein we have been obliged to carry on the work entrusted to us, and in this way have a deficit.

It has always been the custom of our Board to estimate carefully our expenses for each coming year. If appropriations are made less than these estimates, it is inevitable that a shortage will occur.

The following list of estimates for the coming year has again been carefully computed. It will be noted that a separate item is included for the farming operations at State Park. It might seem that with the prospect of moving some of our patients to State Park, the item for improvements and repairs might be reduced. But experience during the past year has proven that it is of the greatest importance for the welfare of our patients that improvements and repairs in the present institution be kept up. The prospect of moving a portion of our patients, and most probably, according to existing laws, the colored portion, should not induce us to permit existing buildings in Columbia to lack for repairs. In fact, it is equally important to keep up repairs and make improvements

here as it is to develop State Park. The two problems should be studied together.

The increased cost per capita is largely due to the increased cost of all supplies, although some items are included which were not formerly included. In this connection we beg to direct attention to a recommendation in your Excellency's last annual message, namely, that the State would save large sums by having a purchasing agent or agents to buy all supplies necessary for the several State institutions. In our opinion this step would probably lead to a material decrease in the cost of maintenance of this institution, as the larger the quantity purchased the less the proportion of cost.

APPROPRIATIONS.

Deficit	$ 18,397 78
Maintenance for 1913	275,000 00
Improvements and repairs, 1913	25,000 00
Regents	1,200 00
Fire protection	500 00
Amusements	800 00
Dentist	1,000 00
Pathologist	1,500 00
Oculist	250 00
Dietitian	600 00
Ice plants	6,000 00
Improvements Parker building	10,000 00
Enlarging and improving laundry	4,000 00
Maintenance State Park	15,000 00
Total	$370,047 78

CHANGES UPON BOARD.

During the year several changes have occurred on the Board of Regents. Immediately after the February meeting of the Board, Major W. J. Gooding, President of the Board of Regents, passed away unexpectedly at his home in Hampton county. Appropriate resolutions upon Major Gooding's death are included elsewhere in this report. The term of office of Capt. Iredell Jones and Dr. W. W. Ray expired March 1st. Captain Jones was reappointed by your Excellency and for the two vacancies Hon. F. H. Dominick, of Newberry, and Dr. T. R. Carothers, of Rock Hill, were appointed. In May the Board was organized by the selection of Mr. Dominick as President and Capt. Jones as Vice President. To our regret,

J. Wright Nash, Esq., resigned, for business reasons, in September, and your Excellency appointed Hon. J. D. Bivens, of Ridgeville, in his stead.

It has seemed for the best interests of the institution that the following resolution of our Board be made part of this report:

Whereas, It is provided by the Constitution of the State that "all physicians, officers and employees of the Hospital shall be appointed by the Board of Regents;" and,

Whereas, It is deemed for the best interests of the Hospital that said appointments should be made for some definite term of office; now, therefore, be it

Resolved, That the present physicians, officers and employees of the Hospital be, and they are hereby, continued in their respective positions until the first day of July, 1913, at which time application will be received and appointments made to fill said positions, for a term of two years, subject to removal by the Board at any time they may deem for the best interests of the Hospital.

Resolved, That a copy of this resolution be sent to the Superintendent of the Hospital, and that he be directed to communicate the same to the physicians, officers and employees of the Hospital.

Again thanking your Excellency for the special consideration you have given to the institution under our charge, we are,

Very respectfully,

FRED H. DOMINICK, President.
IREDELL JONES, Vice President,
J. H. TAYLOR, M. D.
T. R. CAROTHERS, M. D.
J. D. BIVENS.

SUPERINTENDENT'S REPORT.

To the Regents.

Gentlemen: The report of the State Hospital for the Insane for the year 1912 is herewith respeectfully submitted.

Some notes taken at the recent Congress of Hygiene and Demography in Washington are instructive, and give a broad survey of the condition of the insane throughout the country. The insane are the most numerous class of the sick cared for in hospitals. On January 1, 1910, the insane in institutions in this country numbered 187,454. The conditions leading to increased admissions are due in part to advances in medical training resulting in earlier recognition of mental diseases and general advances in the institutional care of all classes of the sick, resulting in increased confidence in hospitals and hospital treatment. Better care results in increased accommodations of the insane in institutions. Better standards of care lead to greater readiness of relatives to send patients to institutions.

The annual cost of maintenance of the 187,454 in institutions January 1, 1910, was $32,804,450, or $175 per capita. The per capita cost of caring for the mentally defective in New Jersey was $230 and in New York $160. At present it is estimated that the per capita cost for the insane of the United States is $200.

In my previous reports I have persistently refused to apologize for what South Carolina has done in handling this problem.

PELLAGRA.

The pellagra problem is the greatest public health problem now before this State, as well as other Southern States. A recent study by Surgeon C. H. Lavinder, of the United States Public Health Service, shows the existence of 30,000 cases, with a mortality of nearly forty per cent. in the last five years.

On October 3d and 4th the second triennial meeting of the National Association for the Study of Pellagra was held at this Hospital. About 150 physicians were in attendance. While no definite conclusions were reached as to the direct cause of the malady, yet the meeting was a success scientifically.

Among the sixty-seven papers contributed to the program were:

Taylor, J. H., Regent, Sambon, the Man, and his Later Investigations of Pellagra.

Babcock, J. W., Superintendent, How Long Has Pellagra Existed in the United States? and Medico-Legal Relations of Pellagra.

Saunders, E. B., Assistant Physician, The Co-Existence of Pellagra and Beriberi.

Cooper, Ernest, Pathologist, Intestinal Parasites in Pellagrins and Non-Pellagrins.

Whaley, E. M., Oculist, The Eye Symptoms of Pellagra.

Killingsworth, S. F., Dentist, Dental Findings in Insane Pellagrins.

INEBRIATES.

In my report for 1897 this statement is made: "From its foundation this Hospital has admitted violent inebriates. To prevent the abuse of this privilege a law was enacted in 1884 requiring that persons suffering from the abuse of alcohol, opium or chloral be received only as pay patients, being supported by their friends, or where they were not able from the county treasuries; in other words, it was clearly the intent of the law that these cases should not be beneficiaries of the State in the same sense as the insane."

In March your Board saw fit to pass this resolution: "That no more inebriates be admitted, except by special order of the Board at one of its regular monthly meetings." This rule checked somewhat the effort to make inebriates beneficiary patients.

FINANCIAL.

As already stated, the per capita cost of maintaining the insane in the United States is $200. A review of this subject as regards this Hospital is instructive:

	Total Number.	Daily Number.	Total Expenses.	Per Capita.
1875	428	312	$ 83,182	$210 40
1880	541	397	84,000	214 04
1885	914	593	136,977	146 34
1890	1,014	754	100,744	131 05
1895	1,157	827	123,332	115 76
1900	1,461	1,043	127,181	102 71
1901	1,493	1,068	135,316	103 00
1902	1,611	1,134	157,870	101 32
1903	1,641	1,155	153,337	105 05
1904	1,736	1,210	162,643	102 34
1905	1,734	1,250	176,708	103 04

1906	1,849	1,317	164,701	106 89
1907	1,922	1,387	200,018	114 37
1908	1,987	1,444	215,246	109 89
1909	2,071	1,507	213,529	116 43
1910	2,193	1,560	291,401	144 22
1911	2,283	1,630	293,529	132 76
1912	2,428	1,651	318,380	168 33

From my point of view, the most urgent question in connection with the administration of the State Hospital is to secure from the General Assembly a definite policy in connection with the development of State Park.

Respectfully submitted, J. W. BABCOCK,
Physician and Superintendent.

REPORT OF PATHOLOGIST.

Columbia, S. C., January 1, 1913.

Dr. J. W. Babcock, Superintendent.

Dear Sir: The work in the pathological department for the past year has been devoted, in part, to a continuation of an investigation begun in 1912. This was an attempt to determine the intestinal parasites of pellagrous and non-pellagrous patients. The results of the work were embodied in a paper read before the Pellagra Conferenece.

All chemical and microscopic work in blood, urine, sputum, and feces, requested by the several departments, has been done. Assistance has been rendered by making functional tests of the kidneys, giving salvarsan and neosalvarsan, and in emergencies.

Classes of the training school have been given both theoretical and practical instruction in urinalysis. Forty-five patients in the colored female department were immunized against typhoid fever.

Material secured at autopsy was sent to the Thompson-McFadden Pellagra Commission, or to Dr. C. H. Lavinder. Three brains were contributed to the department of mental sciences of the South Carolina University.

Laboratory apparatus recently received is being installed. This additional equipment will increase the usefulness of the department.

January, 1912, was devoted to work in the biological laboratory of Johns Hopkins Hospital. During Dr. Thompson's vacation (May, June and July) I acted in his stead.

Respectfully submitted,

ERNEST COOPER, Pathologist.

REPORT OF SUPERINTENDENT OF FARM AT STATE PARK.

Columbia, S. C., January 4, 1913.

Dr. J. W. Babcock, Superintendent.

Dear Sir: I reported for work at State Park on April 1, 1912. I have given you each month a report of my work; now I wish to give a summary of work from April 1, 1912, to January, 1913.

On account of continued rains, very little work had been done—with nine mules and one old horse, four of the mules very good, five very slow. I did what I could between the showers, until sometime in May, then all of my mules were ordered down to the State Hospital for the Insane's Columbia farm, to help for one week, and six mules were kept for two weeks. I planted about sixty (60) acres in cotton and picked forty (40) bales of cotton; housed twenty-three hundred (2,300) bushels of corn, estimated twenty-five (25) tons of hay. I sent to Columbia seventy hundred (7,000) watermelons, thirteen hundred (1,300) bushels sweet potatoes, several hundred bushels of tomatoes; estimated ten hundred (1,000) bushels turnips, two hundred (200) bushels Irish potatoes. Established a small canning plant, canned eight hundred (800) three-pound cans of tomatoes. I am satisfied now that anything can be grown on the Sand Hill land at State Park. I had one acre in Irish potatoes planted in July, from which I gathered one hundred and fifty (150) bushels of marketable potatoes, and fifteen (15) bushels of small ones. I find that the best land has not been cleared for cultivation. If I can have more mules for 1913 I hope to make a good showing in vegetables. This land will grow fine peaches, strawberries, grapes and pecan nuts. I should have fifty (50) or one hundred (100) budded pecan trees, so that I can propagate from these and set out two thousand (2,000) or three thousand (3,000) pecan trees. I have planted asparagus, from which I hope to have good results. Have care of twenty-two (22) colored male patients, some of whom do very good work on the farm; their health was fine and they were happy most of the time. The patients were very useful in taking stumps and scrub oak from the fields. I consider the scrub oak a parasite to the Sand Hill land. Once you get rid of the scrub oak, then the land will produce a good crop of almost anything, and two

crops of many things in one season. Besides working the crop, the mules hauled all the melons and vegetables into the State Hospital for the Insane, five miles, and hauled to the station State Park from woods, twenty-two (22) car loads of wood, to be shipped to State Hospital for the Insane. My wagons never go in empty—if not produce, they take in pine stumps or wood. W. H. WYLIE,

Superintendent of Farm at State Park.

TREASURER'S ANNUAL REPORT, 1912.

By deficit 1911, forward		$ 10,288 53
To unused balance, approprriation, pathologist, 1911	$ 731 60
