MEMORANDUM

TO: County and Regional Librarians

FROM: Betty E. Callaham, State Librarian

SUBJECT: Public Library Annual Statistical Summary, FY 81

DATE: November 18, 1981

The following pages contain a summary of statistics reported to the South Carolina State Library by public libraries in the "South Carolina Public Library Statistical Report" for the fiscal year ending June 30, 1981.

Several new factors have been added this year, libraries have been ranked according to all factors, and sums and medians have been included when applicable.

Pages 2-10 (green) contain an alphabetical listing and rankings of all public libraries based on population, circulation, FTE staff, total volumes, volumes added, operating income, local revenue, and local revenue as a percentage of total income.

Pages 11-17 (buff) contain an alphabetical listing and rankings of public libraries according to a variety of per capita statistics including circulation, FTE staff, volumes, operating income, and local revenue.

Pages 18-29 (blue) contain an alphabetical listing and rankings of public library registration, circulation, and reference statistics.

In order to make the comparisons more useful per capita statistics are based on the 1980 census, even though the 1970 census was still the official census in effect during FY 81.

I hope you, your staff, and your boards of trustees will find this comparative data useful. If you have any questions about the data presented, contact your Field Service Librarian.
