STATE OF SOUTH CAROLINA

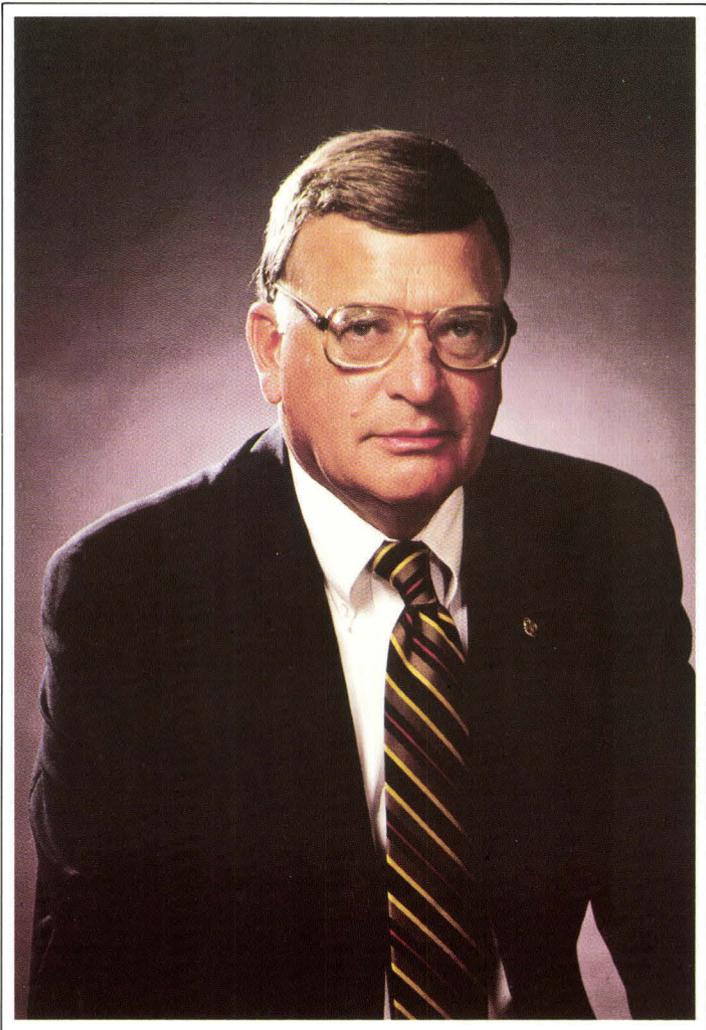

1985
Annual Report
of the
Comptroller General

Earle E. Morris, Jr.
Comptroller General

COMPTROLLER'S MESSAGE

THE TAXPAYERS' MONEY IS THE TAXPAYERS' BUSINESS

It has been almost ten years since I became South Carolina's chief financial and accounting officer. During this decade of decision, the taxpayers and citizens of the state have rightfully demanded better accountability. The General Assembly has supported the reforms which I proposed through adequate funding and legislative authorizations to achieve our goals.

Now, we can correctly, concisely and promptly provide financial information on where every revenue dollar comes from and where every appropriated penny goes! In just two years our state will have the most modern financial system that we can develop — one which complies with generally accepted accounting principles for government (GAAP).

In my opinion, supported by the firms who rate our state's credit, we were jeopardizing our fiscal future by relying on "reputational inertia" — a false belief expressed by an official who said, "We don't need a new state accounting system, we've been doing it this way for a hundred years."

Yes, South Carolina has a very high credit rating, and I believe these reforms will provide even more strength for our future fiscal needs. The Office of Comptroller General is accomplishing this task and we will continue our efforts for complete disclosure of all the state's financial affairs!

This Annual Financial Report for FY 1984-85 attests to the prudent stewardship of the public funds of the State of South Carolina. At the end of the fiscal year, our General Fund reserve amounted to \$89,128,404.

The 1985 General Assembly created a Capital Expenditure Fund. On July 1, 1985, \$13,001,098 was placed in this fund which will increase to an amount of 2½ percent of each year's General Fund Revenue *estimate*.

South Carolina's two reserve funds reflect our state's traditional fiscal restraints.

Sincerely,

A handwritten signature in cursive script that reads "Earle E. Morris, Jr." The signature is written in dark ink and is positioned above the printed name.

EARLE E. MORRIS, JR.

Comptroller General of South Carolina

INTRODUCTORY SECTION

EARLY SOUTH CAROLINA
(Picture (early engraving) of Port Royal)

Narrative by John Martin, S.C. Confederate Relic Room

Port Royal Sound still bears the name given to it by Jean Ribaut in 1562. Ribaut was the leader of a band of French Huguenots who attempted establishing a colony among the sea islands near present day Beaufort (probably Parris Island). The region was named Carolus by Ribaut in honor of Charles IX of France, and he called their settlement Charlesfort which was later abandoned.

The Spanish also found Port Royal and other South Carolina coastal regions favorite areas for exploration and settlements — none of which withstood the tests of time.

FINANCIAL SYSTEM OVERVIEW

The Comptroller General's Office is now engaged in a multi-year project to revise the State's accounting and reporting practices to conform with the requirements of Generally Accepted Accounting Principles (GAAP). The Comptroller General's Report will reflect this GAAP conversion in the future.

The accompanying financial statements are not in conformity with Generally Accepted Accounting Principles (GAAP) applicable to governmental units. Departures from GAAP are reported in the Notes to Combined Financial Statements.

The first phase of the GAAP conversion process was the implementation of the Statewide Accounting and Reporting System (STARS). STARS is a centrally maintained, fully computerized, double-entry accounting, reporting and management information system.

STARS current design best satisfies the needs of the Legislature, Budget and Control Board, and other users within "central State government" that need accounting information that demonstrates the State's compliance with statutory provisions.

Currently modifications are being implemented to facilitate the preparation of financial statements in conformity with GAAP. New software is being installed that will facilitate the conversion of the STARS statutory information into GAAP funds and fund groups. The administrative procedures necessary to support the new software are currently being developed.

During the GAAP conversion period, the financial transactions will be accounted for primarily on a basis of cash receipts and disbursements. Note 1 (pages 29 through 34) describes the bases of accounting, scope of reporting, and other reporting matters.

GENERAL FUND HIGHLIGHTS

The State of South Carolina's General Fund completed the 1984-85 fiscal year in the black. Even though expenditures exceeded revenues by \$11.9 million, this shortfall was eliminated by reductions in fiscal year 1985-86 supplemental appropriations, which were predicated on *anticipated* surplus funds. Our constitutional General Fund Reserve was fully funded with a balance of \$89 million at the end of fiscal year 1984-85.

The State Budget and Control Board took action at its meeting in July 1985, to minimize the impact of the shortfall of estimated revenues by "freezing" all supplemental appropriations. At their meeting on August 8, 1985, the Budget and Control Board voted to fund the \$11.9 million shortfall by reducing Part III "Supplemental Appropriations" of the 1985-86 Appropriations Act and delaying the filling of new jobs for several pay periods. The supplemental appropriations for asbestos removal at the University of South Carolina and Francis Marion College, school bus purchases, the purchase of a helicopter, and the advanced funding of an increase in the retirement exemption were included in the Budget and Control Board reductions. Increasing the annual income tax exemption for retirees from \$1,200 to \$2,100 will maintain the same effective date, but funding for the exemption will be provided in fiscal year 1985-86.

The original revenue estimate for fiscal year 1984-85 was \$2,349,809,412. The Board of Economic Advisors revised upward the estimate on three occasions during the fiscal year. The revisions of \$53,239,425 increased the revenue estimate to \$2,403,048,837 or \$9,676,639 more than the actual collections for the year. Actual revenue collections were \$2,393,372,198.

GENERAL FUND HIGHLIGHTS

Highlights of the revenue collections are summarized in the chart below:

Category	Original Estimated Revenue	Adjusted Estimated Revenue	Actual Revenue	Actual Revenue Over (Under) Estimated Revenue	% Of Actual To Estimate
Retail Sales Tax	\$841,498,280	\$823,200,000	\$820,533,592	(\$ 2,666,408)	99.7
Excise Tax — Casual Sales	8,000,000	8,100,000	7,737,814	(362,186)	95.5
Individual Income Tax	867,150,000	875,000,000	850,813,835	(24,186,165)	97.2
Corporation Income Tax	150,000,000	181,000,000	192,150,950	11,150,950	106.2
Other Revenue Sources	411,416,685	444,004,390	446,313,795	2,309,405	100.5
Miscellaneous Sources	71,744,447	71,744,447	75,822,212	4,077,765	105.7

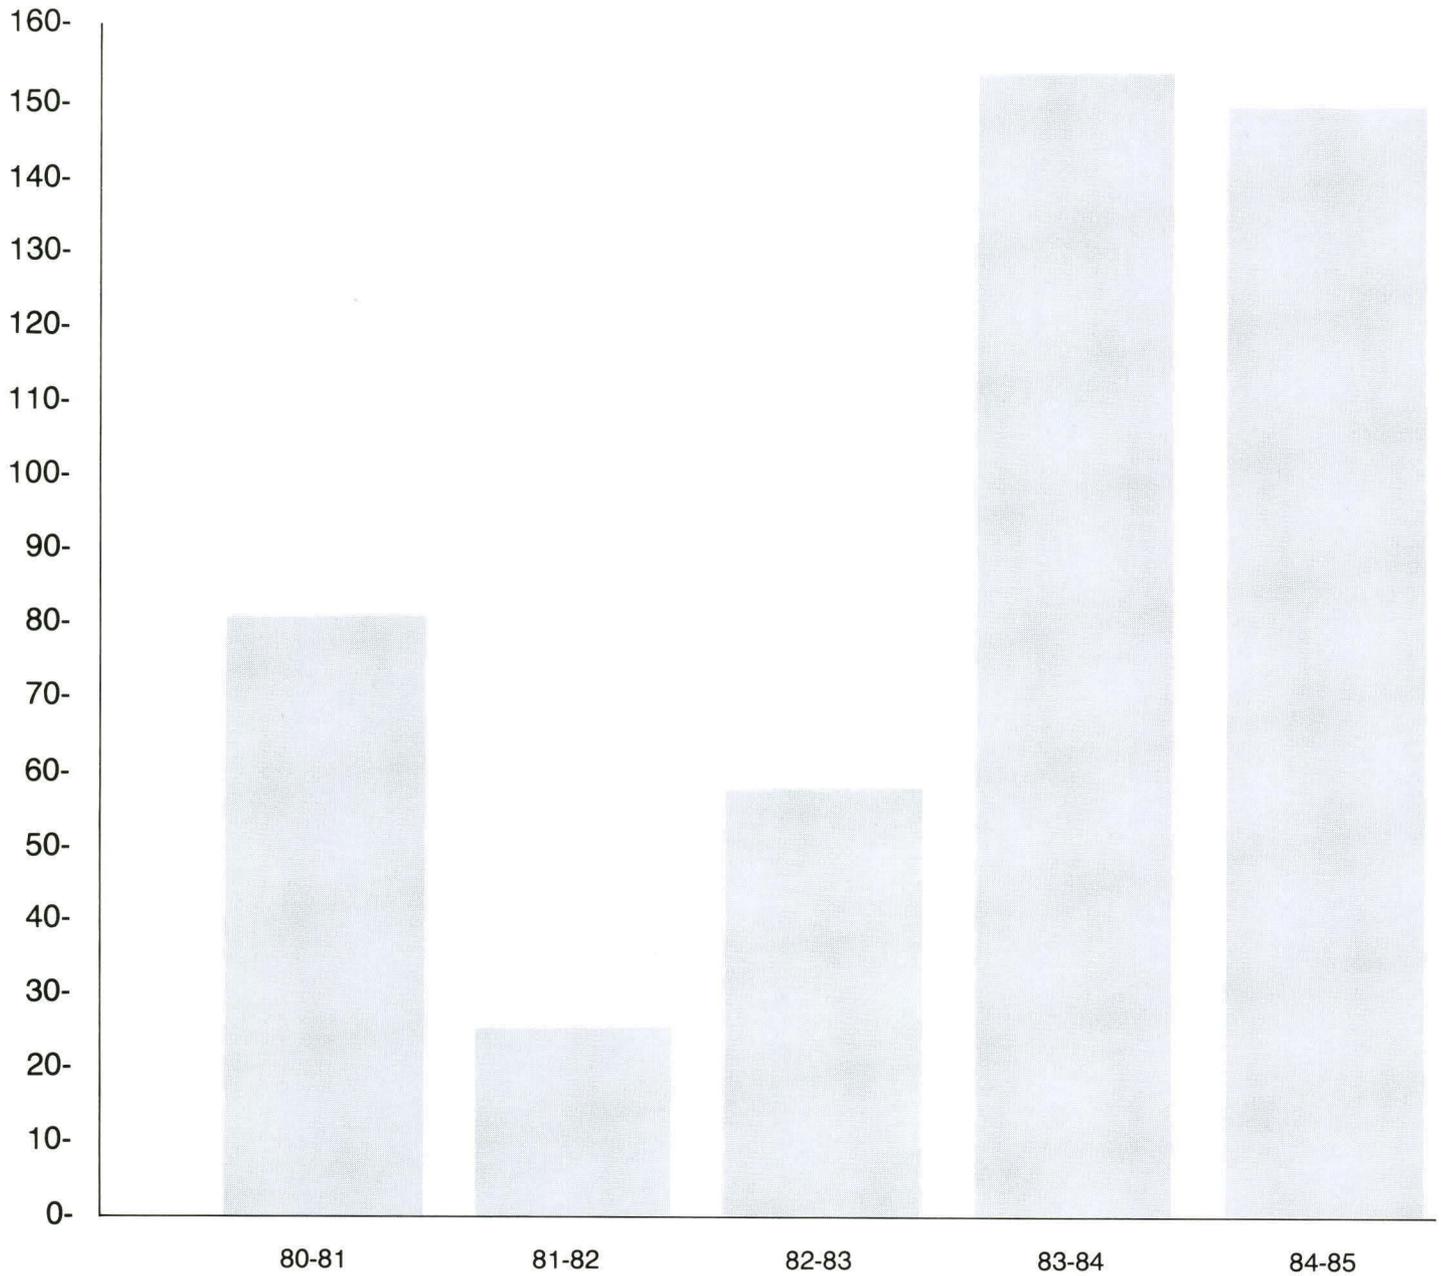

In 1984, the General Assembly passed into law a one-cent (1¢) sales tax increase which is restricted for mandated educational improvements. The revenue estimate plus investment earnings for the Education Improvement Act for fiscal year 1984-85 were \$217,900,000. Actual collections for fiscal year 1984-85 amounted to \$183,929,198, leaving a shortfall of \$33,970,802.

Actual General Fund Revenue collections for fiscal year 1984-85 were \$165,162,103 more than last fiscal year. This is a 7.4% (percent) increase over the last year.

ORGANIZATION OF GOVERNMENT

The Constitution of the State of South Carolina mandates the separation of the powers of State government into three distinct departments (Article I, Section 8, South Carolina Constitution of 1895). The powers of State government are separated into the legislative, executive, and judicial departments.

The Executive Department consists of the following elected officers: The Governor, Lieutenant Governor, Secretary of State, State Treasurer, Attorney General and solicitors, Adjutant General, Comptroller General, State Superintendent of Education and Commissioner of Agriculture. An additional officer that the Executive Department includes, but who is not an elected official, is the Chief Insurance Commissioner.

The Legislative Department is composed of two distinct branches — the Senate and the House of Representatives. Jointly, both branches constitute the "General Assembly of the State of South Carolina."

The Judicial Department consists of a unified judicial system which includes a Supreme Court, Court of Appeals, Circuit Courts and Family Courts. All Judges are elected by a joint vote of the General Assembly.

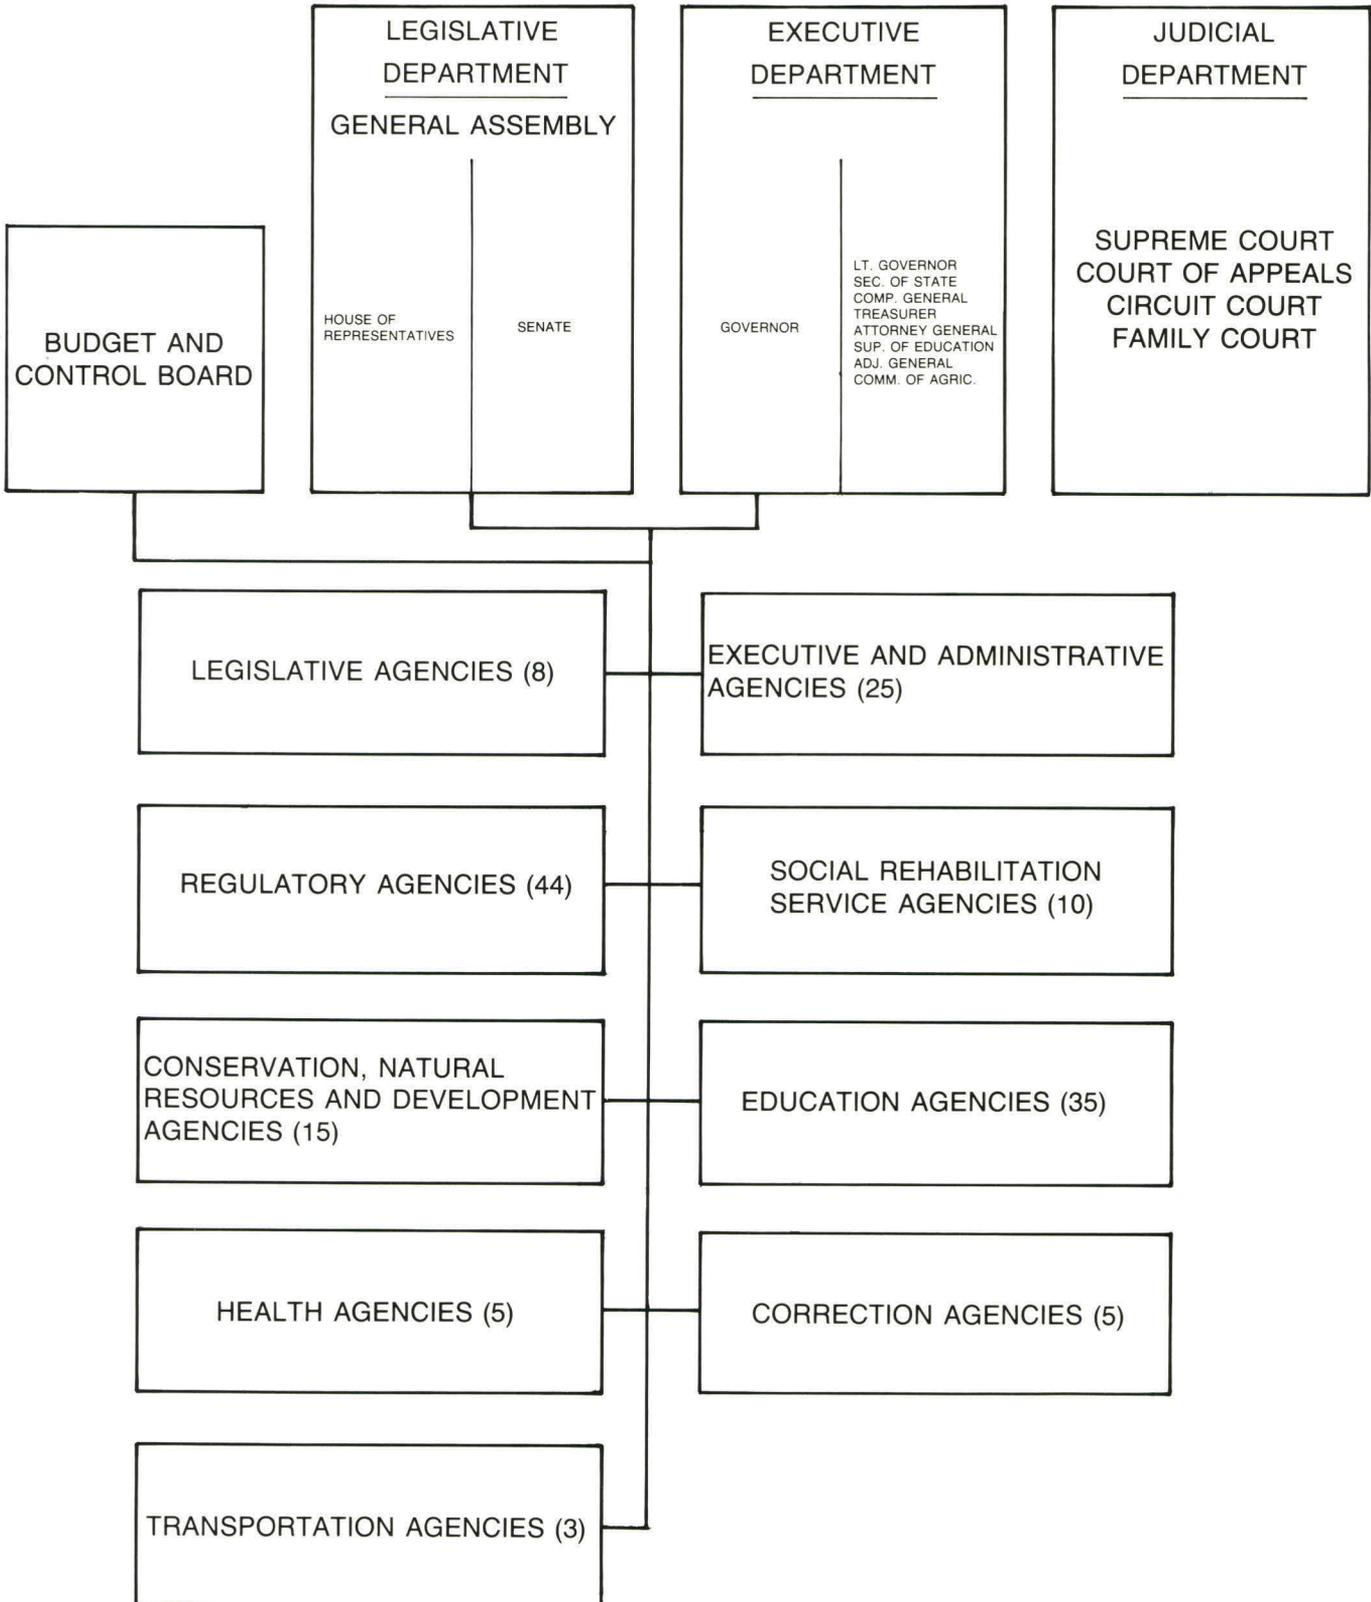

An additional governing body is the Budget and Control Board, created by statute in 1950 to supervise the functions and duties of ten formerly separate executive agencies. A significant function of the Board is to develop the annual balanced State Budget and present it to the General Assembly. The Board is also responsible for post-auditing financial records of all state agencies.

Section 137 of the 1984-85 Appropriations Act states that "The Budget and Control Board shall have full power and authority to survey the progress of the collection of revenue and the expenditure of funds by all departments and institutions and is hereby authorized and directed to make such reductions of appropriations as may be necessary."

The five members of the Board are the Governor, who serves as Chairman, the Comptroller General, the State Treasurer, the Senate Finance Committee Chairman, and the House Ways and Means Committee Chairman.

The various operating agencies are under the jurisdiction of either the Governor or the General Assembly, depending upon which body appoints their governing boards. For the purpose of a summarized organization chart, the various agencies have been grouped by their legal functional category.

PHOTO — CHARLES TOWNE LANDING
(Credit South Carolina PRT)

Narrative by John Martin, S.C. Confederate Relic Room

In April of 1670 the first permanent colony was established by the English on the west bank of the Ashley River at Albermarle Point (the present day's Charles Towne Landing).

On December 17, 1679, the Lord Proprietors ordered the site of the settlement be moved from Albermarle Point to Oyster Point, which lay between the Ashley and Cooper Rivers, and also proclaimed this new site be named Charles Towne.

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

NOTE 1:

Summary of Significant Accounting Policies

a. Basis of Presentation — General

The financial information in this report was prepared from the Statewide Accounting and Reporting System except as otherwise indicated. Insofar as possible, the statements have been prepared in conformity with generally accepted accounting principles. There remain, however, *material* departures from generally accepted accounting principles as disclosed in these notes.

Amounts in the "Total-Memorandum Only" columns in the combined financial statements represent an aggregation of the combined financial statement line-items and are presented only for analytical purposes. Amounts shown in the "Total-Memorandum Only" columns are not comparable to a consolidation.

b. Scope of Reporting Entity

The combined financial statements include information only for those component units and financial activities of State government currently included in the State's centralized, computer-based accounting system, known as STARS (Statewide Accounting and Reporting System). The following State-related organizations and activities (which may or may not be includable in the State reporting entity) are not included in the Statewide Accounting and Reporting System, and are not included in these financial statements:

1. South Carolina Ports Authority.
2. South Carolina Public Service Authority.
3. South Carolina Railway Commission.
4. The ETV Endowment and certain other foundations related to State agencies.
5. The State Health Insurance Reserve Fund.
6. Certain foundations associated with State-supported colleges/universities.
7. South Carolina Research Authority.
8. State Technical Education Centers.
9. Community centers of some State agencies.
10. Lending activities of the South Carolina Housing Authority, South Carolina Jobs — Economic Development Authority South Carolina Family Farm Development Authority and South Carolina Education Assistance Authority.
11. Certain Cash and Investments, and the related balances of Fund Equity/Retained Earnings (see note 1f).
12. South Carolina Deferred Compensation Plan.

c. Fund Accounting

In order to ensure the observance of limitations and restrictions placed on the use of the resources available to the State, the accounts are maintained in accordance with the principles of fund accounting. Under fund accounting, resources are accounted for in various individual funds segregated for the purpose of carrying on specific activities or of attaining certain objectives in accordance with specific regulations, restrictions, or limitations. Each individual fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein. In the combined financial statements, however, funds that have similar characteristics have been combined into generic fund types grouped into categories as required by National Council on Governmental Accounting Statement 1. A brief description of these combined fund types as used in South Carolina and the categories into which they are grouped follows.

Governmental Funds:

Governmental funds are those through which most governmental functions of the State are financed. The measurement focus of the governmental funds is upon determination of and changes in financial position (i.e., sources, uses, and balances of financial resources rather than net income determination). Governmental fund types used by the State are:

The General Fund — This is the general operating fund of the State. It is used to account for financial resources used for those services traditionally provided by State Government which are not accounted for in other funds.

Special Revenue Funds — This fund type is used to account for the proceeds of specific revenue sources (other than trusts or for major capital projects) that are legally restricted to expenditure for specified purposes. This fund type includes, for example, resources that are both collected by and expended by a particular component unit of State government. Most federal grants are also accounted for in this fund type.

Capital Projects Funds — This fund type accounts for financial resources to be used for the acquisition or construction of major capital facilities. Some expenditures related to the acquisition or construction of such facilities, however, are

State of South Carolina

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

made directly by the General Fund. Proceeds from bond anticipation notes are recorded in the Capital Projects Funds as an "Other Financing Source" when sold and as a debt service expenditure when retired.

Debt Service Funds — This fund type is used to account for the accumulation of resources for both general and fund long-term debt principal and interest in cases where a sinking fund is required by law. Expenditures for long-term debt principal and interest are recorded either in the Debt Service Funds or in the General Fund as described below.

In accordance with Section 115 of the 1984-85 Appropriation Act, principal and interest expenditures for all general obligation bonds are recorded in the General Fund. Resources designated to pay principal and interest on general obligation Highway Bonds and State Institution Bonds are accumulated in the Debt Service Funds and in the Special Revenue Funds, and are then transferred to the General Fund as needed to reimburse the General Fund for the related principal and interest expenditures. These transfers are recorded as revenues in the General Fund and expenditures in the paying fund (see also Note 1q, Operating Transfers).

Principal and interest expenditures for all revenue bonds are recorded in the Debt Service Funds.

Proprietary Funds:

Proprietary funds are used to account for the State's ongoing activities that are similar to those often found in the private sector. According to generally accepted accounting principles, the measurement focus of the proprietary funds should be upon determination of net income. For example, fixed assets and inventories should be capitalized initially and expensed when used. At this time, however, South Carolina accounts for proprietary funds using the same measurement focus as is used for the governmental funds. For example, purchases of fixed assets and inventories are recorded as expenses, and proceeds of long-term debt are recorded as financing sources. The proprietary fund types used by the State are:

Enterprise Funds — This fund type is used to account for activities of the State that are financed and operated in a manner similar to private business enterprises if it is the intent of the State that the costs of providing the associated goods or services to the general public on a continuing basis be financed or recovered through user charges. See Note 12 for more detailed information.

Internal Service Funds — This fund type is used to account for the financing of goods or services provided by one component unit of State government to other component units of State government or to other governments on a cost-reimbursement basis. Examples include certain operations of various divisions of the State Budget and Control Board.

Fiduciary Funds:

Fiduciary funds are used to account for resources held by the State in a trustee capacity or as an agent for individuals, private organizations, other governmental units, or other funds. According to generally accepted accounting principles, each trust fund should be classified for accounting measurement purposes as either a governmental fund or a proprietary fund. Specifically, expendable trust funds should be accounted for in essentially the same manner as governmental funds whereas nonexpendable trust funds and pension trust funds should be accounted for in essentially the same manner as proprietary funds. Agency funds, however, are purely custodial and thus should not involve measurement of results of operations.

Trust and Agency Funds — Expendable trust funds, nonexpendable trust funds, pension trust funds, and agency funds are not separately classified in the State's accounting system at this time. All of these funds are accounted for as if they were agency funds. For this reason, this fund type appears only on the Combined Statement of Assets, Liabilities, and Fund Equity Arising from Cash Transactions, and no equity balances, revenues, or expenditures are shown.

Account Groups:

Generally accepted accounting principles require that two account groups be used to establish accounting control and accountability for a government's general fixed assets and the unmatured principal of its general long-term debt. The data needed to present a General Fixed Asset Account Group and required disclosures detailing the changes in general fixed assets is not available.

Beginning this year, we are presenting a General Long-Term Debt Account Group on the Combined Statement of Assets, Liabilities, and Fund Equity arising from cash transactions. This account group, however, includes only general obligation bonds and notes payable. Accrued annual leave payable, capital leases payable, and other required disclosures have been omitted for the reasons explained in Note 1r, Compensated Employee Absences, and Note 1j, Fixed Assets, Depreciation, Leases, and Installment Purchases.

Higher Education Fund

The financial activities of the State-supported higher education institutions and the affiliated university hospital are accounted for in the Higher Education Fund. The financial statements of this fund have been prepared in accordance with the American Institute of Certified Public Accountants' "Industry Audit Guide — Audits of Colleges and Universities" and, accordingly, are presented separately.

State of South Carolina

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

d. Basis of Accounting

The financial statements for the State of South Carolina have been prepared on the cash basis with certain exceptions. Consequently, certain revenue and the related assets are recognized when received rather than when earned, and certain expenditures/expenses (including interest on long-term debt, prepaid expenditures, inventories, and accumulated unpaid employee benefits) are recognized when paid rather than when the obligation is incurred. Accordingly, *the accompanying financial statements are not intended to present financial position and results of operation in conformity with generally accepted accounting principles*. Specifically, the financial statements have been prepared on the cash basis with the following exceptions:

1. Revenues collected in advance have been recorded as liabilities rather than as revenues. See also Note 1m, Deferred Revenue.
2. The books of account were held open for one month after the close of the fiscal year. Revenue Recorded in Thirteenth Month and Refunds Payable shown in the financial statements are the assets and liabilities associated with net increases/decreases in the old year's revenues recorded during this period. Materially all of the transactions comprising these net increases and decreases were interfund transactions or refunds of revenues collected during the fiscal year.
3. The Appropriation Act permits expenditures incurred before July 1 and paid within one month after the end of a fiscal year to be charged against such fiscal year. Accounts Payable shown in the financial statements is the liability associated with these expenditures.

Data needed to convert the cash basis revenues, expenditures/expenses, and other operating sources (uses) to conform with generally accepted accounting principles is not available and these adjustments have not been made.

The financial activities of the higher education institutions are reported on the accrual basis of accounting.

e. Budgetary Policies

The State of South Carolina prepares annual budgets for the following budgetary funds:

General Fund — This budgetary fund is the general operating fund of the State. Its revenues are principally general taxes, and its expenditures are those incurred to provide the services traditionally provided by the State.

Federal Fund — This is the budgetary fund in which substantially all grants from the Federal government are recorded. Federal Fund cash is deposited in the State's general deposit account (see Note 1f).

Earmarked Fund — This budgetary fund accounts for non-Federal resources not required to be accounted for in the General Fund. Earmarked Fund cash is deposited in the State's general deposit account (see Note 1f). Examples of such funds include most capital projects funds and most resources that are both collected by, and expended by, a particular component unit of State government.

Restricted Fund — This budgetary fund accounts for non-Federal resources not required to be accounted for in the General Fund. Restricted Fund cash is deposited in special deposit accounts (see Note 1f). Examples of such funds include debt service funds and donation funds maintained by certain component units of State government.

Annual budgets are prepared for all funds except Trust and Agency Funds.

Revenues are budgeted on a cash receipts basis. Appropriations for a particular fiscal year are intended to cover all expenditures incurred during the fiscal year and paid during or within one month after the end of that fiscal year. In accordance with Section 173 of the 1984-85 Appropriation Act, appropriations unexpended on July 31, 1985 lapsed unless a specific proviso of the Appropriation Act authorized the carry forward of such appropriations to the next fiscal year. Authorized carry forward amounts are shown in the financial statements as a reserve of fund balance. Encumbrance accounting is not legally mandated, and encumbrances are not recorded in the Statewide Accounting and Reporting System.

Budgetary control is generally required to be maintained at the level of major object class of expenditure within each program of each organizational unit. Controls have been incorporated into the Statewide Accounting and Reporting System to ensure that vouchers are processed only when both sufficient cash and sufficient appropriations exist to cover the expenditure. Component units of State government may request transfers of appropriations among major object classes and/or among programs within the same budgetary fund. The Budget and Control Board has the authority under section 135 of the 1984-85 Appropriation Act to approve appropriation transfers.

Each year, an initial budget for all budgeted funds is contained in the Appropriation Act enacted by the General Assembly. Sections 128 and 137 of the 1984-85 Appropriation Act authorize and direct the Budget and Control Board to reduce General Fund appropriations during the year if necessary to prevent a deficit. Likewise, estimated revenues of the General Fund are revised during the year if considered warranted.

In accordance with Chapter 2-65, South Carolina Code of Laws, budget revisions in the Federal, Earmarked, and Restricted Funds are made upon the approval of the Governor with the concurrence of the Joint Appropriations Review Committee upon review by the Budget and Control Board. In addition, as required in Chapter 2-47, Code of Laws, budgets for permanent improvement projects not specifically authorized by the General Assembly are approved by the

State of South Carolina

**NOTES TO COMBINED
FINANCIAL STATEMENTS**
For Fiscal Year Ended June 30, 1985

Budget and Control Board following review by the Joint Bond Review Committee.

See Notes 4, 5, and 10 for disclosure of specific budgetary data for the year ended June 30, 1985.

f. Cash and Investments

In accordance with Section 11-13-40, South Carolina Code of Laws, monies deposited with the State Treasurer are kept in a general deposit account if, in the opinion of the Budget and Control Board, they may properly be so consolidated. Earnings of the general deposit account are recorded as revenue of the State's General Fund. Funds that cannot properly be consolidated in the general deposit account are segregated in various special deposit accounts, each of which retains its own earnings.

Excess cash of the general deposit account and of the various special deposit accounts is invested by the State Treasurer. The investment transactions are not recorded in the Statewide Accounting and Reporting System. Separate figures for cash and investments, therefore, are not shown here. Investments are stated at cost, which approximates market value.

Only the cash and investments of the general deposit account and the special deposit accounts are shown in these financial statements. Other material amounts of cash and investments and related earnings accounted for by the State Treasurer's Office but not recorded in the Statewide Accounting and Reporting System and, therefore, not shown in these financial statements include:

1. All pension fund investments.
2. Cash and investments of certain agency trust accounts.
3. Cash held by the Highway Department and by component units of State government authorized by Section 59-101-185, South Carolina Code of Laws, to write their own checks (e.g., State colleges and universities).

Because of the factors described above, we are unable to present the detailed disclosures required by generally accepted accounting principles for non-current investments. (However, see Note 6 for pension investments.)

g. Revenue Recorded in Thirteenth Month

See Note 1d, Basis of Accounting. Substantially all of these transactions were interfund transactions.

h. Interfund Receivables — Due From Other Funds

Short-term interfund loans are recorded in the Statewide Accounting and Reporting System as interfund receivables (Due From Other Funds) in the lending fund. These loans must be liquidated within one month after the end of the fiscal year.

Currently, the State does not record in its Statewide Accounting and Reporting System the receivables associated with long-term interfund loans, goods and services provided by one fund to another, or operating transfers. We are unable, therefore, to provide detailed disclosure relating to interfund receivables.

i. Inventories

Inventories are not recorded as assets in these financial statements. An expenditure or expense is recorded when inventory items are purchased. Although most component units of State government maintain inventory records, centralized statewide inventory records are not maintained.

j. Fixed Assets, Depreciation, Leases, and Installment Purchases

Fixed assets and related lease information are not presented in the financial statements. An expenditure or expense is recorded when cash is disbursed to purchase a fixed asset, to make an installment payment on a fixed asset, or to pay a construction invoice. Although component units of State government are required to maintain fixed asset and lease records, there are no centralized statewide records. Depreciation is not recorded in any of the funds.

Because of the factors discussed above, the detailed disclosures required by generally accepted accounting principles relating to fixed assets, depreciation, lease obligations, and installment purchase obligations are not presented.

k. Accounts Payable

See Note 1d, Basis of Accounting.

l. Interfund Payables — Due To Other Funds

Short-term interfund loans are recorded in the Statewide Accounting and Reporting System as interfund payables (Due To Other Funds) in the borrowing fund. These loans must be liquidated within one month after the end of the fiscal year.

Currently, the State does not record in a central location the payables associated with long-term interfund loans, goods and services provided by one fund to another, or operating transfers. We are unable, therefore, to provide de-

State of South Carolina
**NOTES TO COMBINED
FINANCIAL STATEMENTS**

For Fiscal Year Ended June 30, 1985

tailed disclosure relating to interfund payables as required by generally accepted accounting principles.

m. Deferred Revenue

Deferred revenues are cash collections received before the revenue is earned according to generally accepted accounting principles. Not all deferred revenues are appropriately recorded in the Statewide Accounting and Reporting System.

See Note 9, Accounting and Reporting Changes, for the change in reporting Taxes Collected in Advance.

n. Reserve For Appropriations To Be Carried Forward

See Note 1e, Budgetary Policies.

o. General Fund Reserve

Section 11-11-310 of the South Carolina Code of Laws and Article III, Section 36 of the South Carolina Constitution establish a General Fund Reserve. The primary purpose of the Reserve is to prevent General Fund deficits. See Note 3 for further details.

p. Intergovernmental Revenues — Indirect Cost Recoveries

Receipts from other governments are first recorded as revenue in a fund other than the General Fund. In order to compensate the General Fund for the cost of administering intergovernmental funds, indirect cost payments are remitted to the General Fund. Currently, indirect cost payments are recorded as increases in General Fund revenue and as decreases in revenue for the paying fund. According to generally accepted accounting principles relating to quasi-external interfund transactions, this treatment results in understatement of both revenue and expenditure in the paying fund.

q. Operating Transfers

Information needed to report operating transfers in and out for each fund type as required by generally accepted accounting principles is not available. Operating transfers, therefore, are not shown in these financial statements. Some transactions that would be classified under generally accepted accounting principles as operating transfers are currently recorded as revenues of the receiving fund and expenditures of the paying fund. Other such transactions are recorded as revenues of the receiving fund and negative revenues of the paying fund.

r. Compensated Employee Absences

Full-time permanent State employees earn a minimum of 15 days per year of both vacation leave and sick leave. For the first ten years of service, 15 days of vacation and sick leave are earned annually. After ten years of service an additional 1.25 days per year of vacation leave are earned for each year of service over ten years, until the maximum of 30 days per year is earned. Before the 1983 calendar year, employees were entitled to carry forward a maximum of 90 days of sick leave and 45 days of vacation leave from one calendar year to the next. Beginning in the 1983 calendar year, the maximum amount of sick leave that could be carried forward to the next calendar year was increased to 180 days. Upon termination of employment, accumulated vacation leave is paid to the employee at the rate of pay in effect at the date of termination. Rights to the accumulated sick leave, however, do not vest and are forfeited upon termination.

Although component units of State government are required to maintain records of leave balances for their employees, centralized statewide leave records are not maintained. These statements, therefore, do not show accruals for accumulated leave balances as required by generally accepted accounting principles, except in the Higher Education Fund.

s. Self Insurance

The State's Fiduciary Funds include several self-insurance funds. Specifically, the State itself (rather than an insurance carrier) assumes substantially all risks associated with:

1. Claims of State employees for unemployment compensation benefits. See, for example, Section 41-31-620, South Carolina Code of Laws, and Section 14 of the 1984-85 Appropriation Act.
2. Claims of covered employees for workers' compensation benefits. See, for example, Section 41, Chapter 7, South Carolina Code of Laws, and Section 14 of the 1984-85 Appropriation Act.
3. Claims of covered public employees for health insurance and group life insurance benefits. (Claims administration services, however, are provided by insurance carriers.) See Section 14 of the 1984-85 Appropriation Act.

In addition, the State maintains an Insurance Reserve Fund to provide:

1. Property insurance on public buildings, including schools, and the contents thereof.
2. General tort liability insurance covering the State and its political subdivisions.
3. Medical malpractice insurance for State and other covered hospitals.
4. Insurance on State-owned motor vehicles, school buses, and aircraft.

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

See Sections 1-11-140 and R-19-415 and Chapter 10-7, South Carolina Code of Laws. The Insurance Reserve Fund is authorized by law to reinsure such portion of the liability as is commensurate with principles of safe underwriting. At June 30, 1985, the risk was apportioned between the State and reinsurance as follows:

Type of Insurance	Retained by State	Reinsured
School Property	First \$300,000	Remainder
All Other Property	First \$175,000	Remainder
General Tort	-0-	100%
Medical Professional Liability — Physicians	First \$250,000	Remainder
Medical Professional Liability — Institutions	100% to Legal Limits	-0-
Motor Vehicles	-0-	100%
School Buses	-0-	100%
Aircraft	-0-	100%

The above limits of liability are expected to change during fiscal year 1985-86.

NOTE 2:

Higher Education Financial Information

The financial information presented for the State's colleges and universities is based upon information provided by these institutions. Excluded from the Higher Education statements is one state supported institution, as such, the governmental appropriation revenue total on Exhibit J for current unrestricted funds does not include a \$17,604,750 transfer of general fund appropriations. Some year-end adjustments are not reflected in the information presented herein, and the materiality of these amounts is not known.

The State Treasurer, as Trustee, makes payments of principal and interest on debt obligations of the colleges and universities. These payments are recorded in the Statewide Accounting and Reporting System and are included in the General Fund and the Debt Service Fund. These payments are also included in the Higher Education Fund. The magnitude of this double reporting is not known.

The operations of the State's Technical Education Centers are not fully included in this report for fiscal year 1984-85. Also see Note 9, Accounting and Reporting Changes.

NOTE 3:

General Fund Reserve

Article III, Section 36, of the South Carolina constitution establishes requirements relating to the General Fund Reserve, a reserve primarily designed to prevent general fund deficits. The Reserve is fully funded whenever it is equal to five percent of the General Fund revenue of the latest completed fiscal year. Whenever funds are withdrawn from the Reserve, they must be replaced within three years. Specifically, the Constitution requires that at least one percent of the General Fund revenue of the latest completed fiscal year be restored to the Reserve the first year following a withdrawal, and at least two percent of the General Fund revenue of the latest completed fiscal year be restored to the Reserve for each of the next two succeeding fiscal years following the withdrawal. An attorney general's opinion dated September 15, 1983, states that Section 11-11-310, Code of Laws, requires even more than the aforementioned constitutional provisions. Specifically, the Attorney General stated: "This provision makes it clear that until the five percent amount is reached, all surpluses must go to the Reserve fund." A constitutional amendment was passed November 4, 1984 changing the funding requirement from five to four percent of the General Fund revenue of the latest completed fiscal year. Provisions of the amendment also allow the percentage rate to be reduced to three or increased to five percent by a special vote of the General Assembly. As such, the full funding amount under the three, four or five percent requirement for fiscal year 1985-86 is as follows:

3%	— \$ 71,801,166
4%	— \$ 95,734,888
5%	— \$119,668,610

The following schedule shows data relating to the Reserve fund for recent years.

Fiscal Year	Start-of-Year Balance	Deposits (Withdrawals)	End-of-Year Balance	Full Funding Amount	Actual End-Of-Year % Funded (2)
1980-81	\$79,904,882	(\$3,406,226)	\$76,498,656	\$79,904,882 (1)	96%
1981-82	76,498,656	(55,369,241)	21,129,415	85,460,871 (1)	25%
1982-83	21,129,415	18,882,104	40,011,519	90,208,452 (1)	44%
1983-84	40,011,519	58,484,984	98,496,503	98,496,503 (1)	100%
1984-85	98,496,503	(9,368,099)	89,128,404	89,128,404 (3)	100%

State of South Carolina

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

- (1) Equal to 5% of the General Fund revenues (including residual equity transfers in) for the latest completed fiscal year.
- (2) Equal to (End-of-Year Balance/Full Funding Amount) × 100.
- (3) Equal to 4% of the General Fund revenues (including residual equity transfers in) for the latest completed fiscal year.

NOTE 4:

General Fund Appropriations

The following schedule reconciles the General Fund appropriations per the 1984-85 Appropriation Act to adjusted appropriations for 1984-85.

Per 1983-84 Appropriation Act		\$2,349,764,086
Open-Ended Appropriations		
Aid to Subdivisions	\$11,866,695	
Adjutant General (National Guard)	15,899	
Employee Benefits	<u>2,350,944</u>	
Total Open-Ended Appropriations		14,233,538
Supplemental Appropriations		66,571,947
Additional Appropriations for Dept. of Corrections		<u>16,000,000</u>
Total Annual Appropriations, 1984-85		2,446,569,571
Appropriations Brought Forward from 1983-84		54,814,509
Adjusted Appropriations		<u>\$2,501,384,080</u>

The adjusted appropriations were accounted for as follows:

General Fund Expenditures and Higher Education Transfer	\$2,397,054,372
Appropriations Carried Forward into 1985-86	72,436,070
Lapsed Appropriations	<u>31,893,638</u>
Adjusted Appropriations	<u>\$2,501,384,080</u>

NOTE 5:

Excess of Expenditures Over Appropriations

Unfavorable variance in the Statement of Revenues, Expenditures and Changes in Fund Balance — Budget and Actual for the Restricted Fund is due to excess of debt service expenditures over amounts appropriated for debt service under Executive and Administrative. Authorization for certain debt service expenditures is derived from the language of bond indentures rather than through the formal appropriation process.

NOTE 6:

Retirement Plans

As of June 30, 1985, the State maintained four jointly contributory defined-benefit retirement systems. Except where otherwise stated, information given in this note pertains only to retirement benefits; that is, pre-retirement death (group life) benefits and accidental death benefits are excluded. These systems and their funding policies are as follows:

1. The South Carolina Retirement System (SCRS), a multiple-employer system, was established on July 1, 1945, for the benefit of teachers and employees of the State and its political subdivisions. Section 9-1-1020, South Carolina Code of Laws, requires the following employee contribution rates as percentages of gross compensation:

	Compensation	
	Up to \$4,800	Over \$4,800
Class I members	3%	5%
Class II members	4%	6%

All State employees are Class II members. Sections 9-1-1050 through 9-1-1090, Code of Laws, require that employer contributions consist of a normal contribution to cover the liability on account of service currently rendered and an accrued liability contribution on account of liabilities for past service not covered by present assets. These sections also require that employer contributions be fixed on the basis of the system's liabilities as shown by actuarial valuation.

2. The South Carolina Police Officers' Retirement System (PORS), a multiple-employer system, was established on July 1, 1962, for the benefit of police officers and fire fighters employed by the State or its political subdivisions. Section 9-11-210, Code of Laws, requires the following employee contributions:

Class I members: \$16/month
 Class II members: 5% of compensation

State of South Carolina

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

Substantially all State employees are Class II members. Section 9-11-220, Code of Laws, states that employer contribution rates are to be determined on the basis of annual actuarial valuations.

3. The Retirement System for Members of the General Assembly of the State of South Carolina (GARS), a single-employer system, was established on January 1, 1966, for the benefit of members of the General Assembly. Section 9-9-120, Code of Laws, establishes the employee contribution rate at 10% of earnable compensation, and Section 9-9-130 states that the employer contribution is to be based on periodic actuarial valuations.
4. The Retirement System for Judges and Solicitors of the State of South Carolina (JSRS), a single-employer system, was established on July 1, 1979, for the benefit of the judges of the State's Supreme Court, Court of Appeals, circuit courts, family courts, and the State's circuit solicitors. Section 9-8-130, Code of Laws, establishes the employee contribution rate at 7% of compensation. Section 9-8-140 states that employer contributions are to be based on periodic actuarial valuations.

As indicated above, employer contributions for all four systems are determined by periodic actuarial valuations prepared by a consulting actuary. The State's actual contributions for the year ended June 30, 1985, were made at the rates or in the amounts recommended by the applicable actuarial valuations. The recommended rates/amounts for the year ended June 30, 1985, were as follows:

- SCRS Class II State employee members: 7.0% of earnable compensation (recommended in the June 30, 1984, valuation);
- SCRS Class II non-State employee members: 6.15% of earnable compensation (recommended in the June 30, 1984, valuation)
- PORS Class I members: 7.8% of earnable compensation (recommended in the June 30, 1984, valuation);
- PORS Class II members: 10.3% of earnable compensation (recommended in the June 30, 1984, valuation);
- GARS: \$934,290 including group life benefit contribution (recommended in the June 30, 1983, valuation);
- JSRS: 38.64% of earnable compensation including group life benefit contribution (recommended in the June 30, 1983, valuation).

According to the Statewide Accounting and Reporting System's records, actual employer contributions of \$69,226,212 were made to the pension plans during the year ended June 30, 1985, distributed as follows:

SCRS	PORS	GARS	JSRS
\$58,623,351	\$7,107,121	\$934,290	\$2,561,450

The amounts shown for GARS and JSRS include group life contributions. The amounts of pension contributions included as expenditures in the Combined Statement of Revenues Collected, Expenditures Paid, and Changes in Fund Balances — All Governmental Fund Types and in the Combined Statement of Revenues Collected, Expenditures Paid, and Changes in Retained Earnings/Fund Balances — All Proprietary Fund Types are:

Fund	Amount
General	\$35,806,539
Special Revenue	19,794,756
Enterprise	182,316
Internal Service	354,734
Higher Education	13,087,867
Employer pension contribution [\$69,226,212 (total amount determined for the year by an acceptable actuarial cost method) less \$0 recorded as long-term obligations]	<u>\$69,226,212</u>

The following information was provided by the actuary in the June 30, 1984, valuations for inclusion in the State's financial statements in conformity with authoritative accounting pronouncements:

	SCRS	PORS	GARS	JSRS
Actuarial present value of accrued benefits				
Vested benefits				
Participants currently receiving payments	\$ 858,811,789	\$ 80,843,404	\$ 6,549,020	\$16,790,632
Other participants	675,368,639	60,222,675	6,558,128	3,863,444
Total vested benefits	\$1,534,180,428	\$141,066,079	\$13,107,148	\$20,654,076
Nonvested benefits	179,170,254	8,016,620	1,891,448	7,212,365
Total	\$1,713,350,682	\$149,082,699	\$14,998,596	\$27,866,441

State of South Carolina
**NOTES TO COMBINED
 FINANCIAL STATEMENTS**

For Fiscal Year Ended June 30, 1985

The actuarial present value of vested and nonvested accrued benefits is based on an interest rate of 9.5%. This rate represents the estimated constant equivalent rate of return for the periods during which payment of these benefits will be deferred based on the interest rates in use as of the valuation date to calculate the Pension Benefit Guaranty Corporation's annuity values for terminating plans covered by the Employee Retirement Income Security Act of 1974.

For purposes of the actuarial valuations prepared as of June 30, 1984, assets of the systems (excluding assets of the Group Life and Accidental Death Funds) were:

SCRS	PORS	GARS	JSRS
\$3,084,231,278	\$247,185,088	\$10,437,231	\$9,230,447

Investments at June 30, 1985, at adjusted amortized cost, including investments of the Group Life and Accidental Death Funds, were as follows according to information supplied by the Retirement System:

	SCRS	PORS	GARS	JSRS
Short-Term Investments:				
Repurchase Agreements	\$ 76,315,000	\$ 10,100,000	\$ 435,000	\$ 215,000
Treasury Bills	97,143,244	9,329,647	993,062	0
Discount Notes	10,167,540	0	0	0
U.S. Government Agencies and U.S. Government Insured:				
Treasury Notes	108,398,721	3,390,154	1,248,111	1,787,236
Treasury Bonds	816,049,322	73,170,262	2,297,025	2,234,525
Zero Coupon Treasury Bonds	259,863,343	19,169,740	69,044	1,562,543
U.S. Government Agencies	713,945,852	65,281,796	2,974,197	2,232,382
Insured Merchant Marine Bonds	321,634,519	25,686,775	703,820	1,000,000
State of South Carolina Institutions:	2,022,000	0	0	0
Corporate Bonds:				
Industrials	228,955,928	14,156,443	461,156	0
Utilities	528,954,911	51,048,628	1,406,319	3,122,806
Rails	405,505	0	0	0
Financial and Other	146,658,805	6,802,532	199,632	0
Unamortized Deferred Yield Adjustments:	270,015,038	15,766,763	937,574	35,971
Total Investments	\$3,580,529,728	\$293,902,740	\$11,724,940	\$12,190,463

Additional information about the plans excerpted from the June 30, 1984, actuarial valuations is as follows:

	SCRS	PORS	GARS	JSRS
Unfunded accrued liability	\$241,369,533	\$25,894,843	\$9,424,691	\$30,067,262
Accrued liability liquidation period	5 years	5 years	22 years	30 years
Valuation interest rate (compounded annually)	7%	7%	7%	7%

The actuarial cost method used for SCRS and PORS is the projected benefit method with level percentage entry age normal cost and open-end unfunded accrued liability. The method used for GARS and JSRS is the projected benefit method with entry age normal cost and open-end unfunded accrued liability. These cost methods are specifically recognized as acceptable by the Employee Retirement Income Security Act of 1974. Gains and losses in SCRS and PORS are reflected in the period remaining to liquidate the unfunded accrued liability. Gains and losses in GARS and JSRS are reflected in the unfunded accrued liability.

**NOTE 7:
 General Obligation Bonds and Notes**

The information provided here pertains only to general obligation bonds and notes — that is, those backed by the full faith, credit, and taxing power of the State. All information provided in this note is based on information supplied by the State Treasurer's Office.

State of South Carolina

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

General obligation bonds and notes outstanding and bonds authorized but unissued at June 30, 1985, were as follows:

Purpose	Interest Rates	Outstanding	Authorized But Unissued
School	3.50% to 9.10%	\$ 31,650,000	\$ 0
Highway	3.50% to 6.00%	31,500,000	0
State Institution	4.00% to 7.00%	31,620,000	0
Ports Authority	3.4%	125,000	0
Capital Improvements	3.50% to 11.00%	531,750,000	96,668,640
Total		<u>\$626,645,000</u>	<u>\$ 96,668,640</u>

The amount of State Institution Bonds and Notes outstanding as shown above (\$31,620,000) does not include \$7,272,000 in State Institution bonds in the hands of the public at June 30, 1985, but defeased by action of the State Budget and Control Board in 1984-1985 and before. In all cases where general obligation debt has been legally defeased, an irrevocable defeasance trust account has been established with the State Treasurer as trustee. Each defeasance trust account has been sufficiently funded so as to provide cash flows that approximately coincide, as to timing and amount, with the scheduled interest and principal payments on the debt that is being extinguished.

Before November 30, 1977, the State was permitted to pledge its full faith and credit for the payment of bonds only if specific revenue sources, ascertained to be sufficient to pay both the principal and interest on such bonds, were pledged for repayment. The following schedule shows principal amounts outstanding at June 30, 1985, the debt service for which is to be paid from specific pledged revenues:

Type of Bond	Type of Revenue Pledged	Principal Secured by Pledged Revenue
School	Retail Sales Tax	\$ 13,750,000
Highway	State Gasoline Tax	31,500,000
State Institution	Tuition	7,925,000
Ports Authority	State Income Tax	125,000
Capital Improvement	State Income Tax	105,750,000
Total		<u>\$ 159,050,000</u>

All other general obligation bonds and notes outstanding are secured by unspecified General Fund revenues.

As of June 30, 1985, debt service requirements for future years for general obligation bonds and notes were as follows:

Year Ending June 30	Principal	Interest	Total
1986	\$ 70,375,000	\$ 45,531,325	\$ 115,906,325
1987	61,180,000	41,458,805	102,638,805
1988	59,560,000	37,777,735	97,337,735
1989	53,660,000	33,758,075	87,418,075
1990	52,670,000	29,883,160	82,553,160
1991-1995	207,325,000	97,512,219	304,837,219
1996-2000	114,875,000	24,496,719	139,371,719
2001-2005	7,000,000	280,000	7,280,000
Total	<u>\$ 626,645,000</u>	<u>\$ 310,698,038</u>	<u>\$ 937,343,038</u>

Changes in general obligation bonds and notes outstanding for the year ended June 30, 1985, are summarized as follows:

Purpose	Outstanding June 30, 1984	Issued During 1984-85	Retired During 1984-85	Outstanding June 30, 1985
School	\$ 42,950,000	\$ 0	\$ 11,300,000	\$ 31,650,000
Highway	41,000,000	0	9,500,000	31,500,000
State Institution	36,470,000	8,750,000	13,600,000	31,620,000
Ports Authority	250,000	0	125,000	125,000
Capital Improvement	490,500,000	80,000,000	38,750,000	531,750,000
Total	<u>\$611,170,000</u>	<u>\$ 88,750,000</u>	<u>\$ 73,275,000</u>	<u>\$626,645,000</u>

State of South Carolina
**NOTES TO COMBINED
 FINANCIAL STATEMENTS**
 For Fiscal Year Ended June 30, 1985

The State's legal debt margin at June 30, 1985, was \$118,500,000 for highway bonds and \$28,380,000 for institution bonds. The legal debt service margin at June 30, 1985, for other general obligation debt, excluding tax and bond anticipation notes, was \$21,852,663.

On October 1, 1985, the State issued \$900,000 of one-year State Institution Bond Anticipation Notes at 5.9%.

**NOTE 8:
 Revenue Bonds and Notes**

The information provided here pertains to bonds and notes not backed by the full faith, credit, and taxing power of the State. All information provided in this note is based on materials supplied by the State Treasurer's Office except for information pertaining to the South Carolina Public Service Authority, which was obtained from the Authority's 1985 Annual Report.

Revenue bonds and notes outstanding at June 30, 1985, were as follows:

Purpose	Interest Rates	Outstanding
Student and Faculty Housing Bonds	3.0% to 11.0%	\$ 54,466,000
Stadium Improvement Bonds and Notes	5.25 to 8.8%	18,145,000
Library Bonds	3.0% to 6.0%	635,000
Plant Improvement Bonds	3.0% to 10.0%	6,978,000
Student Facilities Bonds	5.5% to 7.0%	3,025,000
Facilities Improvement Bonds	5.0% to 9.25%	4,300,000
State Ports Authority Bonds	3.5% to 10.527%	11,970,000
Parking Facilities Bonds	7.04%	700,000
Medical University Hospital Facilities Bonds	9.375%	27,000,000
Education Assistance Authority Bonds	5.75% to 12.0%	95,940,000
State Housing Authority Bonds	5.25% to 13.25%	598,480,000
Educational Facilities Bonds	8.0% to 8.5%	835,000
Patriots Point Development Authority Bonds	8.0% to 10.0%	48,500
Forestry Commission Notes	8.6%	900,000
Public Service Authority Priority Obligations	2.7% to 5.0%	64,175,000
Public Service Authority Electric System Expansion Revenue Bonds	4.3% to 12.6%	1,720,575,000
Public Service Authority Electric Revenue Bonds	6.0% to 8.7%	135,000,000
Total		\$ 2,743,172,500

At June 30, 1985, there was no revenue debt authorized but unissued, and no assets had been pledged as collateral for any of this debt. The amounts outstanding as shown above do not include:

- \$4,475,000 of Student and Faculty Housing Bonds refunded and defeased with proceeds from refunding issues as of December 23, 1982.
- \$312,000 of Student and Faculty Housing Bonds refunded and defeased with temporary funding as of August 23, 1982.
- \$1,545,000 of Student and Faculty Housing Bonds defeased with housing revenues as of August 25, 1983.
- \$2,500,000 of Plant Improvement Bonds defeased with special student fees as of September 1, 1982.
- \$10,050,000 of Stadium Improvement Bonds refunded and defeased with the proceeds of a refunding bond issue as of June 21, 1985.

The State Treasurer is trustee of the defeasance trust fund associated with the \$1,545,000 of Student and Faculty Housing Bonds. The defeasance trust funds associated with all other defeased revenue debt are administered by independent trustees. In all cases, the defeasance trust funds are irrevocable trusts funded with monetary assets sufficient to provide cash flows that approximately coincide, as to timing and amount, with the scheduled interest and principal payments on the debt that is being extinguished.

The Public Service Authority refunds and defeases debt primarily as a means of reducing debt service, thereby postponing or reducing future electric rate adjustments. Although advance refundings have resulted in an original book loss of \$135,018,000 (unamortized loss of \$127,593,000), debt service reductions will total \$425,847,000 over the refunding period. Refunded bonds of the Authority are retired as they mature, or at the earliest callable date, from the proceeds of government obligations held by the Refunding Trustee. At June 30, 1985, \$681,465,000 of Public Service Authority refunded debt was outstanding.

State of South Carolina

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

The agencies and institutions receiving the proceeds of bonds and notes have pledged revenues for repayment as summarized below:

Type of Bond or Note	Type(s) of Revenue Pledged
Student and Faculty Housing Bonds	Housing Revenue, Federal Loan Subsidies
Stadium Improvement Bonds and Notes	Student Fees, Admission Fees
Library Bonds	Library Fees
Plant Improvement Bonds	Plant Improvement Fees, Federal Loan Subsidies
Student Facilities Bonds	Special Fees, Federal Loan Subsidies
Facilities Improvement Bonds	Student Fees, Federal Loan Subsidies
State Ports Authority Bonds	Port Revenue, Net Revenue
Parking Facilities Bonds	Parking Fees
Medical University Hospital Facilities Bonds	Hospital Revenue
Education Assistance Authority Bonds	Loan Repayments, U.S. Commissioner of Education
State Housing Authority Bonds	State Housing Authority Revenue
Educational Facilities Bonds	Rental Fees
Patriots Point Development Authority Bonds and Notes	Rental Fees
Forestry Commission Notes	Sale of Timber
Public Service Authority Bonds and Notes	Public Service Authority Revenues

As of June 30, 1985, debt service requirements for future years for revenue bonds and notes were as follows:

Year Ending June 30	Principal	Interest	Total
1986	\$ 35,027,500	\$ 219,657,765	\$ 254,685,265
1987	62,760,000	216,063,096	278,823,096
1988	56,382,000	212,159,408	268,541,408
1989	86,339,000	207,319,728	293,658,728
1990	49,631,000	202,657,548	252,288,548
1991-1995	300,196,000	959,408,872	1,259,604,872
1996-2000	271,730,000	842,418,128	1,114,148,128
2001-2005	325,943,000	729,600,049	1,055,543,049
2006-2010	355,935,000	583,658,935	939,593,935
2011-2015	443,055,000	434,367,987	877,422,987
2016-2020	415,909,000	262,768,151	678,677,151
2021-2025	337,725,000	70,648,256	408,373,256
2026-2030	2,540,000	281,606	2,821,606
Total	\$2,743,172,500	\$4,941,009,529	\$7,684,182,029

Changes in revenue bonds and notes outstanding for the year ended June 30, 1985, are summarized as follows:

Outstanding at June 30, 1984 as previously reported	\$ 695,736,500
Public Service Authority bonds and notes outstanding at June 30, 1984, but not previously reported	1,923,958,000
Issued During 1984-85	655,210,000
Retired During 1984-85	531,732,000
Outstanding at June 30, 1985	2,743,172,500

Since July 1, 1985, the following revenue bonds (excluding those of the South Carolina Public Service Authority) have been issued:

Issued	Purpose	Interest	Maturity	Principal
07/01/85	State Housing Authority	8.0%-9.375%	07/01/2016	\$155,000,000
07/15/85	State Housing Authority	9.0%	07/01/2007	11,130,000
07/15/85	State Housing Authority	9.0%	07/01/2007	9,415,000
08/01/85	Educational Facilities	8.5%	09/01/1990	1,800,000
08/01/85	Parking Facilities	5.5%	10/01/1986	700,000
08/15/85	Medical University Hospital Facilities	5.75%-9.0%	07/01/2005	67,225,000
08/30/85	College of Charleston Special Funding	6.84%	08/01/1989	4,250,000
	Total			<u>\$249,520,000</u>

NOTES TO COMBINED FINANCIAL STATEMENTS

For Fiscal Year Ended June 30, 1985

NOTE 9:

Accounting and Reporting Changes

In the 1983-84 Annual Report, expenditures in the Budget and Actual statements were aggregated by character and by function within the current character. Beginning with the 1984-85 Annual Report however, expenditures are aggregated by subfunction for all Budget and Actual statements. This presentation is consistent with the format presented in yearly Appropriation Acts. Because budgetary basis data was unavailable for the activities of Higher Education, these activities have been excluded from the Budget and Actual statements. During 1984-85, one individual special revenue fund was reclassified as a trust and agency fund. As mentioned in Note 1, the financial statements show no equity balances for the Trust and Agency Fund type. In addition, there was a reclassification of Highway Funds from the budgeted Federal Fund to the budgeted Earmarked Fund. Federal funds received by the Department of Highways and Public Transportation are of a reimbursable nature. As such, the funds are more properly classified as Earmarked. The Higher Education fund adjustment is due to the exclusion of one State supported college and audit adjustments to fiscal year 1984 fund balances that were not known at the time of printing the 1984 annual report.

Equity balances as of June 30, 1984 have been restated for these changes as follows:

Fund	June 30, 1984 Equity Per 1983-84 Report	Fund Reclassification Highway Dept.	Other	June 30, 1984 Equity Per 1984-85 Report
General	\$ 153,311,012	\$	\$	\$ 153,311,012
Special Revenue	214,960,420		(64,720)	214,895,700
Capital Projects	51,151,304			51,151,304
Debt Service	64,414,201			64,414,201
Enterprise	1,283,021			1,283,021

Prior to the fourth fiscal quarter of the fiscal year that ended June 30, 1985, refund amounts designated by a taxpayer to be applied to the following year's tax liability (instead of being refunded in cash) were recorded by the S.C. Tax Commission as prepaid income taxes and reported as deferred revenue under the caption "Taxes Collected in Advance." During the last quarter of the fiscal year these amounts were reclassified as revenues. This reclassification increased General Fund revenues by \$11,428,061 for the fiscal year ended June 30, 1985.

NOTE 10:

Reconciliation of Budgetary and Financial Statement Fund Equities

As described in Note 1, the State's budgetary fund structure differs from that required by generally accepted accounting principles for presentation of the government's financial position and the results of its operations. A summarization of the effect of these fund structure differences on fund equities as of June 30, 1985, is presented below.

As stated in Note 9, activities associated with the Higher Education Fund have been excluded from the Combined Statements

State of South Carolina
**NOTES TO COMBINED
 FINANCIAL STATEMENTS**
 For Fiscal Year Ended June 30, 1985

of Revenue Collected, Expenditures Paid and Changes in Fund Balance — Budget and Actual. Accordingly, fund equity of the Higher Education Fund has been excluded from the schedule presented below.

Budgetary Funds	General	Earmarked	Restricted	Federal				
Financial Statement Funds	General	Special Revenue			Capital Projects	Debt Service	Enterprise	Internal Service
Budgetary Fund Equities	\$149,628,838	\$282,422,587	\$84,931,686	\$23,428,136	\$	\$	\$	\$
Reclassification of budgetary fund equities into financial statement fund structure		(51,595,063)	(84,931,686)	(23,428,136)	89,557,183	64,860,339	1,741,748	3,795,615
Financial statement fund equities	\$149,628,838	\$230,827,524	\$ 0	\$ 0	\$89,557,183	\$64,860,339	\$1,741,748	\$3,795,615

**NOTE 11:
 Negative Revenues**

The negative "Other" revenue figures in Debt Service, Restricted and Federal Funds resulted from recording operating transfers as negative revenues. See also Note 1q, Operating Transfers. The negative "Savings and Loan Association Tax" revenue figure in the General Fund resulted from the recording of refunds associated with a recent court decision (Lexington County Savings and Loan vs S.C. Tax Commission) involving the tax consequences of valuing loss reserves for savings accounts.

**NOTE 12:
 Segment Information — Enterprise Funds**

As explained in Note 1c, the State's Enterprise Funds are segregated from other funds but are accounted for as if they were governmental funds with respect to account structure, measurement focus, and basis of accounting. Specifically, operating revenues and expenses are not distinguished from non-operating revenues and expenses; also fixed assets, long-term liabilities, capital contributions, depreciation/amortization, and operating transfers are not recorded in these funds and are not reflected below. Consequently, we cannot provide most of the segment information required by NCGA Interpretation 2. For fiscal year 1984-85 college and university auxiliary enterprises are excluded from Enterprise Fund totals and are shown as a part of the Higher Education Fund. The following limited information is available for the major types of non-homogenous Enterprise funds.

	Farmer's Market	Prison Industries	Educational Television	Patriots Point Development Authority	Other	Totals
Revenues (Non-GAAP)	\$750,095	\$9,735,745	\$1,166,293	\$1,644,515	\$2,388,196	\$15,684,844
Expenditures (Non-GAAP)	844,117	9,442,813	1,149,230	1,435,711	2,309,886	15,181,757
Revenues Over (Under) Expenditures	(\$ 94,022)	\$ 292,932	\$ 17,063	\$ 208,804	\$ 78,310	\$ 503,087
Equity June 30, 1985	\$163,400	\$ 620,082	\$ 17,145	\$ 243,731	\$ 697,390	\$ 1,741,748

**NOTE 13:
 Negative Unreserved Fund Balance for the General Fund**

On August 8, 1985, the Budget and Control Board voted to fund the \$11,935,636 shortfall by reducing Part III "Supplemental Appropriations" of the 1985-86 Appropriation Act that was carried forward into fiscal year 1985-86 and delaying the filling of new hires for several pay periods.

STATISTICAL SECTION

PICTURE OF 1676 MAP

(Credit The South Caroliniana Library,
Kendall Collection, one of the earliest English Maps
with name CAROLINA)

Narrative by John Martin, S.C. Confederate Relic Room

In 1663 Charles II, King of England, granted territory (which had been called Carolina in honor of King Charles I) to the eight Lord Proprietors. The Proprietors' names are familiar ones to most Carolinians today. They were Edward Hyde (Earl of Clarendon), George Monck (Duke of Albermarle), William Craven (Earl of Craven), John Berkeley (Baron Berkeley of Stratton), Anthony Ashley Cooper (Baron Ashley of Wimbourne St. Giles), Sir George Cateret, Sir William Berkeley, and Sir John Colleton.

Notes:

1. Prior to fiscal year 1983, expenditures for the Vocational Rehabilitation agency were included in the "Social Rehabilitation Services" category. This agency has been reclassified and included in the "Educational" category with expenditures shown thereof.
2. Prior to fiscal year 1983 expenditures for numerous legislative study committees were included in "Miscellaneous." For fiscal years 1983 and 1984 these expenditures are included in the "Legislative" category.

State of South Carolina

COMPUTATION OF LEGAL DEBT MARGIN

June 30, 1985

Section 57-11-240 of the South Carolina Code of Laws limits State highway bonds outstanding to \$150 million. Likewise, Section 59-107-90 limits State institution bonds legally outstanding to \$60 million. Furthermore, Section 11-11-430 states: "The issuance of general obligation bonds of the State must be limited so that the maximum annual debt service on all general obligation bonds of the State (excluding highway bonds, state institution bonds, tax anticipation notes, and bond anticipation notes) may not exceed five percent of the general revenues of the State for the fiscal year next preceding (excluding revenues which are authorized to be pledged for state highway bonds and state institution bonds)."

Therefore:

State highway bond limitation	\$ 150,000,000
Less: State highway bonds outstanding at June 30, 1985	<u>31,500,000</u>
Legal debt margin at June 30, 1985 — highway bonds	<u>\$ 118,500,000</u>
State institution bond limitation	\$ 60,000,000
Less: State institution bonds legally outstanding at June 30, 1985	<u>31,620,000</u>
Legal debt margin at June 30, 1985 — institution bonds	<u>\$ 28,380,000</u>
1983-1984 General Fund revenues	\$ 2,228,210,095
Less: 1983-1984 revenues pledged for highway and institution bonds	<u>15,508,414</u>
1983-1984 net General Fund revenues	<u>2,212,701,681</u>
5% of 1983-1984 net General Fund revenues	110,635,084
Less: 1984-1985 debt service expenditures for general obligation debt excluding highway and institution bonds, tax anticipation notes, and bond anticipation notes	<u>88,782,421</u>
Legal debt service margin at June 30, 1985 — general obligation debt excluding highway/institution bonds and tax/bond anticipation notes	<u>\$ 21,852,663</u>

State of South Carolina

SELECTED STATE SHARED REVENUES WITH LOCAL GOVERNMENTS

For Fiscal Year Ended June 30, 1985

Education Finance Act

The Education Finance Act is designed to provide funding for public education in South Carolina on an equitable basis according to the number and type of students being served, with State funds being distributed in an inverse proportion to a local school district's property wealth.

School districts receive State funds based on a formula approved by the State Board of Education and the State Budget and Control Board.

Basic unit costs are established annually by the General Assembly. Pupils are categorized into the following 14 pupil classifications, and payment is based on the school districts' 135-day Average Daily Membership Report.

<i>Pupil Classification Weightings</i>	<i>Weightings</i>		<i>Weightings</i>
1. Kindergarten	1.30	7. Handicapped	2.57
2. Primary (grades 1 through 3)	1.24	a. Visually handicapped	
3. Elementary (grades 4 through 8) — Base students	1.00	b. Hearing handicapped	
4. High School (grades 9 through 12)	1.25	8. Speech handicapped	1.90
		9. Homebound	2.10
		<i>Vocational Technical Program</i>	
		<i>Weightings</i>	
5. Handicapped	1.74	10. Pre-vocational	1.20
a. Educable mentally handicapped		11. Vocational	1.29
b. Learning disabilities			
6. Handicapped	2.04	<i>Add-on Weights for Compensatory &</i>	
a. Trainable mentally handicapped		<i>Remediation Weightings</i>	
b. Emotionally handicapped		12. Grades 1-6 Compensatory	0.39
c. Orthopedically handicapped		13. Grades 2-6 Remediation	0.10
		14. Grades 7-12 Remediation	0.12

The finance system contains a guaranteed funding level for each pupil in the schools. This minimum level is set to allow each district the opportunity to offer a "standard" educational program. A standard has been expressed on the Defined Minimum Program (DMP).

Alcoholic Liquors Tax

Alcoholic Liquors Tax is allocated as follows: sixty percent to the State; twenty percent among the counties; and twenty percent among the incorporated municipalities on a pro rata basis according to the latest United States Census.

Alcoholic Liquors Tax — Minibottle

Alcoholic Liquors Tax from the sale of containers of two ounces or less is allocated as follows: twenty-five percent of revenue derived from the twenty-five cents per container tax is distributed to the counties on a pro rata basis according to the latest United States Census. The remaining seventy-five percent of the revenue is distributed according to the provisions of 12-33-30 (distribution of Alcoholic Liquors Tax).

Beer and Wine Tax

Beer and Wine Tax is distributed as follows: seventy-nine percent to the state; six percent to the counties; and fifteen percent to the municipalities according to the latest United States Census.

Flood Control

These are Federal funds which are allocated to certain counties in South Carolina based on 75 percent of the receipts from leasing of certain lands for flood control and allied purposes.

Gasoline Tax

The amount distributed to each county equals one cent for every gallon of gasoline sold, proportioned by the motor vehicle license fees collected by a county except that amount shall be decreased by 15 percent of the excess over 2.17 percent which shall be proportioned back to the counties receiving less than 2.17 percent. No county shall receive less than \$14,000 annually. One half of one percent of all gasoline taxes shall be transmitted to the Department of Wildlife and Marine Resources for distribution to counties based upon watercraft registrations.

Income Tax

Seven and one quarter percent of State income taxes is distributed to counties according to the latest United States Census.

Insurance License Fees

Insurance License Fees are distributed as follows to location of risk: 75 percent to the county of which 33 and 1/3 percent retained by the county, 33 and 1/3 percent forwarded to city if the risk is located in the city, 33 and 1/3 percent forwarded to Fireman's Insurance Inspection Fund, 25 percent to General Fund.

Brokers Premium Tax

Foreign Insurance Company Fees shall be distributed based upon population according to the latest census of the counties.

National Forest Funds

These are Federal funds which are allocated to counties in South Carolina based upon their participation in several federally operated forest programs.

Veterans Affairs

Each county shall receive an effective amount equal to 106 percent of the amount allocated to it for the year 1984-85.

Voter Registration Expense

\$5,000 to each County Treasurer distributed equally to members of county Boards of Registration. \$400.00 for each member of county Election Commission. Managers and Clerks of State and County shall receive \$25 per diem but managers shall not be paid for more than 2 days and clerks for not more than 3 days. \$100 additional compensation per day may be paid to each member of Board of State Canvassers up to a total of 15 days.

HOMESTEAD TAX EXEMPTION REIMBURSEMENTS DISTRIBUTION OF FUNDS

Homeowners who are totally and permanently disabled or blind and those 65 years old or older are exempted from payment of property taxes levied on their homesteads by counties and municipalities.

These exemptions are allowed on certain amounts of the fair market value for both county and municipal taxes, as mandated by the Legislature.

It is the policy of the state to absorb the cost of this state mandated program, and, accordingly, county and municipal governments are reimbursed for these tax losses upon submission of proper documentation to the Comptroller General, who administers the Homestead Exemption Act.

In 1972, the exemption was five thousand dollars of the fair market value. For the years 1973 through 1977 the exemption was ten thousand dollars of the fair market value.

The 1978 *South Carolina Code of Laws* was amended to increase the exemption to the first twelve thousand dollars and extend the exemption to municipal property taxes. The exemption of twelve thousand dollars was in effect through the year 1979.

In 1980 the exemption was increased to fifteen thousand dollars. Tax years commencing after December 31, 1983, the first twenty thousand dollars of the fair market value of the dwelling place of persons is exempt.

HOMESTEAD TAX EXEMPTION REIMBURSEMENTS NUMBER OF HOMEOWNERS EXEMPTED

For the Period of 1972 Through 1984

Year	Number of Exemptions	Increase of Exemptions Over Prior Year
1972	46,526	
1973	61,920	15,394
1974	73,942	12,022
1975	83,804	9,862

1982	27,765	8,605	2,575,847	11,113	524,995	9,659
1983	29,923	9,168	2,734,464	11,687	561,640	10,215
1984	33,248	10,075	2,988,327	12,707	618,757	11,108

Note: *Per Capita Income* — Personal Income divided by population showing the estimated personal income for each resident.

Personal Income — Personal Income is the current income received by persons from all sources net of contributions for social insurance. Not only individuals (including owners of unincorporated enterprises) but non-profit institutions, private trust funds, and private health and welfare funds are classed as "persons." Personal income includes transfers (payments not resulting from current production) from government and business such as social security benefits, military pensions, etc., but excludes transfers among persons. Although most of the income is in monetary form, there are important nonmonetary inclusions — chiefly, estimated net rental value to owner-occupants of their homes, the value of services furnished without payment by financial intermediaries, and the value of food consumed on farms.

State of South Carolina

DISPOSABLE PERSONAL INCOME THE UNITED STATES AND THE SOUTHEAST

1973-83

(Millions of Dollars)

Calendar Year	South Carolina	United States	Southeast
1973	9,389	909,247	173,022
1974	10,588	933,076	192,749
1975	11,625	1,090,778	212,249
1976	12,802	1,189,607	233,500
1977	14,114	1,309,219	259,083
1978	15,933	1,468,375	293,238
1979	17,707	1,642,513	329,067
1980	19,765	1,820,875	367,585
1981	22,108	2,033,294	415,417
1982	23,830	2,172,840	448,054
1983	25,850	2,330,993	484,320

Note: Disposable Personal Income is measured as personal income less personal tax and nontax payments. Personal taxes include individual income taxes (net of refunds), estate and gift taxes, and personal property taxes. (As noted, personal contributions for social security, government retirement, and other social insurance programs are deducted in deriving total personal income.) Nontaxes include passport fees, fines and penalties, donations, and tuitions and fees paid to schools and hospitals operated mainly by government. Nontaxes generally exclude purchases by persons from government of goods and services that are similar to goods and services purchased by persons from business.

Narrative by

John Martin, S.C. Confederate Relic Room

In 1741 Henry Middleton laid out the landscaped gardens at Middleton Place. Today, Middleton Place is a National Historic Landmark. Within the landmark area are the landscaped gardens (the oldest in America), the restored Middleton Place House, and the Plantation stable yards. Middleton Place is located on the Ashley River, 14 miles northwest of Charleston, on Highway 61.
