“Three Forts of Charleston Harbor” highlights the impact of Fort Moultrie, Fort Johnson, and Fort Sumter during the Revolutionary War and the American Civil War. Touring the forts with historian, Rick Hatcher and educational specialist, Michael Allen, one quickly realizes the historical significance of these National Park Monuments. Classroom Activities:

Elementary Students:

1. Time-Line: Students chose between Fort Moultrie and Fort Sumter to design a time-line of events that took place at a particular fort over its historical life. The students could compare events and dates to assist in developing a better understanding of history. Time-lines could be displayed in the classroom or hallway.

2. Students will collaborate to research an event or person involved in the life of Fort Moultrie or Fort Sumter. Group class reports could be presented to broaden each student’s knowledge base.

   Groups will utilize the material that was researched in activity #2 such as an event or person in history.

   The electronic book can then be combined to make one class history book.

4. As a child of a family living on Fort Sumter, what would be some of your daily responsibilities living on a military fort? How could you be helpful to your family?

5. Learning groups could select one of the following:

   a. Have students construct a model of Fort Sumter prior to April 1861. A description of the land the fort was built on and how it was placed, materials and amounts used in the building process, and how long it took to build should be included.

   b. Have students construct a replica of Fort Moultrie at the time of the beginning of the Revolutionary War in 1776. Describe the characteristics of the building materials and the importance of those materials in its defense.

6. Guided Tours: Students could select Fort Moultrie or Fort Sumter to tour using their models. Students could explain different physical features of the fort indicating the reason for its importance in war.
Middle/Upper Students:

1. Time-Line: Students chose between Fort Moultrie and Fort Sumter to design a time-line of events that took place at a particular fort over its historical life. The students could compare events and dates to assist in developing a better understanding of history. Details of events should be included for older students. Time-lines could be displayed in the classroom or hallway.

2. Students will collaborate to research an event or person involved in the life of Fort Moultrie or Fort Sumter. Create an electronic book using PowerPoint. Each slide in the slideshow will represent a page in the electronic book. Students can search the Internet for photos, graphics and sound to place in their PowerPoint slideshow. Photos can be scanned from other sources. One group digital photo of all students will be used as the Author Page. A rubric should be created to grade the e-books.

3. Students determine which side of the American Civil War each would have fought on and explain why he/she would have served the Confederacy or the Union Army.

4. Learning groups could select one of the following:
   
a. Students will construct a model of Fort Sumter prior to April 1861. Describe the land development and fort building process including the time-line for the process. Explain the physical features and the type of artillery.
   
b. Students will construct a replica of Fort Moultrie at the time of the beginning of the Revolutionary War in 1776. Explain the physical features and the type of artillery.
