Agency: H59 - Technical & Comprehensive Education  
Functional Group: Higher Education & Cultural

646 Midlands Tech Nursing Program

Education of students for the work setting is part of the primary mission of Midlands Technical College. This funding will help admit a third cohort of 64 nursing students into the Associate Degree Nursing program and educate them for the course of the two-year program. They will become Registered Nurses and help to alleviate the nursing shortage in South Carolina. Part of this group of students will be admitted on a "merit" basis rather then the current "first qualified, first admitted" basis. The other part will be admitted to an evening/weekend program.

Statewide Result Area: Improve the state's post-secondary education system and cultural resources

Strategy: Provide for employability and quality of life opportunities for our graduates.

FY 2009-10

<table>
<thead>
<tr>

<td>$486,097</td>
<td>$0</td>
<td>$0</td>
<td>$79,036</td>
<td>$0</td>
<td>8.00</td>
</tr>
</tbody>
</table>

Expected Results:
The merit group of students will be tracked and compared to the "first qualified, first accepted" group for retention. This method of admission will provide an alternative to the waiting list for highly qualified students wishing to become Registered Nurses thus providing a mechanism for them to enter the workforce in a timely manner. The evening/weekend program will provide an alternative for students who are employed during daytime hours.

Outcome Measures:
70% of the "merit" third group will graduate within three years of admission, and 90% of the students will pass the NCLEX-RN and practice as Registered Nurses in South Carolina. The evening/weekend program is established and the first group of students started.

647 Pathways to Prosperity

Agency: H59 - Technical & Comprehensive Education  
Functional Group: Higher Education & Cultural
Agency Activity Inventory
by Agency
Appropriation Period: FY 2009-10

This funding will be used to implement the South Carolina Education and Economic Development Act (SC Code of Laws Title 59, Chapter 59). The technical colleges and the State Department of Education will work to develop career clusters based upon the 16 national career clusters. The Education and Economic Development Council must designate regional education service centers to coordinate and facilitate the delivery of information, resources, and services to students, educators, employers, and the community. This committee shall include representatives from state technical colleges.

Statewide Result Area: Improve the state's post-secondary education system and cultural resources

Strategy: Provide for employability and quality of life opportunities for our graduates.

Other Fund - Subfund No. & Title: II. A.

Expected Results:
Potential employees will develop the skills necessary for tomorrow's knowledge-based economy. Workforce education is one of the most critical components in attracting more high-tech employers in emerging growth markets. Enrollment increases are expected.

Outcome Measures:
This activity is measured by enrollment figures and students who obtain employment.

---

Agency: H59 - Technical & Comprehensive Education
Functional Group: Higher Education & Cultural

648 Florence-Darlington - Entrepreneurial Operations Equipment

Florence-Darlington Technical College is building a new Advanced Manufacturing Center facility. The purpose of the budget funding is to assist in equipping this new facility with state-of-the-art, high technology, industrial training equipment designed to serve high tech manufacturing clients. The equipment will be used to support the training necessary to sustain and attract high tech manufacturing prospects in the Pee Dee region of South Carolina.

Statewide Result Area: Improve the conditions for economic growth

Strategy: Provide for resources and infrastructure for a more skilled and prepared workforce.

</tr>
</tbody>
</table>
Expected Results:
The College will be able to offer new highly technical training programs that support both current and future industry needs. The training capability will provide an economic development tool, previously lacking in the region. It will be used to attract existing industries and promote startup companies in the area. It is anticipated that economic development prospects will be attracted to the region because of the presence of this level of training. In addition, it is expected that existing industries’ position in the global market place will be enhanced by having access to this level of training.

Outcome Measures:
Number of training programs offered at the College.

Agency: H59 - Technical & Comprehensive Education

Trident Technical College Culinary Arts

The Culinary Institute of Charleston will provide a wide array of both credit and continuing education offerings to meet the diverse training needs of the tourism industry. The Institute’s credit programs include TTC’s existing associate degree, diploma and certificate programs in culinary arts, hospitality and tourism as well as other advance training opportunities.

Statewide Result Area: Improve the state's post-secondary education system and cultural resources
Strategy: Provide for employability and quality of life opportunities for our graduates.

1710 Florence-Darlington - SIMT

Florence-Darlington Technical College is building the new Southeastern Institute of Manufacturing and Technology (SIMT). The purpose of the budget funding is to assist in equipping this facility with several new state-of-the-art technologies. These technologies will be used to provide business and industry clients with solutions to strategic training, business operations, and manufacturing technology problems. These solutions will maximize workforce productivity and lead to business success in advanced manufacturing environments.

**Statewide Result Area:** Improve the state's post-secondary education system and cultural resources

**Strategy:** Provide for an efficient and effective statewide Higher Education system through improved statewide planning.

**Expected Results:**
The College will have new technology at its disposal, such as; CNC machining, 3D virtual reality, rapid prototyping, and industrial robotics. The availability of these technologies at the SIMT will make it a premier training center for industry. Additionally, SIMT will offer these technologies to industry in the form of technical services and support in solving manufacturing problems. With SIMT’s assistance, the Pee Dee region of South Carolina will become a very desirable area for new industries to locate.

**Outcome Measures:**
New technologies will be installed in the SIMT and available to local industries.

---

**Agency:** H59 - Technical & Comprehensive Education  
**Functional Group:** Higher Education & Cultural

**1712  Allied Health Initiative**

These funds will be allocated to technical colleges for a coordinated approach that responds to the critical need for more qualified health care workers required to fill jobs created by industry growth and retirement. While the state is in desperate need of health care workers, positions that pay substantially above the state pay average, the Technical Colleges have wait lists of qualified students desiring to enter the field. A challenge we are working with is that this is a recurring problem and will require recurring dollars to address over the long term. One time funds of $15,856,698 and $10,000,000 in the prior years. No funds were provided in the current year.

**Statewide Result Area:** Improve the state's post-secondary education system and cultural resources

**Strategy:** Provide for employability and quality of life opportunities for our graduates.

Agency Activity Inventory
by Agency
Appropriation Period: FY 2009-10

Expected Results:
Increased enrollment and retention of students pursuing careers in Allied Health Care fields. Improved graduation rates. Additional South Carolina residents filling openings currently available in the state at above the average state income level.

Outcome Measures:
Relieve the enrollment bottlenecks created by lack of teaching faculty and instructional infrastructure including space, equipment, and clinical rotation sites. Increase enrollment and retention which will lead to an increase in the number of graduates.

Activity funded through Lottery Excess Unclaimed Prize Funds for FY2009-2010 (if available) in the amount of $4m.

Agency: H59 - Technical & Comprehensive Education

1825 Apprenticeship

The System supports the business-led initiative to implement a statewide registered apprenticeship awareness and facilitation process. In order to take advantage of the statewide network that already exists, the System has agreed to serve as the centralizing operational force behind this process, utilizing an organizational relationship similar to the successful Center for Accelerated Technology Training model.

Statewide Result Area: Improve the state's post-secondary education system and cultural resources

Strategy: Provide for employability and quality of life opportunities for our graduates.

FY 2009-10

Other Fund - Subfund No. & Title:

Budgetary Program No.: I. & IV.

Expected Results:
We will expand awareness of and strengthen the statewide network of apprentices. This furthers our efforts in workforce development. We are working with the State Chamber of Commerce and the Palmetto Institute on this initiative.

Outcome Measures:
Currently, South Carolina lags far behind its neighbors in the effective utilization of registered apprenticeships as a workforce development option, and the establishment of a statewide, centralized group responsible for promoting awareness of the option and facilitating its effective utilization by businesses would provide strong impetus for its expanded use. Increase the number of registered apprenticeships in SC. Increase the number of businesses aware of apprenticeships.
