Expected Results:
In keeping with the agency mission, we expect to successfully rehabilitate at least 8,401 individuals next year. SCVRD will place individuals with disabilities into competitive employment (employment at or above minimum wage) at a rate that meets or exceeds the federally mandated required performance level of 72.6%. SCVRD's performance level for federal fiscal year 2008 was 99.35%

Outcome Measures:
Each of the 13 Administrative Departments work to facilitate the Area Offices' efforts to meet successful rehabilitation goals. The Departments are held accountable to Statewide Standards of Excellence.

839 Direct Client Services
VR employees provide assessment, counseling, job readiness training, guidance and placement services to enable eligible South Carolinians to prepare for, achieve and maintain competitive employment. There is a great economic growth benefit from successful rehabilitations. Through SCVRD's client service program, successfully employed customers become taxing members of the workforce rather than relying on Social Security disability benefits, Medicaid and other public assistance. They repay the cost of their rehabilitation (through taxes) in an average of 5.85 years. While the FTE’s in this activity seems large, it is because this activity is a statewide effort affecting each client (we served 47,544 clients last year). The services offered in this one activity reach throughout the state by a network of offices and training centers, all providing the complete array of services offered by the department geared toward the ultimate successful employment of the client. Statutory authority is found at Chapter 31, Section 43-31-60.

841 In-Service Training

The focus of the In-Service Training project is the development of staff knowledge and skills which assure compliance with Federal regulations, enhance productivity, and meet the standards of exceptional customer service. The funds for this activity are used to enhance the knowledge of staff relative to knowledge of specific disabilities and the provision of rehabilitation services to the agency as a whole. The department is using this predominately federally funded program which allows the agency to train its staff to meet federal mandates, again working toward the ultimate goal of all activities which is to contribute to the successful employment of our clients. No FTE’s are associated with this program since most of the funds are used for travel, tuition, etc relative to specific training. Trainers in this activity are contracted (non-employees) or employees who have expertise in the specific training being offered.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide opportunities for employment and independence.

### Workshop Production

More than 450 businesses and industries statewide have outsource agreements with SCVRD's 24 work training centers. Clients perform the tasks necessary to complete the contract work, they build the job skills and work endurance they need to compete in the workplace. They also learn the interactive skills required to work with supervision and get along with others on the job. In return, South Carolina's business community receives quality work at reasonable prices. Statutory authority is found at Chapter 31, Section 43-31-60.

**Statewide Result Area:** Improve the health and protections of our children and adults
