September 30, 2011

The Honorable Nikki R. Haley
Governor of South Carolina
State House, 1st Floor
Post Office Box 1773
Columbia, South Carolina 29201

Dear Governor Haley:

Attached for review is the FY2012/2013 budget plan for the South Carolina Aeronautics Commission/Division of Aeronautics (Aeronautics). We request additional appropriations in two areas:

- **Airport Development and Administration.** Reason - To maintain a minimum staff level to carry out the required statutory aviation requirements and enable the South Carolina Aeronautics Commission to secure eligible federal airport grants. South Carolina’s airport system-wide network is comprised of six commercial service airports and fifty-four general aviation airports, which are dependent upon Aeronautics planners, engineers, financial administrators, and technical staffers to provide reliable technological resources to support airport capital investments enabling South Carolina to continue its global outreach for all aviation sectors. Also, the additional budget request will be used to support the administrative services provided by the State Budget and Control Board (B&CB) staff, since outsourcing this service to B&CB allows effective cost center controls for Aeronautics.

- **Flight Department.** Reason - To adequately support air transportation services to state leaders, government shareholders, and for economic development in the state. As you know, on demand air transportation services provide time saving travel benefits, and increases productivity. Operating and providing this service is administered within Aeronautics through our appropriations budget. Significant budget reductions since 2009 have had a significant impact on Aeronautics ability to provide this service beyond the 2012 budget. Basically, Aeronautics has $10,000 of available FY2012 appropriated funds to operate two twin-engine aircraft. To meet air travel needs of the Governor’s office and for members of the Legislature, this amounts equates to less than ten hours of flight time for the entire year.
Governor Haley
Page 2

Over the past five years, Aeronautics has experienced nearly a 70 percent budget reduction in state appropriated funds. These cuts have adversely impacted Aeronautics’ ability to provide adequate administrative services to local communities for airport planning, engineering and code enforcement. The Aeronautics Commission core mission is to provide and enhance aviation infrastructure and to provide safe reliable air transportation for State Government. Although the state’s financial condition remains uncertain, inadequate funding to South Carolina’s air transportation system, which can reach national and international markets and that helps promote job creation as well as quality of life, should not be compromised.

Thank you for this opportunity to submit the Aeronautics budget plan.

Sincerely,

Fostering air commerce by overseeing the safety and development of the state's public use airports and providing safe, reliable air transportation for state government leaders and business prospects. The Aeronautics Commission respectively request an appropriation increase of $782,539 to meet current operational expenses. We are not requesting any capital budget or additional FTE or any increase to current operations expenses. The increase is due to Division of Aeronautics exhausted all reserves and revenue sources which made up for budget shortfalls from previous years due to significant budget cuts.

To the Office of State Budget

This, and accompanying statements, schedules, and explanatory sheets consisting of 24 pages constitute the operating budget estimates of this agency for all proposed expenditures for the 2012-2013 fiscal year.

All statements and explanations contained in the estimates submitted herewith are true and correct to the best of my knowledge.

I. EXECUTIVE SUMMARY

A. Agency Section/Code/Name:
   U30 -68D South Carolina Aeronautics Commission

B. Summary Description of Strategic or Long-Term Goals:
   1) Fostering air commerce by overseeing the safety and development of the state's public use airports
   2) Provide technical assistance and financial resources to commercial service and publicly owned general aviation airports
   3) Partner with the Federal Aviation Administration (FAA), South Carolina Aviation Association, and other entities to provide aviation educational workshops to pilots, airport operators, and school children.
   4) Provide information and reporting systems allowing airport sponsors and owners to manage their airports in accordance with law
   5) Provide professional, convenient, safe, and cost effective air transportation for constitutional officers and state entities
   6) Provide high quality, cost effective aircraft maintenance for Aeronautics and other state aircraft

C. 2011-2012 Agency Recurring Base Appropriation:
   State $541,461
   Federal 2,400,000
   Other $4,072,008

D. Number of Budget Categories:
   1

E. Agency-wide Vacant FTEs
   Vacant FTEs as of July 31, 2011: 5
   % Vacant 36 percent

F. Efficiency Measures:
   Improved transparency by way of internet communication. Displaying flight logs and flight manifests usage of the Aeronautics aircraft. Creating a GIS inventory of airfield electrical system enabling airfield technicians, engineers, and airport owners the ability to reconcile and trouble-shoot electrical circuits. Created a State sponsored FAA grant- in-aid program allowing Aeronautics to provide administrative, planning and engineering support services to airport owners for airfield related maintenance and capital improvement projects and providing educational materials and safety related workshops to aircraft mechanics and pilots. Provided a web communication center that enables airport owners and vendors the ability to offer used airport related materials and reference sources for sale.

G. Number of Provisos:

Agency Code: U30
Agency Name: Aeronautics Commission

A. Summary description of programs and how they relate to the mission of the agency:
Airport Development - Providing financial and technical airport development services to fifty-four general aviation and six commercial service airports. Administer Title 55 and Aeronautics regulations related to airport planning and engineering design, construction management, grant compliance and administration, airfield safety inspections, airfield maintenance support services based on aviation advisory circulars, building codes, system plan priorities, and other federal regulations mandated by FAA. Promote aviation transportation infrastructure administration services for airport planning, and financing to enable economic prosperity, growth as well as providing for adequate air emergency operations facilities for medical and relief efforts.

Aircraft Flight Services - Providing air transportation for Governor’s office, Constitutional Officers, members of the General Assembly, members of state boards and institutions, state commissions, state agencies and their invited guests supported with an in-house aircraft maintenance support services department.

D. Performance Measures:
Air Transportation system is based on a State Aviation System Plan which categorizes, prioritizes, and defines performance measures based on current airport activities such as growth and airfield capacity. Another major performance area is the ability to match FAA grant programs. Airport Development manages this activity.

The Flight Department received a 75 year flight safety award from the National Business Aircraft Association. Aeronautics is only the second recipient to receive this award in the United States. This prestigious award exemplifies the department’s mission and dedication to flight safety, whereby Aeronautics maintains the States aircraft to the highest FAR Part 91 operational standards exceeding Part 91 performance measures. Aeronautics is chartered to provide air transportation services to state government officials whereby all aircraft operational expenses are absorbed in the operations budget where no funding currently exists.

E. Program Interaction:
Staff is assigned specific tasks and related duties associated with federal and state regulations. Aeronautics has numerous memorandums of agreement with other federal and state governmental entities. One efficient improvement to State air travel would be to create Aeronautics as the flight dispatch center consolidating State controlled flight departments into one centralized area. This would enable travelling needs to match aircraft utility and allow group travel, cost sharing, better utility, and better use of resources.

F. Change Management:
Aeronautics was under the Department of Commerce until July 2009 and served more in an economic development role. Today, the Aeronautics Commission operates more as an independent organization even though tethered within the State Budget and Control Board. Funding is directed to the Aeronautics Commission to manage two distinct activities: a) airport development; and b) flight operations. The Aeronautics Commission has made significant cuts by reducing the pilot staff to one chief operating pilot and supplementing pilot services with contract pilots.

Explanation of Changes: Increase is due to inadequate appropriated funds for maintaining an adequate staff and for maintaining the Aeronautics hangar/office complex. The hangar facility serves as the aviation emergency operation center and a point of entry for the President, Vice-President, and Governor and serves as a high security area for air operations. Flight Department operating budget has been supplemented from the sale of aircraft and sale of services. Those funds will be exhausted by June 30, 2012; therefore, the state aircraft could be grounded if the Flight Department has no operating funds.

I. Revenue Estimates:
Please detail Sources of revenue for this program, identified by SAP fund number if a live SCEIS agency or the STARS number if a STARS agency. If several sources remit to a single subfund that cannot be split by source and appropriation or program, provide an estimate of the revenue dedicated to this program.

If expenditures for this program are greater than known or estimated revenues and the intent is to bridge part of this shortfall by drawing down balances in agency accounts or reserves, indicate the accounts and amount of the current reserve or balance that will likely be used below.
The South Carolina Air National Guard leases an office and hangar area at $65,412. We project a loss of $65,412 in revenue in FY 13 due to a possible departure to McEntire Air Base, lost revenue must be offset with appropriations. Currently the sub-lease revenue is used to meet a lease agreement with Richland-Lexington Airport Commission.

Please detail the long-term sustainability of this program if cash reserves are needed to operate.

Aeronautics has no operational reserves.

If there is federal fund or other fund spending authority requested above the revenue streams detailed above, please indicate the amount and explanation for each.

 Appropriated fuel tax funds used for statewide airport maintenance and capital infrastructure will be applied toward operations to maintain airport development sustainability.

J. FTE Positions:

E. Title
   Descriptive Proviso Title: Aviation Grants

F. Summary
   Summary of Existing or New Proviso: Requires appropriations for Aviation Grants to be deposited to the State Aviation Fund and prescribes the purposes for which State Aviation Fund may be used. Promulgates regulations to govern aviation grant programs and specifies minimum criteria for Aeronautics Regulation. Allows Aeronautics the discretion to establish a program to make grants from the State Aviation Fund at a rate of 80% or less with the remainder provided by airport sponsors - requires a report of expenditures from the fund to House Ways and Means and Senate Finance Committees - maximize federal grant to airport sponsors. Allows funds to be carried forward for the Division

G. Explanation of Amendment to/or Deletion of Existing Proviso
   N/A

H. Explanation of how this proviso directs the expenditure or appropriation of funds, and why this direction is necessary
   No substantive change until Title 55 changes have been implemented. Title 55 modifications address changes to the State Aviation Fund and the implementation of grant procedures.

I. Justification
   Refer to the instructions for the correct question to answer in this space, based on the action you selected: Conforms proviso location to budgets and organizational structure and accurately reflects authority responsibility for promulgation of regulations and guidance governing grants and disbursements from the State Aviation Fund.

J. Fiscal Impact (Include impact on each source of funds – state, federal, and other) None

K. Text of New Proviso with Underline or Entire Existing Proviso Text with Strikeover and Underline

   68D.8. (AERO: Aviation Grants) The funds appropriated for Aviation Grants, in this bill or any bill supplemental thereto, shall be credited to the State Aviation Fund within the Division of Aeronautics for the following purposes:
   (1) to allow the maximization of grant funds available through the Federal Aviation Administration for capital improvement projects;
   (2) for maintenance projects of general aviation airports; and or
   (3) for aviation education related programs including, but not limited to, educating young people about careers in the aviation industry and/or the promotion of aviation in general.
   Sponsors of publicly owned airports for public use are eligible to receive grants pursuant to this provision, but the airport must have a current development plan that meets the planning requirements of the National Plan of Integrated Airports Systems.
   The Aeronautics Commission shall promulgate regulations establishing the grants program that, at a minimum, address:
   (1) priorities among improvements qualifying for grants; (2) an airport selection process to ensure an equitable distribution of funds among eligible airports; and (3) the criteria for distribution of funds among eligible airports.
   Enabling airport sponsors to meet basic Federal Aviation Administration safety guidelines for obstruction clearance must be a major factor in the priority guidelines established by the Aeronautics Commission pursuant to this provision. The Commission also shall have discretion consistent with Section 55-5-170 of the 1976 Code to establish a program to grant Aviation Fund dollars for these purposes at the ratio of eighty percent from the fund to twenty percent from the local airport sponsor, or any ratio with a smaller relative contribution from the fund.
   A report on the expenditure of these funds shall be submitted to the Senate Finance Committee and the House Ways and Means Committee.
   Unspent funds from the prior fiscal year may be carried forward to the current fiscal year and spent for like purposes.

J. Fiscal Impact (Include impact on each source of funds – state, federal, and other) None

K. Text of New Proviso with Underline or Entire Existing Proviso Text with Strikeover and Underline

89.25. (GP: State Owned Aircraft - Maintenance Logs) Each agency having in its custody one or more aircraft shall
       maintain a continuing log on all flights, which in order to promote accountability and transparency shall be open for
       public inspection and shall also be posted online. Any and all aircraft owned or operated by agencies of the State
       Government shall be used only for official business. The Division of Aeronautics and other agencies owning and
       operating aircraft may furnish transportation to the Governor, Constitutional Officers, members of the General
       Assembly, members of state boards, commissions, and agencies and their invitees for official business only; no
       member of the General Assembly, no member of a state board, commission, or committee, and no state official shall
       use any aircraft of the Division of Aeronautics unless the member or official files within forty-eight hours after the
       time of departure of the flight with the Division of Aeronautics a sworn statement certifying and describing the official
       nature of his trip; and no member of the General Assembly, no member of a state board, commission or committee,
       and no state official shall be furnished air transportation by a state agency other than the Division of Aeronautics unless
       such agency prepares and maintains in its files a sworn statement from the highest ranking official of the agency
       certifying that the member's or state official's trip was in conjunction with the official business of the agency.
       Official business shall not include routine transportation to and from meetings of the General Assembly or
       committee meetings for which mileage is authorized. Official business also does not include attending a press conference,
       bill signing, or political function.
       All logs shall be signed by the parties using the flight and the signatures shall be maintained as part of the permanent
       record of any agency. All passengers shall be listed on the flight log by their legal name; passengers flying with an
       appropriate official of SLED or the Department of Commerce whose confidentiality must, in the opinion of SLED or the
       department, be protected shall be listed in writing on the flight log as "Confidential Passenger SLED or the Department
       of Commerce (strike one)" and the appropriate official of SLED or the department shall certify to the agency operating
       the aircraft the necessity for such confidentiality. The Division of Aeronautics shall post its flight logs on its website within
       one working day of completion of trips.
       Violation of the above provisions of this section is prima facie evidence of a violation of Section 8-13-700(A) of the 1976
       Code and shall subject a violating member of the General Assembly to the ethics procedure of his appropriate house and
       shall subject a violating member of a state board, commission or committee, or a state official to the applicable ethics
       procedure relating to them as provided by law. The above provisions do not apply to aircraft of the Division of Aeronautics
       when used by the Medical University of South Carolina, nor to aircraft of the athletic department or the educational
       foundations of any state-supported institution of higher education, nor to law enforcement officers when flying on state
       owned aircraft in pursuit of fugitives, missing persons, or felons or for investigation of gang, drug, or other violent crimes.
