

FACTS ABOUT FOSTER KIDS

Marlboro County

2006

(2005 Data)

A Publication of the South Carolina Governor's Office – Division of Foster Care Review

OVERVIEW

Facts About Foster Kids is intended to provide annual data about children in foster care for every county in South Carolina. It covers: **Demographics** -- how many children there are in foster care, their characteristics and whether their prevalence is increasing or decreasing; **Areas of Concern** -- legal and program shortcomings identified at monthly citizen reviews; and **Progress Measures** -- length of time in care, number of placements, achieving permanency, and recidivism rates. Information is collected from local volunteer citizen review boards that review the cases of all children who have been in foster care at least four months; each case is then reviewed every six months thereafter until the child leaves care. The 2006 edition includes complete information about children who were reviewed at least once in 2005. It also includes demographics on those children who entered foster care late in the year and were not reviewed until 2006, but does not yet incorporate them into progress measures or areas of concern.

DEMOGRAPHICS

For Marlboro County, the number of foster care children reviewed increased in 2005. The number of children entering care doubled, and the number leaving care remained the same in 2005.

Children in Foster Care, 2002 – 2005, Marlboro County					
	2005	2004	2003	2002	Average
Number of Children Reviewed	41	30	60	58	47
Change from Prior Year	+11	-30	+2		
Number Entering	10	5	7	15	9
Number Leaving	15	15	12	7	12

Characteristics of Children in Foster Care, 2005, Marlboro County						
	Children Reviewed		Children Entering		Children Leaving	
	Number	Percent	Number	Percent	Number	Percent
ALL CHILDREN	41	100%	10	100%	15	100%
<u>Race</u>

5 and Younger	9	22%	3	30%	2	13.33%
6 to 9	5	12%	1	10%	2	13.33%
10 to 15	16	39%	5	50%	6	40%
16 and older	11	27%	1	10%	5	33.33%

AREAS OF CONCERN

In 2005, Review Board members held 12 meetings and 62 reviews. Of the 62 reviews held, 24 (39%) had at least one area of concern cited by the local Review Board. The most often cited legal violation was *No Timely Permanency Plan Hearing*. The failure to hold permanency planning hearings according to time frames outlined by state and federal law unnecessarily lengthens the time children remain in foster care. The most often cited program violations were *No Progress Report* and *No Current/Incomplete or Inappropriate Case Plan*.

Frequently Cited Areas of Concern, 2002 - 2005, Marlboro County				
	2005	2004	2003	2002
Legal:				
No Timely Permanency Plan Hearing	3	2	3	
No Timely Probable Cause Hearing

Lack of Progress Permanency Plan	2			
No Current/Incomplete/Inappropriate Case Plan	8	2	1	
Interested Parties Not Invited	1			
No Timely FCRB Hearing	1			
No Advance Packet	1	2		
Other Policy/Procedure Issues	2		1	2
TOTAL	32	12	25	20
Percent of Reviews with Areas of Concern	39%	18%	24%	20%

PROGRESS MEASURES

Four main indicators are used to measure progress towards better outcomes for children in foster care. For each, comparison data for the previous four years are provided.

LENGTH OF TIME IN CARE:

The longer a child is away from their home or a nurturing family environment, the more damaging it can be to the normal development of the child. For this reason, a major goal of the Review Board is to ensure that children achieve permanency as quickly as possible. In 2005, the average length of time in Marlboro County decreased to 3.1 years.

NUMBER OF PLACEMENTS:

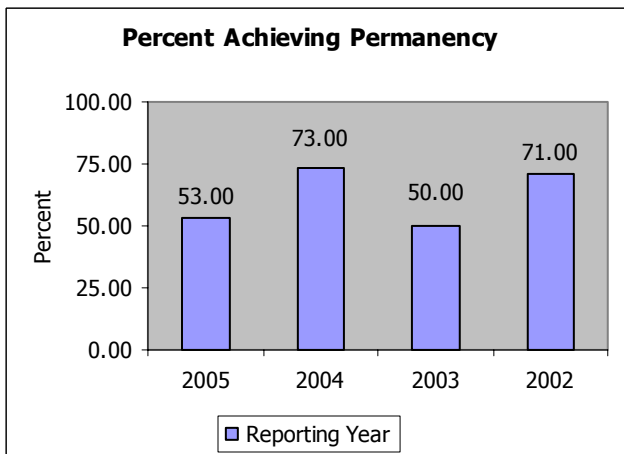

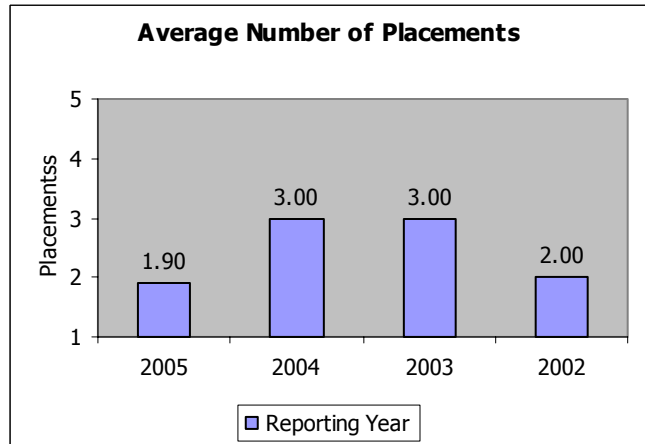

Research shows the initial placement in foster care is extremely traumatic for a child. Additional changes in placement once in the foster care system can be detrimental to children's development, affecting their ability to learn, establish relationships and develop as stable, secure individuals. In 2005, Marlboro County's average number of placements decreased to 1.9.

PERCENT ACHIEVING PERMANENCY:

Permanency for a child means placement with a "forever family." A child can achieve legal permanency upon leaving the foster care system either by returning home to their natural parent or by being adopted. In 2005 of the 15 children leaving care, none were adopted and eight were returned home to their natural parent.

RECIDIVISM RATES:

Children who re-enter care are some of the most vulnerable children in foster care because they have been in the custody of DSS more than once. In 2005, 20% of the children entering foster care in Marlboro County had previously been in custody. This is a decrease from 50% in 2004. For children re-entering foster care, the previous location matters. Last year, 67% of the children re-entering care were in the custody of their adoptive or natural parents or another relative.
