Oklahoma National Stockyards Weekly Cattle Summary						Oct			63.23
Compared to last week: Feeder steers and heifers mostly steady to 4.00 lower, with the exception of 650-750 lb steers which traded 2.00 to 3.00 higher. Steer and heifer calves are mostly steady on a light test.						Dec			63.63
Quality is plain to average, with the majority of the supply carrying some ear. Rains last week produced between 0.5 and 4.5 inches across all major regions of the state, with the largest rainfall totals recorded in the Western and Central regions. Although it will take quite a bit more rainfall in the West to bring those producers out of the extreme to exceptional drought categories, last week was a step in the right direction. Supply included 76 percent over 600 lbs and 38 percent heifers.						Mar			63.79
Slaughter cows and bulls steady to 1.00 higher. Packer demand moderate. A total of 347 cows and bulls sold with 52 percent going to packers.						May			64.23
