Mr. Les Boles, Director
Office of State Budget
1122 Lady Street, 12th floor
Columbia, South Carolina 29201

Dear Mr. Boles:

Enclosed please find a hard copy of the Annual Accountability Report for the year ended June 30, 1999 of the South Carolina Department of Labor, Licensing and Regulation. A copy of this report was faxed to your office on October 15, 1999.

During fiscal year 1998, the Department of Labor, Licensing and Regulation began development of a strategic plan. This process helped our agency envision its future and develop the mission, vision, values and broad directives needed to reach our goals. The strategic plan is in the process of being reviewed and updated to reflect the current administration’s direction. Performance measures which track program workload and outcomes continue to be developed. One of my priorities is to ensure a unity of purpose exists within the agency with each employee understanding the agency’s mission and vision and how individual job duties contribute to accomplishing them.

If you have any questions regarding the report, please call Deme Loftis at 896-4313 or me at 896-4390.

Sincerely,

Rita M. McKinney

Enclosure

cc: Deme Loftis w/enclosure
AGENCY HISTORY

The South Carolina Legislature restructured a significant portion of state government in 1993. Effective February 1, 1994, Act 181 created the South Carolina Department of Labor, Licensing and Regulation (LLR) which merged the Department of Labor, the State Fire Marshal's Office, the South Carolina Fire Academy and 38 professional and occupational licensing boards into the new agency. The diverse composition of LLR creates a complex organizational structure with many unique management challenges.

The legislation empowered the Governor to appoint a director of the agency with the advice and consent of the Senate.

LLR is organized into four divisions: Fire and Life Safety, Labor, Professional and Occupational Licensing (POL) and Administration.

MISSION STATEMENT

The mission of the South Carolina Department of Labor, Licensing and Regulation is to promote the safety, health and economic well being of the public through regulation, licensing, enforcement, training and education.

LLR will accomplish this mission by:

- promoting a regulatory climate where businesses and individuals can create jobs and wealth which will in turn benefit our citizens;
• conducting appropriate inspection and complaint investigation programs and, when necessary, pursuing enforcement options as provided by law;

• administering licensing, permitting and certification programs, as provided by law;

• providing appropriate education, information, and outreach programs; and

• serving as the state's fire safety focal point by providing code enforcement, fire safety education, prevention programs and training to volunteer, paid and industrial firefighters.

CRITERIA IN RANKING PROGRAMS

The agency used several factors, including business friendly initiatives, safety of employees and the general public, regulatory requirements and funding, in order to priority rank agency programs.

MAJOR PROGRAM GOALS

• Ensure a unity of purpose exists within the agency with each employee understanding the agency’s mission and vision and how individual job duties contribute to accomplishment of the mission.

• Establish partnerships with employer organizations in order to foster a better understanding of OSHA’s rules and regulations to aid employers in compliance and improvement of the quality of safety and health programs for South Carolina’s workforce.

• Enhance and improve all aspects of course delivery at the Fire Academy to include resident training and props, industrial and public fire service marketing, curriculum, regional training services and administrative support. Expand industry client base to better prepare South Carolina industry for potential hazards.

• Create and maintain a fire safe environment for South Carolina citizens through code enforcement, the expansion of the “Freddie in Schools” fire safety education program, public service announcements and the distribution of smoke alarms.

• Protect the safety, health and well being of the general public by licensing qualified individuals and businesses and establishing education programs for licensees to enhance their performance.

• Ensure compliance with the South Carolina Elevator and Amusement Ride Safety Codes.

COOPERATIVE EFFORTS

- Continued working with local fire departments gathering information for the SC Fire Incident Reporting System.
- Worked with FEMA and the SC Emergency Preparedness Division to develop and deliver anti-terrorism training to all emergency responders including law enforcement statewide.
- Worked with DHEC, DSS and DDSN to distribute 90,000 smoke detectors.
- Worked with USDOL, US Justice Department and DHEC to distribute to growers and farmworkers a video package on compliance with state and federal regulations and immigration information.
- Continued a partnership with the Department of Revenue for the collection of delinquent penalties.
- Worked with ETV on a child labor laws presentation.
- Provided DSS with list of licensees in compliance with "Deadbeat Dad" legislation.
- Worked with Association of General Contractors and ETV on a training seminar for Residential Home Builders and Contractors.
LEADERSHIP SYSTEM

The Leadership team at Labor, Licensing and Regulation consists of Director Rita McKinney and her eight direct reports. They are:
- Deme Loftis, Deputy Director of Administration
- Gene Matthews, Deputy Director of Labor
- Adrienne Youmans, Deputy Director of POL
- Misty Goldstein, Legislative Liaison
- Jay Pitts, Assistant to the Agency Director
- Jim Knight, Director of Public Information
- Deputy Director of Fire and Life Safety (currently being filled)
- Wendy Harvey, General Counsel

This team is responsible for providing the agency with the leadership, resources and direction that will enable the agency to achieve its mission and vision.

The strategic plan developed under Lewis Gossett, the former Director, is in the process of being reviewed and updated to reflect the direction Director McKinney has set for the Department of Labor, Licensing and Regulation. One of Director McKinney’s priorities is to ensure a unity of purpose exists within the agency with each employee understanding the agency’s mission and vision and how individual job duties contribute to accomplishing them.

Strategic Planning Process

During FY98 LLR, with the help of the Institute of Public Affairs at USC, began development of a strategic plan. This process helped the agency envision its future and develop a plan for the future.

Questions asked during the process included:

- What business are we in?  
- Who are our customers?  
- How well are we performing?
- Are we satisfying our key interests?  
- Are we productive and effective in what we do?
LLR conducted an internal assessment and external scan of our customers’ view of our performance and completed a SWOT Analysis (Strengths, Weaknesses, Opportunities and Threats). An agency mission statement as well as vision and values were developed. Strategic issues and broad strategies to deal with these issues were identified.

The existing strategic plan is attached for your review. The executive management team is planning a one-day management retreat during which we will reexamine the vision and values of the agency and then gather input from employee focus groups from each major division of the agency. After the executive management team reviews this input and prepares its response, each division will be asked for input as to how it will implement the requirements of the strategic plan, i.e., how operational goals will be set and performance indicators develop to support the stated strategic goals. Important to this feedback from each division will be information that will be gathered from employee assessment and customer surveys. As performance indicators are developed and reviewed, processes will be continuously analyzed for needed improvement and modification made as necessary. The performance management system will reflect job duties that will impact the agency’s strategic goals.

CUSTOMER FOCUS AND SATISFACTION

During the strategic planning process, LLR identified its customers and their expectations. Our customers and their expectations include:

- **Licensees**
  - Easy, fast and reasonable licensure process
  - Accurate information
  - Due process in disciplinary process

- **General Public**
  - Protection and recourse if they are not protected
  - Accurate information
  - Solution to their problem
  - Fair, reasonable application of laws and regulations

- **People We Regulate**
  - Fair, consistent and reasonable application of laws and regulations
  - Knowledgeable employees
  - Clear understanding of and input into the regulation process
People We Regulate (Cont.) - Accurate and up-to-date information
   Immediate response

Fire Service -
   Top quality, inexpensive, diverse training classes
   Access to agency head
   Immediate response to problems

Board Members -
   Knowledgeable, efficient staff and legal support
   Efficient licensing process
   Lower central administrative support costs
   Legislative assistance

Trainees/Customers -
   Up-to-date and useable curriculum taught by knowledgeable instructors
   Modern, updated facility and equipment
   Certification, professional CEU’s

Agency Employees -
   Consistent and fair application and enforcement of policies
   Adequate and comparable (both internal and external) pay
   Current technology
   Input into processes
   Organizational and management support
   Recognition for abilities and expertise
   Professional development and training
   Career paths

The Department of Labor, Licensing and Regulation is developing an agency-wide plan to monitor customer needs and if they are being met in a satisfactory manner. Several of our programs currently survey their customers in an effort to learn about customer satisfaction, concerns, issues, expectations and future needs or desires.
Currently the State Fire Academy monitors customer satisfaction through student evaluations. These evaluations are taken after each course and monitor several areas including instructor competency, course content, operation of the site/facilities, and technology needs.

On a scale of 1.5 to 5.0, with 5.0 being the highest, the academy rates:

- 4.0 Operation of facility
- 4.5 Instructor knowledge and delivery
- 3.75 Course content

Through the development of our strategic plan, which places great emphasis on process improvement and the development of performance measurements, the Department will be better able to monitor and evaluate:

1) Customer complaints – type, number of and resolution;
2) Effectiveness of programs;
3) Ability of staff to solve problems and communicate both internally and externally their needs and their customers’; and
4) Comparison of services with similar programs (benchmarking).
PRIORITY RANKING: 1

PROGRAM NAME: OSHA Voluntary Programs

PROGRAM COST: State Funds: $229,462
Federal Funds $648,973

PROGRAM GOAL: Establish partnerships with employer organizations in order to foster a better understanding of OSHA’s rules and regulations to aid employers in compliance and improvement of the quality of safety and health programs for South Carolina’s workforce.

PROGRAM OBJECTIVE: Implement Safety Works Campaign to increase awareness of the Office of Voluntary Programs by 25% over the next year.

Respond to 100% of requests for OVP services from companies responding to SAFETY WORKS campaign.

Continue to lead the nation in the number of VPP Palmetto Star Sites in a State Plan state.

Provide training to businesses cited for non-compliance as part of settlement agreement.
