

Results of Professional Examinations

According to Section 59-101-350, the Commission is responsible for collecting "student scores on professional examinations with detailed information on state and national means, passing scores, and pass rates, as available, and with information on such scores over time, and the number of students taking each exam" from four- and two-year institutions to be included in the annual report to the General Assembly. The Commission on Higher education also uses this information as the primary source with which to fulfill requirements in Section 59-103-30 for performance funding to collect information on Instructional Quality and Graduates' Achievements by looking at the scores of graduates on post-undergraduate professional, graduate, or employment-related examinations and certification tests.

Each higher education institution that received research dollars generated by external funding (sponsored research) should report the number of students who benefit from these dollars. The Commission on Higher Education will calculate the percentage using headcount enrollment data from the fall 2007 IPEDS Enrollment forms.
