## Intent to Sole Source

### THERMO SCIENTIFIC PICOSPIN-80 NMR SPECTROMETER

Tri-County Technical College intends to sole source the procurement of a Thermo Scientific picoSpin-80 NMR spectrometer from ThermoFisher Scientific.

The system features a Larmor frequency of 82 MHz, is a bench-top unit with a footprint of less than 1.8 sq. feet, weighs less than 45 lbs which allows it to be easily moved between labs, deuterated solvents are optional, requires a dedicated PC, utilizes push button operation so students can analyze samples in a few minutes which is necessary in teaching labs where numerous students will be analyzing samples, requires microscale quantities which is congruent with our organic labs and does not require liquid nitrogen to cool the magnet so it can be operated at room temperature and doesn't require storage of hazardous materials.

Tri-County Technical College seeks any vendors who can provide a system which meets or exceeds the referenced requirements. Responses will be accepted until 1:00pm on 9/25/2015. Please submit all inquiries and responses to Kristal Doherty at [kdoherly@tctc.edu](mailto:kdoherly@tctc.edu). Your response must include detailed specifications of your unit to demonstrate that it is equal to or exceeds the specifications of the unit detailed above and should include the price of the unit and the delivery time after receipt of an order. This notice of intent, any amendments and the award will be posted at the following web address:
