

South Carolina 2016 Notable State Documents

Conservation efforts, disaster recovery featured among selections

Documents detailing rules for healthy eating, natural disaster recovery efforts, and wildlife conservation efforts were among the 11 publications that made the cut for the latest South Carolina State Library's Notable State Documents list.

The annual award is meant to call attention to the most informative documents released by state agencies in 2016. Awards will be presented to the winning agencies and authors on **March 17** at 10:00 a.m. at the South Carolina State Library in Columbia.

A panel of librarians and state employees selected the documents for inclusion on the list, grading the publications based on their designs, writing styles, and breadth of information. The judges chose a diverse group of documents for recognition.

Director Leesa Aiken said the yearly award showcases some of the strongest work completed by state agencies.

"South Carolina state documents provide a wealth of information, statistics, and share a broad range of knowledge about our state," Aiken said. "I am pleased that we are able to publicly recognize these important publications and websites as notable documents and it is my hope that all South Carolina state agencies continue to produce high quality documents such as these."

Monographs

- South Carolina Department of Health and Environmental Control
INDOOR MOLD After a Severe Weather Event
<http://dc.statelibrary.sc.gov/handle/10827/23244>
Many South Carolina residents are concerned about indoor mold after severe weather events. DHEC has compiled this informational handout with recommendations to guide decisions regarding mold in homes and workplaces.
- South Carolina Forestry Commission
India Market Profile
<https://www.state.sc.us/forest/pubs/india.pdf>
This report summarizes a study conducted by the South Carolina Forestry Commission on the Indian market during the second half of 2015, and it is intended to help the U.S. Southern states' forest products sector (producers, manufacturers, traders and policy-makers) in examining and preparing for the opportunities this market may offer, by providing them with detailed information on India's economics, wood fiber network, trade flows and international contacts.

2014-2015 Progress Report
<http://dc.statelibrary.sc.gov/handle/10827/23775>
 The South Carolina K-12 School Technology Initiative was founded in 1996, as part of the General Assembly's proactive approach to addressing technology infrastructure, connectivity and education in schools. The 2014-2015 Progress Report provides details on student learning, classroom technology, infrastructure & security, professional development, collaboration opportunities, and conclusions.
- South Carolina Vocational Rehabilitation Department
Let's go to work
<http://dc.statelibrary.sc.gov/handle/10827/20552>
 This document communicates the mission of the Vocational Rehabilitation Department to create relationships among individuals, community partners, agencies, non-profits and businesses. It discusses client services, business services, disability determination services and partnerships.
- South Carolina Department of Health and Environmental Control
South Carolina Healthy Comprehensive Planning Project
<http://dc.statelibrary.sc.gov/handle/10827/20510>
 In South Carolina, comprehensive plans are required by state law and help local governments define their vision for future growth and change. The SC Healthy Comprehensive Planning Project began as an opportunity to address healthy eating and active living through community planning on a statewide scale. The evaluation results included in this document create a baseline measurement of healthy eating and active living principles in county comprehensive plans across the state.

Serials

- Santee Cooper
 South Carolina Public Service Authority
