Minority Enrollment Trends in South Carolina

April 2018

2000-2017

Introduction

- ▶ The South Carolina Commission on Higher Education (CHE) is for the first time publishing a report on trends in minority enrollment at South Carolina public institutions of higher education.
- ▶ The data used in this publication is self-reported by institutions through the CHE Management Information System (CHEMIS).
- ▶ Race has been reported in the state of South Carolina differently over the years, based on changes in federal guidelines:
 - ▶ From 2009-onwards, students had the option of selecting two or more races. For consistency, this publication reports individual categories of race separate from two or more races where one is reportedly of a specific race.
 - ▶ As per federal guidelines, Hispanic is reported as an ethnicity and not a race.
 - ▶ Non-Hispanics have the option of selecting one or more races.
 - ▶ Note that adding all of the two or more races pages would lead to an overstatement due to duplication. For that reason, it is preferred to refer to the page on minority enrollments for totals, which is the total enrollments minus the white only enrollments.
- ▶ This report and others can be found on the CHE website <http://www.che.sc.gov>
