

Changing to a New Formula Liquid Concentrate

Most babies will change to a new formula without any problems.

Tips:

- It is best to feed your infant when he or she is hungry.
- Be patient and give your infant time to adjust.
- If you have questions, talk to your WIC staff or health care provider.

Things to Know:

- An infant’s stool may look or smell different when you change formulas.
- An infant may burp or spit up a little while transitioning to the new formula.
- Every formula tastes different, therefore, if your infant tried the new formula and did not like it, try changing the formula gradually.

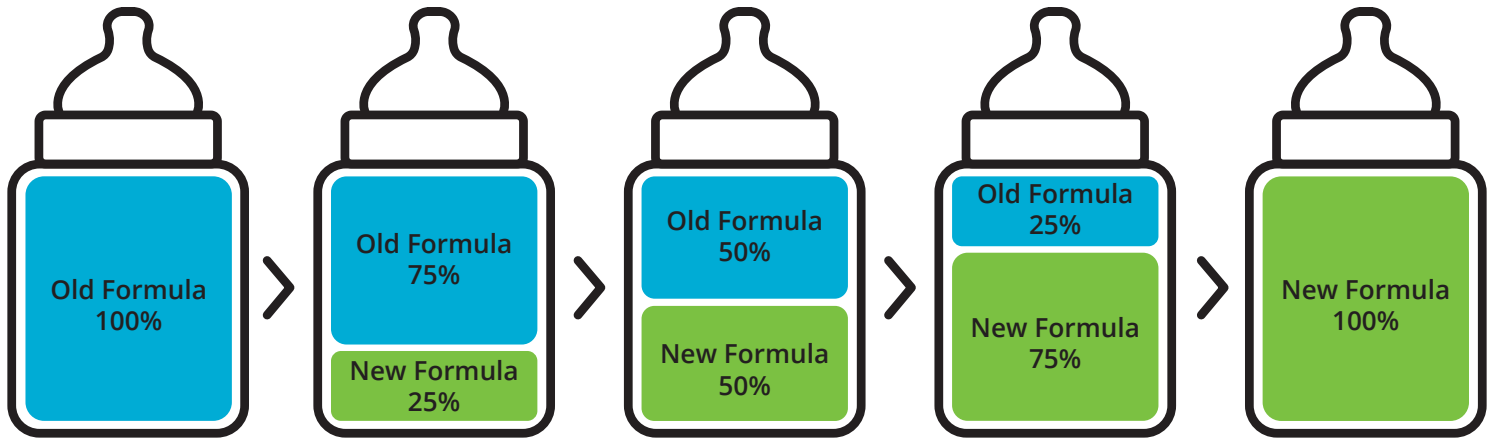

Directions for Helping Your Infant Change to a New Formula:

An infant may need to repeat Day 1 twice before moving to Day 2.

4 oz. Bottle		6 oz. Bottle
