

QUALIFIED PRODUCTS POLICY FOR BONDED FIBER MATRIX (BFM)
QUALIFIED PRODUCTS LIST 65

This policy covers Bonded Fiber Matrix (BFM) for use as erosion control. When certified affidavits and test results from a qualified independent laboratory show a particular BFM meets the SCDOT criteria, that particular product will be listed on Qualified Products List 65. Affidavits and test results shall be required every two years. Only the products that appear on Qualified Products List 65 by the SCDOT Office of Materials and Research, entitled "Qualified BFM" or otherwise accepted by the Engineer shall be used.

Performance Requirements for Bonded Fiber Matrix (BFM)

Refer to the Bonded Fiber Matrix Specifications for BFM material and performance requirements.

Requests for qualification should be submitted to:

G. Michael Lockman
Geotechnical Materials Engineer
SCDOT Office of Materials and Research
PO Box 191
Columbia, SC 29202
(803) 737-6692
