

DIABETES AND ORAL HEALTH

For More Information:
connectingsmilessc.org

Patients with diabetes/ prediabetes should:

- Visit the dentist regularly and discuss existing conditions
- Brush teeth with a fluoride toothpaste twice a day
- Clean between teeth once a day
- Eat a healthy, balanced diet
- Limit foods and drinks that are high in sugar
- Protect teeth from decay by drinking water with fluoride
- Ask dental and medical providers to coordinate care by sharing test results
