

Step by Step: UTILITIES FRAUD

Utility fraud comes in several forms. The most common involves the opening of a fraudulent account — for cable, electricity, water or gas — in a consumer’s name without his or her knowledge. Report fraudulent accounts to the service provider as soon as you discover them.

HOW TO DEAL WITH AFFECTED STUDENT LOANS

STEP BY STEP:

NOTES:

Contact the utility or service provider.

Close the account that the identity thief opened.
 Ask the provider for a letter confirming the account has been closed.

Depending on the type of utility, you will complain to different agencies if problems arise with the utility company. Look below for the different agencies you can contact for assistance with various types of utility accounts.
