Appendix D:	Table of Specifications by School or District for Report Card Data

Section I INTRODUCTION

The *Accountability Manual* is a technical resource to explain South Carolina's public education accountability system. The accountability system is designed to promote high levels of student achievement through strong and effective schools.

This manual addresses the ratings and reporting processes for the November 2008 report cards.

System Preamble and Purposes

The Education Accountability Act of 1998 provides the foundation for the South Carolina accountability system. The enabling legislation in the annotated Code of Laws of South Carolina, 1976, included the following preamble and purposes:

§ 59-18-100. The General Assembly finds that South Carolinians have a commitment to public education and a conviction that high expectations for all students are vital components for improving academic achievement. It is the purpose of the General Assembly in this chapter to establish a performance based accountability system for public education which focuses on improving teaching and learning so that students are equipped with a strong academic foundation. Accountability, as defined by this chapter, means acceptance of the responsibility for improving student performance and taking actions to improve classroom practice and school performance by the Governor, the General Assembly, the State Department of Education, colleges and universities, local school boards, administrators, teachers, parents, students and the community.

§ 59-18-110. The system is to:

- (1) Use academic achievement standards to push schools and students toward higher performance by aligning the state assessment to those standards and linking policies and criteria for performance standards, accreditation, reporting, school rewards, and targeted assistance;
- (2) Provide an annual report card with a performance indicator system that is logical, reasonable, fair, challenging, and technically defensible which furnishes clear and specific information about school and district academic performance and other performance to parents and the public;
- (3) Require all districts to establish local accountability systems to stimulate quality teaching and learning practices and target assistance to low performing schools;
- (4) Provide resources to strengthen the process of teaching and learning in the classroom to improve student performance and reduce gaps in performance;
- (5) Support professional development as integral to improvement and to the actual work of teachers and school staff; and
- (6) Expand the ability to evaluate the system and to conduct in-depth studies on implementation, efficiency and the effectiveness of academic improvement efforts.

Components of the System

Ratings

Beginning with the 2001 report cards, each school and district has received two state accountability system ratings, one for absolute performance level and one for improvement rate:

- ❑ **Absolute Rating:** The level of a school's academic performance on achievement measures for the current school year;
- ❑ **Improvement Rating:** The level of growth in academic performance when comparing current performance to the previous year's performance (based on longitudinally matched student data and on differences between cohorts of students when longitudinal data are not available.) Improvement ratings also reflect reductions in achievement gaps between majority groups and historically underachieving groups of students as well as sustained high levels of school or district achievement.

The five rating terms are Excellent, Good, Average, Below Average, and Unsatisfactory.

- ❑ **Excellent:** School performance substantially exceeds the standards for progress toward the 2010 South Carolina performance goal.
- ❑ **Good:** School performance exceeds the standards for progress toward the 2010 South Carolina performance goal.
- ❑ **Average:** School performance meets the standards for progress toward the 2010 South Carolina performance goal.
- ❑ **Below Average:** School is in jeopardy of not meeting the standards for progress toward the 2010 South Carolina performance goal.
- ❑ **Unsatisfactory:** School performance fails to meet the standards for progress toward the 2010 South Carolina performance goal.

In addition to the state accountability system ratings, each school and district receives an indicator of Adequate Yearly Progress (AYP) based on the requirements of the federal No Child Left Behind (NCLB) legislation. AYP specifies annual targets for the testing and achievement of all students and of specific demographic subgroups. Information regarding the AYP indicators is available from the South Carolina Department of Education (www.ed.sc.gov).

Standards-Based Assessments

The standards-based assessment system used in the development of school ratings includes the grades three through eight Palmetto Achievement Challenge Tests in mathematics, reading/English language arts (ELA), science, and social studies; the revised exit examination (HSAP); and end-of-course assessments for selected high school courses.

For the November 2008 report cards, the following assessments are used in the calculation of school and district ratings:

- ❑ Schools enrolling students only in kindergarten through grade two: Criteria other than assessment data (e.g., prime instructional time, pupil-teacher ratios, parent involvement, external accreditation, early-childhood professional development, percentage of teachers having advanced degrees, and percentage of teachers returning from the previous year) are used for the rating.
- ❑ Schools enrolling students in grades three through five (Elementary): 2007 and 2008 PACT ELA, math, science and social studies data for 2008 report card.
- ❑ Schools enrolling students in grades 6, 7, or 8 (Middle) and schools enrolling students in grades 6, 7, or 8 with grade 9 as the terminal grade: 2007 and 2008 PACT ELA, Math, Science, and Social Studies and 2007-2008 End of Course tests for high school credit courses.
- ❑ Schools enrolling students in grades nine through twelve: first attempt High School Assessment Program (HSAP) results, longitudinal HSAP results, percentages of end-of-course test scores of 70 or higher, and on-time graduation rates.
- ❑ Career and technology centers: Percentages of students mastering core competencies or certification requirements in center courses, along with graduation and placement rates.
- ❑ Special schools: Criteria appropriate for each school's mission.
- ❑ Districts: Assessments used for calculating the ratings for schools enrolling students in grades three through eight and high schools are used to calculate the district ratings. In addition to the assessments, the high school on-time graduation rate is included in the calculation of district ratings. (Note: Assessment results from students attending charter schools authorized by a local school district will be used for calculating ratings for the charter schools but not for the local school district.)

School Profile Information

School or district profiles provide information about aspects of the educational environment over which the school community has influence and that affect performance.

Annual analyses of these and other data elements are to be conducted to determine the relationship to student academic performance.

Flexibility Status

Schools meeting certain requirements may be released from compliance with specific regulations and statutory provisions.

- ❑ For schools with exemplary performance: A school is given the flexibility of receiving exemptions from regulations and statutory provisions governing the defined program provided that, during a three-year period, the following criteria are satisfied:

- the school has twice been a recipient of a Palmetto Gold or Silver Award, pursuant to S.C. Code Ann. § 59-18-1100 (Supp. 2002);
- the school has met annual improvement standards for subgroups of students in reading and mathematics; and
- the school has exhibited no recurring accreditation deficiencies.

Schools receiving flexibility status are released from those regulations and statutory provisions referred to above including, but not limited to, regulations and statutory provisions on class scheduling, class structure, and staffing.

To continue to receive flexibility pursuant to this section, a school must annually exhibit school improvement at or above the state average as computed in the school recognition program pursuant to § 59-18-1100 and must meet the gains required for subgroups of students in reading and mathematics. A school that does not re-qualify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year.

In the event that a school is removed from flexibility status, the school is not subject to regulations and statutory provisions exempted under this section until the beginning of the school year following notification of the change in status by the State Department of Education. Subsequent monitoring by the State Department of Education in a school that is removed from flexibility status will not include a review of program records exempted under this section for the period that the school has received flexibility status or for the school year during which the school was notified of its removal from flexibility status.

- ❑ For schools designated as Unsatisfactory: A school designated as Unsatisfactory while in such status is given the flexibility of receiving exemptions from those regulations and statutory provisions governing the defined program or other State Board of Education regulations dealing with the core academic areas as outlined in § 59-18-120, provided that the review team recommends such flexibility to the State Board of Education.
- ❑ For other schools: Other schools may receive flexibility when their strategic plan explains why such exemptions are expected to improve the academic performance of the students and the plan meets the approval by the State Board of Education. To continue to receive flexibility pursuant to this section, a school must annually exhibit overall school improvement as outlined in its revised plan and must meet the gains set for subgroups of students in reading and mathematics. A school that does not re-qualify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year according to the provisions of § 59-18-1110(D).

Definitions of Critical Terms (S.C. Code Ann. § 59-18-120, Supp. 2006)

Oversight committee: The Education Oversight Committee (EOC) established in Section 59-6-10.

Standards-based assessment: An assessment in which an individual's performance is compared to specific performance standards and not to the performance of other students.

Disaggregated data: Data broken out for specific groups within the total student population, such as by race, gender, and family income level.

Longitudinally matched student data: Data used to examine the performance of a single student or a group of students by considering their test scores over time.

Norm-referenced assessment: Assessments designed to compare student performance to a nationally representative sample of similar students known as the norm group.

Academic achievement standards: Statements of expectations for student learning.

Department: The State Department of Education.

Absolute performance: The rating a school will receive based on the percentage of students meeting standard on the state's standards-based assessment.

Improvement performance: The rating a school will receive based on longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth.

Objective and reliable statewide assessment: Assessments that yield consistent results; that measure the cognitive knowledge and skills specified in the state-approved academic standards; that do not include questions relative to personal opinions, feelings, or attitudes; and that are not biased with regard to race, gender, or socioeconomic status. The assessments must include a writing assessment and multiple-choice questions designed to reflect a range of cognitive abilities beyond the knowledge level. Constructive response questions may be included as a component of the writing assessment.

Division of Accountability: The special unit within the Education Oversight Committee established in Section 59-6-100.

Ratings year: The academic year of the state test data that are incorporated into the performance level rating.

Formative assessment: Assessments used within the school year to analyze general strengths and weaknesses in learning and instruction, to understand the performance of students individually and across achievement categories, to adapt instruction to meet students' needs, and to consider placement and planning for the next grade level. Data and performance from the formative assessments must not be used in the calculation of school or district ratings.

Manual Organization

The organization of this manual is structured to provide state and local education agencies with details regarding the implementation of the accountability system and to enable those agencies to plan for meaningful and accurate data collections, to work with their professional colleagues and public toward understanding of the elements reported, and to ensure that the system improves continuously.

Section II Ratings Criteria

Identification of School/Program Units for Report Cards

Report cards are to be issued for each school or district, to include the following:

- ❑ Each school or district organizational unit assigned a Basic Educational Data System (BEDS) code by the State Department of Education.
- ❑ Each special school operating under the auspices of the State of South Carolina, including those operated by the Department of Juvenile Justice, the Felton Laboratory School at South Carolina State University, the Governor's School for the Arts and Humanities, the Governor's School for Science and Mathematics, the John de la Howe School, the Palmetto Unified School District, the S.C. School for the Deaf and the Blind, and the Wil Lou Gray Opportunity School.
- ❑ Multiple report cards will be issued only if there are sufficient numbers of students in each group to meet the criteria for reporting disaggregated data (see Minimum Size Requirements, page 61 of this manual). When multiple report cards are issued for a school, data elements that are specific to the different grade levels will be different. All other data elements will be identical. In a school with grades seven through twelve, for example, the report card for grades seven and eight will include the number of students enrolled in courses for high school credit, while the report card for grades nine through twelve will include the number of students successfully completing AP/IB courses. Other data, such as attendance rates, will be identical on the two report cards. Each report card will contain unique measures of absolute performance and improvement performance to the extent that the methods that are adopted for those ratings depend on data that are routinely collected by grade level. If data that are not routinely collected by grade level are used to construct or to interpret the ratings, then identical information for these data will appear on all report cards issued for the school.

Superintendents may request that separate report cards be issued for special program units that meet the following criteria and that would not otherwise receive a separate report card:

- The program unit is a multi-grade unit directed toward a purpose (either curriculum, special population, or distinct methodology) housed on the campus of a BEDS-designated school.
- The program unit has an administrative leadership structure separate from the school that houses the program.
- The program unit is acknowledged generally by parents and the public to be separate and distinct from the school that houses the program.
- There is no overlap between the grades served by the program unit, any other program unit housed at the school, and the host school.

Requests for separate report cards must be made to the State Superintendent of Education by the first day of the school year preceding the report card year. The State Superintendent will approve or deny such requests.

- ❑ In districts with only one high school and only one ninth grade school (as defined by separate BEDS Codes), the district superintendent may request of the State

Superintendent of Education by the first day of the school year preceding the report card year that the two schools are to be combined for purposes of the school rating and reporting system. In this circumstance, all performance data and school profile data are to be combined and one report card document is distributed for the two schools. If the district superintendent elects not to request that the data from both schools be combined, both the school containing grade 9 only and the high school will receive report cards listing all data, but only the high school will receive school ratings.

- A typical elementary school is defined as containing kindergarten through grade five; a typical middle school, grades six through eight; a typical high school, grades nine through twelve. Any school that includes a grade on either side of the typical pattern will be viewed as part of that organizational pattern. For example, if a school includes kindergarten through grade six, it will be considered elementary. If a school includes grades five through nine, it will be considered a middle school. If a school includes two or more grades on either side of the typical pattern (e.g., grades four through eight), two report cards will be produced. Due to the differences in data included in ratings for high school grades, any school that contains grade ten and crosses organizational patterns will require at least two report cards.

Criteria for and Calculation of School and District Ratings

Two ratings are to be assigned to schools. The ratings for absolute performance and improvement performance are defined in article 1 of the Education Accountability Act of 1998, Section 59-18-120:

“Absolute performance” means the rating a school will receive based on the percentage of students meeting standard on the state’s standards based assessment.

“Improvement performance” means the rating a school will receive based on longitudinally matched student data comparing current performance to the previous year’s performance for the purpose of determining student academic growth.

As required by the United States Department of Education through passage of the No Child Left Behind legislation, a notice of each school’s attainment of Adequate Yearly Progress (AYP) must be reported. AYP specifies statewide targets for percent tested and achievement to be met by all students and by specific demographic groups. Information on the determination of AYP is available from the South Carolina Department of Education (www.ed.sc.gov).

District rating approaches will parallel those used at the school level. Depending on the method selected, district ratings will be calculated by aggregating student-level data. Student assessment results from the PACT Alternate and HSAP Alternate Assessments will be included in the calculation of the district but not the school ratings. Results from high school end-of-course assessments will be included in the calculation of high school and district ratings following the third administration of the assessments. End-of-course test results were included in the calculation of district ratings beginning in 2006, were included in the high school ratings beginning in 2007, and will be included in the calculation of middle school Absolute ratings beginning in 2008. The on-time high school graduation rate is an additional criterion to test results for calculating high school and school district ratings.

Students Included in the Ratings

- Absolute performance ratings for schools: Any student who is in membership in a school at the time of the 45-day enrollment count and is present in the school on the first day of testing will be included in the absolute performance rating for a school for the ratings year if he or she was enrolled at the time of testing. (Therefore, students in membership but temporarily assigned to an alternative program are counted in the home school.) Students who have taken at least one complete subject area test (e.g., mathematics) will be included. Data from students repeating a grade are included in the calculation of the ratings.

Data from special education students administered the PACT tests with accommodations or modifications will be used for the calculation of school and district ratings. Scores from these students will be treated in the ratings calculations in the same manner as those from PACT administered in its standard format. Data from the results of modified administrations will also be treated in the ratings calculations in the same manner as data from the standard administration of PACT. Data from students administered the PACT Alternate Assessment will be used in the calculation of district ratings only. Data from students having Limited English Proficiency (LEP) will be used in school and district ratings as available in accordance with federal regulations.

- Absolute performance ratings for districts: Any student who is enrolled in a district at the time of the 45-day enrollment count and on the first day of testing will be included in the absolute performance rating for a district for the ratings year, even if he or she has changed schools within the district. All other conditions stipulated for schools will apply for district ratings. The Education Accountability Act was amended in 2006 (Section 59-18-920) to direct that data from students attending a charter school authorized by a local school district are not to be included in the calculation of the local school district ratings. Ratings for charter schools authorized by a local school district are to be reported separately on the school district report card. Ratings for charter schools within the State Charter School District will be reported on the State Charter School District report card.

The student performance data for students attending multi-district schools in which 100 percent of the students have Individualized Education Plans and in which 90 percent or more of the students are assessed with the PACT Alternate or HSAP Alternate Assessments should be included in the data reported for each student's home district. The data from students attending such special schools also will be reported on the special school's report card.

Mobile students are of particular importance to the accountability system. The EOC will study the impact of student mobility on the accountability system.

- Improvement ratings for grades three through eight: Any student will be included if he or she is enrolled in a school (or district) on the forty-fifth day, can be matched to the previous year, and has PACT test scores for both years, even if the student attended a different school during the previous year. The percentage of matched students will be reported on the report card and will be calculated by dividing the number of students for whom current test data were matched with test data from the previous school year by the total number of students for whom current year test data are available. Longitudinally matched data from all PACT subtests (ELA, Math, Science, and Social Studies) will be used for calculating improvement ratings.

Inclusion of Students with Disabilities

The inclusion of students with disabilities in the absolute performance rating is to be accomplished in the following manner:

- ❑ Students with accommodated administrations will be treated identically to students taking PACT in its standard form in absolute school and district ratings.
- ❑ Students taking alternate assessments will be included in the ratings calculation only at the district level.
- ❑ Students taking modified assessments will be factored into the Absolute rating according to the test score earned.

Inclusion of Students with Limited English Proficiency

Students with Limited English Proficiency are tested in accordance with federal guidelines; therefore, students excused from testing by federal rules are excluded from the number of students eligible for testing.

Student Performance Categories

The State Board of Education, through the State Department of Education, is mandated to adopt or develop standards-based assessments in mathematics, English language arts (ELA), science, and social studies for grades three through eight, an exit examination to be first administered in grade ten, and end-of-course tests for gateway courses for grades nine through twelve.

Each test is to be reviewed and approved by the Education Oversight Committee. To date, the mathematics, English language arts, science, and social studies tests for grades three through eight (Palmetto Achievement Challenge Tests, or PACT) and the PACT and high school Alternate Assessments have been reviewed and approved for use. (Results from the PACT science and social studies tests were included in the calculation of the school and district ratings beginning with the November 2005 report card.) The High School Assessment Program (HSAP) in ELA and math and the end-of-course tests in English I, Algebra I/Math for the Technologies II, and Physical Science have also been approved for use and their results were included in the calculation of district ratings beginning in 2006. End-of-course test results were used for the calculation of high school ratings beginning in 2007 and will be used in the calculation of middle school ratings beginning in 2008. First-attempt HSAP results (percent of students scoring at or above the “2” performance level) were used in the calculation of high school and district ratings beginning with the November 2004 report card. The percentage of students scoring at the “2” level or above on both the HSAP tests within two years after taking the tests for the first time (“longitudinal HSAP”) were used in the calculation of the high school and district ratings beginning in 2006.

Baseline administration of PACT ELA and mathematics was conducted in Spring 1999, and baseline administration of PACT Science and Social Studies was conducted in Spring 2003. Based on data collected and a book-marking procedure, performance-level standards were established. Four performance levels—Below Basic, Basic, Proficient, and Advanced—indicate how an individual student is performing based on the curriculum standards assessed by the PACT.

PACT Performance Levels

Below Basic

A student who performs at the Below Basic level on the PACT has not met minimum expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is not prepared for work at the next grade and must have an academic assistance plan; local district board policy will determine the student's promotion to the next grade level.

Basic

Performance at the Basic level means a student has passed the test. A student who performs at the Basic level on the PACT has met minimum expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is minimally prepared for work at the next grade.

Proficient

A student who performs at the Proficient level on the PACT has met expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is well prepared for work at the next grade. The Proficient level represents the long-term goal for student performance in South Carolina.

Advanced

A student who performs at the Advanced level on the PACT has exceeded expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is very well prepared for work at the next grade.

Ratings for Schools Enrolling Students in Only Grade Two or Below

During the 2005–2006 school year, 29 schools served students enrolled in only grade two or below. These schools pose a complex challenge to the accountability system. Achievement testing is neither required nor recommended. The education of young children involves assisting them with developmental tasks as well as the acquisition of content that is the focus of upper grades. The model for accountability recommended below focuses not on test behaviors but on other correlates of school success. The model focuses on teacher behaviors, on classroom and school practices, and on parental and child behaviors that research indicates are related to school success.

Ratings Criteria

In 2005 the primary school ratings criteria were reviewed by Education Oversight Committee (EOC) staff and by an advisory committee composed of primary school principals and other early childhood educators. The purpose of the review was to develop recommendations regarding revisions of the criteria needed to improve their accuracy and usefulness for evaluating primary school quality. The process followed for this review of the primary school ratings involved three steps:

- A review of the research literature pertaining to the measurement of the quality and performance of primary schools;
- An analysis of South Carolina primary and elementary school performance and school profile data;
- Consultation with a Primary Ratings Advisory Committee to review the research and data analyses and identify appropriate criteria for determining primary school ratings.

Based on the findings from this process, recommendations for the revision of the ratings were adopted by the EOC in February 2006 to include the following criteria:

- ❑ Prime instructional time: Prime instructional time is a measure of the amount of school instructional time during which both teachers and students are present and is calculated in the same manner as for other South Carolina schools. (See section C of the *Accountability Manual* for the formula.)
- ❑ Pupil-teacher ratios: Pupil-teacher ratio is calculated by dividing the number of students enrolled in the school on the forty-fifth day of school by the total number of teachers in the school (excluding counselors, librarians, administrative personnel, specialists, and teachers of the arts, physical education, or special education).
- ❑ Parent involvement: Involvement is calculated by dividing the number of students in the schools whose parents/guardians attend at least one individual parent conference (unduplicated count) during the school year by the 135th-day average daily membership (ADM).
- ❑ External accreditation: Accreditation that is early childhood specific is determined by application and/or receipt of accreditation. The scale ranges from State Department of Education accreditation through early childhood specific accreditation by the Southern Association of Colleges and Schools to the accreditation by the American Montessori Society or the National Association for the Education of Young Children.
- ❑ Professional development: The professional development time devoted exclusively to knowledge and skills working with young children (less than eight years) is calculated.
- ❑ Percentage of teachers having advanced degrees: Percentage of teachers having advanced degrees, a measure of the qualifications of the teachers in the school, is calculated in the same manner as for other South Carolina schools. (See section C of the *Accountability Manual* for the formula.)
- ❑ Percentage of teachers returning from the previous school year: Percentage of teachers returning from the previous school year, a measure of the instructional continuity and stability, is calculated in the same manner as for other South Carolina schools. (See section C of the *Accountability Manual* for the formula.) Note: To ensure that sufficient data are available, this variable is calculated only for schools that have been in operation for four years or more, so ratings will not be calculated for primary schools in operation for less than four years.

Absolute Rating Calculation

The Absolute ratings are calculated using a mathematical formula that results in an index. The absolute index is calculated using a mathematical formula in which point weights are assigned to the ratings criteria listed in the following table:

Absolute Ratings Criteria for Schools with Only Grade Two or Below

Criterion (Weight)	Points Assigned				
	5	4	3	2	1
Prime Instructional Time (14.3%)	95.2% or greater	91.4–95.1%	83.8–91.3%	80.0–83.7%	Less than 80.0%
Pupil-Teacher Ratio (14.3%)	21 or less	22-25	26-30	31-32	Greater than 32
Parent Involvement (14.3%)	99.9% or greater	99.3–99.8 %	97.6–99.2%	96.8–97.5%	Less than 96.8%
External Accreditation (14.3%)	NAEYC or Montessori	SDE and SACS-early childhood	SDE	Conducting self-study	Not pursuing accreditation
Professional Development on Educational Needs of Children Under 8 Years of Age (14.3%)	1.5 days or greater	1.0 to 1.5 days	1.0 day	0.5 to 0.9 days	Less than 0.5 day
Teachers with Advanced Degrees (14.3%)	80.3% or greater	66.6-80.2%	39.2-66.5%	25.5-39.1%	Less than 25.5%
Teachers Returning from Previous Year (14.3%)	99.1% or greater	93.7-99.0%	82.8-93.6%	77.3-82.7%	Less than 77.3%

The index is calculated by adding the points (weights or values) assigned to each rating criterion in the table above and dividing the total points by the number of criteria (7) used to calculate the ratings. The index is then rounded to the nearest one-tenth of a point.

The resulting index determines the school's Absolute rating as follows:

Index Values for Determining Absolute Ratings

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2007	3.8 and above*	3.4–3.7*	3.0–3.3	2.6–2.9	Below 2.6
2008	3.9 and above*	3.5–3.8*	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above*	3.6–3.9*	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above*	3.7–4.0*	3.3–3.6	2.9–3.2	Below 2.9

*School must meet the state's Adequate Yearly Progress (AYP) objectives for the category "all students." (Application of adjustment pending approval of AYP methodology for PK-2 schools by US department of Education.)

However, in schools with an Excellent or Good rating based on the index, the rating will be lowered one level if the school did not achieve AYP (i.e., the AYP performance and percent-tested criteria must be met) for the category “all students” for the same school year as the Absolute ratings. Absolute ratings will not be decreased if AYP for subgroups is not met when AYP based on “all students” has been achieved. For example, if a school had an absolute index of 3.8 in 2007 but did not achieve AYP for “all students” in 2007, its rating would be lowered from Excellent to Good. A school in 2007 with an index of 3.4 that did not achieve AYP for “all students” in 2007 would be awarded an Absolute rating of Average rather than Good.

Sample Calculation of an Absolute Rating for a K–2 Only School

Prime instructional time is 92 percent:	4 points
Pupil-teacher ratio is 26 to 1:	3 points
Parent involvement is 65 percent:	1 point
External accreditation from SDE:	3 points
Professional development is .5 day:	2 points
Teachers with advanced degrees is 80%:	4 points
Teachers returning is 91%:	<u>3 points</u>
Total Points:	20 points
Divided by 7 (number of criteria):	2.9 Index
Absolute Rating:	Below Average

Note: This school's index of 2.9 corresponds to a Below Average Absolute rating through the year 2010.

Additional Step if Absolute Rating is Excellent or Good:

Did the school meet AYP for the category “all students?” Yes/No.

If the school’s Absolute rating is Excellent or Good but the school did not meet AYP for “all students,” the Absolute rating would be lowered by one level—from Excellent to Good or from Good to Average.

Improvement Rating Values

For schools enrolling students in only grade two or below, the Improvement rating will be calculated based upon the change in the absolute performance rating index from year to year.

Note: Longitudinal student data are not available.

The Improvement ratings are calculated using a mathematical formula that results in an index. The index is calculated by subtracting the school’s Absolute rating index for the prior year from the Absolute rating index for the year on which the report card is based. The amount of change determines the rating as follows:

Improvement Rating Index Values

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Sample Calculation of an Improvement Rating for a K–2 School

Absolute ratings index for school year for which report card is based:	2.4	
Absolute rating index for the prior school year:		<u>-2.2</u>
	Difference:	0.2
	Improvement Rating:	Average

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for absolute achievement for both the current and immediately previous years, the school will receive an Improvement rating of Good. If the school's improvement index is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

Ratings for Schools Enrolling Students in Grades Three through Eight

Schools enrolling students in grades three through eight will receive ratings in accordance with the grade organization patterns and rules established in the *Accountability Manual*

Absolute Performance Rating

The absolute performance level is calculated on the basis of a weighted model in which student performance weights are assigned. A weighted model is one in which the percentage of student scores in each PACT performance level category is weighted to represent the importance of scoring in that category, as follows: Advanced, five points; Proficient, four points; Basic, three points; Below Basic 2, two points; and Below Basic 1, one point. (The Below Basic performance category has been split into two subcategories—Below Basic 2 and Below Basic 1—so that improvement among low-scoring students is recognized.) The determination for the break point for Below Basic 2 and Below Basic 1 is two standard errors of measurement below the Basic cut point. The standard error of measurement values used were published in the *Technical Documentation for the 1999 Palmetto Achievement Challenge Tests of English Language Arts and Mathematics, Grades Three through Eight* (Huynh et al., 2000) for English Language Arts and Mathematics and the *Technical Documentation for the 2003 Palmetto Achievement Challenge Tests of English Language Arts, Mathematics, Science, and Social Studies* (SDE, no date) for Science and Social Studies. The following tables provide the score ranges and cut points for each score category for each grade and subject area. Score ranges and cut points for the four performance levels were determined by the State Department of Education.

**PACT English Language Arts Cut-Off Scale Scores

Act 254 of 2006 modified the administration of PACT and the use of PACT results in the calculation of school and district ratings by specifying that PACT Science and Social Studies tests would be census-tested for one elementary and one middle grade level, with sampling at the remaining grades, and that different weightings of the subject areas for the calculation of the ratings would be applied for different grade levels, as shown in the table below.

PACT Sampling and Weights for Absolute and Improvement Ratings

Grade Levels	Subject	2006-2007 and Beyond Sample Size	2006-2007 and Beyond Absolute Rating Weight	2006-2007 and Beyond Improvement Rating Weight
3 & 5	ELA	Census	30%	30%
3 & 5	Math	Census	30%	30%
3 & 5	Science	50% Sample	20%	20%
3 & 5	Social Studies	50% Sample	20%	20%
4	ELA	Census	30%	30%
4	Math	Census	30%	30%
4	Science	Census	20%	20%
4	Social Studies	Census	20%	20%
6 & 8	ELA	Census	25%	25%
6 & 8	Math	Census	25%	25%
6 & 8	Science	50% Sample	25%	25%
6 & 8	Social Studies	50% Sample	25%	25%
7	ELA	Census	25%	25%
7	Math	Census	25%	25%
7	Science	Census	25%	25%
7	Social Studies	Census	25%	25%

In addition to PACT results, in June 2007 the Education Oversight Committee approved the use in the Absolute ratings of state high school credit course End of Course test results administered in middle schools (a report on the methodology and on its impact based on data

simulations is available on the EOC web site at <http://eoc.sc.gov/reportsandpublications/reports.htm>. The methodology adopted combines PACT and End of Course test results in the calculation of middle school Absolute ratings in the same way as the methodology currently used for calculating Absolute ratings based on PACT results alone.

The calculation of middle school ratings based on both PACT and End of Course data is accomplished by converting individual student End of Course test scores to the same 1 to 5 point scale used for the PACT test score data. The conversion of End of Course test scores to the 1 – 5 point scale is accomplished based on the table below:

**Conversion of End of Course Test Scores
To 1 to 5 Point Scale Used for Calculation of Middle School Absolute Ratings**

End of Course Test Score	Point Value for Calculating Rating
A	5
B	4
C	3
D	2
F	1

Once the individual student End of Course test scores are converted to the 1 – 5 point scale, the End of Course test points are treated in the calculation of the index for the Absolute rating in the same way as PACT scores for each grade and subject area. Algebra I scores are combined with PACT Math scores, English I scores are combined with PACT ELA scores, and Physical Science (and Biology I when this testing is resumed) scores are combined with PACT Science scores. Since there are no End of Course test scores in Social Studies administered at the middle school level, only PACT Social Studies data are available for the rating calculations.

For schools containing grades 6, 7, or 8 or 6, 7, 8, or 9 (as the terminal grade), an index based on the combined PACT and End of Course points is calculated for each subject area by adding up the total number of points scored (the numerator) and dividing by the total number of student scores (denominator). The subject area indexes are combined based on the weightings specified in Act 254 for the calculation of the overall school Absolute index.

In schools having any grades 3, 4, or 5 in addition to grades 6, 7, or 8, the methodology conforms to the requirement in Act 254 that subject areas be weighted differently in grades 3-5 than in grade 6 or above. English language arts and mathematics are weighted 30% each and science and social studies are weighted 20% each in grades 3 through 5 in the calculation of the Absolute rating index. The four subject areas are weighted 25% each in grade 6 or above.

Calculation of Absolute Ratings for Schools Enrolling Students in Grades Three through Eight

Ratings are calculated using a mathematical formula that results in an index reflecting the average performance level of students in the school. The index is calculated using the following mathematical formula:

- (1) Multiply the points assigned to each of the five PACT score categories and to each of the five End of Course test score categories (if End of Course test results are available for the school) by the number of student scores falling into each of those categories for each subject area tested.

Test scores for students who should be tested but were not are assigned a point value of zero.

- (2) Calculate an absolute index for each subject area by dividing the sum of the point scores by the number of students tested.
- (3) Multiply the absolute index calculated for each test by the appropriate weight from the table below for the grade levels and add totals.

**PACT Science and Social Studies Weights
Elementary and Middle School Absolute Ratings**

Year	Grades 3-5 (Elementary Schools)				Grades 6-8 (Middle Schools)			
	ELA	Math	Science	Social Studies	ELA	Math	Science	Social Studies
2006-2007 and beyond	30%	30%	20%	20%	25%	25%	25%	25%

- (4) Round the sum of the weighted indexes to the nearest tenth. A school index is calculated by calculating the average of the grade level indexes, with the grades 3-5 index weighted by the number of test scores in grades 3-5, and the grade 6 and above index weighted by the number of test scores in grades 6 and above. These two values are summed (numerator), and the sum is divided by the total number of PACT and End of Course records available across all the grades (denominator).

Note on rounding: Rounding is used when determining the final Absolute rating index. Rounding was implemented to establish clear cut-off points between each rating category. The index is rounded to the tenths place. If the calculated index results in a decimal having values in the hundredths place or beyond, the value in the hundredths place is examined to determine if the value in the tenths place is to be rounded up to the next higher tenth. The value in the tenths place is rounded up if the hundredths values range from 0.05 through 0.09.

Examples:

- 3.34 rounds to 3.3
- 3.35 rounds to 3.4
- 3.349 rounds to 3.3
- 3.351 rounds to 3.4

- (5) The rounded index calculated in step 4 is the absolute index for assigning the Absolute rating. Identify the school's Absolute rating corresponding to the absolute index for the current year in the following table:

Index Values for Determining Absolute Ratings

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2007	3.8 and above*	3.4–3.7*	3.0–3.3	2.6–2.9	Below 2.6
2008	3.9 and above*	3.5–3.8*	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above*	3.6–3.9*	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above*	3.7–4.0*	3.3–3.6	2.9–3.2	Below 2.9

*School must meet the state’s Adequate Yearly Progress (AYP) objectives for the category “all students.”

(6) Determine whether the school met the AYP goal for the category “all students.”

The index (step four, above) determines the school’s Absolute rating. However, in schools with an Excellent or Good rating based on the index, the rating will be lowered one level if the school did not achieve AYP (i.e., the AYP performance and percent-tested criteria must be met) for the category “all students” for the same school year as the Absolute ratings. Absolute ratings will not be decreased if AYP for subgroups is not met when AYP based on “all students” has been achieved. For example, if a school had an absolute index of 3.8 in 2007 but did not achieve AYP for “all students” in 2007, its rating would be lowered from Excellent to Good. A school in 2007 with an index of 3.4 that did not achieve AYP for “all students” in 2007 would be awarded an Absolute rating of Average rather than Good.

The EOC is committed to a phase-in of the criteria as shown in the table above. Rigor will increase annually until the ratings definitions reach the 2010 target.

Example Calculations of 2008 Absolute Ratings for Elementary and Middle Schools

Example A: Calculation of Absolute Rating Using Both PACT and End of Course Test Data for School Containing Grades 6, 7, and 8

Smith Middle School contains grades 6, 7, and 8. There are 100 students attending grade 8 in Smith Middle School. Twenty of those students took the Algebra I high school credit course. All 100 students took the PACT Math test, and 20 of those students also took the Algebra I End of Course test. The school has 120 scores for mathematics in grade 8. The students’ PACT Math and Algebra I scores on the two tests are recorded below:

PACT Math Performance (Points)	Number of Scores		Algebra I Performance (Points)	Number of Scores
Advanced (5)	10		A (5)	8
Proficient (4)	20		B (4)	5
Basic (3)	45		C (3)	4
Below Basic 2 (2)	15		D (2)	2
Below Basic 1 (1)	10		F (1)	1

Similarly, 20 of the students enrolled in grade 8 also took the English I high school credit course and all 100 took PACT ELA. Thus the school also has 120 scores in ELA in grade 8. The students' scores on PACT ELA and English I tests are recorded below:

PACT ELA Performance (Points)	Number of Scores		English I Performance (Points)	Number of Scores
Advanced (5)	5		A (5)	4
Proficient (4)	30		B (4)	6
Basic (3)	45		C (3)	6
Below Basic 2 (2)	10		D (2)	3
Below Basic 1 (1)	10		F (1)	1

None of the grade 8 students took the Physical Science high school credit course, so none took the Physical Science End of Course test. PACT Science and Social Studies tests were administered to random 50% samples of grade 8 students, so 50 students took Science and the other 50 took Social Studies. The eighth graders' scores on the PACT Science and Social Studies tests are recorded below:

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	1		Advanced (5)	3
Proficient (4)	7		Proficient (4)	13
Basic (3)	22		Basic (3)	22
Below Basic 2 (2)	10		Below Basic 2 (2)	7
Below Basic 1 (1)	10		Below Basic 1 (1)	5

Smith Middle School enrolled 110 students in grade 7 and 105 students in grade 6. Since grade 7 is census-tested, all 110 students in grade 7 took both Science and Social Studies. PACT Science and Social Studies are sampled in grade 6, and 52 sixth graders took Science and 53 took Social Studies. There were no End of Course tests administered in grades 6 and 7 in Smith Middle School.

The PACT results for students in grade 7 are listed below.

PACT ELA Performance (Points)	Number of Scores		PACT Math Performance (Points)	Number of Scores
Advanced (5)	3		Advanced (5)	15
Proficient (4)	25		Proficient (4)	20
Basic (3)	49		Basic (3)	48
Below Basic 2 (2)	17		Below Basic 2 (2)	14
Below Basic 1 (1)	16		Below Basic 1 (1)	13

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	13		Advanced (5)	12
Proficient (4)	17		Proficient (4)	15
Basic (3)	33		Basic (3)	42
Below Basic 2 (2)	27		Below Basic 2 (2)	26
Below Basic 1 (1)	20		Below Basic 1 (1)	15

The PACT results for students in grade 6 are listed below.

PACT ELA Performance (Points)	Number of Scores		PACT Math Performance (Points)	Number of Scores
Advanced (5)	7		Advanced (5)	16
Proficient (4)	25		Proficient (4)	23
Basic (3)	40		Basic (3)	44
Below Basic 2 (2)	17		Below Basic 2 (2)	11
Below Basic 1 (1)	16		Below Basic 1 (1)	11

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	6		Advanced (5)	8
Proficient (4)	7		Proficient (4)	13
Basic (3)	14		Basic (3)	20
Below Basic 2 (2)	12		Below Basic 2 (2)	7
Below Basic 1 (1)	13		Below Basic 1 (1)	5

The index for each subject area across grades 6, 7, and 8 is calculated:

Index for Mathematics:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	49	245
4	68	272
3	141	423
2	42	84
1	35	35
Totals	335	1059

Index = Total Point Weights / Total Number of Scores

Math Index = $1059/335 = 3.1611$

Index for ELA:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	19	95
4	86	344
3	140	420
2	47	94
1	43	43
Totals	335	996

Index = Total Point Weights / Total Number of Scores

ELA Index = $996/335 = 2.9731$

Index for Science:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	20	100
4	31	124
3	69	207
2	49	98
1	43	43
Totals	212	572

Index = Total Point Weights / Total Number of Scores
 Science Index = 572/212 = 2.6981

Index for Social Studies:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	23	115
4	41	164
3	84	252
2	40	80
1	25	25
Totals	213	636

Index = Total Point Weights / Total Number of Scores
 Social Studies Index = 636/213 = 2.9859

The overall absolute index for the school is calculated by averaging the four subject-area indexes, giving each subject area index equal weighting.

$$\text{School Index} = (\text{Math Index} + \text{ELA Index} + \text{Science Index} + \text{Social Studies Index}) / 4$$

Smith Middle School Absolute Index:

$$(3.1611 + 2.9731 + 2.6981 + 2.9859) / 4 = 2.9545$$

The absolute index is rounded to the nearest tenth of a point and compared to the values in the following table to determine the rating.

Index Values for Determining Absolute Ratings

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2008	3.9 and above*	3.5–3.8*	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above*	3.6–3.9*	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above*	3.7–4.0*	3.3–3.6	2.9–3.2	Below 2.9

*School must meet the state’s Adequate Yearly Progress (AYP) objectives for the category “all students.”

The Smith Middle School absolute index of 2.9545 rounds to 3.0. Based on the table, an index of 3.0 in 2008 corresponds to an Absolute rating for Smith Middle School of “Below Average.”

Additional Step if Absolute Rating is Excellent or Good:

Did the school meet AYP for the category “all students?” Yes/No.

If the school’s Absolute rating is Excellent or Good but the school did not meet AYP for “all students,” the Absolute rating would be lowered by one level—from Excellent to Good, or from Good to Average.

Example B: Calculation of Absolute Rating Using Both PACT and End of Course Test Data for School Containing Grades 5, 6, 7, and 8

Jones Middle School contains grades 5, 6, 7, and 8. There are 100 students attending grade 8 in Jones Middle School. Twenty of those students took the Algebra I high school credit course. All 100 students took the PACT Math test, and 20 of those students also took the Algebra I End of Course test. The school has 120 scores for mathematics in grade 8. The students’ PACT Math and Algebra I scores on the two tests are recorded below:

PACT Math Performance (Points)	Number of Scores		Algebra I Performance (Points)	Number of Scores
Advanced (5)	10		A (5)	8
Proficient (4)	20		B (4)	5
Basic (3)	45		C (3)	4
Below Basic 2 (2)	15		D (2)	2
Below Basic 1 (1)	10		F (1)	1

Similarly, 20 of the students enrolled in grade 8 also took the English I high school credit course and all 100 took PACT ELA. Thus the school also has 120 scores in ELA in grade 8. The students’ scores on PACT ELA and English I tests are recorded below:

PACT ELA Performance (Points)	Number of Scores		English I Performance (Points)	Number of Scores
Advanced (5)	5		A (5)	4
Proficient (4)	30		B (4)	6
Basic (3)	45		C (3)	6
Below Basic 2 (2)	10		D (2)	3
Below Basic 1 (1)	10		F (1)	1

None of the grade 8 students took the Physical Science high school credit course, so none took the Physical Science End of Course test. PACT Science and Social Studies tests were administered to random 50% samples of grade 8 students, so 50 students took Science and the other 50 took Social Studies. The eighth graders’ scores on the PACT Science and Social Studies tests are recorded below:

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	1		Advanced (5)	3
Proficient (4)	7		Proficient (4)	13
Basic (3)	22		Basic (3)	22
Below Basic 2 (2)	10		Below Basic 2 (2)	7
Below Basic 1 (1)	10		Below Basic 1 (1)	5

Jones Middle School enrolled 110 students in grade 7, 105 students in grade 6, and 100 students in grade 5. Since grade 7 is census-tested, all 110 students in grade 7 took both Science and Social Studies. PACT Science and Social Studies are sampled in grade 6, and 52 sixth graders took Science and 53 took Social Studies. The same subject areas are also sampled in grade 5, so 50 fifth graders took Science and 50 took Social Studies. There were no End of Course tests administered in grades 6 and 7 in Jones Middle School.

The PACT results for students in grade 7 are listed below.

PACT ELA Performance (Points)	Number of Scores		PACT Math Performance (Points)	Number of Scores
Advanced (5)	3		Advanced (5)	15
Proficient (4)	25		Proficient (4)	20
Basic (3)	49		Basic (3)	48
Below Basic 2 (2)	17		Below Basic 2 (2)	14
Below Basic 1 (1)	16		Below Basic 1 (1)	13

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	13		Advanced (5)	12
Proficient (4)	17		Proficient (4)	15
Basic (3)	33		Basic (3)	42
Below Basic 2 (2)	27		Below Basic 2 (2)	26
Below Basic 1 (1)	20		Below Basic 1 (1)	15

The PACT results for students in grade 6 are listed below.

PACT ELA Performance (Points)	Number of Scores		PACT Math Performance (Points)	Number of Scores
Advanced (5)	7		Advanced (5)	16
Proficient (4)	25		Proficient (4)	23
Basic (3)	40		Basic (3)	44
Below Basic 2 (2)	17		Below Basic 2 (2)	11
Below Basic 1 (1)	16		Below Basic 1 (1)	11

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	6		Advanced (5)	8
Proficient (4)	7		Proficient (4)	13
Basic (3)	14		Basic (3)	20
Below Basic 2 (2)	12		Below Basic 2 (2)	7
Below Basic 1 (1)	13		Below Basic 1 (1)	5

The PACT results for students in grade 5 are listed below.

PACT ELA Performance (Points)	Number of Scores		PACT Math Performance (Points)	Number of Scores
Advanced (5)	3		Advanced (5)	16
Proficient (4)	31		Proficient (4)	18
Basic (3)	46		Basic (3)	42
Below Basic 2 (2)	10		Below Basic 2 (2)	13
Below Basic 1 (1)	10		Below Basic 1 (1)	11

PACT Science Performance (Points)	Number of Scores		PACT Social Studies Performance (Points)	Number of Scores
Advanced (5)	8		Advanced (5)	7
Proficient (4)	6		Proficient (4)	6
Basic (3)	17		Basic (3)	19
Below Basic 2 (2)	10		Below Basic 2 (2)	10
Below Basic 1 (1)	9		Below Basic 1 (1)	8

First, the index for each subject area across grades 6, 7, and 8 is calculated:

Index for Mathematics, grades 6-8:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	49	245
4	68	272
3	141	423
2	42	84
1	35	35
Totals	335	1059

Index = Total Point Weights / Total Number of Scores

Grade 6-8 Math Index = 1059/335 = 3.1611

Index for ELA, grades 6-8:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	19	95
4	86	344
3	140	420
2	47	94
1	43	43
Totals	335	996

Index = Total Point Weights / Total Number of Scores
 Grade 6-8 ELA Index = $996/335 = 2.9731$

Index for Science, grades 6-8:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	20	100
4	31	124
3	69	207
2	49	98
1	43	43
Totals	212	572

Index = Total Point Weights / Total Number of Scores
 Grade 6-8 Science Index = $572/212 = 2.6981$

Index for Social Studies, grades 6-8:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	23	115
4	41	164
3	84	252
2	40	80
1	25	25
Totals	213	636

Index = Total Point Weights / Total Number of Scores
 Grade 6-8 Social Studies Index = $636/213 = 2.9859$

The overall absolute index for grades 6, 7, and 8 is calculated by averaging the four subject area indexes, giving each subject area index equal weighting.

$$\text{Index} = (\text{Math Index} + \text{ELA Index} + \text{Science Index} + \text{Social Studies Index}) / 4$$

Jones Middle School Absolute Index for grades 6, 7, and 8:

$$(3.1611 + 2.9731 + 2.6981 + 2.9859) / 4 = 2.9545$$

Now, the index for each subject area in grade 5 is calculated:

Index for Mathematics, grade 5:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	16	80
4	18	72
3	42	126
2	13	26
1	11	11
Totals	100	315

Index = Total Point Weights / Total Number of Scores
 Grade 5 Math Index = $315/100 = 3.1500$

Index for ELA, grade 5:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	3	15
4	31	124
3	46	138
2	10	20
1	10	10
Totals	100	307

Index = Total Point Weights / Total Number of Scores
 Grade 5 ELA Index = $307/100 = 3.0700$

Index for Science, grade 5:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	8	40
4	6	24
3	17	51
2	10	20
1	9	9
Totals	50	144

Index = Total Point Weights / Total Number of Scores
 Grade 5 Science Index = $144/50 = 2.8800$

Index for Social Studies, grade 5:

Point Weights	Number Scores At Each Point Weight	Point Weight <i>multiplied by</i> Number of Scores
5	7	35
4	6	24
3	19	57
2	10	20
1	8	8
Totals	50	144

Index = Total Point Weights / Total Number of Scores

Grade 5 Social Studies Index = $144/50 = 2.8800$

The overall absolute index for grade 5 is calculated by averaging the four subject-area indexes, using the following subject area weightings:

Grade 5 Index = $(0.3 \times \text{Math Index}) + (0.3 \times \text{ELA Index}) + (0.2 \times \text{Science Index}) + (0.2 \times \text{Social Studies Index})$

Jones Middle School Absolute Index for grade 5:

$(0.3 \times 3.1500) + (0.3 \times 3.0700) + (0.2 \times 2.8800) + (0.2 \times 2.8800) = 3.0180$

The overall absolute index for the school is calculated by averaging the index for grades 6 through 8 with the index from grade 5, weighting the indexes by the total number of scores for the two sets of grade levels and dividing by the total number of scores in the school.

Overall School Index *equals*

$$\frac{\begin{aligned} &((\text{Grades 6 through 8 Index} \times \text{Total Number Scores in Grades 6-8}) \\ &\quad \textit{plus} \\ &(\text{Grade 5 Index} \times \text{Total Number Scores in Grade 5})) \\ &\quad \textit{divided by} \\ &((\text{Total Number Scores in Grades 6 through 8}) \\ &\quad \textit{plus} \\ &(\text{Total Number Scores in Grade 5})) \end{aligned}}$$

Jones Middle School Absolute Index:

$$((2.9545 \times 1095) + (3.0180 \times 300)) / (1095 + 300) = 2.9681$$

The absolute index is rounded to the nearest tenth of a point and compared to the values in the following table to determine the rating.

Index Values for Determining Absolute Ratings

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2008	3.9 and above*	3.5–3.8*	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above*	3.6–3.9*	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above*	3.7–4.0*	3.3–3.6	2.9–3.2	Below 2.9

*School must meet the state’s Adequate Yearly Progress (AYP) objectives for the category “all students.”

The Jones Middle School absolute index of 2.9681 rounds to 3.0. Based on the table, an index of 3.0 in 2008 corresponds to an Absolute rating for Jones Middle School of “Below Average.”

Additional Step if Absolute Rating is Excellent or Good:

Did the school meet AYP for the category “all students?” Yes/No.

If the school's Absolute rating is Excellent or Good but the school did not meet AYP for "all students," the Absolute rating would be lowered by one level—from Excellent to Good, or from Good to Average.

Improvement Rating

The Education Accountability Act provides that the EOC may consider the performance of subgroups of students in the school in the Improvement ratings. Improvement ratings are based on longitudinally matched student data.

Calculation of the Improvement Index

- (1) For the students who qualify for inclusion (e.g., those students for whom both current- and prior-year PACT scores are available and who were enrolled in the school by the forty-fifth day of the current school year), absolute indexes for the current year and for the prior year should be computed. End of Course test scores from high school courses in middle schools are not included in the calculation of middle school Improvement ratings because, since students typically take such courses only once in middle school, longitudinal data are not available. The absolute indexes for each year are calculated in a similar way as the absolute performance index, but the points assigned to PACT scores are selected from the following tables:

**English Language Arts (ELA)

The appropriate point weight corresponding to each student’s ELA, Math, Science, and Social Studies PACT score is determined from the tables on pages 30-33, and the point weights are summed and averaged as in the calculation of the absolute index. These calculations are carried out for matched longitudinal data for both the current and prior year. As with the Absolute ratings, the subject areas receive different weightings in grades 3-5 and grades 6-8. The following table lists the subject area weights used for calculating the Improvement rating index for grades 3-5 (elementary schools) and grades 6-8 (middle schools).

**PACT ELA, Math, Science, and Social Studies Weights
Elementary and Middle School Improvement Ratings**

Grades 3-5 (Elementary Schools)				Grades 6-8 (Middle Schools)			
ELA	Math	Science	Social Studies	ELA	Math	Science	Social Studies
30%	30%	20%	20%	25%	25%	25%	25%

- (2) Subtract the index based on the longitudinally matched data for the prior year from the longitudinal index for the current year and round the difference to the nearest tenth. This difference is the improvement index. For example, if the current year index is 3.58 and the prior year’s index was 3.24, the improvement index is 0.34, which rounds to 0.3. An important point to note is that the absolute performance index calculated to determine the absolute performance rating for a given year and the absolute index for calculating the improvement index for the same year may differ because of differences in the 45-day enrollments, the loss of student data that could not be longitudinally matched in the calculation of the improvement index, the use of tables containing different values for converting test scores to point weights, and the use of different weightings for the subject areas when calculating the absolute and improvement indexes.
- (3) Compare the school’s improvement index to those in the table below to determine the school’s Improvement rating. For example, the school achieving an improvement index of 0.3 would receive an Improvement rating of Good.

Improvement Performance Rating Criteria

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

- (4) A school’s Improvement rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic, and Native American students, those eligible for the free or reduced-price federal lunch program, Limited English Proficient (LEP) students, migrant students, and students with non-speech disabilities. The school’s eligibility for the increased Improvement rating is determined as follows:
 - a. Calculate the improvement index for the group of eligible students. The group must consist of 40 or more students to be considered for analysis.

- b. Compare the improvement index for the group to the state two-year average improvement index for all students in the state. The state two-year average improvement index is the average of the improvement indexes for all students for the current and prior years. If the improvement index for the historically underachieving group in the school exceeds the state two-year average improvement index by at least one standard deviation, the school's Improvement rating may be increased by one level. If the school is rated Excellent for improvement on the basis of all students, the performance for groups should also be calculated and reported even though the school's rating cannot be increased.

Sample Calculation of an Improvement Rating for Schools Enrolling Students in Grades Three through Eight

Index for current school year:	3.34
Index for prior school year:	<u>-3.62</u>
Difference:	-0.32
Round to:	-0.3
Improvement Rating:	Unsatisfactory

Schools Having Grade Three as the Highest Grade Enrolled

Longitudinal analyses of scores from students enrolled in schools having grade organizations such as kindergarten through grade three, grades two through three, grades one through three, and so on, cannot be performed because these schools will have PACT data for grade three only. There is no PACT test in grade two administered on a statewide basis to serve as a pretest for the longitudinally matched data. The Improvement rating for schools such as these will be calculated based on the change in absolute performance from year to year. The change in absolute performance is calculated by subtracting the un-rounded absolute index for the previous year from the un-rounded absolute index for the current year. The result is then rounded to the nearest tenth of a point.

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for absolute achievement for both years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

Ratings for High Schools

The Absolute and Improvement ratings for high schools are calculated on a weighted model using the following criteria: performance on HSAP of students at the school taking the test for the first time, longitudinal High School Assessment Program (HSAP) performance, the percentage of end-of-course tests administered at the school having scores of 70 or above, and on-time graduation rate.

Ratings Criteria

- Longitudinal High School Assessment Program (HSAP) performance: This factor gauges the percentage of students who pass the HSAP by the spring graduation two years after taking the examination for the first time. Students transferring to other schools should be deleted from the calculation; however students dropping out are included. Longitudinal HSAP performance is the percentage of students who score a “2” level or higher on both ELA and Math within two years after taking it for the first time.
- First-attempt HSAP performance: The percentage of students taking the High School Assessment Program (HSAP) for the first time who passed both the English language arts and mathematics subtests by scoring at the performance level of “2” or higher.
- Percentage passing End of Course tests: The percent of passing scores (70 or higher) on all of the End of Course tests administered in the high school during the school year and subsequent summer session. The end-of-course assessments currently include Algebra I, English I, and Physical Science (and Biology I when the test is reinstated). The U.S. History and Constitution End of Course test will be administered in 2007-2008, pending approval by the EOC. In June 2007 the EOC adopted the following policies regarding End of Course test results: for the school years 2007-2008, 2008-2009 and 2009-2010, End of Course test scores for courses offered through the Virtual High School and End of Course test scores for courses offered through dual high school and college credit. are to be reported with the high school in which the student is enrolled and calculated into the school ratings and in the district’s ratings.
- On-time Graduation rate: The percentage of all students (including students with disabilities) enrolled for the first time in grade nine four years prior to the year of the report card who earn a standard high school diploma (not GED), adjusted for transfers in and out of the school. Adjustments for students transferring out of the school or district cannot be made for those students for whom there is not evidence of enrollment in another state diploma granting program (for example, requests for transcripts from another state diploma granting program, placement in the juvenile or criminal justice system, etc.). Data from students who meet the state diploma requirements as a result of attending summer school and/or successfully passing HSAP in the summer following their senior year will be included in the calculation of the on-time graduation rate; this should take effect as soon as the State Department of Education and school districts can arrange for timely receipt of the data needed.

Note Regarding On-time Graduation Rate Criterion: The precision and accuracy of the on-time graduation rate calculated for the school and district report cards is currently limited by the lack of accurate identifiers to track the progress of students. Based on a study of the progress of two cohorts of students (those who were ninth graders in 1999-2000 and those who were ninth graders in 2000-2001) in six South Carolina schools, on studies of enrollments of cohorts of students from eighth grade through grade twelve, and on information provided by high school principals, the assumption that students who leave the state’s high schools before graduation are transferring to another school is erroneous in many cases (for a discussion of this issue at the national level, see *What Counts: Defining and Improving High School Graduation Rates*, available from the National Association of Secondary School Principals at http://www.principals.org/s_nassp/sec.asp?CID=29&DID=50356.) To improve the accuracy of the identification of legitimate transfers and to more accurately discriminate them from school dropouts a project to assign unique student identification numbers to all South Carolina public school students was implemented in Fall 2005. It is expected that the phase-in of the student identifier system will allow accurate tracking of ninth and tenth grade students in 2006-2007, ninth, tenth, and eleventh graders in 2007-2008, and ninth, tenth, eleventh, and twelfth graders

by 2008-2009. However, until more accurate measures of high school graduation rate are available in 2009, the following statement will accompany all references to the high school on-time graduation rate reported on school and district report cards:

“NOTE: On-time graduation rates published on the S.C. school and district report cards may be higher than the actual rates because of incomplete data on students who are no longer enrolled in the school or district.”

Calculation of Absolute Rating

Ratings are calculated using a mathematical formula that results in an index. The following point distribution is applied to each of the criteria for the calculation of the absolute index (the percentage weighting for each criterion is applied to the calculation of the index):

Criteria for High School Ratings

Criterion	Points Assigned				
	5	4	3	2	1
Longitudinal Exit Exam Passage Rate (30%)	100%	97.5– 99.9%	90.7– 97.4%	87.3– 90.6%	Below 87.3%
First-attempt HSAP Passage Rate (20%)	62.9% or more	53.7– 62.8%	37.4– 53.6%	26.7– 37.3%	Below 26.7%
% Scoring 70 or Above on End of Course Tests (20%)	87.8% or more	72.4– 87.7%	41.6– 72.3%	26.2– 41.5%	Below 26.2%
On-time Graduation Rate (30%)	88.3% or more	79.6– 88.2%	62.2– 79.5%	53.5– 62.1%	Below 53.5%

The index is calculated using the following formula:

- (1) Match the school’s data/performance to the points assigned to each rating criterion in the table above.
- (2) Add the weighted points for each criterion. Weighted points are calculated by multiplying the assigned points by the weighting factor assigned to each criterion.

The resulting index determines the school's Absolute rating as follows:

Index Values for Determining Absolute Ratings

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2007	3.8 and above*	3.4–3.7*	3.0–3.3	2.6–2.9	Below 2.6
2008	3.9 and above*	3.5–3.8*	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above*	3.6–3.9*	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above*	3.7–4.0*	3.3–3.6	2.9–3.2	Below 2.9

*School must meet the state’s Adequate Yearly Progress (AYP) objectives for the category “all students.”

The index determines the school’s Absolute rating. However, in schools with an Excellent or Good rating based on the index, the rating will be lowered one level if the school did not achieve AYP (i.e., the AYP performance and percent-tested criteria must be met) for the category “all students” for the same school year as the Absolute ratings. Absolute ratings will not be decreased if AYP for subgroups is not met when AYP based on “all students” has been achieved. For example, if a school had an absolute index of 3.8 in 2007 but did not achieve AYP for “all students,” its rating would be lowered from Excellent to Good. A school in 2007 with an index of 3.4 that did not achieve AYP for “all students” would be awarded an Absolute rating of Average rather than Good.

Sample Calculation of an Absolute Rating for a High School

92% Longitudinal Exit Exam:	(3 X 0.3) = 0.9 points
64% First-attempt HSAP passage rate:	(5 X 0.2) = 1.0 points
71% Passing end-of-course tests:	(3 X 0.2) = 0.6 points
70% On-time Graduation Rate:	(3 X 0.3) = <u>0.9 points</u>
Sum =	3.4 Index
Absolute Rating:	Average

Note: In 2008 and beyond an index of 3.4 corresponds to an Average Absolute rating.

Additional Step if Absolute Rating is Excellent or Good:

Did the school meet AYP for the category “all students?” Yes/No.

If the school’s Absolute rating is Excellent or Good but the school did not meet AYP for the category “all students,” the Absolute rating would be lowered by one level—from Excellent to Good or from Good to Average.

Students who should be tested but are not tested will be assigned a weight of zero in the accountability ratings.

Improvement Rating

Note: Longitudinal student-matched data are unavailable at the high school level because of the structure of the curriculum and assessments. Therefore, the methodology examines improvement of cohorts of students over time.

The Improvement ratings are calculated using a mathematical formula that results in an index. The index is calculated by subtracting the school's Absolute rating index from the prior year from the school's current year's Absolute rating index. The difference determines the rating as follows:

High School Improvement Performance Rating Criteria

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Sample Calculation of an Improvement Rating for a High School

Absolute rating index for school year for which report card is based:	2.44
Absolute rating index for the prior school year:	<u>-2.22</u>
Difference:	0.22
Rounds to:	0.2
Improvement Rating:	Average

A school's Improvement rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic, and Native American students, Limited English Proficient (LEP) students, migrant students, those eligible for the free or reduced-price federal lunch program, and students with non-speech disabilities. The school's eligibility for the increased Improvement rating is determined as follows:

- (1) Calculate the improvement index for the group of eligible students. The group must consist of 40 or more students to be considered for analysis.
- (2) Compare the improvement index for the group to the state two-year average improvement index for all students in the state. The state two-year average improvement index is the average of the improvement indexes for all students for the current and prior years. If the improvement index for the historically underachieving group in the school exceeds the state two-year average improvement index by at least one standard deviation, the school's Improvement rating may be increased by one level. If the school is rated Excellent for improvement on the basis of all students, the performance for groups should also be calculated and reported even though the school's rating cannot be increased.

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

Ratings for Career and Technology Centers

State ratings criteria and definitions were developed through work with a group of career and technology center directors and with advice from the School-to-Work Advisory Council. Four criteria for use in the ratings are adopted as shown below.

- ❑ Mastering core competencies or certification requirements: The percentage of students enrolled in career and technology courses at the center who earn a 2.0 or above on the final course grade. Students are to be assessed on the competencies identified in the adopted syllabi or specified for certification programs (e.g., FAMS). This factor applies to any career and technology course in the center. This criterion is weighted at twice the value of other criteria.
- ❑ Graduation rate: The number of twelfth-grade career technology education students who graduate in the spring is divided by the number of twelfth graders enrolled in the center and converted to a percentage. This criterion incorporates passage of the Exit Examination required for graduation.
- ❑ Placement rate: The number of career and technology completers who are available for placement in postsecondary instruction, military services, or employment is divided into the number of students over a three-year period who are actually placed and converted to a percentage. This criterion mirrors the Perkins standard.

The criteria should be weighted as follows:

- ❑ Mastering core competencies or certification requirements should be weighted 50 percent in the calculation of the rating.
- ❑ Graduation rate should be weighted 25 percent.
- ❑ Placement rate should be weighted 25 percent.

These criteria are currently under review by the Career and Technology Center Ratings Advisory Committee for possible implementation of revisions in 2008-2009.

Absolute Rating Calculation

Ratings are calculated using a mathematical formula based on the point weightings in the table below, which results in an index.

Career and Technology Center Absolute Ratings Criteria

Criterion	Points Assigned				
	5	4	3	2	1
Mastery (weighted x 5)	86% or more	78–85%	70–77%	62–69%	61% or below
Graduation (weighted x 2.5)	97% or more	92–96%	87–91%	82–86%	81% or below
Placement (weighted x 2.5)	98% or more	95–97%	92–94%	89–91%	88% or below

The absolute index is calculated using the following formula:

(1) Match the center's data/performance to the points assigned to each rating criterion (table above).

(2) Add the weighted points for each criterion. Weighted points are calculated by multiplying the assigned points by the weighting factor assigned to each criterion. Weighting factors are:

- Mastery = 5.0
- Graduation = 2.5
- Placement = 2.5
- Total Weight = 10

(3) Add the points and divide the total by ten (the total of criteria weighting factors).

The resulting index determines the school's Absolute rating as follows:

Career and Technology Center Absolute Performance Rating

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2007	3.8 and above	3.4–3.7	3.0–3.3	2.6–2.9	Below 2.6
2008	3.9 and above	3.5–3.8	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above	3.6–3.9	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above	3.7–4.0	3.3–3.6	2.9–3.2	Below 2.9

The index determines the school's Absolute rating. Only those career and technology centers receiving Absolute ratings of Unsatisfactory will fail to meet AYP for *all* students.

Sample Calculation of an Absolute Rating for a Career and Technology Center

78% of students exhibiting mastery:	(4 X 5) =20.0 points
97% of Twelfth grader graduating:	(5 X 2.5) =12.5 points
73% placement rate:	(1 X 2.5) = <u>+2.5 points</u>
Total points:	35 points
Divided by 10:	<u>÷10</u> (total of weights)
Absolute Index:	3.5 Index
Absolute Rating:	Good

Note: A 3.5 index corresponds to a Good Absolute rating in 2008 and an Average rating in 2009 and beyond.

Improvement Rating

Note: Longitudinal student-matched data are unavailable for career and technology centers because of the structure of the curriculum and the criteria used in the ratings. Therefore, the methodology examines improvement of cohorts of students over time.

School indexes are compared using student cohort data. The absolute index of scores from year one is to be computed and compared to the absolute index from year two. The difference between the two indexes will be computed. For example, if the year two index is 3.54 and the year one index was 3.20, the difference would be .34, which rounds to 0.3. The amount of change (difference from one year to the next) determines the rating as follows:

Career and Technology Center Improvement Performance Rating

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Sample Calculation of an Improvement Rating for a Career and Technology Center

Absolute rating index for school year for which report card is based:	2.44
Absolute rating index for the prior school year:	<u>-2.22</u>
Difference:	0.22
Rounds to:	0.2
Improvement Rating:	Average

A school's Improvement rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic, and Native American students, Limited English Proficient (LEP) students, migrant students, those eligible for the free or reduced-price federal lunch program and students with non-speech disabilities. The school's eligibility for the increased Improvement rating is determined as follows:

- (1) Calculate the improvement index for the group of eligible students. The group must consist of forty or more students to be considered for analysis.
- (2) Compare the improvement index for the group to the state two-year average improvement index for all students in the state. The state two-year average improvement index is the average of the improvement indexes for all students for the current and prior years. If the improvement index for the historically underachieving group in the school exceeds the state two-year average improvement index by at least one standard deviation, the school's Improvement rating may be increased by one level. If the school is rated Excellent for improvement on the basis of all students, the performance for groups should also be calculated and reported even though the school's rating cannot be increased.

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

Ratings for School Districts

Absolute and Improvement ratings of school districts are calculated based on the school ratings methodology for grades three through eight and on a weighting methodology for the high school level data similar to that used for high schools. Student assessment data included in the calculation of the indexes include data from students enrolled in the district as of the forty-fifth day of instruction; high school on-time graduation rate data are based on data from students enrolled for the first time in ninth grade four years prior to the year for which the ratings are calculated. A cumulative index based on the data from the elementary, middle, and high school levels is defined and the index is evaluated as described below.

Criteria for District Ratings

The district rating index is calculated using the following procedures:

- (1) Identify the students whose data are to be used in the school district Absolute ratings calculations based on the following table. (Note: the Education Accountability Act was amended in 2006 (Section 59-18-920) to direct that data from students attending a charter school authorized by a local school district are not to be included in the calculation of the local school district ratings. Ratings for charter schools authorized by a local school district are to be reported separately on the school district report card.)

Students Whose Data Are Used to Calculate District Absolute Ratings

Rating Measure	Students
PACT & PACT-Alt, Grades 3-8	Enrolled in district by 45 th day and on first day of testing of year for which Absolute rating is calculated.
HSAP First Attempt	Enrolled in district during school year for which Absolute rating is calculated; this includes students enrolled in junior high schools or other school organizations which include grade 9 and in which students are tested with HSAP in addition to students enrolled in high school. Also includes students tested with HSAP-Alternate assessment.
On-time Graduation Rate	Enrolled in grade 9 first time four years prior to year on-time graduation rate calculated (e.g., expected senior year) (includes data from summer following current school year.)
End-of-Course Test Results	Enrolled in district during school year for which Absolute rating is calculated (includes data from summer following current school year.)

- (2) Calculate an index using PACT performance and PACT Alternate Assessment performance of district students in grades three through eight using the same mathematical formula for calculating an Absolute rating index for schools enrolling students in grades three through eight. The index should be calculated using the subject area weights for grades 3-5 and grades 6-8 specified in Act 254. The district index is an average of the indexes from grades 3-5 and grades 6-8 weighted by the total number of test scores across grades 3-8. Students who should be tested but are not tested will be assigned a weight of zero points in the accountability ratings.

Note: Since the performance rating categories Below Basic I and Below Basic II are not available from the PACT-Alt results, the following weights for the calculation of absolute and improvement indexes should be used:

Weights for Calculation of Indexes Using PACT-Alt Data Only

PACT-Alt Score	Point Weight
Below Basic	1.5
Basic	3
Proficient	4
Advanced	5

- (3) Assign points to criteria for district high school student performance based on the criteria in the table below.

High School Components of School District Ratings for 2005-2006 and Beyond

Criterion	Points Assigned				
	5	4	3	2	1
First-attempt HSAP and HSAP-Alt Passage Rate	92.9% or more	83.1–92.8%	63.7–83.0%	53.9–63.6%	Below 53.9%
End-of-Course Test Results	77.2% or more	65.6–77.1%	42.4–65.5%	30.8–42.3%	Below 30.8%
On-time Graduation Rate	93.6% or more	85.2–93.5%	68.2–85.1%	59.7–68.1%	Below 59.7%

(4) Calculate the district index points for each component based on the data weights listed in the table below.

Weights for Components of District Ratings

District Rating Component	Weight for Calculating Rating
Elementary and Middle School Component	
PACT Assessments, Grades 3-8	60%
High School Components:	
On-time Graduation Rate	30%
HSAP First Attempt Passage Rate	5%
End-of-Course Test Results	5%
Total	100%

(5) Sum the weighted index points awarded to each component in the district index. Round the resulting sum to the nearest tenth; this is the district rating index.

The resulting index determines the school district's Absolute rating as follows:

District Absolute Rating

Year	Range of Indexes Corresponding to Absolute Rating				
	Excellent	Good	Average	Below Average	Unsatisfactory
2007	3.8 and above*	3.4–3.7*	3.0–3.3	2.6–2.9	Below 2.6
2008	3.9 and above*	3.5–3.8*	3.1–3.4	2.7–3.0	Below 2.7
2009	4.0 and above*	3.6–3.9*	3.2–3.5	2.8–3.1	Below 2.8
2010 and beyond	4.1 and above*	3.7–4.0*	3.3–3.6	2.9–3.2	Below 2.9

*District must meet the state's Adequate Yearly Progress (AYP) objectives for the category "all students."

The index determines the district's Absolute rating. However, in districts with an Excellent or Good rating based on the index, the rating will be lowered one level if the district did not achieve AYP (i.e., the AYP performance and percent-tested criteria must be met) for the category "all students" for the same school year as the Absolute ratings. Absolute ratings will not be

decreased if AYP for subgroups is not met when AYP based on “all students” has been achieved. For example, if a district had an absolute index of 3.8 in 2007 but did not achieve AYP for “all students,” its rating would be lowered from Excellent to Good. A district in 2007 with an index of 3.5 that did not achieve AYP for “all students” would be awarded an Absolute rating of Average rather than Good.

Sample Calculation of an Absolute Rating for a School District

School Level	Measure	Performance Level	Points Assigned	Weight	Weighted Index Points
Elementary/Middle	PACT Grades 3-8	2.92	2.92	X 0.60	= 1.752
High School	HSAP 1 st Attempt	79.4%	3	X 0.05	= 0.150
	End-of-Course Tests	70.2%	4	X 0.05	= 0.200
	On-time Graduation Rate	81.3%	3	X 0.30	= 0.900
District Index					3.002
				District index rounded to nearest tenth:	3.0
				Absolute Rating:	Below Average

Note: This school district’s index of 3.0 corresponds to a Below Average Absolute rating in 2008 and beyond.

Additional Step if Absolute Rating is Excellent or Good:

Did the district meet AYP for the category “all students?” Yes/No.

If the district’s Absolute rating is Excellent or Good but the district did not meet AYP for “all students,” the Absolute rating would be lowered by one level—from Excellent to Good or from Good to Average.

Improvement Rating

The Education Accountability Act provides that the EOC may consider the performance of subgroups of students in the Improvement ratings. Improvement ratings are based on longitudinally matched student data, where available.

Calculation of the Improvement Index

- (1) Identify the students whose data are to be used in the school district Improvement ratings calculations based on the following table. (Note: data from students attending charter schools authorized by the local school district are not to be used for calculating the local school district Improvement rating.)

Students Whose Data Are Used to Calculate District Improvement Ratings

Rating Measure	Students
PACT & PACT-Alt, Grades 3-8	Students enrolled in district by 45 th day of year for which Improvement rating is calculated and students enrolled by 45 th day of previous school year
HSAP First Attempt	Students enrolled in district during school year for which Improvement rating is calculated and students enrolled during previous school year. Includes students enrolled in junior high schools or other school organizations which include grade 9 and in which students are tested with HSAP in addition to students enrolled in high school; also includes students tested with HSAP-Alternate assessment.
On-time Graduation Rate	Students enrolled in grade nine for first time four years prior to year on-time graduation rate calculated (e.g., expected senior year) and students enrolled in grade nine five years prior to year graduation rate calculated (includes data from summer following current school year)
End-of-Course Test Results	Students enrolled in district during school year for which Improvement rating is calculated and students enrolled in district during previous school year; includes data from summer following current school year.

- (2) For the students who qualify for inclusion, calculate an index for the current year and for the prior year. The indexes for each year should be calculated in the same way as the absolute performance index. The PACT data component of the indexes for computing the Improvement rating should be based on matched longitudinal data using the point weights for performance listed in the tables for calculating improvement ratings for schools enrolling grades three through eight.

- (3) Subtract the district index for the prior year from the district index for the current year and round the result to the nearest tenth. This difference is the improvement index. For example, if the current year district index is 3.54 and the prior year's district index was 3.23, the rounded improvement index is 0.3. An important point to note is that the absolute performance index calculated to determine the absolute performance rating for a given year and the index for calculating the improvement index for the same year may differ because of differences in the 45-day enrollments, the loss of student data that could not be longitudinally matched, the use of tables containing different values for converting PACT test scores to point weights, and the use of different weightings for the PACT subject areas when calculating the absolute and improvement indexes.

- (4) Compare the district's improvement index to those in the table below to determine the district's Improvement rating. For example, the district achieving an improvement index of 0.3 would receive an Improvement rating of Good.

Improvement Performance Rating Criteria

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

- (5) A district's Improvement rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic, and Native American students, Limited English Proficient (LEP) students, migrant students, those eligible for the free or reduced-price federal lunch program, and students with non-speech disabilities. The district's eligibility for the increased Improvement rating is determined as follows:
- Calculate the improvement index for the group of eligible students. The group must consist of 40 or more students to be considered for analysis.
 - Compare the improvement index for the group to the state two-year average improvement index for all students in the state. The state two-year average improvement index is the average of the improvement indexes for all students for the current and prior years. If the improvement index for the historically underachieving group in the district exceeds the state two-year average improvement index by at least one standard deviation, the district's Improvement rating may be increased by one level. If the district is rated Excellent for improvement on the basis of all students, the performance for groups should also be calculated and reported even though the district's rating cannot be increased.

Districts with Absolute Ratings of Excellent in Two Subsequent Years

If a district is rated Excellent for absolute achievement for both the current and the previous years, the district will receive an Improvement rating of Good. If the district's improvement index for all students is a positive number (i.e., greater than zero), the district's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these districts. Districts achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

Ratings for Special Schools

THE DEPARTMENT OF CORRECTIONS: PALMETTO UNIFIED SCHOOL DISTRICT

Students to Be Included in the Rating

High school eligible students who have participated in the educational program for a minimum of one hundred days during the fiscal year are to be included. All Palmetto Unified programs are to be reported as one school.

Criteria for the Rating

- ❑ GED completion rate: This is calculated by the number of successful completers divided by the number of students enrolled in the GED program. Those who completed the GED prior to one hundred days are to be included in the calculation;
- ❑ Career and technology program completers: This is calculated by the number of program completers (federal definition) divided by the number of students enrolled in the career and technology program; and
- ❑ Pretest and posttest gains on the Test of Adult Basic Education (TABE): This average gain from the pretest to the posttest is calculated by adding the gains of individual students and dividing by the total number of students.

Calculation of the Absolute Performance Rating

Assign points (one through five) for each criterion in the following manner:

Absolute Performance Ratings Criteria

Criterion	Points Assigned				
	5	4	3	2	1
GED Completion %	81–100	61–80	41–60	20–40	19 or less
Career and Technology Completers %	81–100	61–80	41–60	20–40	19 or less
Pretest-Posttest TABE Gains	0.80 or more	0.60–0.79	0.40–0.59	0.20–0.39	Less than 0.20

Add the points and divide by three to yield an index. The index determines the school's Absolute rating.

Absolute Performance Level Ratings

Rating	2005	2006	2007	2008	2009	2010 and beyond
Excellent	3.5 or higher	3.6 or higher	3.7 or higher	3.8 or higher	3.9 or higher	4.0 or more
Good	3.2-3.4	3.3-3.5	3.4-3.6	3.5-3.7	3.6-3.8	3.6–3.9
Average	2.9-3.1	3.0-3.2	3.1-3.5	3.2-3.6	3.3-3.7	3.3–3.5
Below Average	2.7-2.8	2.8-2.9	2.9-3.0	3.0-3.2	3.1-3.3	3.0–3.2
Unsatisfactory	Less than 2.7	Less than 2.8	Less than 2.9	Less than 3.0	Less than 3.1	Less than 3.0

Improvement Rating

Using the absolute performance indexes, calculate annual gains based on current year minus previous year.

Palmetto Unified Improvement Ratings

Rating	Improvement Index
Excellent	Gains of .3 or above
Good	Gains of .2 to .29
Average	Gains of .1 to .19
Below Average	Gains of .01 to .09
Unsatisfactory	No gain or a loss

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

DEPARTMENT OF JUVENILE JUSTICE

Students Included in the Rating

GED: Students who are age 16 and earn a passing score on the Pre-GED are designated "eligible" to take the GED. Seventeen and eighteen year old students who register to take the GED are also considered eligible. These students are not required to take the Pre-GED.

High School Credits Earned: High school students who earn Carnegie units during the school year,

STAR Gains: Middle school students who are assessed in reading and math using the STAR program. Students who have attended middle school for at least 90 school days will be included in the assessment.

Middle School Classes Passed: Middle school students who complete the four content area courses during the school year.

Calculations will be based on the DJJ School District calendar year. (August 1st through July 31st)

Criteria for the Rating

GED: The percentage of students who pass the GED will be calculated by dividing the number of students who passed the GED by the total taking the test during the school year.

High School Credits: The average high school credits earned will be calculated by dividing the total number of Carnegie units earned by the number of students who completed the courses.

STAR Gains: Pre-post test scores will be calculated for reading and math. The percentage of students who make gains will be calculated by dividing the number of students who made gains by the total number of students tested.

Middle School Classes Passed: The average for the four main content area classes passed will be calculated by dividing total classes passed by the number of the students who completed the courses (science, social studies, lang. arts, math).

Calculation of the Index

Note: Each criterion is weighted as indicated in parentheses

Criterion	5	4	3	2	1
GED Completion Rate (.25)	50% +	45-49%	40-44%	35-39%	Below 35%
HS Credits Earned (.5)	5+	4+	3+	2+	less than 2 credits
STAR Gains/ Reading (.05)	75%+	60-74%	45-59%	30-44%	Below 30%
STAR Gains/Math (.05)	75%+	60-74%	45-59%	30-44%	Below 30%
Middle School Classes Passed (.15)	4	3	2	1	No credits earned (SC./Math/Eng/SS)

Absolute Performance Level Ratings

Rating	2005	2006	2007	2008	2009	2010 and beyond
Excellent	3.5 or higher	3.6 or higher	3.7 or higher	3.8 or higher	3.9 or higher	4.0 or more
Good	3.2-3.4	3.3-3.5	3.4-3.6	3.5-3.7	3.6-3.8	3.6-3.9
Average	2.9-3.1	3.0-3.2	3.1-3.5	3.2-3.6	3.3-3.7	3.3-3.5
Below Average	2.7-2.8	2.8-2.9	2.9-3.0	3.0-3.2	3.1-3.3	3.0-3.2
Unsatisfactory	Less than 2.7	Less than 2.8	Less than 2.9	Less than 3.0	Less than 3.1	Less than 3.0

Improvement Rating

Using the absolute performance indexes, calculate annual gains based on current year minus previous year.

Department of Juvenile Justice Improvement Ratings

Rating	Improvement Index
Excellent	Gains of .3 or above
Good	Gains of .2 to .29
Average	Gains of .1 to .19
Below Average	Gains of .01 to .09
Unsatisfactory	No gain or a loss

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

THE SOUTH CAROLINA SCHOOL FOR THE DEAF AND THE BLIND

Students to Be Included in the Rating

Students who are enrolled in the school as of the forty-fifth day of instruction and remain through the spring testing period are included in the rating.

Criteria for the Rating

- ❑ Mastery of Individualized Education Plan objectives: Mastery is documented through categorical scores in English language arts and math assessments (reported as Advanced, Proficient, Basic, and Below Basic).
- ❑ PACT Alternate Assessment: Student scores are reported on the state-adopted scale of Advanced, Proficient, Basic, and Below Basic.
- ❑ Brigance Performance: Gains per year on the developmental scale are converted to categories of Advanced, Proficient, Basic, and Below Basic.

Calculation of the Index

Absolute Ratings Criteria for the S.C. School for the Deaf and the Blind

Criterion	Points Assigned				
	5	4	3	2	1
% Mastery of IEP objectives	90–100	76–89	60–75	50–59	Less than 50
PACT-Alt	Advanced	Proficient	Basic	Below Basic 2	Below Basic 1
Brigance gain	90–100	76–89	60–75	50–59	Less than 50

For each criterion, the value for individual students is assigned and aggregated across criteria and students. The aggregate is divided by the total number of student scores to yield an index.

Absolute Performance Level Ratings

Rating	2005	2006	2007	2008	2009	2010 and beyond
Excellent	3.5 or higher	3.6 or higher	3.7 or higher	3.8 or higher	3.9 or higher	4.0 or more
Good	3.2-3.4	3.3-3.5	3.4-3.6	3.5-3.7	3.6-3.8	3.6–3.9
Average	2.9-3.1	3.0-3.2	3.1-3.5	3.2-3.6	3.3-3.7	3.3–3.5
Below Average	2.7-2.8	2.8-2.9	2.9-3.0	3.0-3.2	3.1-3.3	3.0–3.2
Unsatisfactory	Less than 2.7	Less than 2.8	Less than 2.9	Less than 3.0	Less than 3.1	Less than 3.0

The index determines the school's Absolute rating.

Improvement Rating

Using the absolute performance indexes, calculate annual gains based on current year minus previous year.

S.C. School for the Deaf and the Blind Improvement Ratings

Rating	Improvement Index
Excellent	Gains of .3 or above
Good	Gains of .2 to .29
Average	Gains of .1 to .19
Below Average	Gains of .01 to .09
Unsatisfactory	No gain or a loss

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

THE GOVERNOR'S SCHOOL FOR SCIENCE AND MATHEMATICS

Students to Be Included in the Rating

Students enrolled in the school as of the forty-fifth day of instruction and continuing through the spring testing period are to be included.

Criteria for the Rating

- ❑ Advanced Placement passage rate: The percentage of students scoring three or above on Advanced Placement examinations.
- ❑ Freshman year GPA: The mean grade point average of students in the fall semester of their freshman year (these data are to be reported on students graduating in the previous year).
- ❑ SAT: The mean SAT performance of graduating seniors.

Calculation of the Index

Absolute Ratings Criteria for the Governor's School for Science and Mathematics

Criterion	Points Assigned				
	5	4	3	2	1
AP Passing Rate (.45)	87 or greater	81–86	75–80	69–74	Less than 69
Freshman GPA (.35)	3.5 or greater	3.3–3.49	3.1–3.29	2.9–3.09	Less than 2.9
Mean SAT (.20)	1300 or greater	1260–1299	1170–1259	1120–1169	Less than 1120

Note: Each criterion is weighted as indicated in parentheses.

Absolute Performance Level Ratings

Rating	2005	2006	2007	2008	2009	2010 and beyond
Excellent	3.5 or higher	3.6 or higher	3.7 or higher	3.8 or higher	3.9 or higher	4.0 or more
Good	3.2-3.4	3.3-3.5	3.4-3.6	3.5-3.7	3.6-3.8	3.6–3.9
Average	2.9-3.1	3.0-3.2	3.1-3.5	3.2-3.6	3.3-3.7	3.3–3.5
Below Average	2.7-2.8	2.8-2.9	2.9-3.0	3.0-3.2	3.1-3.3	3.0–3.2
Unsatisfactory	Less than 2.7	Less than 2.8	Less than 2.9	Less than 3.0	Less than 3.1	Less than 3.0

The index determines the school’s Absolute rating.

Improvement Rating

Using the absolute performance indexes, calculate annual gains based on current year minus previous year.

Governor’s School for Science and Mathematics Improvement Rating

Improvement Rating	Improvement Index
Excellent	Maintenance of Excellent absolute status or gains of .15 or more
Good	Maintenance of Good absolute status or gains of .10
Average	Gains of .06–.09
Below Average	Gains of .01–.05
Unsatisfactory	No gain or a loss

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school’s improvement index for all students is a positive number (i.e., greater than zero), the school’s Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

WIL LOU GRAY OPPORTUNITY SCHOOL

Students to Be Included in the Rating

All students who are enrolled in the Wil Lou Gray Opportunity School for either of the two five-month program periods each fiscal year are to be included.

Criteria for the Rating

- ❑ GED completion rate: This is calculated by the number of students who successfully complete the GED test divided by the number of students eligible to take the GED test.
- ❑ Test of Adult Basic Education (TABE) gains: This is calculated by determining the percentage of students not eligible to take the GED who achieve a five-month gain in math and reading as measured by pre- and post-TABE results. Students must attain the gain in each of the content areas to qualify as meeting the criterion.

- The Challenge Program: The number of students completing the Challenge Phase of the Youth Challenge Academy is divided by the number of students entering the Challenge Phase.
- Community service: The number of community service hours is calculated for each student and the percentage of students reaching levels of service is calculated by dividing the number of students at selected levels of involvement by the total number of students.

Calculation of the Absolute Performance Rating

Assign points (one through five) for each criterion in the following manner:

Absolute Ratings Criteria for the Wil Lou Gray Opportunity School

Criterion (Weight)	Points Assigned				
	5	4	3	2	1
GED Completion Rate (25%)	81–100%	61–80%	41–60%	20–40%	Below 20%
TABE Reading Gains (12.5%)	81–100%	61–80%	41–60%	20–40%	Below 20%
TABE Math Gains (12.5%)	81–100%	61–80%	41–60%	20–40%	Below 20%
Challenge Phase (25%)	86–100%	71–85%	55–70%	40–54%	Below 40%
Community Service (25%)	100% at forty or more hours, with 25% at more than forty hours and 5% at more than sixty hours	100% at forty or more hours, with 25% at more than forty hours	100% at forty or more hours	90–99% at forty or more hours	Below 90% at forty or more hours

Assignment of Value to Achievement Index

Calculate the achievement index by multiplying the points for each criterion listed above by the appropriate weight, summing the products, and rounding to the nearest tenth of a point.

Absolute Performance Level Ratings

Performance Level	Achievement Index, 2001 and beyond
Excellent	4.0 or above
Good	3.6–3.9
Average	3.3–3.5
Below Average	3.0–3.2
Unsatisfactory	Below 3.0

Improvement Rating

Subtract the achievement index for the prior year from that of the current year to calculate annual gains (improvement index).

Wil Lou Gray Opportunity School Improvement Rating

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

FELTON LABORATORY SCHOOL

This kindergarten through eighth-grade school receives a report card using the same criteria and information used for public schools within local school districts.

JOHN DE LA HOWE SCHOOL

Students to Be Included in the Rating

Students who have participated in the educational program for a minimum of 135 days during the school year are to be included. (John De La Howe School operates on a traditional calendar with an extended session during the summer. The extended session provides students with an opportunity to make up days and catch up in academic subjects that they may have missed while waiting for placement at John de la Howe School. Student attendance is collected on SASI and on paper copies of attendance sheets.)

Criteria for the Rating

- ❑ PACT or HSAP performance: This is dependent upon student grade level assignment. For PACT, the English language arts and mathematics tests are included; for HSAP, the results of students taking the test for the first time will be used.
- ❑ STAR reading and mathematics: Pretest to posttest gains are calculated for each student in each content area and assigned value according to the point structure below. Gains are added together and divided by the number of students tested. Students who should have been tested but are not tested are assigned a point value of zero.
- ❑ Number of high school credits earned each year: The number of credits earned each year is assigned points as shown below.

- Number of middle school classes passed each year: The number of classes passed each year is assigned points as shown below.

Calculation of the Absolute Performance Rating

Assign points (one through five) for each criterion in the following manner:

Absolute Ratings Criteria for John de la Howe School

Criterion	Points Assigned				
	5	4	3	2	1
PACT	Advanced	Proficient	Basic	Below Basic 2	Below Basic 1
HSAP Exams	Passed all three	Passed two	Passed one	Passed zero	
STAR Pretest-Posttest Gains	.81–1.0	.61–.80	.41–.60	.21–.40	.20 or less
High School Credits	7	6	5	4	Less than 4
Middle School Classes Passed	7	6	5	4	Less than 4

Add the points together and divide by the total number of students across all measures to determine index for school. The index determines the school's Absolute rating.

Calculation of Performance Rating

Absolute Performance Level Ratings

Rating	2005	2006	2007	2008	2009	2010 and beyond
Excellent	3.5 or higher	3.6 or higher	3.7 or higher	3.8 or higher	3.9 or higher	4.0 or more
Good	3.2-3.4	3.3-3.5	3.4-3.6	3.5-3.7	3.6-3.8	3.6–3.9
Average	2.9-3.1	3.0-3.2	3.1-3.5	3.2-3.6	3.3-3.7	3.3–3.5
Below Average	2.7-2.8	2.8-2.9	2.9-3.0	3.0-3.2	3.1-3.3	3.0–3.2
Unsatisfactory	Less than 2.7	Less than 2.8	Less than 2.9	Less than 3.0	Less than 3.1	Less than 3.0

Calculation of the Improvement Rating

Improvement Rating Levels

Improvement Rating	Improvement Index
Excellent	Greater than 0.4
Good	0.21 to 0.4
Average	-0.2 to 0.2
Below Average	-0.4 to -0.21
Unsatisfactory	Less than -0.4

Schools with Absolute Ratings of Excellent in Two Adjacent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

S.C. GOVERNOR'S SCHOOL FOR THE ARTS AND HUMANITIES

Students to Be Included in the Rating

Students enrolled in the school as of the forty-fifth day of instruction and continuing through spring testing period are to be included.

Criteria for the Rating

- Student participation in state and national arts competitions, auditions, portfolio review, or other by senior year.
- Student recognition in state and national arts competitions, auditions, portfolio review, or other by senior year.
- Advanced Placement (one or more courses taken by senior year).
- Advanced Placement passage rate (exams scored three and above).
- SAT points scored above national mean.
- Eligibility for LIFE Scholarship.
- Seniors awarded scholarships, including LIFE Scholarship.

Calculation of the Index

Ratings for each of the seven standards of achievement described herein will determine the school's overall performance level. The performance achieved for each standard, as compared to the criteria established specifically for each standard, will be awarded points based on the following scale:

Absolute Ratings Criteria for S.C. School for the Arts and Humanities

Criterion	Points Assigned				
	5 Excellent	4 Good	3 Average	2 Below Average	1 Unsatisfactory
Participation State/Nationals (.20)	85% or above	75–84%	65–74%	55–64%	54% or less
Recognition State/Nationals (.20)	65% or above	55–64%	45–54%	35–44%	34% or less
AP Course Taken (.12)	75% or above	65–74%	55–64%	45–54%	44% or less
AP Exam Pass Rate 3+ (.12)	85% or above	75–84%	65–74%	55–64%	54% or less
SAT Points Above National Mean (.12)	100 points or more	90–99 points	80–89 points	70–79 points	69 points or less
LIFE Scholarship (.12)	70% or above	60–69%	50–59%	40–49%	39% or less
Scholarship Awards (Include LIFE) (.12)	85% or above	75–84%	65–74%	55–64%	54% or less

Note: Each criterion is weighted as indicated in parentheses.

Absolute Performance Rating

Points awarded for the first two standards will be weighted at 20 percent each, and points awarded for the remaining five standards will be weighted at twelve percent each. Calculate the achievement index by summing the weighted points for each criterion listed above and rounding to the nearest tenth of a point. The total score for achievement will earn an overall rating for absolute performance as provided in the following table.

Absolute Performance and Achievement

Performance Level Rating	Achievement Index
Excellent	3.5 or above
Good	3.0–3.4
Average	2.5–2.9
Below Average	2.0–2.4
Unsatisfactory	Below 2.0

Improvement Performance Rating

The overall improvement performance rating has been determined, since 2002, using the improvement performance index that has been adopted by the state for all high schools statewide and related provisions. High school improved performance is calculated by subtracting the school's Absolute rating in the prior year from the current year's Absolute rating. The difference determines the Improvement rating as shown in the table below.

High School Improvement Performance Rating Criteria

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1–0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Sample Calculation of an Improvement Rating for a High School

Absolute rating index for school year for which report card is based:	2.4
Absolute rating index for the prior school year:	<u>-2.2</u>
Difference:	0.2
Improvement Rating:	Average

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for absolute achievement for both the current and the previous years, the school will receive an Improvement rating of Good. If the school's improvement index for all students is a positive number (i.e., greater than zero), the school's Improvement rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools. Schools achieving an absolute index of 4.8 or higher for two consecutive years will be awarded an Excellent Improvement rating.

Section III 2008 ACCOUNTABILITY RATING CRITERIA AND STANDARDS

Inclusion of New Assessments in Ratings

Historically, new assessments have been included in school and district Absolute ratings upon their *third* administration. For example, the PACT Science and Social Studies exams for grades three through eight were administered first in 2003 and data on student performance were included in the November 2005 report card ratings calculations. State assessments in new subject areas or new high school credit courses will be included in the ratings upon their third administration. Revised state assessments in currently assessed subjects or high school courses will be used in the rating system on a continuous basis.

Process for Determining Criteria for School/District Profile Information

The process for adding profile components to the annual school or district report card should incorporate four stages: (1) initial study and discussion; (2) study of pilot variable; (3) baseline collection; and (4) inclusion on published report card. At least one year must pass between the baseline collection and publication on the report card.

Minimum Size Requirements

Districts and schools with small numbers of students present a special challenge to the accountability system. There are two types of small numbers situations. One is small numbers of students within a group (e.g., few African-American test-takers in reading). The second is small numbers of total students (e.g., few total students tested).

Districts and schools with small numbers of total students present special challenges regarding the stability of the data as well as the confidentiality of student performance. While all districts and campuses are rated initially under standard evaluation, these small districts and schools are subject to special analysis under the circumstances specified below:

- ❑ If standard evaluation indicates that a rating of Excellent or Good is appropriate, then a special analysis is conducted when there are fewer than thirty total students tested in two or more PACT areas.
- ❑ If standard evaluation indicates that a rating of Below Average or Unsatisfactory may be appropriate, then special analysis is conducted only when there are fewer than thirty total students tested that caused the district/school to be considered Below Average or Unsatisfactory.
- ❑ When the standard evaluation results in a rating of Average, no further analysis is performed, even if the district or campus has fewer than thirty students tested in one or more subjects of the PACT (summed across all grades tested).

If special analysis is necessary, only total student performance is examined. Under special analysis, data will be checked for completeness and accuracy and the ratings adjusted if necessary.

Quantitative Parameters for Each Rating Category

Following analyses of the results from state testing program tests and of the on-time graduation rates, the parameters for each rating category were established by the Education Oversight Committee. The Committee is implementing a phase-in of ratings criteria that increases rigor over time.

Reporting of Subgroup Performance

Student performance will be disaggregated in the following categories: gender, ethnicity, disability, Limited English Proficiency, migrant, and federal lunch program status for each subtest. A disaggregated group will be reported if the group is comprised of at least ten students (summed across grades) for each subject area.

Ratings Conditional on the Performance of Student Subgroups

Schools and districts are accountable for the performance of all students regardless of ethnicity or lunch status. Performance levels for groups disaggregated for ethnicity or lunch status will be a condition in the Improvement ratings consistent with the provisions of Code of Laws of South Carolina, 1976, § 59-18-900(C).

Data Reported as “N/A” (School and District Report Cards)

Beginning with the 2002 report cards, “N/AV” (“not available”) should be reported only when appropriate. “N/A” (“not applicable”), “N/C” (“not collected”), “N/R” (“not reported”), or “I/S” (“insufficient sample”) will be reported rather than “N/AV,” when appropriate.

Section IV LONGITUDINALLY MATCHED DATA

“Improvement performance” means the rating a school will receive based on longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth.

“Longitudinally matched student data” means examining the performance of a single student or a group of students by considering their test scores over time.

For grades three through eight, data will be matched longitudinally at the student level. Data from re-administrations of HSAP to students who fail one or more subtests are matched over time to calculate the longitudinal HSAP passage rate for the high school ratings. The matching of student data may be accomplished by computer, provided that the matching information is consistent for each student and unique to that student. Current matching programs utilize some combination of name and demographic information. The student unique identification number will facilitate the matching process as it is phased into the school district and state data systems.

EOC staff are constructing longitudinal student databases based on PACT data. These databases include data from all students statewide whose data can be matched for each year beginning with the year they take the grade 3 PACT tests. A database containing longitudinal of data from students enrolled in grade 3 in 2000 is currently being analyzed. A study of six years of longitudinal data from this cohort is reported on the EOC web site (<http://eoc.sc.gov>).

Section V SCHOOLS SIMILAR IN STUDENT CHARACTERISTICS

Districts and Schools Similar in Student Characteristics

The statutory authority for this section is from the Code of Laws of South Carolina, Section 59-18-900(C):

In setting the criteria for the academic performance ratings and the performance indicators, the Education Oversight Committee shall report the performance by subgroups of students in the school and schools similar in student characteristics. Criteria must use established guidelines for statistical analysis and build on current data-reporting practices.

Comparison schools for special schools are those similar in relevant student characteristics—for example, schools in which 100 percent of the students have Individualized Education Plans under the Individuals with Disabilities Education Act that require either assessment with PACT Alternate Assessment and/or a special school placement as the least restrictive environment.

Building School Groups

As a result of a series of analyses and discussions among educators, a variable that combines information about the percentage of students in a school eligible for Medicaid services and the percentage participating in free or reduced-price lunch services (percent poverty, or PPOV) has been identified as the grouping variable for similar schools. PPOV was identified as the grouping variable based on its strong correlation with student outcome measures (see the *2000–2001 Accountability Manual* for a description of this analysis). The inclusion of Medicaid as an indicator of poverty is important for some schools and pockets of the population where families and individual students are resistant to applying for free or reduced-price meals.

Schools are banded in such a way that each school is at the center of its own band of schools similar in student characteristics (except for schools at the extremes). Schools and school units are categorized as elementary, middle, or high, as previously defined (see pages 6 and 7 of this manual). Bands are based on the range in percentages. Schools are banded in such a way that other schools with PPOV within plus- or minus- five percentage points will be included in the school's band. Using this methodology results in band groupings that vary in the number of schools but that are similar in terms of the percentage of economically disadvantaged students.

In the 2005–2006 school year (most recent data available), PPOV for schools ranged from 5.5 percent to 100 percent, with a statewide mean of 69.2 percent. School bands will be recalculated annually. The band width will be determined annually based on the distribution of PPOV.

Section VI PALMETTO GOLD AND SILVER AWARDS CRITERIA

Statutory Authority

The statutory authority for the Palmetto Gold and Silver Awards is from the Code of Laws of South Carolina, 1976 (Supp. 2002):

§ 59-18-1100. The State Board of Education, working with the division and the Department of Education, must establish the Palmetto Gold and Silver Awards Program to recognize and reward schools for academic achievement. Awards will be established for schools attaining high levels of absolute performance and for schools attaining high rates of improvement. The award program must be based upon improved performance on longitudinally matched student data and may include such additional criteria as:

- (1) student attendance;
- (2) teacher attendance;
- (3) student dropout rates; and
- (4) any other factors promoting or maintaining high levels of achievement and performance.

Schools shall be rewarded according to specific criteria established by the division. In defining eligibility for a reward for high levels of performance, student performance should exceed expected levels of improvement. The State Board of Education shall promulgate regulations to ensure districts of the State utilize these funds to improve or maintain exceptional performance according to their schools' plans established in Section 59-139-10. Funds may be utilized for professional development support.

Special schools for the academically talented are not eligible to receive an award pursuant to the provision of this section unless they have demonstrated improvement and high absolute achievement for three years immediately preceding.

Overview

The Palmetto Gold and Silver Awards Program was established by the Education Accountability Act of 1998. As an important part of the education accountability system in South Carolina, the awards program is designed to recognize and reward "schools for attaining high levels of absolute performance and schools for attaining high rates of improvement."

The Division of Accountability is responsible for developing criteria for the Palmetto Gold and Silver Awards Program. As with other efforts, an advisory group of South Carolina educators was formed to recommend criteria and statistical procedures. The criteria and procedures utilized for selecting schools to receive the Gold and Silver Awards are based on the *Criteria for School and District Ratings* as approved by the South Carolina Education Oversight Committee on December 6, 2000.

The criteria and procedures established for the Palmetto Gold and Silver Awards Program reflect a fundamental belief that all schools, regardless of their socioeconomic status and geographic location, can improve toward high academic standards and excellence and that all

children can learn at high levels. Schools will be recognized not only for high levels of student academic achievement but also for efforts that result in exemplary improvement.

In developing the criteria and procedures, the following essential elements were taken into consideration: fairness and equity, raising the performance levels of historically underachieving groups, and inclusiveness of as many schools as possible.

Criteria and Procedures

Eligibility

All schools and career and technology centers with student learning achievement outcome data will be eligible for participation in the Palmetto Gold and Silver Awards Program. No application is required.

There are no additional requirements for percentage of students tested and the inclusion of special education students, since the methodology for calculating the Absolute and Improvement ratings addresses these issues.

According to the Education Accountability Act of 1998, Section 59-18-1100, "special schools for the academically talented are not eligible to receive an award pursuant to the provision of this section unless they have demonstrated improvement and high absolute achievement for three years immediately preceding."

Performance of Subgroups of Students and Gap Reduction

The criteria address improvement of performance for historically underachieving subgroups. There are three student subgroups to be considered:

- ❑ minority students,
- ❑ free/reduced-price meal students,
- ❑ students with non-speech disabilities,
- ❑ Limited English Proficient (LEP) students, and
- ❑ migrant students.

Minority students will be defined as African-American, Hispanic, or Native American students. These students will be combined for purposes of analysis. There must be at least thirty students in each subgroup in a school for the group to be considered. The method for considering the performance of subgroup improvement defined in the *Criteria for School and District Ratings* will be used as gap-reduction criteria. If the improvement index for each historically underachieving subgroup in the school exceeds the state two-year average improvement index by at least one standard deviation, the school's Improvement rating will be increased by one level.

Criteria for Selecting Schools for Awards: Grades Three through Eight, Career and Technology Centers, and Special Schools

Three procedures will be utilized to select schools that meet the criteria for attaining high levels of absolute performance and high rates of improvement. Schools that are selected through any of the three procedures will be recognized through the Palmetto Gold and Silver Awards Program.

Primary Selection Procedure: Based on Absolute Performance and Improvement Ratings

The procedure is a combination of the absolute performance and Improvement ratings as prescribed in the *Criteria for School and District Ratings*. The Improvement rating used for selection of award-recipient schools includes adjustment for gap reduction.

To qualify for a Gold or Silver Award, a school's absolute performance rating must be above Unsatisfactory. Schools will receive a Gold or a Silver Award when one of the following conditions occurs:

- ❑ Schools with an Excellent rating in absolute performance will receive a Gold Award for high level of academic performance as long as their Improvement rating is equal to or above Average.
- ❑ Schools with an Excellent rating in improvement will receive a Gold Award for high levels of improvement as long as their absolute performance rating is above Unsatisfactory.
- ❑ Schools with a Good rating in improvement will receive a Silver Award for good improvement results as long as their absolute performance rating is above Unsatisfactory.

The following table shows the selection procedure:

Gold and Silver Awards Criteria

Absolute Performance Rating	Improvement Rating	Award Designation
Excellent	Excellent	Gold
Excellent	Good	Gold
Excellent	Average	Gold
Good	Excellent	Gold
Good	Good	Silver
Average	Excellent	Gold
Average	Good	Silver
Below Average	Excellent	Gold
Below Average	Good	Silver

Second Selection Procedure: Based on High Improvement Ranking by School Type

In order to ensure that each of the three school types (elementary, middle, and secondary) are approximately evenly recognized through the Palmetto Gold and Silver Awards Program, the following three steps will be performed each year:

- ❑ Rank order the improvement index for each school by school type.
- ❑ Select the schools with an improvement index percentile rank of eighty-fifth or higher, provided the improvement index is at least 0.15.
- ❑ Exclude schools that have an Unsatisfactory rating for absolute performance.

A school would be selected to receive a Silver Award if its percentile rank for its improvement index is eighty-fifth or higher among the schools of the same type housing similar grades and its absolute performance rating is above Unsatisfactory.

Third Selection Procedure: Based on Steady Growth over Three or More Consecutive Years

A school may qualify for a Silver Award if the school's absolute performance rating is above Unsatisfactory for the most recent year, and

- ❑ its improvement index is 0.20 or greater for two consecutive years, or
- ❑ its improvement index is 0.15 or greater for three consecutive years.

Schools Enrolling Students in Only Grade Two or Below

Schools enrolling students in only grade two or below will not qualify for a Palmetto Gold or Silver Award for lack of student learning achievement outcome data.

Wil Lou Gray Special School

The school may qualify for an award on its absolute performance and Improvement ratings as defined in *Criteria for School and District Ratings*.

Career and Technology Centers

Career and technology centers may qualify for a Gold or Silver Award based on the criteria developed for generating the center report cards. These three criteria are

- ❑ mastering for competencies or certification requirements,
- ❑ graduation rate, and
- ❑ placement rate.

As described in the *Criteria for School and District Ratings*, the mastery criterion will be weighted at twice the value of the other criteria. The proportion of students enrolling is not considered as part of the criteria.

Special Schools for the Academically Talented

According to the Education Accountability Act of 1998, Section 59-18-1100, "special schools for the academically talented are not eligible to receive an award pursuant to the provision of this section unless they have demonstrated improvement and high absolute achievement for three years immediately preceding."

A special school for the academically talented is a district-operated school that has at least 50 percent of its enrollment of students based upon predicted or realized high achievement from across multiple school attendance zones.

Special schools for the academically talented will qualify to receive a Gold Award when one of the following conditions occurs:

- ❑ Beginning with the school year 1999–2000, schools with an Excellent rating in absolute performance for three consecutive years will receive a Gold Award for attaining high levels of academic performance as long as their Improvement rating is equal to or above Average for the most recent year.

- ❑ Schools with an Excellent rating in absolute performance for three consecutive years and an absolute performance index value of 4.5 for the most recent year will receive a Gold Award for attaining high levels of achievement.

Criteria for Selecting Schools for Awards: High Schools

Eligibility

Schools receiving a high school report card, in accordance with procedures outlined in the *Accountability Manual*, with student learning achievement outcome data will be eligible for participation in the Palmetto Gold and Silver Awards Program. Special schools for the academically talented are eligible in accordance with the requirements outlined in Section 59-18-1100 of the Code of Laws of South Carolina. These requirements state that "special schools for the academically talented are not eligible to receive an award pursuant to the provisions of this section unless they have demonstrated improvement and high absolute achievement for three years immediately preceding." No application is required.

Award Criteria

Two procedures are employed to select schools that meet the criteria for attaining high levels of absolute performance and high rates of improvement. Schools that are selected through one of the two procedures are recognized through the Palmetto Gold and Silver Awards Program.

Selection Procedure Based on Absolute Performance and Improvement Ratings

This procedure is a combination of the absolute performance and Improvement ratings as prescribed in the *Criteria for School and District Ratings*. The Improvement rating used for selection of award-recipient schools includes an adjustment for gap reduction. To qualify for a Gold or Silver Award, a school's absolute performance rating must be above Unsatisfactory. Schools will receive a Gold or Silver Award when one of the following three conditions occurs:

- ❑ A school with an Excellent rating in absolute performance will receive a Gold Award for high levels of academic performance as long as its Improvement rating is equal to or above Average.
- ❑ A school with an Excellent rating in improvement will receive a Gold Award for high levels of improvement as long as its absolute performance rating is above Unsatisfactory.
- ❑ A school with a Good rating in improvement will receive a Silver Award for good improvement results as long as its absolute performance rating is above Unsatisfactory.

The following table outlines the ratings blend for the awards:

Gold and Silver Awards Criteria

Absolute Performance Rating	Improvement Rating	Award Designation
Excellent	Excellent	Gold
Excellent	Good	Gold
Excellent	Average	Gold
Good	Excellent	Gold
Good	Good	Silver
Average	Excellent	Gold
Average	Good	Silver
Below Average	Excellent	Gold
Below Average	Good	Silver

Selection Procedure Based on Steady Growth over at Least Two Consecutive Years

This procedure is based upon steady growth demonstrated over a minimum of two consecutive years. A school may qualify for a Silver Award if the school's absolute performance rating is above Unsatisfactory for the most recent year, and

- ❑ its improvement index is 0.20 or greater for two consecutive years, or
- ❑ its improvement index is 0.10 or greater for three consecutive years.

The 2000–2001 school year is set as the base year.

Procedure for Special High Schools for the Academically Talented

A special school for the academically talented is a district-operated school that has at least 50 percent of its enrollment of students based upon predicted or realized high achievement from across multiple school attendance zones.

Special schools for academically talented will qualify to receive a Gold Award when one of the following two conditions occurs:

- ❑ Beginning with the 2000–2001 school year, a school with an Excellent rating in absolute performance for three consecutive years will receive a Gold Award for attaining high levels of academic performance.
- ❑ A school with a Good or Excellent rating in absolute performance for three consecutive years and an absolute performance index value of 4.5 for the most recent year will receive a Gold Award for attaining high levels of achievement.

Allocation of Funds and Non-Achievement Criteria

School financial awards will be calculated on a per pupil basis in accordance with the particular criteria met. A school qualifying for a financial award will receive 80 percent of the per pupil allocation, plus up to an additional 20 percent based on the following criteria:

- ❑ student attendance, criterion set at a minimum of 97 percent;
- ❑ teacher attendance, criterion set at a minimum of 97 percent; and
- ❑ annual dropout rate, grades nine through twelve, criterion set at a maximum of 2.5 percent.

Schools qualifying for a Silver Award will receive two-thirds of the per-pupil allocation of schools receiving a Gold Award.

Section VII. REPORT CARD INFORMATION AND PRESENTATION

Decisions on format and design of the report cards were made with the participation of members of the Education Oversight Committee, members of the State Board of Education, and the State Superintendent of Education. The data listed on each page of the school and district report cards are indicated in appendix D, Table of Specifications by School or District for Report Card Data.

The format and presentation, including issues of readability, are to be addressed in the annual reviews conducted by the Education Oversight Committee.

General Design Issues

The report card is to be printed in a format providing multiple pages of information (eight-and-one-half-by-eleven-inch sheets, folded).

Note: Federal No Child Left Behind (NCLB) legislation may require additional modifications to some aspects of the report cards described in this edition of the *Accountability Manual*.

In 2006-2007 EOC and SDE staff reviewed the report cards and made recommendations for changes with the following purposes:

1. To clearly distinguish between ratings and content related to the state accountability system and the federal (i.e., *No Child Left Behind*) system;
2. To improve understanding of the report card through use of precise phrases (e.g., on-time graduation), easily compared graphics, and provision of information on the ratings' criteria;
3. To delete redundant information and profile elements for which the data are overwhelmingly speculative:

Following field review and comments by educators, business leaders, and community leaders of the recommended, the EOC adopted the following changes to the report cards for implementation no later than the 2007-2008 school year.

General Organization

The publication is organized into two distinct sections: one related to the state accountability system and one related to the requirements of No Child Left Behind (NCLB)

Page One

- The graphic is changed from a furled American flag to a Palmetto Tree and crescent moon.
- Instead of separate sections for Absolute and Improvement ratings and AYP Status, a table displaying "Ratings Trends Over 5-Year Period" is printed, with the current year in a larger font size. This table includes an asterisk (*) designation for schools with elevated improvement ratings because of the performance of historically underperforming students. The * is explained in a note below the table.
- AYP status is reported in the NCLB section.
- The school ratings terms are published.
- The 2010 goal remains on the front along with the SDE and EOC websites.

Page Two

The purpose of page two is to present information about the rating relative to the criteria and the performance of schools or districts with similar students.

- The distribution of absolute ratings of similar schools or districts is displayed.
- Sectioned bar graphs for the school/district and similar schools/districts are used to display performance on the assessments used in calculation of the ratings. The definitions of student performance categories (as printed currently) are displayed.
- There is a new section, provided by the EOC, in which the factors included in a rating are presented as well as a statement to read: "District and school performance standards increase yearly between 2004 and 2010."

Page Three

Changes to the School or District Profile are made with the intents of (a) eliminating data no longer collected; (b) adding or amending program elements; and (c) moving NCLB required data to the NCLB section.

The following profile elements are eliminated:

- Percentage of students testing off-grade level in ELA.
- Percentage of students tested off-grade level in Math.
- Percentage of students on academic plans.
- Percentage of students on academic probation.
- For the district card, number of alternative schools.
- For the district card, number of charter schools.

The following profile elements are added or amended:

- Beginning in 2008-2009, amend "First graders who attended full-day kindergarten" to "Kindergarteners who attended state-funded full-day pre-kindergarten programs".
- Add the physical education program element.
- For high schools in 2007-2008, add the foreign language program element.
- Use the term "on-time graduation rate" rather than simply graduation rate.
- For the district card, the ratings of charter schools.
- Amend "eligible for LIFE scholarships" with notes about use in ratings to the general rate of eligibility.
- Report average ACT and SAT scores on the district card only.

The following element is shifted to the NCLB section:

- Classes not taught by highly qualified teachers.

Page Four

No changes.

Page Five and beyond

All information required by NCLB is presented, including detailed performance charts.

Additional information on the report card changes is available at <http://eoc.sc.gov>.

Section VIII

SYSTEM SAFEGUARDS

Ratings Impact

The State Department of Education conducts procedures to ensure that student performance on the state testing program assessments is measured properly and that accurate data are collected. Data used to rate schools and districts should undergo routine screening before and after the release of accountability ratings. The Education Oversight Committee bears responsibility for the annual review to determine the utilization of the report card and the impact of the accountability system on student, school, and district performance.

Serious Data Problems

If data problems of sufficient magnitude to question the validity of any accountability rating are uncovered, then the SDE should take one or more of the following steps after consulting with the district:

- Attempts will be made to rectify the data problems within the accountability calendar.
- If the problem cannot be resolved by the rating release date, then
 - a delayed rating may be issued; or
 - if the problem pertains to assessment data, ratings may be determined using assessment results for "all students tested."

Ratings Changes

The State Department of Education may change ratings of schools and districts after November 1 if problems in the data used to determine the ratings subsequently are discovered. In March 2007 the SDE reported changes to the ratings published in November 2006 for seventeen schools and one school district.

Analyses Undertaken Prior to the Release of Ratings

Analyses to examine data reasonableness are undertaken prior to applying accountability system criteria. The State Department of Education and the Division of Accountability should analyze current year accountability information to include: the percent of test-takers at each school; excessive numbers of students having modified or alternate test forms; excessive absences during testing; unusual increases in percentage of students with disabilities; excessive rates of student mobility; and unusual changes in indicator or fact data. Secondly, the testing contractor for the student assessment program should notify the SDE of potential data problems for a school district. The school district is contacted by the State Department of Education about potential data problems for a school district.

The State Department of Education is responsible for the data collection and printing of the annual school and district report cards. This work includes analyses checking for incomplete results or data, inconsistency with assessment results, and other anomalies. The Education Accountability Act (Section 59-18-900) was amended in 2006 directing the State Board of Education to promulgate regulations outlining the procedures for data collection, data accuracy, data reporting, and consequences for failure to provide required data.

Questions

Inquiries concerning the analyses prior to the release of the ratings should be directed to the State Department of Education.

Analyses Undertaken after the Release of Ratings

The Education Oversight Committee assumes responsibility for annual and longitudinal reviews of the accountability system.

The annual reviews will address the following:

- the format and readability of the school and district report card;
- public and professional access to the report card and their use of it;
- patterns within the data reported;
- identification of potential data sources to increase understanding of school processes and results;
- accuracy in data reporting and analyses;
- study of the performance of subgroups of the student population; and
- other elements as identified by policymakers.

The longitudinal reviews of the accountability system will address the following:

- use and misuse of the system;
- intended and unintended consequences;
- validity of the ratings methodologies and categorical definitions;
- impact of the system on student, school, district, and state performance; and
- other studies as identified by policymakers.

In February 2007 the national Technical Advisory Panel (TAP) to the EOC met to review the state accountability system and assessments. Their review was guided by the following questions:

1. South Carolina has set ambitious goals for its educational system. Does the state accountability system provide sufficient and appropriate support to reach those goals:
 - In the quality of its state assessments?
 - In the fairness and accuracy of the methodology used for evaluating school and district attainment and progress?
 - In its rigor?
2. How do you see the state accountability system evolving in response to changes in testing (e.g., computer vs. pencil-and-paper, etc.) and in the delivery of educational services (e.g., virtual high schools; charter schools, parental choice, etc.)?

The TAP identified a number of strengths in the accountability system and made a series of short- and long-term recommendations regarding the assessment program and the reporting of school results. EOC staff are currently following up with the TAP's recommendations for possible implementation.

Section IX LOCAL RESPONSIBILITIES

Public notification of accountability results and utilization in school and district improvement efforts are governed by multiple statutory requirements. These are described in this section. The text of the statutes is provided in appendix A.

Report Card Narrative

The principal, in conjunction with the School Improvement Council, must write an annual narrative of a school's progress in order to further inform parents and the community about the school and its operation. The narrative must cite factors or activities supporting progress and barriers that inhibit progress.

Opportunities for Data Correction

Each data source for information published on the annual school or district report card has a prescribed process and calendar for collecting the information. The accuracy of ratings, recognitions, report cards, and other reports is in large measure dependent on the accuracy of the information submitted. Districts are responsible for submitting all data with the exception of testing results that are transmitted by the testing companies. The procedures for correction of data are specified by the State Department of Education in the spring of each year to provide opportunities for districts to improve the accuracy of the data reported on the report cards in the following November.

Distribution of the Report Card

The school and district report cards must be furnished to schools no later than November 1 and to parents and the public no later than November 15. School and district report cards are mailed to parents of the school and the school district by the State Department of Education if sufficient funds are available. Schools, in conjunction with the school district board, must also advertise the results of their report card in an audited newspaper of general circulation in their geographic area within forty-five days of receipt of the report cards from the State Department of Education. The advertising requirement is waived if the audited newspaper has previously published the entire report card results as a news item.

Development of Local Accountability Systems

Each district board of trustees must establish and annually review a performance-based accountability system, or modify its existing system, to reinforce the state accountability system. Parents, teachers, and principals must be involved in the development, annual review, and revisions of the accountability system established by the district.

This accountability system must be developed in accordance with regulations of the State Board of Education.

Annual school improvement reports must be provided to parents on or by April 30.

Intervention and Assistance

When a school or district receives a rating of Below Average or Unsatisfactory, the school must undertake the actions outlined in the Code of Laws of South Carolina, Sections 59-18-1500 through 1590. These statutes establish the basis for improvement, assistance, and intervention and should be developed with the support of the State Department of Education.

Section X PREVIEW OF THE 2008–2009 ACCOUNTABILITY SYSTEM

System Evolution

From its inception, the accountability system was designed to evolve over time to encourage higher levels of student performance, incorporate additional information, meet statutory requirements as quickly as possible, and improve the information with which accountability decisions are made.

In order to provide schools and districts with adequate time to prepare for the rigor of the standards, this section presents a preview of how the accountability system is expected to evolve over the next few years.

Assumptions for Change

Additions and/or modifications of the state assessment system may require modifications of the ratings calculations. For example, in 2004, first-attempt HSAP performance was added as a criterion for the high school ratings and in 2005 PACT Science and Social Studies were added to the calculation of the elementary and middle school ratings. Scheduled changes to the rating are listed in the following table:

Schedule for Studies of and Changes to School and District Report Cards

Report Card	2004-2005	2005-2006	2006-2007	2007-2008	2008-2009
Primary Schools	Advisory group reviews rating criteria to determine if criteria more sensitive to programmatic differences can be identified and implemented	Pilot new criteria and simulate results	Implement new criteria indicated from pilot study		
Elementary Schools	<u>Absolute ratings:</u> Add PACT Social Studies and Science results (weighted 10% each) to ELA and Math results (weighted 40% each) <u>Improvement ratings:</u> Add PACT Social Studies and Science results (weighted 20% each) to ELA and Math results (weighted 30% each)	<u>Absolute ratings:</u> Increase PACT Social Studies and Science result weights to 15% each and decrease ELA and Math result weights to 35% each <u>Improvement ratings:</u> No change	<u>Absolute ratings:</u> Increase PACT Social Studies and Science result weights to 20% each and decrease ELA and Math result weights to 30% each <u>Improvement ratings:</u> No change Conduct studies of roles of PACT performance levels in accountability system and possible use of measures of persistently low student performance for accountability	Percentage of students who attended a preschool program studied for possible reporting	Percentage of students who attended a preschool program reported
Middle Schools	<u>Absolute ratings:</u> Add PACT Social Studies and Science results (weighted 15% each) to ELA and Math results (weighted 35% each)	<u>Absolute ratings:</u> Increase PACT Social Studies and Science result weights to 20% and decrease ELA and Math result weights to 30% each	<u>Absolute ratings:</u> Increase PACT Social Studies and Science result weights to 25% each and decrease ELA and Math result weights to 25% each	<u>Absolute ratings:</u> End of Course test results included along with PACT results for calculation of Absolute ratings	

Report Card	2004-2005	2005-2006	2006-2007	2007-2008	2008-2009
Middle Schools	<u>Improvement ratings:</u> Add PACT Social Studies and Science results (weighted 25% each) to ELA and Math results (weighted 25% each)	<u>Improvement ratings:</u> No change	<u>Improvement ratings:</u> No change Conduct studies of roles of PACT performance levels in accountability system and possible use of measures of persistently low student performance for accountability		
High Schools	No change from 2003-2004	Replace longitudinal BSAP Exit Exam with longitudinal HSAP high school examination data	Replace LIFE Scholarship criteria with end-of-course test results Conduct study of possible use of measures of student attainment of credits toward diploma for accountability	End of Course test results from virtual high school courses and from courses providing dual high school and college credit reported with high school in which student is enrolled for use in calculating school and district ratings (through 2009-2010) Results from measure of foreign language program reported	End of Course test results from virtual high school courses and from courses providing dual high school and college credit reported with high school in which student is enrolled for use in calculating school and district ratings (through 2009-2010)
Districts	Add PACT Social Studies and Science results to ELA and Math results to elementary and middle school components of district ratings, applying same weightings for each test as used for elementary and middle schools in 2004-2005	Increase weights for PACT Social Studies and Science results and decrease weights for ELA and Math results when calculating the elementary and middle school components of district ratings, applying same weightings for each test as used for elementary and middle school	Increase weights for PACT Social Studies and Science results and decrease weights for ELA and Math results when calculating the elementary and middle school components of district ratings, applying same weightings for each test as used for elementary	Report ratings of charter schools in district Report card for State Charter School District distributed	

Report Card	2004-2005	2005-2006	2006-2007	2007-2008	2008-2009
Districts		ratings in 2005-2006 Replace LIFE Scholarship criteria with end-of-course test results for high school component of ratings Add district high school graduation rate to ratings criteria	and middle school ratings in 2006-2007 Plan for report card for State Charter School District		
Career and Technology Centers	Advisory group reviews rating criteria to determine if criteria more sensitive to programmatic differences can be identified and implemented	Advisory group reviews rating criteria to determine if criteria more sensitive to programmatic differences can be identified and implemented	Advisory group reviews rating criteria to determine if criteria more sensitive to programmatic differences can be identified and implemented	Pilot new criteria and simulate results	Implement new criteria from pilot study

What Is Expected to Stay the Same through the 2009 Report Card

- ❑ The ratings categories
- ❑ The use of disaggregated student groups
- ❑ Assessment results for accountability purposes based upon the forty-fifth day membership
- ❑ Provisions for small numbers of students
- ❑ Statutory recognitions based on the performance results

Planning for the Future

The outline in this section presents data elements that may be added over the next several years. These include the following:

- ❑ The percentage of elementary school students who attended a four-year-old preschool program will be studied for possible inclusion in the profile section of the report cards.
- ❑ Subsequent to its approval by the EOC, data from the end-of-course assessment in U.S. History and Constitution will be included along with data from the other end-of-course tests in the calculation of the high school and school district ratings.
- ❑ A report card for the State Charter School District is planned for distribution in 2008.
- ❑ As data become available, five-year graduation rates will be published.
- ❑ Other changes in response to changes in the statutory provisions may include changes called for in federal legislation (No Child Left Behind).

Section XI ADDITIONAL INFORMATION

Calendar for 2007–2008

December/May/July	End-of-course test administrations
March	2008 HSAP Examination administration; review of <i>Accountability Manual</i> (and any proposed changes)
April/May	2008 PACT administration
Summer	Review of 2008 PACT performance, HSAP administration results
	District superintendents submit questions regarding school or district data calculations
First day of school year	Request for program unit to receive report card
November 1	SDE distribution of school and district report cards to schools and districts
November 15	Distribution of school and district report cards to parents and community members
Within 45 days	Publication of notice about report cards in area newspapers

APPENDIX A

**The Education Accountability Act of 1998
(as amended in 2006)
Title 59 of the Code of Laws of South Carolina, 1976**

and

**2007-2008 Appropriations Act Provisos Related to the Accountability
System**

(At the time of publication of this manual (6/13/07), the published provisos are pending adoption of the 2007-08 General Appropriations Act.)

AN ACT TO AMEND CHAPTER 18 OF TITLE 59, CODE OF LAWS OF SOUTH CAROLINA, 1976, RELATING TO QUALITY CONTROLS AND PRODUCTIVITY REWARDS, SO AS TO ENACT THE SOUTH CAROLINA EDUCATION ACCOUNTABILITY ACT OF 1998 TO ESTABLISH STATEWIDE ACADEMIC ACHIEVEMENT STANDARDS AND ASSESSMENTS OF THOSE STANDARDS FOR SCHOOLS, TO PROVIDE ANNUAL REPORT CARDS FOR SCHOOLS WITH A PERFORMANCE INDICATOR SYSTEM, TO REQUIRE DISTRICTS TO ESTABLISH LOCAL ACCOUNTABILITY SYSTEMS, TO PROVIDE SPECIFIED RESOURCES TO IMPROVE STUDENT PERFORMANCE AND TEACHER AND STAFF DEVELOPMENT AND ASSISTANCE, AND TO PROVIDE FOR THE IMPLEMENTATION AND OVERSIGHT OF THE ABOVE PROVISIONS; TO ADD SECTION 59-24-5 SO AS TO PROVIDE FOR LEGISLATIVE FINDINGS IN REGARD TO SCHOOL PRINCIPALS AND THEIR PROFESSIONAL DEVELOPMENT; TO AMEND SECTIONS 59-24-10, 59-24-30, BOTH AS AMENDED, AND 59-24-50, RELATING TO ASSESSMENT OF AND DEVELOPMENT PLANS FOR SCHOOL ADMINISTRATORS, SO AS TO FURTHER PROVIDE FOR SUCH ASSESSMENTS AND DEVELOPMENT PLANS; TO ADD SECTION 59-24-80 SO AS TO PROVIDE FOR A FORMAL INDUCTION PROGRAM FOR FIRST-YEAR PRINCIPALS; TO ADD SECTION 59-24-15 SO AS TO PROVIDE THAT CERTIFIED EDUCATION PERSONNEL WHO ARE EMPLOYED AS ADMINISTRATORS ON AN ANNUAL OR MULTI-YEAR CONTRACT WILL RETAIN THEIR RIGHTS AS A TEACHER UNDER APPLICABLE EMPLOYMENT, DISMISSAL, AND OTHER PROCEDURES BUT NO SUCH RIGHTS ARE GRANTED TO THE POSITION OR SALARY OF ADMINISTRATOR, AND TO PROVIDE THAT ANY SUCH ADMINISTRATOR WHO PRESENTLY IS UNDER A CONTRACT GRANTING SUCH RIGHTS SHALL RETAIN THAT STATUS UNTIL THE EXPIRATION OF THAT CONTRACT; TO AMEND SECTION 59-6-10, RELATING TO THE SELECT COMMITTEE TO OVERSEE THE EIA, SO AS TO CHANGE THE NAME OF THE COMMITTEE TO THE EDUCATION OVERSIGHT COMMITTEE, TO REVISE THE MEMBERSHIP OF THE COMMITTEE AND THE MANNER IN WHICH ITS MEMBERS ARE SELECTED, AND TO REVISE ITS DUTIES AND FUNCTIONS INCLUDING A REQUIREMENT THAT IT REVIEW AND MONITOR THE EDUCATION ACCOUNTABILITY ACT OF 1998; TO ADD SECTIONS 59-6-100, 59-6-110, AND 59-6-120 SO AS TO ESTABLISH AN ACCOUNTABILITY DIVISION WITHIN THE EDUCATION OVERSIGHT COMMITTEE AND PROVIDE FOR ITS DUTIES, FUNCTIONS, AND RESPONSIBILITIES, TO PROVIDE THAT THE EDUCATION OVERSIGHT COMMITTEE SHALL APPOINT A TASK FORCE TO REVIEW CURRENT STATE PROGRAMS AND POLICIES FOR PARENT PARTICIPATION IN THEIR CHILDREN'S EDUCATION; TO AMEND SECTION 59-29-10, RELATING TO REQUIRED SUBJECTS OF INSTRUCTION, SO AS TO REQUIRE INSTRUCTION IN PHONICS; TO ADD SECTION 59-63-65 SO AS TO PROVIDE THAT SCHOOL DISTRICTS WHICH CHOOSE TO REDUCE CLASS SIZE IN GRADES ONE THROUGH THREE TO A PUPIL-TEACHER RATIO OF FIFTEEN TO ONE SHALL BE ELIGIBLE FOR CERTAIN STATE FUNDING, AND TO PROVIDE FOR THE IMPLEMENTATION OF THESE PROVISIONS INCLUDING A PROVISION ALLOWING PORTABLE OR TEMPORARY FACILITIES TO BE USED FROM FUNDING DERIVED FROM THE CHILDREN'S EDUCATION ENDOWMENT FUND, TO REQUIRE THE DEPARTMENT OF EDUCATION TO PROVIDE A COPY OF THIS ACT TO EVERY DISTRICT SCHOOL SUPERINTENDENT AND SCHOOL PRINCIPAL IN THIS STATE; TO REPEAL SECTION 59-6-12 RELATING TO CERTAIN DUTIES AND RESPONSIBILITIES OF THE SELECT COMMITTEE; AND TO REPEAL SECTIONS 59-18-10, 59-18-11, 59-18-15, 59-18-20, 59-18-25, 59-18-30, AND 59-18-31 RELATING TO SCHOOL QUALITY CONTROLS AND PRODUCTIVITY.

Be it enacted by the General Assembly of the State of South Carolina:

Citation

SECTION 1. This act will be known and may be cited as the "South Carolina Education Accountability Act of 1998."

Education Accountability Act of 1998

SECTION 2. Chapter 18, Title 59 of the 1976 Code is amended to read:

EDUCATION ACCOUNTABILITY ACT OF 1998
ARTICLE 1.
GENERAL PROVISIONS

SECTION 59-18-100. Performance based accountability system for public education established; "accountability" defined.

The General Assembly finds that South Carolinians have a commitment to public education and a conviction that high expectations for all students are vital components for improving academic achievement. It is the purpose of the General Assembly in this chapter to establish a performance based accountability system for public education which focuses on improving teaching and learning so that students are equipped with a strong academic foundation. Accountability, as defined by this chapter, means acceptance of the responsibility for improving student performance and taking actions to improve classroom practice and school performance by the Governor, the General Assembly, the State Department of Education, colleges and universities, local school boards, administrators, teachers, parents, students, and the community.

SECTION 59-18-110. Objectives.

The system is to:

- (1) use academic achievement standards to push schools and students toward higher performance by aligning the state assessment to those standards and linking policies and criteria for performance standards, accreditation, reporting, school rewards, and targeted assistance;
- (2) provide an annual report card with a performance indicator system that is logical, reasonable, fair, challenging, and technically defensible which furnishes clear and specific information about school and district academic performance and other performance to parents and the public;
- (3) require all districts to establish local accountability systems to stimulate quality teaching and learning practices and target assistance to low performing schools;
- (4) provide resources to strengthen the process of teaching and learning in the classroom to improve student performance and reduce gaps in performance;
- (5) support professional development as integral to improvement and to the actual work of teachers and school staff; and
- (6) expand the ability to evaluate the system and to conduct in-depth studies on implementation, efficiency, and the effectiveness of academic improvement efforts.

SECTION 59-18-120. Definitions.

As used in this chapter:

- (1) "Oversight Committee" means the Education Oversight Committee established in Section 59-6-10.
- (2) "Standards based assessment" means an assessment where an individual's performance is compared to specific performance standards and not to the performance of other students.
- (3) "Disaggregated data" means data broken out for specific groups within the total student population, such as by race, gender, and family income level.
- (4) "Longitudinally matched student data" means examining the performance of a single student or a group of students by considering their test scores over time.
- (5) "Norm-referenced assessment" means assessments designed to compare student performance to a nationally representative sample of similar students known as the norm group.
- (6) "Academic achievement standards" means statements of expectations for student learning.
- (7) "Department" means the State Department of Education.
- (8) "Absolute performance" means the rating a school will receive based on the percentage of students meeting standard on the state's standards based assessment.
- (9) "Improvement performance" means the rating a school will receive based on longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth.
- (10) "Objective and reliable statewide assessment" means assessments that yield consistent results and that measure the cognitive knowledge and skills specified in the state-approved academic standards and do not include questions relative to personal opinions, feelings, or attitudes and are not biased with regard to race, gender, or socioeconomic status. The assessments must include a writing assessment and multiple-choice questions designed to reflect a range of cognitive abilities beyond the knowledge level. Constructive response questions may be included as a component of the writing assessment.
- (11) "Division of Accountability" means the special unit within the oversight committee established in Section 59-6-100.
- (12) "Formative assessment" means assessments used within the school year to analyze general strengths and weaknesses in learning and instruction, to understand the performance of students individually and across achievement categories, to adapt instruction to meet students' needs, and to consider placement and planning for the next grade level. Data and performance from the formative assessments must not be used in the calculation of school or district ratings.

ARTICLE 3.

ACADEMIC STANDARDS AND ASSESSMENTS

SECTION 59-18-300. Adoption of educational standards in core academic areas.

The State Board of Education is directed to adopt grade specific performance-oriented educational standards in the core academic areas of mathematics, English/language arts, social studies (history, government, economics, and geography), and science for kindergarten through twelfth grade and for grades nine through twelve adopt specific academic standards for benchmark courses in mathematics, English/language arts, social studies, and science. The standards are to promote the goals of providing every student with the competencies to:

- (1) read, view, and listen to complex information in the English language;
- (2) write and speak effectively in the English language;
- (3) solve problems by applying mathematics;
- (4) conduct research and communicate findings;

- (5) understand and apply scientific concepts;
- (6) obtain a working knowledge of world, United States, and South Carolina history, government, economics, and geography; and
- (7) use information to make decisions.

The standards must be reflective of the highest level of academic skills with the rigor necessary to improve the curriculum and instruction in South Carolina's schools so that students are encouraged to learn at unprecedented levels and must be reflective of the highest level of academic skills at each grade level.

SECTION 59-18-310. Development or adoption of statewide assessment program to promote student learning and measure student performance.

(A) Notwithstanding any other provision of law, the State Board of Education, through the Department of Education, is required to develop or adopt a statewide assessment program to promote student learning and to measure student performance on state standards and:

- (1) identify areas in which students need additional support;
- (2) indicate the academic achievement for schools, districts, and the State;
- (3) satisfy federal reporting requirements; and
- (4) provide professional development to educators.

Assessments required to be developed or adopted pursuant to the provisions of this section or chapter must be objective and reliable.

(B) The statewide assessment program in the four academic areas must include grades three through eight, an exit examination in English/language arts and mathematics, which is to be first administered in a student's second year of high school enrollment beginning with grade nine, and end-of-course tests for gateway courses awarded Carnegie units of credit in English/language arts, mathematics, science, and social studies. Beginning with the graduating class of 2010, students are required to pass a high school credit course in science and a course in United States history in which end-of-course examinations are administered to receive the state high school diploma.

(C) While assessment is called for in the specific areas mentioned above, this should not be construed as lessening the importance of foreign languages, visual and performing arts, health, physical education, and career or occupational programs.

(D) By March 31, 2007, the State Board of Education shall create a statewide adoption list of formative assessments aligned with the state content standards and satisfying professional measurement standards in accordance with criteria jointly determined by the Education Oversight Committee and the State Department of Education. The formative assessments must provide diagnostic information in a timely manner to all school districts for each student during the course of the school year. For use beginning with the 2007-08 school year, with funds appropriated by the General Assembly, local districts must be allocated resources to select and administer formative assessments from the statewide adoption list to use to improve student performance in accordance with district improvement plans. However, if a local district already administers formative assessments, the district may continue to use the assessments if they meet the state standards and criteria pursuant to this subsection.

(E) The State Board of Education shall adopt a developmentally appropriate formative reading assessment for use in first and second grades to be administered initially in the 2007-08 school year. The assessment must provide opportunities for periodic formative assessment during the school year, reports that are useful for informing classroom instruction, strand, or significant groupings of standards level information about individual students, and must be compatible with best practices in reading instruction and reading research. The State Department of Education shall provide appropriate and on-going professional development to support appropriate use of the assessment.

(F) The State Department of Education shall provide on-going professional development in the development and use of classroom assessments, the use of formative assessments and the use of the end-of-year state assessments so that teaching and learning activities are focused on student needs and lead to higher levels of student performance.

SECTION 59-18-320. Review of field test; general administration of test; accommodations for students with disabilities; adoption of new standards.

(A) After the first statewide field test of the assessment program in each of the four academic areas, and after the field tests of the end of course assessments of benchmark courses, the Education Oversight Committee, established in Section 59-6-10, will review the state assessment program and the course assessments for alignment with the state standards, level of difficulty and validity, and for the ability to differentiate levels of achievement, and will make recommendations for needed changes, if any. The review will be provided to the State Board of Education, the State Department of Education, the Governor, the Senate Education Committee, and the House Education and Public Works Committee as soon as feasible after the field tests. The Department of Education will then report to the Education Oversight Committee no later than one month after receiving the reports on the changes made to the assessments to comply with the recommendations.

(B) After review and approval by the Education Oversight Committee, the standards-based assessment of mathematics, English/language arts, social studies, and science will be administered to all public school students to include those students as required by the 1997 reauthorization of the federal Individuals with Disabilities Education Act and by Title 1 at the end of grades three through eight. To reduce the number of days of testing, to the extent possible, field test items must be embedded with the annual assessments. In accordance with the requirements of the federal No Child Left Behind Act, science assessments must be administered annually to all students in one elementary and one middle school grade. The State Department of Education shall develop a sampling plan to administer science and social studies assessments to all other elementary and middle school students. The plan shall provide for all students and both content areas to be assessed annually; however, individual students, except in census testing grades, are not required to take both tests. In the sampling plan, approximately half of the assessments must be administered in science and the other half in social studies in each class. To ensure that school districts maintain the high standard of accountability established in the Education Accountability Act, performance level results reported on school and district report cards must meet consistently high levels in all four core content areas. Beginning with the 2007 report card, the core areas must remain consistent with the following percentage weightings established and approved by the Education Oversight Committee: in grades three through five, thirty percent each for English/language arts and math, and twenty percent each for science and social studies; and in grades six through eight, twenty-five percent each for English/language arts and math, and twenty-five percent each for science and social studies. The exit examination must be administered for the first time at the end of the student's second year of high school enrollment beginning with grade nine. For students with documented disabilities, the assessments developed by the Department of Education shall include the appropriate modifications and accommodations with necessary supplemental devices as outlined in a student's Individualized Education Program and as stated in the Administrative Guidelines and Procedures for Testing Students with Documented Disabilities. The State Board of Education shall establish a task force to recommend alternative evidence and procedures that may be used to allow students to meet graduation requirements even if they have failed the exit examination. The alternative evidence only may be used in the rare instances where there is compelling evidence that a student is well qualified for graduation,

but extreme circumstances have interfered with passage of the exit examination and, for that reason alone, the student would be denied a state high school diploma.

(C) After review and approval by the Education Oversight Committee, the end of course assessments of benchmark courses will be administered to all public school students as they complete each benchmark course.

(D) Any new standards and assessments required to be developed and adopted by the State Board of Education, through the Department of Education, must be developed and adopted upon the advice and consent of the Education Oversight Committee.

SECTION 59-18-330. First grade readiness test.

The State Board of Education, through the State Department of Education, shall develop, select, or adapt a first-grade readiness test that is linked to the adopted grade-one academic standards and a second-grade readiness test that is linked to the adopted grade-two academic standards. The purpose of the tests is to measure individual student readiness, and they are not to be used as an accountability measure at the state level. However, the grade-two readiness test will serve as the baseline for grade-three assessment. The State Department of Education shall provide continuing teacher training to ensure the valid and reliable use of the assessments and develop a minimum statewide data collection plan to include the amount and types of evidence to be collected. Beginning with the 2006-07 school year, the readiness assessment must be modified to provide detailed information on student literacy development.

SECTION 59-18-340. Administration of National Assessment of Education Progress.

The State Board of Education is directed to administer annually the National Assessment of Education Progress (NAEP) to obtain an indication of student and school performance relative to national performance levels.

SECTION 59-18-350. PSAT or PLAN tests of tenth grade students; availability; use of results.

High schools shall offer state-funded PSAT or PLAN tests to each tenth grade student in order to assess and identify curricular areas that need to be strengthened and re-enforced. Schools and districts shall use these assessments as diagnostic tools to provide academic assistance to students whose scores reflect the need for such assistance. Schools and districts shall use these assessments to provide guidance and direction for parents and students as they plan for postsecondary experiences.

SECTION 59-18-360. Cyclical review of state standards and assessments; analysis of assessment results.

(A) The State Board of Education, in consultation with the Education Oversight Committee, shall provide for a cyclical review by academic area of the state standards and assessments to ensure that the standards and assessments are maintaining high expectations for learning and teaching. All academic areas must be initially reviewed by the year 2005. At a minimum, each academic area should be reviewed and updated every seven years. After each academic area is reviewed, a report on the recommended revisions must be presented to the Education Oversight Committee for its consideration. After approval by the Education Oversight Committee, the recommendations may be implemented. As a part of the review, a task force of parents, business and industry persons, community leaders, and educators, to include special education teachers, shall examine the standards and assessment system to determine rigor and relevancy.

(B) Beginning with the 2005 assessment results, the State Department of Education annually shall convene a team of curriculum experts to analyze the results of the assessments, including performance item by item. This analysis must yield a plan for disseminating additional information about the assessment results and instruction and the information must be disseminated to districts not later than January fifteenth of the subsequent year.

SECTION 59-18-370. Dissemination of assessment results.

The Department of Education is directed to provide assessment results annually on individual students and schools in a manner and format that is easily understood by parents and the public. In addition, the school assessment results must be presented in a format easily understood by the faculty and in a manner that is useful for curriculum review and instructional improvement. The department is to provide longitudinally matched student data from the standards based assessments and include information on the performance of subgroups of students within the school. The department must work with the Division of Accountability in developing the formats of the assessment results. Schools and districts shall be responsible for disseminating this information to parents.

ARTICLE 5.

ACADEMIC PLANS FOR STUDENTS

SECTION 59-18-500. Academic plan for student lacking skills to perform at current grade level; review of results; development of statewide policies.

(A) Beginning in 1998-99 and annually thereafter, at the beginning of each school year, the school must notify the parents of the need for a conference for each student in grades three through eight who lacks the skills to perform at his current grade level based on assessment results, school work, or teacher judgment. At the conference, the student, parent, and appropriate school personnel will discuss the steps needed to ensure student success at the next grade level. An academic plan will be developed to outline additional services the school and district will provide and the actions the student and the parents will undertake to further student success.

(B) The participants in the conference will sign off on the academic plan, including any requirement for summer school attendance. Should a parent, after attempts by the school to schedule the conference at their convenience, not attend the conference, the school will appoint a school mentor, either a teacher or adult volunteer, to work with the student and advocate for services. A copy of the academic plan will be sent to the parents by certified mail.

(C) At the end of the school year, the student's performance will be reviewed by appropriate school personnel. If the student's work has not been at grade level or if the terms of the academic plan have not been met, the student may be retained, he may be required to attend summer school, or he may be required to attend a comprehensive remediation program the following year designed to address objectives outlined in the academic plan for promotion. Students required to participate the following year in a comprehensive remediation program must be considered on academic probation. Comprehensive remediation programs established by the district shall operate outside of the normal school day and must meet the guidelines established for these programs by the State Board of Education. If there is a compelling reason why the student should not be required to attend summer school or be retained, the parent or student may appeal to a district review panel.

(D) At the end of summer school, a district panel must review the student's progress and report to the parents whether the student's academic progress indicates readiness to achieve grade

level standards for the next grade. If the student is not at grade level or the students assessment results show standards are not met, the student must be placed on academic probation. A conference of the student, parents, and appropriate school personnel must revise the academic plan to address academic difficulties. At the conference it must be stipulated that academic probation means if either school work is not up to grade level or if assessment results again show standards are not met, the student will be retained. The district's appeals process remains in effect.

(E) Each district board of trustees will establish policies on academic conferences, individual student academic plans, and district level reviews. Information on these policies must be given to every student and parent. Each district is to monitor the implementation of academic plans as a part of the local accountability plan. Districts are to use Act 135 of 1993 academic assistance funds to carry out academic plans, including required summer school attendance. Districts' policies regarding retention of students in grades one and two remain in effect.

(F) The State Board of Education, working with the Oversight Committee, will establish guidelines until regulations are promulgated to carry out this section. The State Board of Education, working with the Accountability Division, will promulgate regulations requiring the reporting of the number of students retained at each grade level, the number of students on probation, number of students retained after being on probation, and number of students removed from probation. This data will be used as a performance indicator for accountability.

ARTICLE 7.

MATERIALS AND ACCREDITATION

SECTION 59-18-700. Alignment of criteria for instructional materials with educational standards.

The criteria governing the adoption of instructional materials shall be revised by the State Board of Education to require that the content of such materials reflect the substance and level of performance outlined in the grade specific educational standards adopted by the state board.

SECTION 59-18-710. Criteria for state's accreditation system.

By November, 2000, the State Board of Education, working with the Department of Education and recommendations from the Accountability Division, must promulgate regulations outlining the criteria for the state's accreditation system which must include student academic performance.

ARTICLE 9.

REPORTING

SECTION 59-18-900. Development of annual report cards; academic performance ratings; contents; promulgation of regulations.

(A) The Education Oversight Committee, working with the State Board of Education, is directed to establish an annual report card and its format to report on the performance for the individual elementary, middle, high schools, and school districts of the State. The school's ratings on academic performance must be emphasized and an explanation of their significance for the school and the district must also be reported. The annual report card must serve at least four purposes:

- (1) inform parents and the public about the school's performance;
- (2) assist in addressing the strengths and weaknesses within a particular school;
- (3) recognize schools with high performance; and
- (4) evaluate and focus resources on schools with low performance.

(B) The Oversight Committee shall determine the criteria for and establish five academic performance ratings of excellent, good, average, below average, and unsatisfactory. Schools and districts shall receive a rating for absolute and improvement performance. Only the scores of students enrolled in the school at the time of the forty-five-day enrollment count shall be used to determine the absolute and improvement ratings. The Oversight Committee shall establish student performance indicators which will be those considered to be useful for assessing a school's overall performance and appropriate for the grade levels within the school.

(C) In setting the criteria for the academic performance ratings and the performance indicators, the Education Oversight Committee shall report the performance by subgroups of students in the school and schools similar in student characteristics. Criteria must use established guidelines for statistical analysis and build on current data-reporting practices.

(D) The report card must include a comprehensive set of performance indicators with information on comparisons, trends, needs, and performance over time which is helpful to parents and the public in evaluating the school. Special efforts are to be made to ensure that the information contained in the report card is provided in an easily understood manner and a reader-friendly format. This information should also provide a context for the performance of the school. Where appropriate, the data should yield disaggregated results to schools and districts in planning for improvement. The report card should include information in such areas as programs and curriculum, school leadership, community and parent support, faculty qualifications, evaluations of the school by parents, teachers, and students. In addition, the report card must contain other criteria including, but not limited to, information on promotion and retention ratios, disciplinary climate, dropout ratios, dropout reduction data, student and teacher ratios, and attendance data.

(E) The principal, in conjunction with the School Improvement Council established in Section 59-20-60, must write an annual narrative of a school's progress in order to further inform parents and the community about the school and its operation. The narrative must cite factors or activities supporting progress and barriers which inhibit progress. The school's report card must be furnished to parents and the public no later than November fifteenth.

(F) The percentage of new trustees who have completed the orientation requirement provided in Section 59-19-45 must be reflected on the school district report card.

(G) The State Board of Education shall promulgate regulations outlining the procedures for data collection, data accuracy, data reporting, and consequences for failure to provide data required in this section.

SECTION 59-18-910. Progress reports.

No later than June 1, 1999, the Accountability Division must report on the development of the performance indicators criteria and the report card to the Education Oversight Committee and the State Board of Education. A second report, to include uniform collection procedures for academic standards and performance indicators, is due by September 1, 1999. No later than September, 1999, the State Department of Education shall report to the Oversight Committee the determination of the levels of difficulty for the assessments by grade and academic area. By March 1, 2000, a report on the development of baseline data for the schools is due from the division.

SECTION 59-18-920. Report card requirements for charter, alternative and career and technology schools.

A charter school established pursuant to Chapter 40, Title 59 shall report the data requested by the Department of Education necessary to generate a report card. The Department of Education shall utilize this data to issue a report card with performance ratings to parents and the public containing the ratings and explaining its significance and providing other information similar to that required of other schools in this section. The performance of students attending charter schools sponsored by the South Carolina Public Charter School District must be included in the overall performance ratings of the South Carolina Public Charter School District. The performance of students attending a charter school authorized by a local school district must be reflected on a separate line on the school district's report card and must not be included in the overall performance ratings of the local school district. An alternative school is included in the requirements of this chapter; however, the purpose of an alternative school must be taken into consideration in determining its performance rating. The Education Oversight Committee, working with the State Board of Education and the School to Work Advisory Council, shall develop a report card for career and technology schools.

SECTION 59-18-930. Report cards; date for issuance; advertisement of results.

Beginning in 2001 and annually thereafter the State Department of Education must issue report cards to all schools and districts of the State no later than November first. The report card must be mailed to all parents of the school and the school district. The school, in conjunction with the district board, must also inform the community of the school's report card by advertising the results in at least one South Carolina daily newspaper of general circulation in the area. This notice must be published within ninety days of receipt of the report cards issued by the State Department of Education and must be a minimum of two columns by ten inches (four and one-half by ten inches) with at least a twenty-four point bold headline.

ARTICLE 11.

AWARDING PERFORMANCE

SECTION 59-18-1100. Palmetto Gold and Silver Awards Program established; criteria; eligibility of schools for academically talented.

The State Board of Education, working with the division and the Department of Education, must establish the Palmetto Gold and Silver Awards Program to recognize and reward schools for academic achievement. Awards will be established for schools attaining high levels of absolute performance and for schools attaining high rates of improvement. The award program must

base improved performance on longitudinally matched student data and may include such additional criteria as:

- (1) student attendance;
 - (2) teacher attendance;
 - (3) student dropout rates; and
 - (4) any other factors promoting or maintaining high levels of achievement and performance.
- Schools shall be rewarded according to specific criteria established by the division. In defining eligibility for a reward for high levels of performance, student performance should exceed expected levels of improvement. The State Board of Education shall promulgate regulations to ensure districts of the State utilize these funds to improve or maintain exceptional performance according to their school's plans established in Section 59-139-10. Funds may be utilized for professional development support.

Special schools for the academically talented are not eligible to receive an award pursuant to the provisions of this section unless they have demonstrated improvement and high absolute achievement for three years immediately preceding.

SECTION 59-18-1110. Grant of flexibility of receiving exemption from regulations; criteria; continuation of and removal from flexibility status.

(A) Notwithstanding any other provision of law, a school is given the flexibility of receiving exemptions from those regulations and statutory provisions governing the defined program provided that, during a three-year period, the following criteria are satisfied:

- (1) the school has twice been a recipient of a Palmetto Gold or Silver Award, pursuant to Section 59-18-1100;
- (2) the school has met annual improvement standards for subgroups of students in reading and mathematics; and
- (3) the school has exhibited no recurring accreditation deficiencies.

(B) Schools receiving flexibility status are released from those regulations and statutory provisions referred to above including, but not limited to, regulations and statutory provisions on class scheduling, class structure, and staffing. The State Board of Education in consultation with the Education Oversight Committee must promulgate regulations and develop guidelines for providing this flexibility by December 1, 2001.

(C) To continue to receive flexibility pursuant to this section, a school must annually exhibit school improvement at or above the state average as computed in the school recognition program pursuant to Section 59-18-1100 and must meet the gains required for subgroups of students in reading and mathematics. A school which does not requalify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year.

(D) In the event that a school is removed from flexibility status, the school is not subject to regulations and statutory provisions exempted under this section until the beginning of the school year following notification of the change in status by the State Department of Education. Subsequent monitoring by the State Department of Education in a school that is removed from flexibility status shall not include a review of program records exempted under this section for the period that the school has received flexibility status or for the school year during which the school was notified of its removal from flexibility status.

SECTION 59-18-1120. Grant of flexibility of exemption from regulations and statutes to school designated as unsatisfactory while in such status; extension to other schools.

(A) Notwithstanding any other provision of law, a school designated as unsatisfactory while in such status is given the flexibility of receiving exemptions from those regulations and statutory provisions governing the defined program or other State Board of Education regulations, dealing with the core academic areas as outlined in Section 59-18-120, provided that the review team recommends such flexibility to the State Board of Education.

(B) Other schools may receive flexibility when their strategic plan explains why such exemptions are expected to improve the academic performance of the students and the plan meets the approval by the State Board of Education. To continue to receive flexibility pursuant to this section, a school must annually exhibit overall school improvement as outlined in its revised plan and must meet the gains set for subgroups of students in reading and mathematics. A school which does not requalify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year according to the provisions of Section 59-18-1110(D).

ARTICLE 13.

DISTRICT ACCOUNTABILITY SYSTEMS

SECTION 59-18-1300. District accountability system; development and review.

The State Board of Education, based on recommendations of the division, must develop regulations requiring that no later than August, 1999, each district board of trustees must establish and annually review a performance based accountability system, or modify its existing accountability system, to reinforce the state accountability system. Parents, teachers, and principals must be involved in the development, annual review, and revisions of the accountability system established by the district. The board of trustees shall ensure that a district accountability plan be developed, reviewed, and revised annually. In order to stimulate constant improvement in the process of teaching and learning in each school and to target additional local assistance for a school when its students' performance is low or shows little improvement, the district accountability system must build on the district and school activities and plans required in Section 59-139-10. In keeping with the emphasis on school accountability, principals should be actively involved in the selection, discipline, and dismissal of personnel in their particular school. The date the school improvement reports must be provided to parents is changed to February first. Until such time as regulations pursuant to this section become effective, school district accountability systems must be developed, adopted, and implemented in accordance with State Board of Education guidelines.

The Department of Education shall offer technical support to any district requesting assistance in the development of an accountability plan. Furthermore, the department must conduct a review of accountability plans as part of the peer review process required in Section 59-139-10(H) to ensure strategies are contained in the plans that shall maximize student learning. The department shall submit plans for the peer review process to the division for approval by August, 1999. School districts not having an approved plan by August 1, 1999, shall be provided a plan by the department within ninety days.

SECTION 59-18-1310. Consolidation of strategic plans and improvement reports; submission dates.

The strategic plans and improvement reports required of the public schools and districts in Sections 59-18-1300, 59-18-1500, and 59-20-60 are consolidated and reported as follows: district and school five-year plans and annual updates and district programmatic reports, and school reports developed in conjunction with the school improvement council to parents and constituents to include recommendations of any Education Accountability Act external review teams as approved by the State Board of Education and the steps being taken to address the recommendations, and the advertisement of this report are due on a date established by the Department of Education, but no later than April thirtieth annually; schools reviewed by external review teams shall prepare a report to the parents and constituents of the school, to be developed in conjunction with the School Improvement Council, and this report shall be provided and advertised no later than April thirtieth annually. The school report card narrative in Section 59-18-900 continues on its prescribed date.

ARTICLE 15.

INTERVENTION AND ASSISTANCE

SECTION 59-18-1500. Schools rated below average or unsatisfactory; review and revision of improvement plan; notice to parents; publication in newspaper; grant program eligibility.

(A) When a school receives a rating of below average or unsatisfactory, the following actions must be undertaken by the school, the district, and the board of trustees:

(1) The faculty of the school with the leadership of the principal must review its improvement plan and revise it with the assistance of the school improvement council established in Section 59-20-60. The revised plan should look at every aspect of schooling, and must outline activities that, when implemented, can reasonably be expected to improve student performance and increase the rate of student progress. The plan should provide a clear, coherent plan for professional development, which has been designed by the faculty, that is ongoing, job related, and keyed to improving teaching and learning. A time line for implementation of the activities and the goals to be achieved must be included.

(2) Once the revised plan is developed, the district superintendent and the local board of trustees shall review the school's strategic plan to determine if the plan focuses on strategies to increase student academic performance. Once the district board has approved the plan, it must delineate the strategies and support the district will give the plan.

(3) After the approval of the revised plan, the principals' and teachers' professional growth plans, as required by Section 59-26-40 and Section 59-24-40, should be reviewed and amended to reflect the professional development needs identified in the revised plan and must establish individual improvement criteria on the performance dimensions for the next evaluation.

(4) The school, in conjunction with the district board, must inform the parents of children attending the school of the ratings received from the State Board of Education and must outline the steps in the revised plan to improve performance, including the support which the board of trustees has agreed to give the plan. This information must go to the parents no later than February first. This information must also be advertised in at least one South Carolina daily newspaper of general circulation in the area. This notice must be published within ninety days of receipt of the report cards issued by the State Department of Education and must be a minimum of two columns by ten inches (four and one-half by ten inches) with at least a twenty-four point bold headline. The notice must include the following information: name of school district, name of superintendent, district office telephone number, name of school, name of principal,

telephone number of school, school's absolute performance rating and improvement performance rating on student academic performance, and strategies which must be taken by the district and school to improve student performance; and

(5) Upon a review of the revised plan to ensure it contains sufficiently high standards and expectations for improvement, the Department of Education is to delineate the activities, support, services, and technical assistance it will make available to support the school's plan and sustain improvement over time. Schools meeting the criteria established pursuant to Section 59-18-1560 will be eligible for the grant programs created by that section.

SECTION 59-18-1510. Assignment of external review committee; activities and recommendations.

(A) When a school receives a rating of unsatisfactory or upon the request of a school rated below average, an external review team must be assigned by the Department of Education to examine school and district educational programs, actions, and activities. The Education Oversight Committee, in consultation with the State Department of Education, shall develop the criteria for the identification of persons to serve as members of an external review team which shall include representatives from selected school districts, respected retired educators, State Department of Education staff, higher education representatives, parents from the district, and business representatives.

(B) The activities of the external review committee may include:

(1) examine all facets of school operations, focusing on strengths and weaknesses, determining the extent to which the instructional program is aligned with the content standards, and recommendations which draw upon strategies from those who have been successful in raising academic achievement in schools with similar student characteristics;

(2) consult with parents, community members, and members of the School Improvement Council to gather additional information on the strengths and weaknesses of the school;

(3) identify personnel changes, if any, that are needed at the school and/or district level and discuss such findings with the board;

(4) work with school staff, central offices, and local boards of trustees in the design of the school's plan, implementation strategies, and professional development training that can reasonably be expected to improve student performance and increase the rate of student progress in that school;

(5) identify needed support from the district, the State Department of Education, and other sources for targeted long-term technical assistance;

(6) report its recommendations, no later than three months after the school receives the designation of unsatisfactory to the school, the district board of trustees, and the State Board of Education; and

(7) report annually to the local board of trustees and state board over the next four years, or as deemed necessary by the state board, on the district's and school's progress in implementing the plans and recommendations and in improving student performance.

(C) Within thirty days, the Department of Education must notify the principal, the superintendent, and the district board of trustees of the recommendations approved by the State Board of Education. After the approval of the recommendations, the department shall delineate the activities, support, services, and technical assistance it will provide to the school. With the approval of the state board, this assistance will continue for at least three years, or as determined to be needed by the review committee to sustain improvement.

SECTION 59-18-1520. Declaration of state of emergency in school rated below average.

If the recommendations approved by the state board, the district's plan, or the school's revised plan is not satisfactorily implemented by the school rated unsatisfactory and its school district according to the time line developed by the State Board of Education or if student academic performance has not met expected progress, the principal, district superintendent, and members of the board of trustees must appear before the State Board of Education to outline the reasons why a state of emergency should not be declared in the school. The state superintendent, after consulting with the external review committee and with the approval of the State Board of Education, shall be granted the authority to take any of the following actions:

- (1) furnish continuing advice and technical assistance in implementing the recommendations of the State Board of Education;
- (2) declare a state of emergency in the school and replace the school's principal; or
- (3) declare a state of emergency in the school and assume management of the school.

SECTION 59-18-1530. Teacher and principal specialists; recruitment, eligibility, duties, and incentives.

(A) Teacher specialists on site must be assigned in any of the four core academic areas to a middle or high school in an impaired district or designated as below average or unsatisfactory, if the review team so recommends and recommendation is approved by the State Board of Education. Teacher specialists on site must be assigned at a rate of one teacher for each grade level with a maximum of five to elementary schools in impaired districts or designated as below average or unsatisfactory. The Department of Education, in consultation with the Division of Accountability, shall develop a program for the identification, selection, and training of teachers with a history of exemplary student academic achievement to serve as teacher specialists on site. Retired educators may be considered for specialists.

(B) In order to sustain improvement and help implement the review team's recommendations, the specialists will teach and work with the school faculty on a regular basis throughout the school year for up to three years, or as recommended by the review committee and approved by the state board. Teacher specialists must teach a minimum of three hours per day on average in team teaching or teaching classes. Teacher specialists shall not be assigned administrative duties or other responsibilities outside the scope of this section. The specialists will assist the school in gaining knowledge of best practices and well-validated alternatives, demonstrate effective teaching, act as coach for improving classroom practices, give support and training to identify needed changes in classroom instructional strategies based upon analyses of assessment data, and support teachers in acquiring new skills. School districts are asked to cooperate in releasing employees for full-time or part-time employment as a teacher specialist.

(C) To encourage and recruit teachers for assignment to below standard and unsatisfactory schools, those assigned to such schools will receive their salary and a supplement equal to fifty percent of the current southeastern average teacher salary as projected by the State Budget and Control Board, Office of Research and Analysis. The salary and supplement is to be paid by the State for three years.

(D) In order to attract a pool of qualified applicants to work in low-performing schools, the Education Oversight Committee, in consultation with the Leadership Academy of the South Carolina Department of Education, shall develop criteria for the identification, selection, and training of principals with a history of exemplary student academic achievement. Retired educators may be considered for principal specialists. A principal specialist may be hired for a school designated as unsatisfactory, if the district board of trustees chooses to replace the principal of that school. The principal specialist will assist the school in gaining knowledge of

best practices and well-validated alternatives in carrying out the recommendations of the review team. The specialist will demonstrate effective leadership for improving classroom practices, assist in the analyses of assessment data, work with individual members of the faculty emphasizing needed changes in classroom instructional strategies based upon analyses of assessment data, and support teachers in acquiring new skills designed to increase academic performance. School districts are asked to cooperate in releasing employees for full-time or part-time employment as a principal specialist.

(E) In order to attract a pool of qualified principals to work in low-performing schools, the principal specialists hired in such schools will receive their salary and a supplement equal to 1.25 times the supplement amount calculated for teachers. The salary and supplement are to be paid by the State for two years.

(F) The supplements are to be considered part of the regular salary base for which retirement contributions are deductible by the South Carolina Retirement System pursuant to Section 9-1-1020. Principal and teacher specialists on site who are assigned to below average and unsatisfactory schools shall be allowed to return to employment with their previous district at the end of the contract period with the same teaching or administrative contract status as when they left but without assurance as to the school or supplemental position to which they may be assigned.

(G) For retired educators drawing benefits from the state retirement system who are serving in the capacity of principal or teacher specialist on site, the earnings limitations which restrict the amount of compensation that may be earned from covered employment while drawing benefits under the state retirement system do not apply to any compensation paid to them as an on-site specialist not to exceed one year of such employment whether they are working directly for the school district or for some entity in this capacity. However, no further contributions may be made to the state retirement system related to this compensation and no additional retirement benefits or credits may be received or accrued.

(H) Within the parameters herein, the school district will have final determination on individuals who are assigned as teacher specialists and principal specialists.

SECTION 59-18-1540. Mentoring program for principals.

Each principal continued in employment in schools in districts designated as impaired or in schools designated as below average or unsatisfactory must participate in a formal mentoring program with a principal. The Department of Education, working with the Education Oversight Committee, shall design the mentoring program and provide a stipend to those principals serving as mentors.

SECTION 59-18-1550. Recertification credits for teachers participating in professional development activities and improvement actions.

Each teacher employed in schools designated as below average or unsatisfactory who participate in the professional development activities and the improvement actions of the school which go beyond the normal school day and year may earn credits toward recertification according to the criteria established by the State Board of Education. To receive credit, activities must be based on identified professional development needs outlined in the school's improvement plan and must include at least one of the following:

- (1) summer institute with follow-up activities;
- (2) practice of new teaching strategies with peers regularly throughout the school year;
- (3) work with peer study groups during the academic year in planning lessons; and
- (4) observing and coaching regularly in one another's classrooms.

The activities must be approved by the Department of Education and the department shall determine the amount of credit earned by the participation.

SECTION 59-18-1560. Grant programs for schools designated as below average or unsatisfactory; development of eligibility guidelines; funding.

(A) The State Board of Education, working with the Accountability Division and the Department of Education, must establish grant programs for schools designated as below average and for schools designated as unsatisfactory. A school designated as below average will qualify for a grant to undertake any needed retraining of school faculty and administration once the revised plan is determined by the State Department of Education to meet the criteria on high standards and effective activities. A school designated as unsatisfactory will qualify for the grant program after the State Board of Education approves its revised plan. A grant or a portion of a grant may be renewed annually over the next three years, if school and district actions to implement the revised plan continue. Should student performance not improve, any revisions to the plan must meet high standards prior to renewal of the grant. The revised plan must be reviewed by the district and board of trustees and the State Department of Education to determine what other actions, if any, need to be taken. A grant may be extended for up to an additional two years, if the State Board of Education determines it is needed to sustain academic improvement. The funds must be expended based on the revised plan and according to criteria established by the State Board of Education. Prior to extending any grant, the Accountability Division shall review school expenditures to make a determination of the effective use of previously awarded grant funds. If deficient use is determined, those deficiencies must be identified, noted, and corrective action taken before a grant extension will be given.

(B) The State Board of Education, working with the Department of Education and with the approval of the Education Oversight Committee, will develop guidelines outlining eligibility for the grant programs and methods of distributing funds which will be in effect until such time as the school ratings in Section 59-18-900(B) are implemented. In developing the eligibility guidelines, the board should consider criteria similar to that used in the former impaired district program. Until such time as regulations are promulgated, the funds shall be distributed on a per teacher basis for use only as outlined in the revised school plan.

(C) A public school assistance fund shall be established as a separate fund within the state general fund for the purpose of providing financial support to assist poorly performing schools. The fund may consist of grants, gifts, and donations from any public or private source or monies that may be appropriated by the General Assembly for this purpose. Income from the fund shall be retained in the fund. All funds may be carried forward from fiscal year to fiscal year. The State Treasurer shall invest the monies in this fund in the same manner as other funds under his control are invested. The State Board of Education, in consultation with the commission, shall administer and authorize any disbursements from the fund. The State Board of Education shall promulgate regulations to implement the provisions of this section.

SECTION 59-18-1570. School district rated below average; appointment of external review committee; duties; recommendations; composition.

(A) When a district receives a rating of below average, the State Superintendent, with the approval of the State Board of Education, shall appoint an external review committee to study educational programs in that district and identify factors affecting the performance of the district. The review committee must:

(1) examine all facets of school and district operations, focusing on strengths and weaknesses, determining the extent to which the instructional program is aligned with the content standards

and shall make recommendations which draw upon strategies from those who have been successful in raising academic achievement in schools with similar student characteristics;

(2) consult with parents and community members to gather additional information on the strengths and weaknesses of the district;

(3) identify personnel changes, if any, that are needed at the school and/or district level and discuss such findings with the board;

(4) work with school staff, central offices, and local boards of trustees in the design of the district's plan, implementation strategies, and professional development training that can reasonably be expected to improve student performance and increase the rate of student progress in the district;

(5) identify needed support from the State Department of Education and other sources for targeted long-term technical assistance;

(6) report its recommendations, no later than three months after the district receives the designation of unsatisfactory, to the superintendent, the district board of trustees, and the State Board of Education; and

(7) report annually over the next four years to the local board of trustees and state board, or as deemed necessary by the state board, on the district's and school's progress in implementing the plans and recommendations and in improving student performance.

(B) Within thirty days, the Department of Education must notify the superintendent and the district board of trustees of the recommendations approved by the State Board of Education. Upon the approval of the recommendations, the Department of Education must delineate the activities, support, services, and technical assistance it will provide to support the recommendations and sustain improvement over time. The external review committee must report annually to the local board of trustees and the state board over the next four years, or as deemed necessary by the state board, on the district's progress in implementing the recommendations and improving student performance.

(C) The review committee shall be composed of State Department of Education staff, representatives from selected school districts, higher education, and business.

SECTION 59-18-1580. Declaration of state of emergency in school district rated unsatisfactory; remedial actions.

(A) If recommendations approved by the State Board of Education are not satisfactorily implemented by the school district according to the time line developed by the State Board of Education, or if student performance has not made the expected progress and the school district is designated as unsatisfactory, the district superintendent and members of the board of trustees shall appear before the State Board of Education to outline the reasons why a state of emergency must not be declared in the district.

(B) The state superintendent, with the approval of the State Board of Education, is granted authority to:

(1) furnish continuing advice and technical assistance in implementing the recommendations of the State Board of Education to include establishing and conducting a training program for the district board of trustees and the district superintendent to focus on roles and actions in support of increases in student achievement;

(2) mediate personnel matters between the district board and district superintendent when the State Board of Education is informed by majority vote of the board or the superintendent that the district board is considering dismissal of the superintendent, and the parties agree to mediation;

(3) recommend to the Governor that the office of superintendent be declared vacant. If the Governor declares the office vacant, the state superintendent may furnish an interim replacement until the vacancy is filled by the district board of trustees. District boards of trustees negotiating contracts for the superintendency shall include a provision that the contract is void

should the Governor declare that office of superintendency vacant pursuant to this section. This contract provision does not apply to any existing contracts but to new contracts or renewal of contracts;

(4) declare a state of emergency in the school district and assume management of the school district.

(C) The district board of trustees may appoint at least two nonvoting members to the board from a pool nominated by the Education Oversight Committee and the State Department of Education. The appointed members shall have demonstrated high levels of knowledge, commitment, and public service, must be recruited and trained for service as appointed board members by the Education Oversight Committee and the State Department of Education, and shall represent the interests of the State Board of Education on the district board. Compensation for the nonvoting members must be paid by the State Board of Education in an amount equal to the compensation paid to the voting members of the district board.

SECTION 59-18-1590. Continuing review of instructional and organizational practices and delivery of technical assistance by Department of Education.

To assist schools and school districts as they work to improve classroom practice and student performance, the Department of Education must increase the delivery of quality technical assistance services and the assessment of instructional programs. The department may need to reshape some of its organization and key functions to make them more consistent with the assistance required by schools and districts in developing and implementing local accountability systems and meeting state standards. The Department of Education must:

(1) establish an ongoing state mechanism to promote successful programs found in South Carolina schools for implementation in schools with similar needs and students, to review evidence on instructional and organizational practices considered to be effective, and to alert schools and classroom teachers to these options and the sources of training and names of implementing schools;

(2) provide information and technical assistance in understanding state policies, how they fit together, and the best practice in implementing them; and

(3) establish a process for monitoring information provided for accountability and for assessing improvement efforts and implementation of state laws and policies which focuses on meeting the intent and purpose of those laws and policies.

SECTION 59-18-1595. Reallocation of technical assistance funding.

Notwithstanding any other provision of law, and in order to provide assistance at the beginning of the school year, schools may qualify for technical assistance based on the criteria established by the Education Oversight Committee for school ratings and on the most recently available end-of-year assessment scores. In order to best meet the needs of low-performing schools, the funding provided for technical assistance under the Education Accountability Act may be reallocated among the programs and purposes specified in this section. The State Department of Education shall establish criteria for reviewing and assisting schools that will be rated unsatisfactory using a tiered system with the lowest-performing schools receiving highest priority. Not to exceed the statewide total number of specialists stipulated by the Education Accountability Act, the highest priority school assistance shall include a year-long technical assistance team that may include a lead principal or curriculum specialist, or both. All specialists shall have a demonstrated record of success in their field and shall be entitled to the incentives and benefits of a teacher specialist. Technical assistance for below average schools shall be provided to the extent possible in order of need. The State Department of Education shall provide information on the technical assistance strategies and their impact to the State

Board of Education, the Education Oversight Committee, the Senate Education Committee, the Senate Finance Committee, the House of Representatives Education and Public Works Committee, and the House of Representatives Ways and Means Committee annually.

ARTICLE 17.

PUBLIC INFORMATION

SECTION 59-18-1700. Public information campaign; development and approval; funding.

(A) An on-going public information campaign must be established to apprise the public of the status of the public schools and the importance of high standards for academic performance for the public school students of South Carolina. A special committee shall be appointed by the Chairman of the Education Oversight Committee to include two committee members representing business and two representing education and others representing business, industry, and education. The committee shall plan and oversee the development of a campaign, including public service announcements for the media and other such avenues as deemed appropriate for informing the public. The plan must be reported to the Governor, the Senate Education Committee, and the House Education and Public Works Committee by March 15, 1999.

(B) A separate fund within the state general fund will be established to accept grants, gifts, and donations from any public or private source or monies that may be appropriated by the General Assembly for the public information campaign. Members of the Oversight Committee representing business will solicit donations for this fund. Income from the fund shall be retained in the fund. All funds may be carried forward from fiscal year to fiscal year. The State Treasurer shall invest the monies in this fund in the same manner as other funds under his control are invested. The Oversight Committee shall administer and authorize any disbursements from the fund. Private individuals and groups shall be encouraged to contribute to this endeavor.

ARTICLE 19.

MISCELLANEOUS

SECTION 59-18-1910. Homework centers.

The State Board of Education shall establish grant programs to fund homework centers in schools and districts designated as below average and unsatisfactory. Until such time as these ratings are established, all schools in districts declared to be impaired are eligible to receive funding on a per pupil basis. Schools receiving such designations must provide centers that go beyond the regular school hours where students can come and receive assistance in understanding and completing their school work. Funds provided for these centers may be used for salaries for certified teachers and for transportation costs. Homework centers meeting the criteria established by the board shall receive funds as appropriated by the General Assembly. For 1998-99, of the funds appropriated for assessment, up to five hundred thousand dollars shall be used for homework centers.

SECTION 59-18-1920. Modified school year or school day schedule; grant program established; application; implementation plan.

(A) The State Board of Education, through the Department of Education, shall establish a grant program to encourage school districts to pilot test or implement a modified school year or school day schedule. The purpose of the grant is to assist with the additional costs incurred during the intersessions for salaries, transportation, and operations, or for additional costs incurred by lengthening the school day. For a district to qualify for a grant, all the schools within a specific feeder zone or elementary-to-middle-to-high-school attendance area, must be pilot testing or implementing the modified year or day schedule. Districts declared to be impaired will have priority in obtaining such grants.

(B) To obtain a grant, a district shall submit an application to the state board in a format specified by the Department of Education. The application shall include a plan for implementing a modified year or day that provides the following: more time for student learning, learning opportunities that typically are not available in the regular student day, targeted assistance for students whose academic performance is significantly below promotion standards, more efficient use of facilities and other resources, and evaluations of the impact of the modified schedule. Local district boards of trustees shall require students whose performance in a core subject area, as defined in Section 59-18-300, is the equivalent of a "D" average or below to attend the intersessions or stay for the lengthened day and receive special assistance in the subject area. Funding for the program is as provided by the General Assembly in the annual appropriations act. Each grant award for program pilot testing or implementation may not exceed a three-year period.

SECTION 59-18-1930. Review of state and local professional development; recommendations for improvement.

The Education Oversight Committee shall provide for a comprehensive review of state and local professional development to include principal leadership development and teacher staff development. The review must provide an analysis of training to include what professional development is offered, how it is offered, the support given to implement skills acquired from professional development, and how the professional development enhances the academic goals outlined in district and school strategic plans. The oversight committee shall recommend better ways to provide and meet the needs for professional development, to include the use of the existing five contract days for in service. Needed revisions shall be made to state regulations to promote use of state dollars for training which meets national standards for staff development.

Upon receipt of the recommendations from the comprehensive review of state and local professional development, the State Department of Education shall develop an accountability system to ensure that identified professional development standards are effectively implemented. As part of this system the department shall provide information on the identified standards to all principals and other professional development leaders. Training for all school districts in how to design comprehensive professional development programs that are consistent with the standards shall also be a part of the implementation. A variety of staff development options that address effective teaching and assessment of state academic standards and workforce preparation skills shall be included in the information provided to principals and other professional development leaders to ensure high levels of student achievement.

SECTION 59-24-5. Principal Leadership

The General Assembly finds that the leadership of the principal is key to the success of a school, and support for ongoing, integrated professional development is integral to better schools and to the improvement of the actual work of teachers and school staff.

SECTION 59-24-10. Assessment of principals prior to appointment

Beginning with the school year 1999-2000, any person prior to permanent appointment as a principal for any elementary school, secondary school, or vocational center must be assessed for instructional leadership and management capabilities by the Leadership Academy of the South Carolina Department of Education. Districts may appoint such persons on an interim basis until such time as the assessment is completed. A report of this assessment must be forwarded to the district superintendent and board of trustees. The provisions of this section do not apply to any persons currently employed as principals on the effective date of the provisions of this paragraph nor to any persons hired as principals before the beginning of school year 1999-2000.

SECTION 59-24-30. Administrator professional development plan

All school administrators shall develop an on-going individual professional development plan with annual updates which is appropriate for their role or position. This plan shall support both their individual growth and organizational needs. Organizational needs must be defined by the districts' strategic plans or school renewal plans. Individuals completing the assessment for instructional leadership will develop their professional development plan on the basis of that assessment. The Department of Education shall assist school administrators in carrying out their professional development plans by reviewing the school and district plans and providing or brokering programs and services in the areas identified for professional development."

SECTION 59-24-50 Standards for continuous professional development programs.

By January 1, 1999, the South Carolina Department of Education's Leadership Academy shall develop, in cooperation with school districts, district consortia, and state-supported institutions of higher education, continuous professional development programs which meet national standards for professional development and focus on the improvement of teaching and learning. By July 1, 1999, programs funded with state funds must meet these standards and must provide training, modeling, and coaching on effective instructional leadership as it pertains to instructional leadership and school-based improvement, including instruction on the importance of school improvement councils and ways administrators may make school improvement councils an active force in school improvement. The training must be developed and conducted in collaboration with the School Council Assistance Project."

SECTION 59-24-80. Induction program for principals

Beginning with school year 1999-2000, each school district, or consortium of school districts, shall provide school principals serving for the first time as the head building administrators with a formalized induction program in cooperation with the State Department of Education. The State Board of Education must develop regulations for the program based on the criteria and statewide performance standards which are a part of the process for assisting, developing, and evaluating principals employed in the school districts. The program must include an emphasis on the elements of instructional leadership skills, implementation of effective schools research, and analysis of test scores for curricular improvement."

SECTION 59-24-15. Contractual rights.

Certified education personnel who are employed as administrators on an annual or multi-year contract will retain their rights as a teacher under the provisions of Article 3 of Chapter 19 and Article 5 of Chapter 25 of this title but no such rights are granted to the position or salary of administrator. Any such administrator who presently is under a contract granting such rights shall retain that status until the expiration of that contract.

SECTION 59-6-10 Establishment of Education Oversight Committee

(A) In order to assist in, recommend, and supervise implementation of programs and expenditure of funds for the Education Accountability Act and the Education Improvement Act of 1984, the Education Oversight Committee is to serve as the oversight committee for these acts. The Education Oversight Committee shall:

- (1) review and monitor the implementation and evaluation of the Education Accountability Act and Education Improvement Act programs and funding;
- (2) make programmatic and funding recommendations to the General Assembly;
- (3) report annually to the General Assembly, State Board of Education, and the public on the progress of the programs;
- (4) recommend Education Accountability Act and EIA program changes to state agencies and other entities as it considers necessary.

Each state agency and entity responsible for implementing the Education Accountability Act and the Education Improvement Act funded programs shall submit to the Education Oversight Committee programs and expenditure reports and budget requests as needed and in a manner prescribed by the Education Oversight Committee.

The committee consists of the following persons:

- (1) Speaker of the House of Representatives or his designee;
- (2) President Pro Tempore of the Senate or his designee;
- (3) Chairman of the Education and Public Works Committee of the House of Representatives or his designee;
- (4) Chairman of the Education Committee of the Senate or his designee;
- (5) Governor or his designee;
- (6) Chairman of the Ways and Means Committee of the House of Representatives or his designee;
- (7) Chairman of the Finance Committee of the Senate or his designee;
- (8) Five members representing business and industry who must have experience in business, management, or policy to be appointed as follows: one by the Governor, one by the President Pro Tempore of the Senate, one by the Speaker of the House, one by the Chairman of the Senate Education Committee, and one by the Chairman of the House Education and Public Works Committee; and

(9) Five members representing public education teachers and principals to be appointed as follows: one by the Governor, one by the President Pro Tempore of the Senate, one by the Speaker of the House, one by the Chairman of the Senate Education Committee, and one by the Chairman of the House Education and Public Works Committee.

Initial appointment must be made by July 31, 1998, at which time the Governor or his designee shall call the first meeting. At the initial meeting, a chairman elected from the members representing the business and industry appointees and a vice chairman representing the education members shall be elected by a majority vote of the committee. The members appointed pursuant to items (1) through (7) may serve notwithstanding the provisions of Section 8-13-770. Their terms of office on the committee must be coterminous with their terms of office as Governor or members of the General Assembly.

(B) The terms of office of the members of the Education Oversight Committee, except for the legislative members, are four years and until their successors are appointed and qualify except of those first appointed the terms must be staggered as follows:

(1) initial terms of two years shall be served by the two members of the business and industry community appointed by the chairmen of the Education Committees;

(2) initial terms of three years shall be served by the members of the education community appointed by the President Pro Tempore of the Senate and the Speaker of the House; and

(3) all other voting members shall serve initial four-year terms. The terms of chairman and vice chairman shall be two years. At the end of each two-year term, an election must be held for the chairmanship and vice chairmanship by majority vote of the members attending with quorum present. No member shall serve more than four consecutive years as chairman or vice chairman.

Members of the committee shall meet no less than once a quarter and annually shall submit their findings and recommendations to the General Assembly before March first of each fiscal year. The staff positions of the Select Committee and the people presently in those positions initially shall be transferred to the Education Oversight Committee as administrative staff to carry out its functions."

SECTION 59-6-100. Establishment of Accountability Division

Within the Education Oversight Committee, an Accountability Division must be established to report on the monitoring, development, and implementation of the performance based accountability system and reviewing and evaluating all aspects of the Education Accountability Act and the Education Improvement Act.

The Education Oversight Committee will employ, by a majority vote, for a contract term of three years an executive director for the Accountability Division. The director must be chosen solely on grounds of fitness to perform the duties assigned to him and must possess at least the following qualifications: a demonstrated knowledge of public education, experience in program evaluation, and experience in a responsible managerial capacity. No member of the General Assembly nor anyone who will have been a member for one year previously will be contracted to serve as director. The director will have the authority to employ, with the approval of the subcommittee, professional and support staff as necessary to carry out the duties of the division, which shall be separate from the administrative staff of the Education Oversight Committee.

SECTION 59-6-110. Duties of the Division of Accountability

The division must examine the public education system to ensure that the system and its components and the EIA programs are functioning for the enhancement of student learning. The division will recommend the repeal or modification of statutes, policies, and rules that deter school improvement. The division must provide annually its findings and recommendations in a report to the Education Oversight Committee no later than February first. The division is to conduct in-depth studies on implementation, efficiency, and the effectiveness of academic improvement efforts and:

- (1) monitor and evaluate the implementation of the state standards and assessment;
- (2) oversee the development, establishment, implementation, and maintenance of the accountability system;
- (3) monitor and evaluate the functioning of the public education system and its components, programs, policies, and practices and report annually its findings and recommendations in a report to the commission no later than February first of each year; and
- (4) perform other studies and reviews as required by law.

The responsibilities of the division do not include fiscal audit functions or funding recommendations except as they relate to accountability. It is not a function of this division to draft legislation and neither the director nor any other employee of the division shall urge or oppose any legislation. In the performance of its duties and responsibilities, the division and staff members are subject to the statutory provisions and penalties regarding confidentiality of records as they apply to students, schools, school districts, the Department of Education, and the Board of Education.

SECTION 59-6-120 Work with the Division of Accountability.

The State Department of Education, the State Board of Education, and the school districts and schools shall work collaboratively with the Division of Accountability to provide information needed to carry out the responsibilities and duties of its office. The Division of Accountability may call on the expertise of the state institutions of higher learning and any other public agencies for carrying out its functions and may coordinate and consult with existing agency and legislative staff."

Task force Parental Involvement Task Force

[Note: Because this action was limited by time, the provision is not codified]

SECTION 10. When parents are involved with their children's education, students achieve more, regardless of socio-economic status, ethnic/racial background, or the parents' education level. The more extensive the parent involvement, the higher level of the student achievement. Therefore, the Education Oversight Committee shall appoint a task force to review current state programs and policies for parent participation in their children's education. The task force is to look for ways to encourage and induce parents to oversee and support student academic performance and behavior that contributes to academic improvement. The membership of the task force should include: public school educators from rural, urban, and suburban schools and districts; parents of public school children; social service representatives; and a juvenile justice representative. The task force must be appointed no later than September 1, 1998, and shall

provide its report and recommendations to the Education Oversight Committee by October 15, 1999.

SECTION 59-29-10 Phonics required

The county board of education and the board of trustees for each school district shall see that in every school under their care there shall be taught, as far as practicable, orthography, reading, writing, arithmetic, geography, English grammar and instruction in phonics, the elements of agriculture, the history of the United States and of this State, the principles of the Constitutions of the United States and of this State, morals and good behavior, algebra, physiology and hygiene (especially as to the effects of alcoholic liquors and narcotics upon the human system), English literature, and such other branches as the state board may from time to time direct."

SECTION 59-63-65.Class Size Reduction

School districts which choose to reduce class size to fifteen to one in grades one through three shall be eligible for funding for the reduced pupil-teacher ratios from funds provided by the General Assembly for this purpose. Funding for schools in districts designated as impaired or for schools rated as unsatisfactory on the accountability ratings will receive priority in the distribution of funds. Funding for the impaired district schools and schools ranked unsatisfactory will be allocated based on the average daily membership in grades one through three in those schools for implementing reduced class size of fifteen to one in those grades. Other school districts will receive funding allocated based on free and reduced lunch eligible students. Local match is required for the lower ratio funding based on the Education Finance Act formula. Boards of trustees of each school district may implement the lower pupil-teacher ratios on a school by school, grade by grade, or class by class basis. District boards of trustees implementing the reduced ratios must establish policies to give priority to reduce the ratios in schools with the highest number of students eligible for the federal free and reduced lunch program, and these students must be given priority in implementing the reduced class size. Unobligated funds from state appropriations which become available to a district during a fiscal year shall be redistributed to fund additional teachers on a prorated basis.

Districts choosing to implement the reduced class size must track the students served in classes with a 15:1 ratio for three years so that the impact of smaller class size can be evaluated. The Department of Education, working with the Accountability Division, will develop a plan for evaluating the impact of this initiative and report to the Education Oversight Committee no later than December 1, 2001. School districts must document the use of these funds to reduce class size and the State Department of Education will conduct audits to confirm appropriate use of class size reduction funding.

As used in this section, 'teacher' refers to an employee possessing a professional certificate issued by the State Department of Education whose full-time responsibility is instruction of students. Pupil-teacher ratio is based on average daily membership.

Portable or other temporary classroom space may be used to meet any facilities needs for reducing class size to fifteen to one, and notwithstanding the provisions of Section 59-144-30, funding derived from the Children's Education Endowment Fund may be used to acquire such portable or temporary facilities."

Repeal

SECTION 13. Sections 59-6-12, 59-18-10, 59-18-11, 59-18-15, 59-18-20, 59-18-25, 59-18-30, and 59-18-31 of the 1976 Code are repealed.

Copy of act to be provided

SECTION 14. The Department of Education must provide a copy of this act to every district superintendent and school principal in this State.

References

SECTION 15. The Code Commissioner is directed to change all references in the Code of Laws to the Select Committee so as to read the Education Oversight Committee.

Time effective

SECTION 16. This act takes effect upon approval by the Governor.

Approved the 10th day of June, 1998.

**PROVISOS RELATED TO EDUCATIONAL ACCOUNTABILITY SYSTEM
General Appropriations Act 2007-2008**

At the time of publication of this manual (6/13/07), the published provisos are pending adoption of the 2007-08 General Appropriations Act.

SECTION 1 - H63 - DEPARTMENT OF EDUCATION

1.46. (SDE: School Districts and Special Schools Flexibility) All school districts and special schools of this State may transfer up to one hundred percent of funds between programs to any instructional program provided the funds are utilized for direct classroom instruction.

The South Carolina Department of Education must establish a procedure for the review of all transfers authorized by this provision. The details of such transfers must be provided to members of the General Assembly upon request. School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year to be used for the same purpose. All transfers executed pursuant to this provision must be completed by May first of the current fiscal year. All school districts and special schools of this State may expend funds received from the Children's Education Endowment Fund for school facilities and fixed equipment assistance, for any instructional program. The Education Oversight Committee shall review the utilization of the flexibility provision to determine how it enhances or detracts from the achievement of the goals of the educational accountability system, including the ways in which school districts and the state organize for maximum benefit to classroom instruction, priorities among existing programs and services, and the impact on short, as well as, long-term objectives. The State Department of Education shall provide the reports on the transfers to the Education Oversight Committee for the comprehensive review. This review shall be provided to the members of the General Assembly annually. Any grant or technical assistance funds allocated directly to an individual school may not be reduced or reallocated within the school district and must be expended by the receiving school only according to the guidelines governing the funds.

1.60. (SDE: Prohibit Implementation of ECERS Program) The Department of Education is prohibited from utilizing any appropriated or authorized funds to implement the Early Childhood Environment Rating Scores Program. This prohibition does not apply to the Office of First Steps.

In addition, school districts are prohibited from using revenue from any source, including state, federal, and local funds, to implement the Early Childhood Environment Rating Scores Program.

1.61. (SDE: High School Reading Initiative) The funds appropriated for the High School Reading Initiative are to be used to expand the South Carolina Reading Initiative to the high school level by providing research based targeted assistance in improving and accelerating the reading ability of high school students reading below grade level.

1.66. (SDE: Child Development Education Pilot Program) There is created the South Carolina Child Development Education Pilot Program. This program shall be available for the 2007-2008 school year on a voluntary basis and shall focus on the developmental and learning support that children must have in order to be ready for school and must incorporate parenting education.

(A) For the 2007-2008 school year, with funds appropriated by the General Assembly, the South Carolina Child Development Education Pilot Program shall first be made available to

eligible children from the following eight trial districts in Abbeville County School District et. al. vs. South Carolina: Allendale, Dillon 2, Florence 4, Hampton 2, Jasper, Lee, Marion 7, and Orangeburg 3. With any remaining funds available, the pilot shall be expanded to the remaining plaintiff school districts in Abbeville County School District et. al. vs. South Carolina. Priority shall be given to implementing the program first in those of the plaintiff districts which participated in the pilot program during the 2006-2007 school year, then in the plaintiff districts having proportionally the largest population of underserved at-risk four-year-old children. During the implementation of the pilot program, no funds appropriated by the General Assembly for this purpose shall be used to fund services to at-risk four-year-old children residing outside of the trial or plaintiff districts.

The Education Oversight Committee shall conduct an evaluation of the pilot program and shall issue a report to the General Assembly by January 1, 2008. The report shall include a comparative evaluation of children served in the pilot program and children not served in the pilot program. Additionally, based on the evaluation of the pilot program, the Education Oversight Committee shall include recommendations for the creation of and an implementation plan for phasing in the delivery of services to all at-risk four-year-old children in the state. Unexpended funds from the prior fiscal year for this program shall be carried forward and shall remain in the program. In rare instances, students with documented kindergarten readiness barriers may be permitted to enroll for a second year, or at age five, at the discretion of the Department of Education for students being served by a public provider or at the discretion of the Office of South Carolina First Steps to School Readiness for students being served by a private provider.

(B) Each child residing in the pilot districts, who will have attained the age of four years on or before September 1, of the school year, and meets the at-risk criteria is eligible for enrollment in the South Carolina Child Development Education Pilot Program for one year.

The parent of each eligible child may enroll the child in one of the following programs:

- (1) a school-year four-year-old kindergarten program delivered by an approved public provider; or
- (2) a school-year four-year-old kindergarten program delivered by an approved private provider.

The parent enrolling a child must complete and submit an application to the approved provider of choice. The application must be submitted on forms and must be accompanied by a copy of the child's birth certificate, immunization documentation, and documentation of the student's eligibility as evidenced by family income documentation showing an annual family income of 185% or less of the federal poverty guidelines as promulgated annually by the U.S. Department of Health and Human Services or a statement of Medicaid eligibility.

In submitting an application for enrollment, the parent agrees to comply with provider attendance policies during the school year. The attendance policy must state that the program consists of 6.5 hours of instructional time daily and operates for a period of not less than 180 days per year. Pursuant to program guidelines, noncompliance with attendance policies may result in removal from the program.

No parent is required to pay tuition or fees solely for the purpose of enrolling in or attending the program established under this provision. Nothing in this provision prohibits charging fees for childcare that may be provided outside the times of the instructional day provided in these programs.

(C) Public school providers choosing to participate in the South Carolina Four-Year-Old Child Development Kindergarten Program must submit an application to the Department of Education.

Private providers choosing to participate in the South Carolina Four-Year-Old Child Development Kindergarten Program must submit an application to the Office of First Steps. The application must be submitted on the forms prescribed, contain assurances that the provider

meets all program criteria set forth in this provision, and will comply with all reporting and assessment requirements.

Providers shall:

- (1) comply with all federal and state laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, gender, national origin, religion, ancestry, or need for special education services;
- (2) comply with all state and local health and safety laws and codes;
- (3) comply with all state laws that apply regarding criminal background checks for employees and exclude from employment any individual not permitted by state law to work with children;
- (4) be accountable for meeting the education needs of the child and report at least quarterly to the parent/guardian on his progress;
- (5) comply with all program, reporting, and assessment criteria required of providers;
- (6) maintain individual student records for each child enrolled in the program to include, but not be limited to, assessment data, health data, records of teacher observations, and records of parent or guardian and teacher conferences;
- (7) designate whether extended day services will be offered to the parents/guardians of children participating in the program;
- (8) be approved, registered, or licensed by the Department of Social Services; and
- (9) comply with all state and federal laws and requirements specific to program providers.

Providers may limit student enrollment based upon space available. However if enrollment exceeds available space, providers shall enroll children with first priority given to children with the lowest scores on an approved pre-kindergarten readiness assessment. Private providers shall not be required to expand their programs to accommodate all children desiring enrollment.

However, providers are encouraged to keep a waiting list for students they are unable to serve because of space limitations.

(D) The Department of Education and the Office of First Steps to School Readiness shall:

- (1) develop the provider application form;
- (2) develop the child enrollment application form;
- (3) develop a list of approved research-based preschool curricula for use in the program based upon the South Carolina Content Standards, provide training and technical assistance to support its effective use in approved classrooms serving children;
- (4) develop a list of approved pre-kindergarten readiness assessments to be used in conjunction with the program, provide assessments and technical assistance to support assessment administration in approved classrooms serving children;
- (5) establish criteria for awarding new classroom equipping grants;
- (6) establish criteria for the parenting education program providers must offer;
- (7) establish a list of early childhood related fields that may be used in meeting the lead teacher qualifications;
- (8) develop a list of data collection needs to be used in implementation and evaluation of the program;
- (9) identify teacher preparation program options and assist lead teachers in meeting teacher program requirements;
- (10) establish criteria for granting student retention waivers; and
- (11) establish criteria for granting classroom size requirements waivers.

(E) Providers of the South Carolina Child Development Education Pilot Program shall offer a complete educational program in accordance with age-appropriate instructional practice and a research based preschool curriculum aligned with school success. The program must focus on the developmental and learning support children must have in order to be ready for school. The provider must also incorporate parenting education that promotes the school readiness of

preschool children by strengthening parent involvement in the learning process with an emphasis on interactive literacy.

Providers shall offer high-quality, center-based programs that must include, but shall not be limited to, the following:

(1) employ a lead teacher with a two-year degree in early childhood education or related field or be granted a waiver of this requirement from the Department of Education or the Office of First Steps to School Readiness;

(2) employ an education assistant with pre-service or in-service training in early childhood education;

(3) maintain classrooms with at least 10 four-year-old children, but no more than 20 four-year-old children with an adult to child ratio of 1:10. With classrooms having a minimum of 10 children, the 1:10 ratio must be a lead teacher to child ratio. Waivers of the minimum class size requirement may be granted by the South Carolina Department of Education for public providers or by the Office of First Steps to School Readiness for private providers on a case-by-case basis;

(4) offer a full day, center-based program with 6.5 hours of instruction daily for 180 school days;

(5) provide an approved research-based preschool curriculum that focuses on critical child development skills, especially early literacy, numeracy, and social/emotional development;

(6) engage parents' participation in their child's educational experience that shall include a minimum of two documented conferences per year; and

(7) adhere to professional development requirements outlined in this article.

(F) Every classroom providing services to four-year-old children established pursuant to this provision must have a lead teacher with at least a two-year degree in early childhood education or related field and who is enrolled and is demonstrating progress toward the completion of a teacher education program within four years. Every classroom must also have at least one education assistant per classroom who shall have the minimum of a high school diploma or the equivalent, and at least two years of experience working with children under five years old. The teaching assistant shall have completed the Early Childhood Development Credential (ECD) 101 or enroll and complete this course within twelve months of hire.

(G) The General Assembly recognizes there is a strong relationship between the skills and preparation of pre-kindergarten instructors and the educational outcomes of students. To improve these education outcomes, participating providers shall require all personnel providing instruction and classroom support to students participating in the South Carolina Child Development Education Pilot Program to participate annually in a minimum of 15 hours of professional development to include teaching children from poverty. Professional development should provide instruction in strategies and techniques to address the age-appropriate progress of pre-kindergarten students in developing emergent literacy skills, including but not limited to, oral communication, knowledge of print and letters, phonemic and phonological awareness, and vocabulary and comprehension development.

(H) Both public and private providers shall be eligible for transportation funds for the transportation of children to and from school. Nothing within this provision prohibits providers from contracting with another entity to provide transportation services provided the entities adhere to the requirements of Section 56-5-195. Providers shall not be responsible for transporting students attending programs outside the district lines. Parents choosing program providers located outside of their resident district shall be responsible for transportation. When transporting four-year-old child development students, providers shall make every effort to transport them with students of similar ages attending the same school. Of the amount appropriated for the program, not more than \$185 per student shall be retained by the Department of Education for the purposes of transporting four-year-old students. This amount must be increased annually by the same projected rate of inflation as determined by the Division of Research and Statistics of the Budget and Control Board for the Education Finance Act.

(I) For all private providers approved to offer services pursuant to this provision, the Office of First Steps to School Readiness shall:

- (1) serve as the fiscal agent;
- (2) verify student enrollment;
- (3) recruit, review, and approve eligible providers. In considering approval of providers, consideration must be given to the provider's availability of permanent space for program service and whether temporary classroom space is necessary to provide services to any children;
- (4) coordinate oversight, monitoring, technical assistance, coordination, and training for classroom providers;
- (5) serve as a clearing house for information and best practices related to four-year-old kindergarten programs;
- (6) receive, review, and approve new classroom grant applications and make recommendations for approval based on approved criteria;
- (7) coordinate activities and promote collaboration with other private and public providers in developing and supporting four-year-old kindergarten programs;
- (8) maintain a database of the children enrolled in the program; and
- (9) promulgate guidelines as necessary for the implementation of the pilot program.

(J) For all public school providers approved to offer services pursuant to this provision, the Department of Education shall:

- (1) serve as the fiscal agent;
- (2) verify student enrollment eligibility;
- (3) recruit, review, and approve eligible providers. In considering approval of providers, consideration must be given to the provider's availability of permanent space for program service and whether temporary classroom space is necessary to provide services to any children;
- (4) coordinate oversight, monitoring, technical assistance, coordination, and training for classroom providers;
- (5) serve as a clearing house for information and best practices related to four-year-old kindergarten programs;
- (6) receive, review, and approve new classroom grant applications and make recommendations for approval based on approved criteria;
- (7) coordinate activities and promote collaboration with other private and public providers in developing and supporting four-year-old kindergarten programs;
- (8) maintain a database of the children enrolled in the program; and
- (9) promulgate guidelines as necessary for the implementation of the pilot program.

(K) The General Assembly shall provide funding for the South Carolina Child Development Education Pilot Program. For the 2007-08 school year, the funded cost per child shall be \$3,931 increased annually by the rate of inflation as determined by the Division of Research and Statistics of the Budget and Control Board for the Education Finance Act. Eligible students enrolling with private providers during the school year shall be funded on a pro-rata basis determined by the length of their enrollment. Private providers transporting eligible children to and from school shall be eligible for a reimbursement of \$550 per eligible child transported.

Providers who are reimbursed are required to retain records as required by their fiscal agent. With funds appropriated by the General Assembly, the Department of Education shall approve grants for public providers and the Office of First Steps to School Readiness shall approve grants for private providers, of up to \$10,000 per class for the equipping of new classrooms. Funding of up to two thousand five hundred dollars may be provided annually for the procurement of consumable and other materials in established classrooms.

(L) Pursuant to this provision, the Department of Social Services shall:

- (1) maintain a list of all approved public and private providers; and

(2) provide the Department of Education, the Office of First Steps, and the Education Oversight Committee information necessary to carry out the requirements of this provision.

(M) The Education Oversight Committee shall conduct a comparative evaluation of the South Carolina Child Development Education Pilot Program and issue their findings in a report to the General Assembly by January 1, 2008. Based on information, data, and evaluation results, the Education Oversight Committee shall include as part of their report recommendations for the creation and implementation of a statewide four-year-old kindergarten program for at-risk children. The report shall also include information and recommendations on lead teacher qualifications and options for creating comparable salary schedules for certified teachers employed by private providers. In the current fiscal year, the Education Oversight Committee shall use funds appropriated by the General Assembly for four-year-old evaluation to support the annual collection of and continuous evaluation of data.

The report shall also include an assessment, by county, on the availability and use of existing public and private classroom capacity approved for at-risk four-year-old kindergarten students. The report shall include, by county, the estimated four-year-old population, the total number of CDEPP approved four-year-old kindergarten spaces available, the number of four-year-old children enrolled in both public and private CDEPP approved facilities, and the number of children on waiting lists for either public or private providers during the reporting period. Where possible, the report shall also include anticipated four-year-old kindergarten enrollment projections for the two years following the report.

To aid in this evaluation, the Education Oversight Committee shall determine the data necessary and both public and private providers are required to submit the necessary data as a condition of continued participation in and funding of the program. This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall issue a unique student identifier for each child receiving services from a private provider. The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's implementation and assessment of student success in the early elementary grades.

1.77. (SDE: Formative Reading Assessment) Beginning with the 2007-08 school year, for grades one and two, schools will use a State Board approved developmentally appropriate formative reading assessment. However, districts that are currently using other formative reading assessments because of the districts' participation in grant programs may use those assessments in the schools within their districts in lieu of using the State Board approved assessment. By August 1, 2007, those districts shall be required to inform the Office of Assessment what equivalent assessment for grades one and two will be used. To the extent that funds are available, the Department of Education may provide funds for districts to offset the assessment costs for non-grant schools within those districts.

1.78. (SDE: Middle College Programs) In the 2007-08 school year, school districts with students enrolled in a high school of the State and who are participating in a middle college designed program with instruction offered at a State technical college, shall develop a Memorandum of Agreement for the transfer of revenue to support the high school student's instruction at the technical campus. Absent of any Memorandum of Agreement, school districts shall transfer to the technical college the sum of seventy-five percent of the total EFA base student cost for the

EFA high school classification multiplied by the percentage of instructional time, as calculated by school instructional period, that the student attends the technical college.

1.79. (SDE: Child Development Education Pilot Program-4 Year Olds) \$4,000,000 of the funds carried forward from the prior fiscal year from the South Carolina Child Development Education Pilot Program are designated for services to zero to three year olds by the Office of First Steps, the remaining funds shall be redirected for use by the Department of Education for services to four year olds participating in the Child Development Education Pilot Program during the current fiscal year. At the discretion of the First Steps Board of Trustees, funds carried forward by the Office of First Steps may be also be used to match philanthropic gifts targeting low income 0-3 year olds statewide.

1.80. (SDE: Physical Education Assessment Program) For Fiscal Year 2007-2008 the South Carolina Physical Education Assessment program is suspended. Of the funds appropriated to the Department of Education, the department is directed to collect input from physical education teachers throughout the state and submit a report outlining proposed changes to the program based on the data collected and nationally published research on the assessment of physical education programs by January 1, 2008.

SECTION 1A - H63 - DEPARTMENT OF EDUCATION-EIA

1A.17. (SDE-EIA: XI.C.2-Teacher Evaluations, XI.F.2- Implementation/Education Oversight) The Department of Education shall provide a review of the evaluation results for teachers employed under induction, annual, and continuing contracts to be presented by September 30, annually, to the State Board of Education and the Education Oversight Committee. The Department of Education is directed to oversee the evaluation of teachers at the School for the Deaf and the Blind, the John de la Howe School and the Department of Juvenile Justice under the ADEPT model.

1A.22. (SDE-EIA: XI.E.2.-Evaluation/EIA Programs) Of the funds appropriated in Part IA, Section 1, XI.E.2. for EIA Implementation, Other Operating Expenses, \$349,124 may only be used by the State Department of Education to support its contracted program evaluations and the conduct of the State Board of Education's annual assessment of EIA-funded education reforms and the related report, pursuant to Section 59-6-12. Of the remaining funds appropriated in Part IA, Section 1, XI.E.2. for EIA Implementation, Other Operating Expenses shall be used to support the continuation of program and policy evaluations and studies and to support the state's participation in the Middle Grades Project, at no less than \$100,000. Provided further, for the current fiscal year, \$100,000 shall be provided to the South Carolina Educational Policy Center for collaborative projects with the Department of Education and the Education Oversight Committee to provide research based information and consultation services on technical issues related to establishing a more thorough accountability system for public schools, school districts, and the K-12 education system.

1A.23. (DE-EIA: XI.F.2-CHE/Teacher Recruitment) Of the funds appropriated in Part IA, Section 1, XI.F.2. for the Teacher Recruitment Program, the S.C. Commission on Higher Education shall distribute a total of \$5,404,014 to the Center for Educator Recruitment, Retention, and Advancement (CERRA-South Carolina) for a state teacher recruitment program, of which \$4,200,000 must be used for the Teaching Fellows Program and of which \$166,302

must be used for specific programs to recruit minority teachers, and shall distribute \$467,000 to S.C. State University to be used only for the operation of a minority teacher recruitment program and therefore shall not be used for the operation of their established general education programs. Working with districts with an absolute rating of Unsatisfactory or Below Average, CERRA will provide shared initiatives to recruit and retain teachers to schools in these districts. CERRA will report annually by October 1 to the Education Oversight Committee and the Department of Education on the success of the recruitment and retention efforts in these schools. The S.C. Commission on Higher Education shall ensure that all funds are used to promote teacher recruitment on a statewide basis, shall ensure the continued coordination of efforts among the three teacher recruitment projects, shall review the use of funds and shall have prior program and budget approval. The S.C. State University program, in consultation with the Commission on Higher Education, shall extend beyond the geographic area it currently serves. Annually, the Commission on Higher Education shall evaluate the effectiveness of each of the teacher recruitment projects and shall report its findings and its program and budget recommendations to the House and Senate Education Committees, the State Board of Education and the Education Oversight Committee by October 1 annually, in a format agreed upon by the Education Oversight Committee and the Department of Education.

1A.26. (DE-EIA: XI.B-Parenting/Family Literacy) Funds appropriated in Part IA, Section 1, X1.B. for the Parenting/Family Literacy Programs and allocated to the school districts for parenting projects in the prior fiscal year may be retained and expended by the school districts for the same purpose during the current fiscal year. These funds must be allocated only to school districts that provide comprehensive family literacy programs which address intergenerational cycles of poverty through adult education, early childhood education and parenting programs. Furthermore, any school district that does not provide the evaluation information necessary to determine effective use as required by Section 59-139-10(A)(1) and by regulation is not eligible to receive additional funding until the requested data is provided. The minimum amount allocated to a district shall be \$35,000. Of the funds appropriated in Part IA, Section 1, XI.B. for the Parenting/Family Literacy \$200,000 must be used for the Accelerated Schools Project at the College of Charleston and \$100,000 is to be used for the South Carolina Urban Leagues statewide parental involvement programs.

1A.27. (SDE-EIA: XI.B.-Parenting/Family Literacy/Communities- In-Schools) Notwithstanding any other provision of law, the State Department of Education shall transfer \$200,000 from the funds appropriated in Part IA, Section 1, X1.B. Parenting/Family Literacy to Communities-In-Schools. These funds are to be utilized to provide technical assistance to local communities in establishing Communities-In-Schools programs statewide. Communities-In-Schools will provide annual reports to the State Department of Education which will include: budget expenditure data, a listing of the communities served and the services provided.

1A.32. (SDE-EIA: XI.C.3-Professional Development on Standards) These funds shall be used for professional development for certificated instructional and instructional leadership personnel in grades kindergarten through 12 in the academic areas for which SBE standards documents have been approved to better link instruction and lesson plans to the standards and to any state-adopted readiness assessment tests, develop classroom assessments consistent with the standards and PACT-style testing, and analyze PACT results for needed modifications in instructional strategies. No more than five percent of the funds appropriated for professional development may be retained by the Department of Education for administration of the program; however, with the funds allocated to districts for professional development, districts may choose to purchase professional development services provided by the Department of Education.

Funds may also be expended for certificated instructional and instructional leadership personnel in grades six through twelve to achieve competency in teaching reading to students who score below proficient on the reading assessment of PACT. Provided further, that \$250,000 of the funds allocated to professional development must be provided to the Department of Education to implement successfully the South Carolina Readiness Assessment by creating a validation process for teachers to ensure reliable administration of the assessment, providing professional development on effective utilization and establishing the relationship between the readiness measure and third grade standards-based assessments. Multi-day work sessions shall be provided around the state during the summer and during the fall and winter using staff development days, teacher workdays, two of the remaining professional development days shall be set aside specifically for the preparation and opening of schools. District instructional leaders, regional service centers, consortia, department personnel, university faculty, contracted providers, and the resources of ETV may be used as appropriate to implement this intensive professional development initiative. Teachers participating in this professional development shall receive credit toward recertification according to State Board of Education guidelines. Funds provided for professional development on standards may be carried forward into the current fiscal year to be expended for the same purpose. No less than twenty-five percent of the funds allocated for professional development should be expended on the teaching of reading which includes teaching reading across content areas in grades three through eight.

1A.33. (SDE-EIA: XI.C.2-Teacher Supplies) From the funds appropriated, all certified public school, certified special school classroom teachers, certified media specialists, and certified guidance counselors who are employed by a school district or a charter school as of November 30 of the current fiscal year, shall receive reimbursement of two hundred fifty dollars each school year to offset expenses incurred by them for teaching supplies and materials. Funds shall be disbursed by the department to School districts by July 15 based on the last reconciled Professional Certified Staff (PCS) listing from the previous year. Any deviation in the PCS and actual teacher count will be reconciled by December 31 or as soon as practicable thereafter. School districts shall disburse these funds in a manner separate and distinct from their payroll check on the first day teachers, by contract, are required to be in attendance at school for the current contract year. This reimbursement shall not be considered by the state as taxable income. Special schools include the Governor's School for Science and Math, the Governor's School for the Arts and Humanities, Wil Lou Gray Opportunity School, John de la Howe School, School for the Deaf and the Blind, Felton Lab, Department of Juvenile Justice, and Palmetto Unified School District. Funds distributed to school districts or allocated to schools must not supplant existing supply money paid to teachers from other sources. If a school district requires receipts for tax purposes the receipts may not be required before December 31. Districts that do not wish to require receipts may have teachers retain the receipts and certify for the district they have received the \$250 for purchase of teaching supplies and/or materials and that they have purchased or will purchase supplies and/or materials during the fiscal year for the amount of \$250. Districts shall not have an audit exception related to non-retention of receipts in any instances where a similar instrument is utilized. Any district requiring receipts must notify any teacher from whom receipts have not been submitted between November 25 and December 6 that receipts must be submitted to the district. Districts may not add any additional requirement not listed herein related to this reimbursement. The department must withhold Act 135 funds from any district while in non-compliance with this provision. Any funds not disbursed to teachers may not be retained by the districts and must be returned to the department.

1A.34. (SDE-EIA: XI.E.1-Principal Executive/Leadership Institute Carry Forward) Prior fiscal

year funds appropriated in Part IA, Section 1, XI.E.1. for the Principal Executive/Leadership Institute may be carried forward into the current fiscal year and expended for the same purpose.

The Institute and all principal evaluation and induction programs must include training for the key role that principals have in supervising the teaching of reading and instilling the importance of literacy in public schools.

1A.39. (SDE-EIA: XI.A.3-Institute of Reading) The funds appropriated for the Institute of Reading must be used to implement a comprehensive approach to improving the reading abilities of students in the middle grades and accelerating the learning of middle grade students reading below grade level with strategies based on best practice and providing targeted assistance shown by research to help these students to read at grade level. Funds may also be used in the same manner for high school grades.

1A.40. (SDE-EIA: EOC) The Education Oversight Committee may collect, retain and expend revenue from conference registration and fees; charges for materials supplied to local school districts or other entities not otherwise mandated to be provided by state law; and from other activities or functions sponsored by the committee including public awareness campaign activities. Any unexpended revenue from these sources may be carried forward into the current fiscal year and expended for the same purposes. The Education Oversight Committee is permitted to utilize the funds appropriated to it to fund programs promoting the teaching of economic education in South Carolina.

1A.41. (SDE-EIA: Professional Development) With the funds appropriated for professional development, the Department of Education must disseminate the South Carolina Professional Development Standards, establish a professional development accountability system, and provide training to school leadership on the professional development standards, also training must be provided to educators on assessing student mastery of the content standards. The State Department of Education shall revise professional development activities and programs, including professional development on the standards, the SC Reading Initiative, and programs for administrators, to include emphasis on strategies and services for students at risk of retention. The State Department of Education shall provide information on the activities and programs and measures to gauge their effectiveness to the State Board of Education and the Education Oversight Committee by January 1.

1A.43. (SDE-EIA: Report Card Printing) The State Department of Education is prohibited from printing the Annual School and District Report Card in any other color other than black and white. School districts must advertise the results of their schools' report cards in an audited newspaper of general circulation in their geographic area within 45 days. If the audited newspaper has previously published the entire report card results as a news item, this requirement is waived for the school and district. Notwithstanding Section 59-18-930, the requirement to mail school and district report cards is suspended and report cards may be sent home with the students. The parent survey required by Section 59-28-190 may be sent home with the students and the department must use the results of the parent survey to report parent perceptions on the school report cards.

1A.44. (SDE-EIA: Technical Assistance) Notwithstanding any other provision of law, and in order to best meet the needs of low-performing schools, funds appropriated for technical assistance to schools with an absolute rating of below average or unsatisfactory on the most recent annual school report card must be allocated accordingly. First, a school initially

designated as unsatisfactory or below average on the current year's report card must receive by January 1, up to \$10,000 from the funds appropriated for technical assistance and must expend the funds for planning purposes in accordance with Section 59-18-1560 of the 1976 Code.

Furthermore, any school that does not provide the evaluation information necessary to determine effective use as required by Section 59-18-1560 of the 1976 Code, is not eligible to receive additional funding until the requested data is provided. Schools receiving an absolute rating of below average must submit to the Department of Education a school renewal plan that includes actions consistent with each of the alternative researched-based technical assistance criteria as approved by the Education Oversight Committee and the Department of Education. The school renewal plans may include compensation incentives to provide salary supplements to classroom teachers who are certified by the State Board of Education and who have obtained an Advanced Degree. The purpose of these compensation packages is to improve the recruitment and retention of teachers with Advanced Degrees in underperforming schools. If the school renewal plans are approved, schools would be permitted to use technical assistance funds to provide these salary supplements. Upon approval of the plans by the Department of Education and the State Board of Education, the school will receive an allocation of not less than \$75,000, taking into consideration the enrollment of the schools. The funds must be expended on strategies and activities as expressly outlined in the school renewal plan which may include, but are not limited to, professional development, the Teacher Advancement Program (TAP), homework centers, diagnostic testing, supplemental health and social services, or comprehensive school reform efforts. The schools will work with the Department of Education to broker the services of technical assistance personnel as needed and as stipulated in the school renewal plan. Funds not expended in the prior fiscal year may be carried forward and expended for the same purpose in the current fiscal year. It is intended that the technical assistance will be provided for a minimum of three years in order to implement fully systemic reform and to provide opportunity for building local education capacity. Furthermore, schools and school districts must use these technical assistance funds to augment or increase, not to replace local or state revenues that would have been used if the technical assistance funds had not been made available. Schools and school districts may use technical assistance funds only to supplement, and to the extent practical, increase the level of funds that would be made available from other revenue sources for these schools. A school or district may not use these technical assistance funds to supplant funds from other sources.

Schools receiving an absolute rating of unsatisfactory will be provided an external review team evaluation. Based upon the external review team evaluation, the schools must submit to the Department of Education a school renewal plan that includes actions consistent with the alternative research-based technical assistance criteria as approved by the Education Oversight Committee and the Department of Education. Upon approval of the plan by the Department of Education and the State Board of Education, the schools will receive an allocation of not less than \$250,000, taking into consideration the enrollment of the schools and the recommendations of the external review team. The funds must be expended on strategies and activities as expressly outlined in the school renewal plan which may include, but are not limited to, professional development, the Teacher Advancement Program (TAP), homework centers, diagnostic testing, supplemental health and social services, or comprehensive school reform efforts. The schools will work with the Department of Education to broker the services of technical assistance personnel as needed and as stipulated in the school renewal plan. Funds not expended in the prior fiscal year may be carried forward and expended for the same purpose in the current fiscal year. It is intended that the technical assistance will be provided for a minimum of three years in order to implement fully systemic reform and to provide opportunity for building local education capacity.

With the funds appropriated to the Department of Education for technical assistance services,

the department will assist schools with an absolute rating of unsatisfactory or below average in designing and implementing school renewal plans and in brokering for technical assistance personnel as needed and as stipulated in the school renewal plan. Teacher specialists may be placed across grade levels and across core subject areas when placement meets program criteria based on external review team recommendations, need, number of teachers receiving support, and certification and experience of the specialist. Teacher specialists are limited to three years of service at one school unless the specialist submits application for an extension and that application is accepted by the Department of Education and placement is made. Upon acceptance and placement, the specialist can receive the salary and supplement for two additional years, but is no longer attached to the sending district or guaranteed placement in the sending district following tenure in the program as provided in Section 59-18-1530(F) of the 1976 Code. The criteria for selecting alternate research-based technical assistance are to be those previously approved by the Education Oversight Committee and the Department of Education. The School Improvement Council Assistance will coordinate with the department to target schools and school districts designated as unsatisfactory. The department shall coordinate with and monitor the services provided to the schools and districts by the School Improvement Council Assistance. In addition, the department must monitor the expenditure of funds and the academic achievement in schools receiving these funds and report to the General Assembly and the Education Oversight Committee by January 1 of each fiscal year as the General Assembly may direct. No more than five percent of the total amount appropriated for technical assistance services to schools with an absolute rating of Unsatisfactory or Below Average may be retained and expended by the department for implementation of technical assistance services. Furthermore, of the funds appropriated for technical assistance, \$930,000 shall be used for the National About Face Pilot Program.

NOTE: Several provisos related to technical assistance were consolidated into one proviso, 1A.44.

1A.46. (SDE-EIA: School Districts and Special Schools Flexibility) All school districts and special schools of this State may transfer up to one hundred percent of funds between programs to any instructional program provided the funds are utilized for direct classroom instruction.

The South Carolina Department of Education must establish a procedure for the review of all transfers authorized by this provision. The details of such transfers must be provided to members of the General Assembly upon request. School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year to be used for the same purpose. All transfers executed pursuant to this provision must be completed by May first of the current fiscal year. All school districts and special schools of this State may expend funds received from the Children's Education Endowment Fund for school facilities and fixed equipment assistance, for any instructional program. The Education Oversight Committee shall review the utilization of the flexibility provision to determine how it enhances or detracts from the achievement of the goals of the educational accountability system, including the ways in which school districts and the state organize for maximum benefit to classroom instruction, priorities among existing programs and services, and the impact on short, as well as, long-term objectives. The State Department of Education shall provide the reports on the transfers to the Education Oversight Committee for the comprehensive review. This review shall be provided to the members of the General Assembly annually. Any grant or technical assistance funds allocated directly to an individual school may not be reduced or reallocated within the school district and must be expended by the receiving school only according to the guidelines governing the funds.

1A.49. (SDE-EIA: Critical Geographic Area) Notwithstanding the provision of Section 59-26-20(j) for those students seeking loan cancellation under the Teacher Loan Program after July 1, 2004, "critical geographic area" shall be defined as schools that have an absolute rating of below average or unsatisfactory, schools where the average teacher turnover rate for the past three years is 20 percent or higher, or schools that meet the poverty index criteria at the 70 percent level or higher. The list shall also include special schools, alternative schools, and correctional centers as identified by the State Board of Education. After July 1, 2005, students shall have their loan canceled based on those schools or districts designated as a critical geographic area at the time of employment. The definition of critical geographic area shall not change for those students who are in the process of having a loan canceled, on or before June 30, 2005. Beginning in Fiscal Year 2005-06 the maximum loan amount will be increased to an amount not to exceed \$20,000.

1A.52. (SDE-EIA: EAA Summer School, Grades 3-8) Funds appropriated for summer school shall be allocated to each local public school district based on the number of academic subject area scores below the basic on the prior year Spring PACT administration for students in grades three through eight and on the number of students entering ninth grade who score below proficient in reading. Individual student scores on the PACT shall not be the sole criterion used to determine whether a student on an academic plan the prior year will be placed on probation or retained. Individual student scores on the PACT shall not be the sole criterion for requiring students to attend summer school. School districts may consider other factors such as student performance, teacher judgment, and social, emotional, and physical development in placing students on academic probation or requiring summer school attendance. Students may not be placed on academic probation or retained based solely on the PACT scores. The State Department of Education working with the Education Oversight Committee must develop a method to supplement the PACT with diagnostic training and materials aligned to the content standards. Current year appropriations may be expended for prior year EAA summer school purposes. Local public school districts shall utilize these funds in accordance with the requirements of Section 59-18-500 of the 1976 Code. The State Department of Education is directed to utilize PACT-like tests aligned with standards to be administered to students on academic probation required to attend summer school. The test shall be a determinate in judging whether the student has the skills to succeed at the next grade level. The State Board of Education shall establish regulations to define the extenuating circumstances including death of an immediate family member or severe long-term student illness, under which the requirements of Section 59-18-900(D) may be waived. Furthermore, the Department of Education, working with and through the SC Afterschool Alliance, will provide \$250,000 to produce a model of voluntary quality standards for out-of-school time programs, develop a directory of technical assistance, and identify gaps of service.

1A.58. (SDE-EIA: EAA Report Card Criteria) The Education Oversight Committee may base ratings for school districts and high schools on criteria that include graduation from high school with a state high school diploma and ratings may be based on criteria aligned with workforce needs including, but not limited to, exit examination performance and other criteria identified by technical experts and appropriate groups of educators and workforce advocates. For other schools without standard-based assessments the ratings may be based upon criteria identified by technical experts and appropriate groups of educators. All ratings criteria must be approved by the Education Oversight Committee.

1A.59. (SDE-EIA: Excellence in Middle School Initiative) Funds appropriated for the Excellence in Middle Schools Initiative shall be used to continue to fund the number of guidance counselors, school safety officers and/or school nurses in middle/junior high schools. The

funding allocation shall be based proportionately on the number of middle/junior high schools in each district.

1A.61. (SDE-EIA: Early Childhood Review) From the funds appropriated for EIA Four-Year-Old Early Childhood, the Department of Education shall utilize up to \$300,000 to institute a plan for reviewing, on a district basis, early childhood assets of schools and districts based on 4K entry DIAL 3 scores, and South Carolina Readiness Assessment Reports. To accomplish this, the department shall use reports that analyze program assets and provide guidance to local schools on the effective use of the reports to enhance quality gaps. Children will be tracked from early childhood programs to fifth grade and beyond to study the relationships of strong early childhood programs and increased performance on PACT, decreased drop out scores, decreased referral for special education programs, and increased graduation rates. This review may not be used as a part of the EAA Report Card for the current fiscal year.

1A.63. (SDE-EIA: Teacher Recruitment/Retention Task Force) The Education Oversight Committee shall convene a task force to evaluate current teacher recruitment and retention policies, particularly those that impact on schools that have historically underachieved. Included in the task force will be representatives from the Department of Education, the Center for Educator Recruitment, Retention, and Advancement (CERRA-South Carolina), institutions of higher learning, the Student Loan Corporation, the Commission on Higher Education, and classroom teachers from throughout South Carolina.

1A.64. (SDE-EIA: Report Card Information) The percentage each school district expended on classroom instruction as defined by the Department of Education's InSite classification for "Instruction" must be printed on the Annual School and District Report Card.

1A.67. (SDE-EIA: Formative Reading Assessment) Beginning with the 2007-08 school year, for grades one and two, schools will use a State Board approved developmentally appropriate formative reading assessment. However, districts that are currently using other formative reading assessments because of the districts' participation in grant programs may use those assessments in the schools within their districts in lieu of using the State Board approved assessment. By August 1, 2007, those districts shall be required to inform the Office of Assessment what equivalent assessment for grades one and two will be used. To the extent that funds are available, the Department of Education may provide funds for districts to offset the assessment costs for non-grant schools within those districts.

1A.68. (SDE-EIA: 3 Year Technical Assistance Plan) No school that received technical assistance funding in Fiscal Year 2006-07 and that implemented a three-year technical assistance plan approved by the Department of Education shall receive a reduction in those funds in Fiscal Year 2007-08.

1A.69. (SDE-EIA: XI.E.1-Public Choice Innovation Schools) With the funds provided, a grant program will be established to support the creation of Public Choice Innovation Schools in South Carolina and to provide for their evaluation. These schools are public choice alternatives for grade 4-8 students enrolled in the public schools rated Unsatisfactory or Below Average or students enrolled in public schools rated Average or above and who scored Basic or below on any two or more subject area grade level PACT assessments in grades 3-7 during the most recent school year. The goal of Public Choice Innovation Schools is to demonstrate leadership in instructional, administrative or personnel practices yielding strong student academic achievement.

To assist entities in operating innovation schools, a grants program would be established by the State Board of Education. The grant would be for a minimum of five years with the first year of funding for planning and equipping purposes and the remaining years of supplemental funding for operation of the innovation school. Entities eligible to receive a grant include public and private partnerships. Partnerships include an educational management organization, a private corporation, an institution of higher education, a consortium of public schools districts and/or a contractual relationship between a private entity and a public school district. In the application process, partnerships must demonstrate at least one of the following strategies in improving leadership and academic achievement: changes in teacher compensation to address geographic or certification barriers and/or to offer performance incentives; utilization of novel leadership and administrative policies and procedures, to include preparation and certification of administrators, operational procedures and costs shared with other entities; continuous progress of students between grades 4-8; virtual delivery of substantial portions of the curriculum; and novel or non-traditional uses of time, space and technology in the instructional delivery of state academic content standards; or a combination of these strategies. The first year planning grant to each proposed school would be \$100,000 with innovation schools also eligible to receive additional grant funds for equipment and facilities not to exceed \$400,000 per partnership. In year two of the grant the partnership would receive funds for operation of the school to include a maximum grant of \$300,000 in supplement of the per pupil revenues from federal, state and local sources. In years three through five the school would continue to receive grant funds but at the maximum level of eighty percent of each previous year's grant. Funding per innovation school would be dependent upon: state per pupil allocations; supplementary allocations equal to local spending levels in the sending school; transportation allowance equivalent to the state per pupil transportation expenditure; and federal funds as applicable to the student population. In year six and beyond, the innovation school would receive a minimum supplement of \$100,000.

Eligible to attend the Public Choice Innovation schools are students who meet one of the following conditions: (1) are enrolled in grades 4 through 8 and are assigned to a school rated Below Average or Unsatisfactory; or (2) are enrolled in schools with an absolute rating of Average or above and scored Basic or below on any two or more subject area grade level PACT assessments in grades 3 through 7 during the most recent school year. Students are not required to attend a Public Choice Innovation School in their district of residence. As long as no eligible student is denied admission, the Public Choice Innovation School may accept other students as their parents choose to enroll them and receive funded as previously defined. Once a student is enrolled in a Public Choice Innovation School, the child is guaranteed enrollment in the appropriate grades as long as the school remains in operation, unless the student violates behavioral expectations, or the parents choose to transfer the student to another school for which the student is eligible. An innovation school may not discriminate against any student on the basis of race, color, national origin, gender, disability or prior academic performance. Public Choice Innovation Schools are required to participate in the statewide testing program; however, the schools shall not receive Education Accountability Act ratings until the third year of operation. The initial rating addresses student performance in the third year of operations.

An independent longitudinal evaluation of Public Choice Innovation Schools is to be conducted or contracted by the Education Oversight Committee and must include a value-added component so that valid comparisons can be made to student performance in traditional public schools and public charter schools.

Of the funds provided herein, the first \$200,000 will be directed to the South Carolina Public Charter School District Board of Trustees which shall be authorized to use these funds for administrative costs to make the district operational.

1A.70. (SDE-EIA: EIA Cash Balance) The Department of Education is authorized to carry forward the amount necessary from EIA funds not expended in the prior fiscal year to increase the teacher supply allocation, as provided for elsewhere in this Act, to \$275.

\$105,410 of the FY 2005-06 cash balance is to be utilized by the Department of Juvenile Justice if, after a recount of student enrollment, the Department of Juvenile Justice is determined to be ineligible for additional federal Title II Teacher Quality funds equal to \$105,410.

\$224,000 of the FY 2005-06 EIA cash balance is to be utilized by Clemson University for the purpose of contracting the Center of Agricultural and Environmental Research Training to develop standards for the secondary agriculture programs in South Carolina as well as provide support material for Agricultural Education teachers to assist with its implementation. The Department may utilize no more than \$100,000 of FY 2005-06 EIA cash balance to reimburse travel expenses and per diem for the advisory group established to develop implementation strategies for school district shared administration units.

\$5,000,000 of the FY 2005-06 EIA cash balance is to be utilized by the Department of Education, Budget and Control Board's Chief Information Office, State Library, and Education Television Commission for the implementation and awarding of not more than 6 individual public school grants for the piloting of the "iAm" Statewide Student Laptop Program. Grant awards are to be designed to enhance the educational opportunities, increase workforce competitiveness, and engage ninth grade students to take ownership and responsibility for their future and the future of South Carolina. All grants shall be used to purchase laptops for ninth grade students, additional equipment, and infrastructure to support the implementation of the "iAm" program, professional staff and faculty training, service and maintenance for the program. Schools receiving the awards must provide for matching resources at a ratio determined by the percentage of ninth grade students receiving free or reduced lunch. For schools in the top ten percent of schools with students receiving free or reduced lunch, grants will be provided at no matching resource requirement by the grant receiving school. For schools in the next thirty percent of schools with students receiving free or reduced lunch, grants will be provided at a ratio of three iAm program dollars for each dollar invested by the grant receiving school. For schools in the second thirty percent of schools with students receiving free or reduced lunch, grants will be provided at a ratio of two iAm program dollars for each dollar invested by the grant receiving school. For schools in the lowest thirty percent of schools with students receiving free or reduced lunch, grants will be provided at a ratio of one iAm program dollar for each dollar invested by the grant receiving school. For FY 2007-08 the first fifty percent of "iAm" grant awards must be for public schools whose ninth grade students scored unsatisfactory or below average on the most recent EAA school report card; that have free and reduced lunch student counts that exceed the statewide average; and have the technological capacity necessary to fully implement the program. The "iAm" program's efficacy must be evaluated starting at the time of its initial implementation by an independent party. The evaluation must include the program's impact on retention rates and student achievement. A copy of the evaluation report shall be provided to the President Pro Tempore of the Senate, the Speaker of the House of Representatives, the Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee no later than December 1, 2009. Schools may carry forward "iAm" program funds to be used for the same purpose.

1A.71. (SDE-EIA: XI-E.2.-Teacher Technology Proficiency) To ensure the effective and efficient use of the funding provided by the General Assembly in Part IA, Section 1 XI.E.2 for school technology in the classroom and internet access, the State Department of Education shall approve district technology plans that specifically address and incorporate teacher technology competency standards and local school districts must require teachers to demonstrate proficiency in these standards as part of each teacher's Professional Development plan. The Department of Education's professional development tracking, prescriptive and electronic

portfolio system for teachers is the preferred method for demonstrating technology proficiency as this system is aligned to the International Society for Technology in Education (ISTE) teacher standards. Evidence that districts are meeting the requirement is a prerequisite to expenditure of a district's technology funds.

APPENDIX B

2004–2006 Report Card Ratings and Rigor of Performance Expectations

B-1: South Carolina School and District Ratings, 2004 - 2006

B-2: Increasing Rigor in SC Performance Expectations

Appendix B-1

South Carolina School and District Ratings 2004 - 2006

Summary Tables

Report card ratings are awarded to each school organizational unit: primary, elementary, middle, or high. A school that has kindergarten through eighth grade receives two sets of ratings (and two sets of report cards). One set of ratings for this school pertains to the elementary grades in the school (Palmetto Achievement Challenge Test [PACT] results in grades three through five), and the other set of ratings is based on the middle school grades (PACT results from grades six through eight). Primary level schools that do not contain PACT-tested grades (such as a school having kindergarten through second grade) and career and career and technology centers also receive ratings based on different sets of criteria. Some schools, such as new schools, do not receive ratings.

The frequencies of ratings reported for all primary, elementary, middle, and high schools in South Carolina are listed in the tables that follow.

Note: Totals may not add up to 100 percent due to rounding. Based on data from the S.C. Department of Education, November 2004, November 2005, March 2006, and May 2007.

Appendix B-2

Increasing Rigor In SC Performance Expectations

 <p>SC EDUCATION OVERSIGHT COMMITTEE</p> <p><i>Reporting facts. Measuring change. Promoting progress.</i></p>	<h1 style="margin: 0;">At a Glance</h1> <h2 style="margin: 0;">Increasing Rigor In SC Performance Expectations</h2> <p style="margin: 0;"><i>March 15, 2007</i></p>
---	---

Background of SC Performance Expectations

By the year 2010. South Carolina’s student achievement will be ranked in the top half of states nationally. To achieve this we must become one of the five fastest improving systems in the country.

- The Education Accountability Act of 1998 calls for an accountability system to “push schools and students toward higher performance. . . the standards must be reflective of the highest level of academic skills with the rigor necessary to improve the curriculum and instruction in South Carolina’s schools so that students are encouraged to learn at unprecedented levels and must be reflective of the highest level of academic skills at each grade level;”
- The General Assembly specifies that schools are to be rated on performance on the state standards-based assessments and the school or district performance was to be reported using these terms: Excellent, Good, Average, Below Average and Unsatisfactory. Numerical values ranging from 1.0 to 5.0 are associated the ratings terms
- Through a series of public focus groups in 1999 and 2000, the EOC verified the intent that the term average meant *national* average;
- Performance levels on state assessments were gauged against performance on national assessments (e.g., NAEP and college admissions tests) to interpolate “national average;”
- After concurring with educators and the public, the EOC agreed to stagger increases in the values associated with each school or district rating term over seven years, beginning in 2004.

Increasing Expectations and Performance

As state standards-based assessments were developed and implemented the tests included in a school or district’s rating changed. Elementary and middle schools have been impacted by the addition of science and social studies and the high schools have been impacted, first by the change from the Basic Skills Assessment Program (BSAP) to the High School Assessment Program (HSAP) and second, by the use of end-of-course assessments and graduation rate. The chart below details the changes in expectations, actual performance and the criteria used.

FISCAL YEAR	RANGE FOR AVERAGE RATING	ACTUAL STATE-WIDE INDEX	CRITERIA	
			Elementary – Middle	High Schools
2000	-----	2.71	PACT ELA & Math	Not applicable
2001	2.6-2.9	2.89	PACT ELA & Math	BSAP, LIFE Scholarships
2002	2.6-2.9	2.93	PACT ELA & Math	BSAP, LIFE Scholarships
2003	2.6-2.9	2.96	PACT ELA & Math	BSAP, LIFE Scholarships & graduation rate
2004	2.7-3.0	3.08	PACT ELA & Math	HSAP, LIFE Scholarships & graduation rate
2005	2.8-3.1	3.09	PACT ELA & Math Science and Social Studies	HSAP, LIFE scholarships & graduation rate

FISCAL YEAR	RANGE FOR AVERAGE RATING	ACTUAL STATE-WIDE INDEX	CRITERIA	
			Elementary – Middle	High Schools
2006	2.9-3.2	3.05	PACT ELA & Math Science and Social Studies	HSAP, LIFE scholarships & graduation rate
2007	3.0-3.3		PACT ELA & Math Science and Social Studies	HSAP, end-of-course tests & graduation rate
2008	3.1-3.4		PACT ELA & Math Science and Social Studies	HSAP, end-of-course tests & graduation rate
2009	3.2-3.5		PACT ELA & Math Science and Social Studies	HSAP, end-of-course tests & graduation rate

Support for Improvements in Performance

Performance doesn't improve just because legislation is enacted. Performance improves with focus, assistance, professional development and the use of new strategies to address the needs of young people. Over the last seven years the General Assembly has invested in its accountability system and school improvements through the following major appropriations and actions:

Fiscal Year	Selected Appropriations	Other Actions (initial change year noted)
2000	EAA \$ 35.5 million	Instructional materials funding increased Parent Involvement in Their Children's Education Act passes National Board incentive begins
2001	EAA 63.2 million	LIFE Scholarship program begins (1 percent mid-year reduction imposed)
2002	EAA 105 million	EOC honors "closing the gap" schools Red Carpet Schools gives first awards (6.52 percent mid-year reduction imposed)
2003	EAA 116 million Lottery 32 million	Districts granted flexibility among funds. (8.73 percent mid-year reduction imposed)
2004	EAA 114 million Lottery 40 million	Teacher supply materials funded SC receives Reading First grant (1 percent mid-year reduction imposed)
2005	EAA 118 million Lottery 48.5 million	Social Studies standards revised Educ & Econ Development Act becomes law
2006	EAA 123 million Lottery 48.5 million	Act 254 changes testing program Science standards revised EFA reductions restored
2007	EAA 139.3 million Lottery 48.5 million EEDA 15.8 million CDEPP 23 million	ELA & Math standards revised SC receives Teacher Incentive Grant Virtual school piloted 4K program piloted

Final Thoughts

- In 2006 40.2 percent of South Carolina's students attended schools rated Excellent or Good; 9.5 percent attended schools rated Unsatisfactory
- In 2006, elementary and middle schools exhibited flat or declining performance in each of the content areas measured on PACT. High schools performance declined on three of four criteria.
- SC's target for national performance can be accomplished; it allows for realistic ranges of student performance. A middle school with performance equally distributed among the four levels of student performance (Below Basic, Basic, Proficient, and Advanced) would be rated Average in 2009. A school with 25 percent of students scoring below basic, 12.5 percent of students scoring advanced and other students divided between basic and proficient, would earn an Average rating in 2009.

And ultimately, SC's teachers, students and families should be thanked for the progress the state is accomplishing.

**For additional information, contact the EOC at (803) 734-6148.
Analyses of student performance over time and reviews of ratings can be found online at

Southern Association of Colleges and Schools (SACS) Accreditation

DEFINITION:

General

School Report Card: School is/is not accredited by the Southern Association of Colleges and Schools.

District Report Card: Percentage of schools in the district accredited by the Southern Association of Colleges and Schools.

Formula

School: Accreditation is indicated with a "Yes" or "No."

District: The number of accredited schools is divided by the total number of schools in the district and converted to a percentage.

PROCEDURES:

Collected by:

State Department of Education

Reported by:

Southern Association of Colleges and Schools

Timeframe:

Periodic

Number of Students Completing Adult Education Diploma or GED Preparation Programs

DEFINITION:

General

This fact reports the number of students receiving a GED or a diploma through adult education programs.

Formula

Determine the number of students age 16 or older by July 1 who received 12 or more hours of instruction, and were assessed between July 1 and June 30 who completed requirements for a GED or a high school diploma through adult education programs in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Adult Education

Reported by:

Adult education directors

Timeframe:

End of school year

Number of Students Enrolled in Adult Education Diploma or GED Preparation Programs

DEFINITION:

General

This fact reports the number of students enrolled in adult education diploma or GED preparation programs.

Formula

Determine the total unduplicated count of the number of students aged 16 or older by July 1 enrolled in adult education diploma or GED preparation programs in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Adult Education

Reported by:

Adult education directors

Timeframe:

End of school year

Advanced Placement/International Baccalaureate (AP/IB) Participation Rate

DEFINITION:

General

This indicator reports the participation rate as the unduplicated count of students enrolled in AP or IB courses divided by the forty-five-day average daily membership (ADM), expressed as a percent.

Formula

Present this indicator as a ratio.

- (1) Determine the unduplicated number of students in grades 11 and 12 enrolled in Advanced Placement (AP) or International Baccalaureate (IB) classes at the school.
- (2) Divide the count in step one by the one-hundred-thirty-five-day ADM for grades 11 and 12 and express as a percent.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe:

January–March: Precode

Advanced Placement/International Baccalaureate Scores: Educational Testing Service (ETS) reported to schools in July each year

Advanced Placement/International Baccalaureate (AP/IB) Success Rate

DEFINITION:

General

This indicator reports the success rate in Advanced Placement (AP) or International Baccalaureate (IB) courses as the percentage of all AP and IB examinations taken in which the scores were three or above on the AP tests, or four or above on the IB examinations.

Formula

Present this indicator as a percent.

- (1) Determine the count of AP or IB tests at the school with scores of three or above on the AP tests, or four or above on the IB examinations.
- (2) Divide the count in step one above by the number of AP and IB tests taken and express the answer as a percentage.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe:

January–March: Precode

Advanced Placement/International Baccalaureate Scores: Educational Testing Service (ETS) reported to schools in July each year

Teachers with Advanced Degrees

DEFINITION:

General

This indicator reports the percentage of teachers with earned degrees above the bachelor's.

Formula

School

- (1) Determine the total number of teachers at the school with master's degrees and above.
- (2) Divide the sum by the total number of teachers in the school.

District

- (1) Determine the total number of teachers in the district with master's degrees and above.
- (2) Divide the sum by the total number of teachers in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts via Professional Certification System

Timeframe:

190 day

Opportunities in the Arts

DEFINITION:

General

The number of arts disciplines offered in a school and the percentage of arts classes taught by teachers certified in the arts discipline (music, visual art, drama, dance).

Formula

Category A: Number of arts disciplines offered during school year, including those offered through interactive technology.

Elementary schools: During the school day for at least an average of thirty minutes per arts disciplines each week.

Middle/High School: For a minimum of one semester credit/unit.

<u>Option</u>	<u>Point Value</u>
0 or 1 discipline	1
2 disciplines	4
3 disciplines	7
4 disciplines	8

Category B: Percentage of the arts disciplines taught by teachers certified in the arts discipline(s) they are teaching (defined the same at all school levels).

<u>Option</u>	<u>Point Value</u>
Less than 50%	1
50%	2
75%	3
100%	4

Total Score: $\frac{A+B}{2}$

Interpretation of Total Scores

Poor	=	2.5 or below
Fair	=	2.6–3.5
Good	=	3.6–4.9
Excellent	=	5 or above

PROCEDURES:

Collected by:

State Department of Education

Reported by:

School districts

Timeframe:

End of school year

Average Daily Attendance Rate, Students

DEFINITION:

General

This indicator reports the average number of students present on each day.

Formula

- (1) Determine the total number of days present for students in the school on the 135th day.
- (2) Divide this amount by the number of days students were enrolled at the school.

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

School district financial reports

Timeframe:

135-day data collection

Average Daily Attendance Rate, Teachers

DEFINITION:

General

This indicator reports the average percentage of teachers present on each school day.

Formula

School

- (1) Total the number of days present for teachers in the school. (Annual leave days for teachers in state special schools are excluded.)
- (2) Multiply number of teachers by 190 contract days (or number of contract days).
- (3) Divide step one by step two.

Itinerant teachers should be included in calculations proportionate to assignment.

Until the teacher contract year reaches 195 days, teacher absences for professional development activities for which the district or school has paid a stipend or registration fee or activities teachers attend with permission from a school or district administrator are excused from the absence calculation. All activities that are excused must meet state-adopted standards for professional development.

PROCEDURES:

Collected by:

Department of Education, Office of Research/Office of Finance

Reported by:

School district survey

School districts

Timeframe:

End of school year

Average Teacher Salary

DEFINITION:

General

School

This indicator reports the average salary of teachers at the school. This average is compared to the state average teacher salary on the school report card.

District

This indicator reports the average salary of teachers in the district. This average is compared to the state average teacher salary on the district report card.

Formula

School

(1) Add the salaries of the total full-time equivalent (FTE) teachers assigned to the school (based on 190 days).

(2) Divide the sum by the total FTE teachers assigned to the school (based on 190 days).

District

(1) Add the salaries of the total FTE teachers assigned to the district (based on 190 days).

(2) Divide the sum by the total FTE teachers assigned to the district (based on 190 days).

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

District financial officers

Timeframe:

135-day data collection

Percent New Trustees Completing Board Orientation Training

DEFINITION:

General

Reports the percentage of newly elected school board trustees who have completed the orientation program for new school board trustees. Reported on district report card.

Formula

The number of new trustees who have completed the training is divided by the total number of new trustees and converted to a percentage.

PROCEDURES:

Collected by:

State Department of Education

Reported by:

School districts

Timeframe:

Periodic

Character Education Program

DEFINITION:

General

The character development of students and staff in the school is measured using a rubric developed by the S.C. Character Education Partnership Team.

Formula

The scores from the rubric are converted to ratings based on the following scale points:

Rating Terms	Point Scale
Excellent	3.6 to 4.0
Good	2.6 to 3.5
Average	1.6 to 2.5
Below Average	.6 to 1.5
Unsatisfactory	0 to .5

Definitions of Rating Terms

Excellent: The school has a comprehensive character development initiative that ensures that all students and staff perform to their maximum potential.

Good: The school has a comprehensive character development initiative that is producing results among students and staff.

Average: The school is addressing character development, but its efforts are not comprehensive.

Below Average: The school is developing the structure needed to begin a character development initiative.

Unsatisfactory: The school is not actively engaged in addressing the character development of its students or staff.

PROCEDURE:

Collected by:

State Department of Education, Office of Safe Schools and Youth Services

Reported by:

School districts

Timeframe:

Spring data collection

Teachers with Continuing Contract Status

DEFINITION:

General

This indicator reports on the percentage of teachers in the school/district with continuing contract status.

Formula

School

Divide the total number of full-time equivalent (FTE) teachers at the school with continuing contract status during the ratings year by the total number of FTE teachers in the school.

District

Divide the total number of FTE teachers in the district with continuing contract status during the school year of the report card data collection by the total number of FTE teachers in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Certification

Reported by:

School districts
Professional Certification System

Timeframe:

End of school year

Percentage of Students with Disabilities Other Than Speech

DEFINITION:

General

The percentage of students qualifying under the Individuals with Disabilities Education Act (IDEA) and receiving services in programs for students with disabilities (excluding students receiving speech services only).

Formula

School

- (1) Determine the total number of students at the school qualifying under IDEA and receiving services in programs for students with disabilities (excluding students receiving speech services).
- (2) Divide the total by the number of students enrolled at the school.

District

- (1) Determine the total number of students enrolled in the district qualifying under IDEA and receiving services in programs for students with disabilities (excluding students receiving speech services).
- (2) Divide the total by the number of students enrolled at the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School district, SASI, Precode data

Timeframe:

January–March

Dollars Spent per Pupil

DEFINITION:

General

This indicator reports the federal, state, and district funds spent for the education of each student during the most recent school year.

Formula

School

- (1) Determine annual operating expenses for all school activities. Include In\$ite™ categories for instruction, instructional support, operations, and leadership. Exclude expenses for capital outlay and debt service categories.
- (2) Divide the sum by the average daily membership (ADM) of the school.

District

- (1) Determine annual operating expenses for all district activities. Include In\$ite™ categories for instruction, instructional support, operations, and leadership. Exclude expenses for capital outlay and debt service categories.
- (2) Divide the sum by the average daily membership (ADM) of the district.

Note: Footnote on report card with statement "Prior year's financial data."

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

School district financial officers

Timeframe:

135-day data collection

Note: These data are for the year preceding the ratings year.

Annual Dropout Rate

DEFINITION:

General

This fact provides information on the annual rate of students who leave the school or district for any reason, other than death, prior to graduation or completion of a course of studies without transferring to another school, district, or institution, divided by the total number of students enrolled at the school (grades seven through twelve) (SDE guidelines).

Formula

School/district (grades seven through twelve only)

Calculated for each school/district with grades seven through twelve (overall).

- (1) Determine the number of students who dropped out of school during the previous school year (as per SDE guidelines).
- (2) Add the number of students who failed to return after the summer.
- (3) Divide the sum of step one and step two by the total number of students enrolled on the last day of school during the previous school year.

Note: Data will be two years behind.

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

School district

Timeframe:

Forty-fifth day of the following school year

Enrollment in School/District

DEFINITION:

General

Total number of students enrolled in grades Pre-K (3- and 4-year old programs) through 12 in the school/district on the forty-fifth day of school.

Formula

School

Determine the student count for the total number of students enrolled in grades Pre-K through 12 in the school on the forty-fifth day of school.

District

Determine the student count for the total number of students enrolled in the district in grades Pre-K through 12 on the forty-fifth day of school.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School district

Timeframe:

January–March

Enrollment in Career Technology Courses at Comprehensive High Schools

DEFINITION:

General

The total number of students that are enrolled in career technology (occupational) courses at the comprehensive high school. Each course must meet a minimum of 250 minutes weekly.

Formula

Determine the total number of students that are enrolled in career technology courses of study at the comprehensive high school on the forty-fifth day of school.

PROCEDURES:

Collected by:

Office of Career and Technology Education

Reported by:

School district, SASI, Precode data

Timeframe:

January–March

Enrollment at Career Technology Centers

DEFINITION:

General

The number of students enrolled in classes at the career technology center.

Formula

Determine total number of students enrolled at the career technology center on the forty-fifth day.

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

Career technology center directors

Timeframe: Forty-five-day data collection

Percentage of Expenditures Spent on Teacher Salaries

DEFINITION:

General

This fact provides information on the percentage of per student expenditures spent on teacher, instructional assistant, and substitute salaries.

Formula

School

- (1) Add teacher salaries, instructional assistant salaries, and substitute teacher pay for the year of the report card data (school).
- (2) Divide by the total dollars spent per students.

District

- (1) Add teacher salaries, instructional assistant salaries, and substitute teacher pay for the year of the report card data (district).
- (2) Divide by the total dollars spent per student.

Note: Footnote on report card with statement "Prior year's financial data."

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

School district financial officers

Timeframe:

135-day data collection

Note: Data will be one year behind.

Average Age of Facilities in the District*

DEFINITION:

General

The average age (years since construction) of all school facilities in the district.

Formula

- (1) Determine the age of each school facility in the district by weighting the age of each building and addition by the square footage.
- (2) Total the square feet years (since construction) for all school facilities in the district.
- (3) Divide the sum (step two) by the total square footage of school facilities in the district.

*Buildings used for the instruction of students.

PROCEDURES:

Collected by:

State Department of Education, Office of Facilities

Summer data collection

Students Eligible for State Gifted and Talented Services

DEFINITION:

General

This fact reports the percentage of students who meet the state guidelines for receiving gifted and talented services.

Formula

School

- (1) Determine the number of students (grades three through ten) at the school who qualify to receive gifted and talented services as per state-identified guidelines.
- (2) Divide the sum by the total number of students enrolled in grades three through ten at the school.

District

- (1) Determine the number of students (grades three through ten) in the district who qualify to receive gifted and talented services as per state-identified guidelines.
- (2) Divide the sum by the total number of students enrolled in grades three through ten in the district.

Precode reporting process

Timeframe:

January–March

Governance, School District

DEFINITION:

General

Reports the type of governance for the school district. Reported on district report card.

Formula

The following information is reported:

- board membership: number of trustees and election/selection method;
- fiscal authority: governing body with authority to levy and expend funds;
- average hours of training annually: number of hours provided to school board trustees divided by the total number of trustees and converted to a percentage.

PROCEDURES:

High School Modern and Classical Language Program Assessment

DEFINITION

General

Modern and classical language programs are rated on an eleven-point scale based on five criteria, the total of which determines the score:

- #1 the opportunity for all students to study a language other than English;
- #2 a curriculum that is standards-driven and performance-based;
- #3 instruction that supports the five goals of language learning: communication, cultures, connections, comparisons and communities;
- #4 standards-driven and performance-based assessment; and
- #5 participation in ongoing professional development in foreign language by all foreign language teachers.

Formula

<u>Criterion</u>	<u>Point Value</u>
#1	1
#2	3
#3	3
#4	3
#5	1

Interpretation of Total Scores

Unsatisfactory	0–3 pts.
Below Average	4–5 pts.
Average	6–7 pts.
Good	8–9 pts.
Excellent	10–11 pts.

Students Older Than Usual for Grade (Two or More Years)

DEFINITION:

General

This fact provides information on the percentage of students who are two or more years over age for grade.

Formula

- (1) Determine the total number of students enrolled at forty-fifth day who are two or more years older than the typical age of pupils at student's current grade assignment (September 1 as reference date for students born in 1991 or later; November 1 as the reference date for students born prior to 1991).
- (2) Divide the sum by the total number of students enrolled at the school on the forty-fifth day.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts
Precode testing file

Timeframe: January–March

On-time Graduation Rate

DEFINITION:

General

This indicator reports the percentage of original ninth-grade students who earn standard high school diplomas who graduate in four years or less (i.e., on time). Include data from students who meet the state diploma requirements as a result of attending summer school following their senior year in the calculation of the on-time graduation rate.

Formula

School/District

- (1) Student Count
Ninth-grade student count for school year beginning four years before year of graduation.
(Count is taken from ninth-grade master classification list.) _____
Subtract ninth-grade repeaters - _____
Subtract all students who transferred out of school/district - _____
(Adjustment made only for documental transfers to state diploma-granting program.)
Add all students who transferred into school/district + _____
Total number of students = _____
- (2) Diplomas Issued
Total number of diplomas = _____
- (3) On-time Graduation Rate
Divide (step two by step one), convert to percentage _____

NOTE: On-time graduation rates published on the S.C. school and district report cards may be higher than the actual rates because of incomplete data on students who are no longer enrolled in the school or district.

PROCEDURES:

Collected by: State Department of Education, Office of Research

Reported by: School districts

Timeframe : End of school year

Addendum: After summer school

Participation in Co-Curricular Career Technology Organizations

DEFINITION:

General

This fact reports the percentage of students attending career technology centers or comprehensive high schools that participate in career technology co-curricular organizations.

Formula

Career Technology Centers

- (1) Determine the unduplicated number of students at the career technology center that participate in school-related clubs/organizations (VICA, FBLA, FHA, HERO, DECA, HOSA, TSA, FFA).
- (2) Divide the sum by the total number of students enrolled at the school on the forty-fifth day of school.

Comprehensive High School

- (1) Determine the unduplicated number of students at the comprehensive high school that participate in school-related clubs/organizations (VICA, FBLA, FHA, HERO, DECA, HOSA, TSA, FFA).
- (2) Divide the sum by the total number of students enrolled in career technology courses on the forty-fifth day of school.

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

School district career technology coordinators, directors

Timeframe:

End of school year

Parents Attending Conferences

DEFINITION:

General

The percentage of students in the school whose parents/guardians participate in or attended an individual parent conference and/or an academic plan conference. Conferences include face-to-face, telephone, and two-way e-mail conferences.

Formula

- (1) Count the number of students in the school whose parents/guardians attended at least one individual parent conference (unduplicated count) or an academic plan conference during the school year.
- (2) Divide the total number of students in the school whose parents/guardians attended at least one individual parent conference or an academic plan conference at the school (step one) by the total number of students enrolled at the school on the 135th day of school.

Timeframe:

End of school year

Percentage of Student Records Matched

DEFINITION:

General

This fact provides information on the degree to which student PACT test records were matched longitudinally from the previous year to the current year. The matched student test records are used for the calculation of the school and district Improvement rating.

Formula

Calculated for each school in which PACT-tested grade levels are housed and for each school district.

- (1) Determine the number of students enrolled in the same school (or district) on the 45th day of school and on the first day of testing for whom the current-year PACT test data are successfully matched with the individual student test data from the previous school year.
- (2) Divide the total from step one by the total number of students enrolled in the same school (or district) on the 45th day of school and on the first day of testing for whom current-year PACT test data are available for matching. In the case of grade 3, in which only those repeating third grade may reasonably be expected to have pretest information, the pool of data available for matching a third grade posttest will include only those students identified as repeating grade 3 in the current year.

PROCEDURES:

Collected by:

State Department of Education, Office of Assessment and Office of Research

School district

Timeframe:

Summer of current school year

Percentage of Portable Classrooms in the District

DEFINITION:

General

This fact reports the number of portable (relocatable units)* classrooms (shown as a percentage of the total classrooms).

Formula

- (1) Determine the number of classrooms classified as portable structures (relocatable units)* in the district during the school year for which data is being reported.
- (2) Divide by the total number of classrooms.

*Designation given in *Statewide Summary Capital Needs, 1998–99*, State Department of Education, Office of Facilities

Reported by:

School districts

Timeframe:

End of school year

Prime Instructional Time

DEFINITION:

General

This indicator provides information on the percentage of instructional time available when both teachers and students are present.

Formula

(1) Calculate teacher attendance rate for Prime Instructional Time calculation (TAPRIME):

$TAPRIME = 100 * ((TOTDAYS * (180/190)) - TCHABS) / (TOTDAYS * (180/190))$, where

TOTDAYS= total days of employment and
TCHABS=(days of long-term absences + days of short-term absences + days of absence due to special circumstances + days of absence due to professional development on days students attend school) – NOSCHOOL, where

NOSCHOOL=days of absence on days of employment that are not days students are expected to attend school

(2) Calculate prime instructional time (PRIME):

$PRIME = (STUATTEND + TAPRIME) - 100$, where

STUATTEND= student attendance rate expressed as a percentage.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts
SASI pupil accounting system
End-of-year attendance survey

Timeframe:

End of school year

Principal's or Director's Years at School or Center

DEFINITION:

General

This fact reports the length of time that the principal or director has been assigned to the school or center as a principal or director.

Formula

Total the principal's or director's actual length of time at the school or center:
Ninety days or less = .5 year; more than ninety days = 1 year

PROCEDURES:

Collected by:

State Department of Education, Professional Certification System

Reported by:

District superintendent

Timeframe:

End of school year

Professional Development Days, Teachers

DEFINITION:

General

This indicator reports the average number of professional development days per teacher.

Formula

- (1) Multiply the number of professional staff paid on the teacher salary schedule by the five statutory days for professional development.
- (2) Add the product of the number of additional days (in which each day must consist of at least 6 hours of instruction) for which the district or school has paid a stipend, or registration fee, or the teacher has permission from school or district administrator for professional development that meets the state-adopted standards (conference attendance does not meet the standards) by the number of teachers participating. Until the teacher contract year reaches 195 days, this formula may include activities occurring on instructional days.
- (3) Divide the sum of step one and step two by the total number of professional staff in item one.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe:

End of school year

Student-Teacher Ratio for Core Subjects (Each Class)

DEFINITION:

General

This fact reports the average student-teacher ratio for English language arts, mathematics, science, and social studies classes.

Formula

Grades K–5

- (1) Determine the number of students enrolled at the school (excluding students enrolled in self-contained special education classes) on the forty-fifth day of school.
- (2) Determine the total number of teachers in the school (excluding counselors, librarians, administrators, specialists, and teachers of art, music, physical education, or special education).
- (3) Determine the number of self-contained students with disabilities enrolled in the school on forty-fifth day.
- (4) Determine the total number of teachers of self-contained special education classes at the school.
- (5) Find the total number of students: #1 + #3.
- (6) Find the student-teacher ratio in “regular” core classes: #1 / #2.
- (7) Find the student-teacher ratio in self-contained classes for the disabled: #3 / #4.
- (8) Find the sum of the student-teacher ratios, weighted by the proportion of students: $[(\#1 / \#5) * \#6] + [(\#3 / \#5) * \#7]$.

Grades 6–12

- (1) Determine the unduplicated number of students (excluding students enrolled in self-contained special education classes) enrolled in math, English language arts, science, and social studies classes on the forty-fifth day of school.
- (2) Determine the number of FTE classroom teachers of English language arts, math, science, and social studies at the school.
- (3) Determine the number of self-contained students with disabilities enrolled in the school

on forty-fifth day.

Student-Teacher Ratio for Core Subjects (Each Class) Cont.

- (4) Determine the total number of teachers of self-contained special education classes at the school.
- (5) Find the total number of students: #1 + #3.
- (6) Find the student-teacher ratio in “regular” core classes: #1 / #2.
- (7) Find the student-teacher ratio in self-contained classes for the disabled: #3 / #4.
- (8) Find the sum of the student teacher ratios, weighted by the proportion of students: $[(\#1 / \#5) * \#6] + [(\#3 / \#5) * \#7]$.

District

- (1) Determine the number of students enrolled in kindergarten through grade five in the district on forty-fifth day (excluding students enrolled in self-contained special education classes).
- (2) Determine the number of students in grades six through twelve (excluding students enrolled in self-contained special education classes) enrolled in math, English language arts, science, and social studies classes in district on forty-fifth day.
- (3) Determine the total number of teachers in the district (excluding counselors, librarians, administrators, specialists, and teachers of art, music, physical education, or special education).
- (4) Determine the number of self-contained students with disabilities enrolled in the school district on forty-fifth day.
- (5) Determine the total number of teachers of self-contained special education classes at the district.
- (6) Find the total number of students in the district: #1 + #2 + #4.
- (7) Find the student:teacher ratio in “regular” core classes: $(\#1 + \#2) / \#3$.
- (8) Find the student:teacher ration in self-contained classes for the disabled: #4 / #5.
- (9) Find the sum of the student:teacher ratios, weighted by the proportions of students: $\{[(\#1 + \#2) / \#6] * \#7\} + [(\#4 / \#6) * \#8]$.

Timeframe

January–March

Student Retention

DEFINITION:

General

This indicator reports the percentage of students required to repeat grade levels because of poor grades, low test scores, and/or teacher judgment in the last completed school year.

Formula

Grades K–8

School

- (1) Determine the total number of students classified at the same grade level for two consecutive years (kindergarten through eighth grade).
- (2) Divide the sum by the total student enrollment (kindergarten through eighth grade) at the school on the forty-fifth day.

District

- (1) Determine the total number of students classified at the same grade level for consecutive years (kindergarten through eighth grade).
- (2) Divide the sum by the total student enrollment (kindergarten through eighth grade) at the school on the forty-fifth day.

Grades 9–12

School

- (1) Determine the total number of students enrolled on forty-fifth day not earning enough units to be classified at the next grade level in the school.
- (2) Divide the sum by the number of students enrolled in the school on the forty-fifth day.

District

- (1) Determine the total number of students not earning enough units to be classified at the next grade level in the district.
- (2) Divide the sum by the number of students enrolled in the district on the forty-fifth day.

Average Administrative Salary Comparisons

DEFINITION:

General

This fact reports the average salary of administrators in the district. The average district salary is compared to national and state average salary for these educators.

Formula

- (1) Determine the aggregate salaries of administrators in the district (paid on administrative schedule).
- (2) Divide the sum by the total number of administrators in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

School districts

Timeframe:

End of school year

Number of Magnet Schools in the District

DEFINITION:

General

This fact reports the total number of magnet schools in the district accredited through the State Department of Education, Office of Organizational Development.

Formula

Determine the number of magnet schools in the district accredited through the State Department of Education, Office of Organizational Development.

PROCEDURES:

Collected by:

State Department of Education, Office of School Quality

Reported by:

District pupil accounting system, SASI

Timeframe:

End of school year

District Superintendent's Years in Office

DEFINITION:

General

The number of years that the current district superintendent has held that position.

Formula

Determine the length of time the superintendent has been in office. The total time should be reported in years.

Ninety days or less = .5 year; more than ninety days = 1 year.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

Timeframe:

End of school year

Out-of-School Suspensions or Expulsions for Violent and/or Criminal Offenses

DEFINITION:

General

This fact provides information on the percentage of out-of-school suspensions and expulsions for physical violence and/or criminal offenses.

Formula

School

- (1) Determine the unduplicated count of students dismissed from school (out-of-school suspensions and expulsions) for incidents occurring on school grounds, on school transportation, or at school-sponsored events, to include: 1. Aggravated Assault; 2. Simple Assault; 3. Intimidation; 4. Drug Violations; 5. Larceny/Theft; 6. Liquor Law Violations; 7. Disturbing Schools (bomb threats, false fire alarms, disorderly conduct); 8. Vandalism; 9. Weapons Possessions; 10. Sex Offenses; 11. Arson; 12. Robbery; 13. Burglary/Breaking and Entering; 14. Vehicle Theft; 15. Homicide; 16. Other Criminal Offenses.
- (2) Divide the count from step one above by the 45-day ADM and express as a percentage.

District

- (1) Determine the unduplicated count of students dismissed from school (out-of-school suspensions and expulsions) for incidents occurring on school grounds, on school transportation, or at school-sponsored events, to include: 1. Aggravated Assault; 2. Simple Assault; 3. Intimidation; 4. Drug Violations; 5. Larceny/Theft; 6. Liquor Law Violations; 7. Disturbing Schools (bomb threats, false fire alarms, disorderly conduct); 8. Vandalism; 9. Weapons Possessions; 10. Sex Offenses; 11. Arson; 12. Robbery; 13. Burglary/Breaking and Entering; 14. Vehicle Theft; 15. Homicide; 16. Other Criminal Offenses.
- (2) Divide the count from step one above by the 45-day ADM and express as a percentage.

Teachers Returning from the Previous School Year

DEFINITION:

General

This indicator provides information on the percentage of classroom teachers returning to the school/district from the previous school year for a three-year period.

Formula

School (Note: Not calculated for schools that have been in operation for less than four years.)

- (1) Determine total number of teachers assigned to school in year previous to ratings performance year. If school reorganization in the current school year involves the reduction of one or more grade levels compared to the previous year, then the number of teachers assigned to the school in the previous year should be adjusted to reflect the same grade levels as in the current year.
- (2) Determine number of teachers who returned in the ratings year.
- (3) Divide step two by step one.
- (4) Average the result yielded in step three for the preceding three-year period.

District

Total number of certified teachers assigned to each school in the district during the school year prior to report card distribution.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts, Professional Certification System

Timeframe:

End of school year

Teachers on Emergency or Provisional Certificates

DEFINITION:

General

This indicator reports the percentage of teachers who do not have full teaching certification.

Formula

- (1) Determine the total number of teachers.
- (2) Determine the number of teachers with emergency or provisional certificates.
- (3) Divide step two by step one and convert to a percentage.

PROCEDURES:

Collected by:

State Department of Education, Office of Teacher Certification

Reported by:

School district

Timeframe:

End of school year

Teacher Vacancies Unfilled for More Than Nine Weeks

DEFINITION:

General

This indicator reports the percentage of teaching positions that remain unfilled for more than nine weeks.

Formula

- (1) Determine the number of classroom teacher positions, excluding media specialists and guidance counselors, that remained unfilled by certified teachers under contract for more than nine weeks.
- (2) Divide the total by the number of classroom teacher positions, excluding media specialists and guidance counselors, in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School district

Timeframe:

End of school year

Students in Work-Based Experiences

DEFINITION:

General

This fact reports the percentage of students involved with in-depth learning experiences at a work site providing students with work-related knowledge and skills (youth apprenticeships, registered apprenticeships, cooperative education, mentoring, shadowing, internships, and service learning).

Formula

Career Technology Centers

- (1) Determine the total number of students enrolled in grades 9 through 12 participating in structured experiences with an outside agency or business (types listed in general definition).
- (2) Divide the total (step one) by the total number of students enrolled in grades 9 through 12 at the center on the forty-fifth day of school.

Comprehensive High Schools

- (1) Determine the total number of students enrolled in grades 9 through 12 that participate in structured experiences with an outside agency or business.
- (2) Divide the total (step one) by the total number of students enrolled in grades 9 through 12 at the high school.

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

School districts

Timeframe:
