## Science Facts

Ocean life ranges in size from the smallest living things, microbes, to the largest animals that have lived on Earth, blue whales.

## Weekly Writing Prompt #5

### Try This!

Draw a picture of the biggest ocean animal you can think of. Now draw a picture of a very tiny ocean animal. What things are different about these two animals? What things are the same?

Draw your big and small animals here:

Things that are different:

Things that are the same:
