Dear Ken:

I am enclosing a copy of a memorandum given to me by Billy Webster concerning a change in the Executive Order to expand the Advisory Boards of the Wildlife Department so that a commission member can serve as vice chairman in the event of the absence of the commission member serving as chairman. Apparently this has been a problem due to some absences at meetings.

Please let me know if there is any problem with this.

Very truly yours,

RE: Advisory Boards - Amendment of Executive Orders

DATE: July 3, 1986

In order to create the position of Vice Chairman of any Advisory Board, the Governor can simply amend Executive Order No. 80-34 and No. 83-12 to increase the composition of the Boards from nine members to ten members in the cases of the Wildlife and Freshwater Fisheries, Marine Resources and Law Enforcement and Boating Boards and from twelve members to thirteen members in the case of the Magazine Advisory Council. I suggest the following language be inserted on page 2 of the Executive Order No. 80-34, paragraph 3:

"Each of the respective Advisory Boards shall be composed of 10 members. Two members shall be members of the S. C. Wildlife and Marine Resources Commission to be appointed by the Chairman of the Commission which members shall serve as Chairman and Vice-Chairman of the particular Advisory Board."

Following that change the Executive Order needs to be further changed beginning with the sentence "One of the intended purposes....". That language can be deleted through the end of the sentence which begins "The terms of each....". There are no further changes necessary to Executive Order No. 80-34.

Executive Order No. 83-12 should be changed so that the first full paragraph on page 2 should read "The S. C. Magazine Advisory Council shall be composed of 13 members. The S. C. Wildlife and Marine Resources Commission Chairman or his designee shall serve as Chairman. The Chairman of the Commission shall also appoint a member of the Commission to serve as Vice Chairman" the remaining part of that paragraph may be utilized. There are no further changes necessary to Executive Order No. 83-12.
