ACCOUNTABILITY OF FUNDS	<p>These annualizations are scattered throughout the agency’s budget and touch upon each of the 12 defined objectives.</p>
--------------------------------	--

What specific agency objective, as outlined in the agency’s accountability report, does this funding request support? How would this request advance that objective? How would the use of these funds be evaluated?

RECIPIENTS OF FUNDS	<p>This package is designed to continue providing current services to beneficiaries eligible for Medicaid under existing criteria and the funds from this decision package would go to Medicaid providers.</p>
----------------------------	--

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST	<p>The following items were taken into consideration when developing our annualization request:</p> <ol style="list-style-type: none"> 1. Pharmacy inflation 2. Increased utilization of high cost pharmaceuticals 3. Change in managed care capitation rates 4. Federally mandated rate adjustments 5. Increase in Medicare premiums 6. Increased utilization of existing services 7. Enrollment <p>This would keep the Department’s reserves at or above the 3% target during FY 2018-19 and is anticipated to position the Department to remain above that threshold in FY 2019-20 as well.</p> <p>If this decision package is not funded, the agency will make necessary adjustments to rates and services in order to fund the recurring expenditures associated with our maintenance of effort.</p>
---------------------------------	--

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

ACCOUNTABILITY OF FUNDS	<p>Expenditures for CHIP beneficiaries are scattered throughout the agency’s budget and touch upon each of the 12 defined objectives.</p>
--------------------------------	---

What specific agency objective, as outlined in the agency’s accountability report, does this funding request support? How would this request advance that objective? How would the use of these funds be evaluated?

RECIPIENTS OF FUNDS	<p>This package is designed to support current services for the CHIP population and the funds from this decision package would go to Medicaid providers.</p>
----------------------------	--

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST	<p>CHIP is currently 100% federal match. Historically, it has been at 80% federal match. Authorization for CHIP funding ends September 30, 2017 and while it appears it will be extended, it may be at a federal match rate lower than 100%. The \$52M assumes the federal match drops from 100% to our typical 70%. If match rate drops to 80%, the state would need \$35M.</p> <p>If CHIP is not reauthorized at the current 100% federal match rate and this decision package is not funded at the amount necessary to cover the general fund gap, the agency will make necessary adjustments to rates and services in order to fund the recurring expenditures associated with CHIP beneficiaries through federal fiscal year 2019. The agency will maintain the CHIP program as required through SFY 2019 but will make necessary recommendations for SFY 2020 based on relevant Congressional action.</p>

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

ACCOUNTABILITY OF FUNDS	<p>This action would support Goal 1 (Provide better health outcomes for Medicaid beneficiaries) by expanding the provider network.</p>
--------------------------------	--

What specific agency objective, as outlined in the agency's accountability report, does this funding request support? How would this request advance that objective? How would the use of these funds be evaluated?

RECIPIENTS OF FUNDS	<p>This package is designed to continue providing ABA therapy to beneficiaries and to assist in expanding provider capacity to serve those beneficiaries.</p>
----------------------------	---

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST	<p>The autism decision package proposes bundling of ABA therapy codes and eliminating the RBT II therapy level to be in line with BACB guidelines as well as the CPT code manual. This decision package also includes an increase in the reimbursement for ABA therapy.</p> <p>The cost of this decision package factors in an increase in utilization of services based on higher rates expanding the provider network.</p>

ACCOUNTABILITY OF FUNDS	<p>This action would support Goal 1 (Provide better health outcomes for Medicaid beneficiaries).</p>
--------------------------------	--

What specific agency objective, as outlined in the agency’s accountability report, does this funding request support? How would this request advance that objective? How would the use of these funds be evaluated?

RECIPIENTS OF FUNDS	<p>The primary recipient of funds would be private providers that offer children and families Early Intervention (EI), family training, and service coordination for those participating in the BabyNet program, South Carolina’s Individuals with Disabilities Education Act (IDEA), Part C program.</p>
----------------------------	---

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST	<p>This request is to transfer General Funds in an amount equal to the estimated FY 2017-18 expenditures made by the South Carolina Department of Disabilities and Special Needs (DDSN) on service coordination for BabyNet children and families to the South Carolina Department of Health and Human Services (SCDHHS).</p> <p>Pursuant to proviso 117.135, the Executive Budget Office asked BabyNet agencies for their actual and anticipated expenditures. DDSN responded with (General Funds):</p> <table border="0"> <tr> <td>FY 2015-16</td> <td>\$ 8,955,673</td> </tr> <tr> <td>FY 2017-18</td> <td>\$10,886,996</td> </tr> <tr> <td>FY 2018-19</td> <td>\$11,402,071</td> </tr> </table> <p>The number of BabyNet participants is at its highest level ever following the transfer of the program to SCDHHS, over 5,000 children for the first time in the program’s history. The trend of service coordination expenditures will likely increase over time. SCDHHS is requesting a permanent funds transfer at current spending levels, and will assume responsibility for requesting funds on the program’s behalf in future years.</p> <p>The purpose of this transfer is to meet fiscal authority requirements and recommendations including those contained in 34 CFR 303, recommendations 1 and 2 of the August 2011 LAC Audit of the program, financial coordination requirements originally placed on SCDHEC by §44-7-2250 of the SC Code of Laws, and others by consolidating these appropriations under a single cabinet agency accountable to the Governor.</p>	FY 2015-16	\$ 8,955,673	FY 2017-18	\$10,886,996	FY 2018-19	\$11,402,071

RECIPIENTS OF FUNDS	<p>The MMIS replacement project is operating under a Centers for Medicare and Medicaid Services (CMS) approved Advance Planning Document. Those procurements already issued have been approved by CMS and SFAA and have also gone through a public comment stage. The remaining procurements will go through the same process.</p> <p>Different components of this project are eligible for various match rates: 90/10, 75/25, and 50/50. The majority of this request would be funded 90% Federal/10% State, with a federal share of \$72,413,152.</p>
----------------------------	---

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria

JUSTIFICATION OF REQUEST	<p>The Department operates using a Medicaid Management Information System (MMIS) that is decades old and not capable of meeting the program’s ongoing needs. MMIS and its component systems are critical to a number of key operational functions such as enrolling providers, managing and reporting on expenditures, and processing claims.</p> <p>The federal government, through CMS, has directed the Department to develop a plan for the replacement of this system. After a radical overhaul of this plan in 2015 and a thorough vetting by Gartner, CMS approved the Department’s new MMIS strategy in 2016.</p> <p>The MMIS project is a multi-year effort, with plans and individual procurements subjected to multiple rounds of state and federal review and approval. The overall objectives of the MMIS project are:</p> <ol style="list-style-type: none"> 1. To maintain reliability in claims payment throughout the transition to the new system, 2. To replace a number of contracts that are currently operating on an emergency and/or sole source basis with competitively bid replacements, 3. To improve the MMIS system’s capabilities and reduce the risk of a systems failure, and 4. To transition to the CMS-required modular approach that allows South Carolina to make the most of available technologies, while setting a baseline that will make future MMIS replacements incremental and lower risk. <p>Under the approved MMIS plan, the Department anticipates multiple MMIS components will be in the “Design, Development, and Implementation” stage during FY 2018 and will run through FY 2020.</p> <p>Business Intelligence Services, Pharmacy Benefit Management and Third-Party Liability have been awarded and implementation will begin this fiscal year.</p>

LONG-TERM PLANNING AND SUSTAINABILITY

The MMIS replacement project is a multi-year project expected to run through FY 2020. The non-recurring request is to help support the transition and implementation costs. The costs of operating the existing MMIS system are already being supported in the agency's budget without an incremental request. This "legacy" system would be decommissioned shortly after the launch of the replacement system, making the legacy system's budget available to fund the operations of the new system.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. Does this non-recurring appropriation request create an annualization or need for recurring funds?

SUMMARY & EXPLANATION	<p>Although this proviso directs a variety of expenditures, it does not provide or specifically identify a source of funding for this work. The Executive Budget Office requested agencies to provide a cost savings and General Fund reduction contingency plan. The proposed revisions to this proviso would contribute a portion of the required savings.</p>

FISCAL IMPACT	<p>Previously, programs authorized by this proviso were responsible for roughly \$50 million of the gap between the Department’s recurring revenues and expenditures. It is not sustainable for the providers and entities that receive allocations through this proviso to become reliant on 100% state-funded allocations at that level. For FY 2018-19, the Department is proposing a \$1.2 million reduction that would be designed to continue the funding step down but minimize the impact on the providers who have the most constrained access to other revenue sources (free clinics and 301s).</p>
----------------------	---

Provide estimates of any fiscal impacts associated with this proviso, whether for state, federal, or other funds. Explain the method of calculation.

PROPOSED PROVISO TEXT	<p>33.20. (DHHS: Medicaid Accountability and Quality Improvement Initiative) From the funds appropriated and authorized to the Department of Health and Human Services, the department is authorized to implement the following accountability and quality improvement initiatives:</p> <p>(A) Healthy Outcomes Initiative - The Department of Health and Human Services may tie Disproportionate Share Hospital (DSH) payments to participation in the Healthy Outcomes Initiative and may expand the program as DSH funding is available.</p> <p>(B) To improve community health, the department may explore various health outreach, education, patient wellness and incentive programs. The department may pilot health interventions targeting diabetes, smoking cessation, weight management, heart disease, and other health conditions. These programs may be expanded as their potential to improve health and lower costs are identified by the department.</p> <p>(C) Rural Hospital DSH Payment - Medicaid-designated rural hospitals in South Carolina may be eligible to receive up to one hundred percent of costs associated with uncompensated care as part of the DSH program. Funds shall be allocated from the existing DSH program. To be eligible, rural hospitals must participate in reporting and quality guidelines published by the department and outlined in the Healthy Outcomes Initiative. In addition to the requirements placed upon them by the department, rural hospitals must actively participate with the department and any other stakeholder identified by the department, in efforts to design an alternative health care delivery system in these regions.</p> <p>(D) Primary Care Safety Net - The department shall implement a methodology to reimburse safety net providers participating in a hospital Healthy Outcomes Initiative program to provide primary care, behavioral health services, and pharmacy services for chronically ill individuals that do not have access to affordable insurance. Qualifying safety net providers are approved, licensed, and duly organized Federally Qualified Health Centers (FQHCs and other entities receiving funding under Section 330 of the Public Health Services Act), Rural Health Clinics (RHCs), local alcohol and drug abuse authorities established by Act 301 of 1973, Free Clinics, other clinics serving the uninsured, and Welvista. The department shall formulate a methodology and allocate \$3,600,000 \$3,200,000 for innovative care strategies for qualifying safety net providers. The department shall formulate a separate methodology and allocate \$5,000,000</p>

~~\$4,400,000~~ of funding to FQHCs, at least ~~\$1,500,000~~ **\$1,400,000** of funding for Free Clinics, and ~~\$1,500,000~~ **\$1,400,000** of funding for local alcohol and drug abuse authorities created under Act 301 of 1973. The department may continue to develop and implement a process for obtaining encounter-level data that may be used to assess the cost and impact of services provided through this proviso. Any newly established Community Health Center/FQHC shall receive an amount equivalent to the average disbursement made to all centers/FQHCs.

(E) The department shall allocate funds to be used for obesity education for patients, reimbursement payments for providers, and continuing education for all providers through partnerships with the Department.

(F) To be eligible for funds in this proviso, providers must provide the department with patient, service and financial data to assist in the operation and ongoing evaluation of both the initiatives resulting from this proviso, and other price, quality, transparency and DSH accountability efforts currently underway or initiated by the department. The Revenue and Fiscal Affairs Office shall provide the department with any information required by the department in order to implement this proviso in accordance with state law and regulations.

(G) The department may pilot a behavioral health intervention program for wrap-around care to vulnerable mental health patients who frequent the emergency room in hotspots and underserved areas within the state. The pilot program must provide reports detailing progress on the target population and health outcomes achieved. These programs may be expanded as their potential to improve health and lower costs are identified by the department.

(H) The department shall provide funding not to exceed \$1,500,000 to establish a pilot program to expand medication-assisted treatment (MAT) services for prescription opioid dependency and addiction, including such medical and behavioral health services necessary to support MAT interventions. The department shall consider evidence-based interventions, recommendations made in the December 2014 State Plan to Prevent and Treat Prescription Drug Abuse, and scalability in the design of the pilot program. In consultation with the Department of Alcohol and Drug Abuse Services and the MUSC Hospital Authority, the department may contract with such providers that are necessary to ensure impact in a geographical area of critical need.

(I) The department shall publish quarterly reports on the agency's website regarding the department's progress in meeting the goals established by this provision.

FISCAL IMPACT	<p>DHHS estimates the cost associated with this proviso to be approximately \$10 million annually. This cost would be for providers to hire Registered Nurses to meet the requirements of the proviso. The cost for RNs will be their salary (\$30/hr.) plus 30% fringe. We also assume the providers will add a 10% profit margin to the cost of hiring the RNs. Based on our current population using PERs which is roughly 5,700 people, we estimate 114 RNs will need to be hired. The cost calculation is as follows (114 RNs x \$30 per hr x 40hrs. x 52) for a cost of \$7,113,600 plus \$2,134,080 in fringes for total salary cost of \$9,247,680 plus an additional profit margin charge of \$924,768.</p> <p>Passage of this proviso may limit participant choices of providers by limiting the current providers' ability to do business if they do not have the nurse triage capability. DHHS has reviewed approximately 22 states with similar waivers and found none that that currently include nurse triage as part of the Personal Emergency Response Service.</p>

PROPOSED PROVISO TEXT	<p>33.25. — (DHHS: Personal Emergency Response System) With funds appropriated and authorized to the Department of Health and Human Services for Fiscal Year 2017-18, the department shall develop one or more Requests for Proposals, to provide for Personal Emergency Response Systems (PERS) to be issued to Medicaid recipients pursuant to the department's Medicaid Home and Community based waiver. The PERS devices must include in addition to emergency response services, unlimited twenty four hour, seven-day a week live phone contact with experienced registered nurses for triage services. A PERS nurse triage call center must be accredited and must be separate from the PERS emergency response call center. The PERS device must have a wireless radio transmitter and a console that is cellular and does not require a traditional land line. A PERS device that includes nurse triage services also must comply with the requirements of Federal Communications Commission rules, 47 C.F.R. Part 68; and be approved by the Underwriters Laboratory or Equipment Testing Laboratories as a health care signaling product. The Department of Health and Human Services shall apply for any waiver necessary under the department's Medicaid Home and Community based waiver to implement these provisions.</p>

**FORM E – AGENCY COST SAVINGS AND GENERAL FUND REDUCTION
CONTINGENCY PLAN**

TITLE	Agency Cost Savings and General Fund Reduction Contingency Plan
--------------	---

AMOUNT	<p>\$39,522,440</p> <p><i>What is the General Fund 3% reduction amount (minimum based on the FY 2017-18 recurring appropriations)? This amount should correspond to the reduction spreadsheet prepared by EBO.</i></p>
---------------	---

ASSOCIATED FTE REDUCTIONS	<p>None – cuts would be made to provider rates and coverage.</p>
----------------------------------	--

How many FTEs would be reduced in association with this General Fund reduction?

PROGRAM/ACTIVITY IMPACT	<p>For modeling purposes, the Department has identified six components of an overall package that could reduce General Fund expenditures by 3%:</p> <ul style="list-style-type: none"> • Make reductions to payments allocated through the Medicaid Accountability and Quality Improvement Initiative proviso, beyond those described in Form D (\$7,000,000). • Make reductions to payments allocated through the Rural Health Initiative proviso 33.23 (\$2,500,000). • Cut allocations for the core of the South Carolina Telemedicine Network by 33% made through section (B) of Proviso 117.135 (\$3,000,000). • Reduce enhanced payments for primary care physicians by 50% (\$7,000,000). • Further normalize hospital specific per discharge rates and hospital specific outpatient hospital multipliers to 55th percentile (\$3,000,000). • Impose provider rate cuts in an amount equivalent to a 1.2% across-the-board cut (\$17,022,440).
--------------------------------	--

What programs or activities are supported by the General Funds identified?

AGENCY NAME:	Department of Health and Human Services		
AGENCY CODE:	J020	SECTION:	33

SUMMARY

Cuts described in the first bullet would reduce funding for providers such as free clinics, FQHCs, and the 301 centers. Payments made through this proviso are not connected to individual beneficiaries or discrete services.

Cuts described in the second bullet would reduce funding for medically underserved communities throughout the state. Payments made through this proviso are not connected to individual beneficiaries or discrete services.

The telemedicine reductions would reduce the amount of funding available to fund grants and/or infrastructure development associated with the promotion of telehealth services.

South Carolina was one of relatively few states to largely continue making enhanced payments to primary care physicians after federal support for this ended in 2014. Reducing these payments would be consistent with actions taken by many other states, but would also have an adverse impact on network adequacy.

The agency imposed two rounds of rate normalization for hospitals in FY15 and FY16 in an effort to discontinue the payment of inefficiencies incurred by certain hospitals. The further normalization of hospital specific per discharge rates and hospital specific outpatient hospital multipliers would continue that effort.

It is neither practical nor desirable to impose across-the-board cuts on all classes of Medicaid providers, since the current rates for those various classes translate into different percentages of external benchmarks, such as the Medicare fee schedule. Some providers can absorb a higher percentage reduction than others. There are also operational questions to consider, since significant rate changes require amendments to the State Plan for Medical Assistance; these amendments must receive federal approval. In the event that a 3% reduction is required, the final decisions about how to apply them would be made at that point and would factor in the considerations above, along with the proposed effective date. The 1.2% figure is provided to give a sense of what the cuts would need to approximate on a system-wide basis, understanding that the Department would propose not to cut some providers at all and others by 3-4% in order to hit the overall target.

Please provide a detailed summary of service delivery impact caused by a reduction in General Fund Appropriations and provide the method of calculation for anticipated reductions. Agencies should prioritize reduction in expenditures that have the least significant impact on service delivery.
