Index

Here is an index to all House bills and legislative issues featured in the first 11 issues of the *Legislative Update*, beginning with the January 12, 1988 issue. This index is arranged by subject, bill number and author.

It is important to note that this index is only for information that appeared in Issues 1-11 of the 1988 *Legislative Update*. It is not an index of all issues or all bills considered during this session of the General Assembly. A cumulative index of all subjects addressed in the *Legislative Update* for the 1988 session will be mailed to legislators this summer.

In addition to indexing the short summaries of bills introduced, research reports are included in this listing. Their references are printed in upper case letters in the subject and bill indexes .
