

Protect Yourself Against Hepatitis A

Hepatitis A is a virus that causes serious liver infection and can easily spread from person to person. This virus can make you very sick and even lead to hospitalization.

What are the symptoms?

Fever, fatigue, loss of appetite, jaundice (skin or eyes look yellow), nausea, vomiting, stomach pain, dark urine.

How can I protect myself?

The Hepatitis A vaccine is the best protection.

Why is it important to get vaccinated now?

Hepatitis A outbreaks are occurring across the country. DHEC is working to prevent a hepatitis A outbreak in our state.

DHEC is partnering with the SC Department of Corrections to provide a no-cost Hepatitis A vaccine for you.
