Classification Pending	139 (1%)	29 (3%)	168 (1%)

<sup>1</sup> Excludes Lifers, Death-Row & YOAs

<sup>2</sup> Include inmates to be released to Community Supervision under Truth-in-Sentencing, excludes Lifers, Death-Row and YOAs

<sup>3</sup> Based on inmate self-reported information at intake

<sup>4</sup> Substance Abuse Subtle Screening Inventory (SASSI) stopped being used in January 1997. Currently Texas Christian University Drug Dependency Screen (TCUDDS) is used.

<sup>5</sup> To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence determined MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

NOTE: Percentages may not add up due to rounding.
