South Carolina State Treasurer's Investment Portfolios Investment Policy Statement

Effective: April 1, 2023

Revised: March 2023

MISSION

The South Carolina Office of the State Treasurer is responsible for the administration, management, and investment of the State's funds. The investment of Government Investment funds is managed through multiple investment portfolios to preserve capital, while maintaining liquidity and obtaining the best relative rates of return.

The mission of the Investment Management Division within the State Treasurer's Office (STO) is to safely and effectively manage the funds for the State's agencies, local governments, and political subdivisions (Government Investment Portfolios). The office manages multiple U.S fixed income portfolios.

PURPOSE OF THIS INVESTMENT POLICY STATEMENT (IPS)

This IPS defines the investment objectives of the STO Government Investment Portfolios and establishes policies and procedures so that investment objectives can be met in a prudent manner. This IPS is intended to:

- Articulate the objectives of the STO Government Investment Portfolios and set forth in writing the expectations, objectives, and guidelines for the investment of the STO Investment Portfolios' assets;
- Formulate policies and guidelines regarding permitted investments, benchmarks, and asset allocation strategies;
- Identify roles of specific entities having fiduciary responsibility to the STO;
- Establish guidelines, consistent with Performance Standards defined herein, for monitoring investment risk and evaluating investment performance.

All assets in the STO Government Investment Portfolios must be invested in a manner that meets the requirements of this IPS. In conjunction with this IPS, the STO has also established Performance Standards, which provide guidance on the specific procedures to monitor investment performance and risk. These performance standards help achieve short-term and long-term investment objectives and maximize the investment returns in the STO Investment Portfolios.

DELEGATION OF AUTHORITY

The authority to invest State Government Investment Funds is limited to the State Treasurer under S.C. Code of Laws § 11-13-30, and § 6-6-10 which sets the authority for the Local Government Investment Pool.

§ 11-13-30. Only the State Treasurer may invest and deposit funds.

To facilitate the management, investment, and disbursement of public funds, no board, commission, agency or officer within State government except the State Treasurer shall be authorized to invest and deposit funds from any source, including, but not limited to, funds for which he is custodian, such funds to draw the best rate of interest obtainable.

BROAD OBJECTIVES

As a steward of public funds, the Office of the State Treasurer seeks to generate the best rate of return within prescribed parameters while maintaining liquidity and preserving capital.

This policy recognizes that investment decisions involve managing the State's daily fluctuating cash flows and anticipating future revenues and expenditures. The STO through its Investment Adviser(s) manages

South Carolina State Treasurer's Investment Portfolios Investment Policy Statement

cash balances available to anticipate the future use of these funds. Also, earnings on investments provide one of the sources of revenue for the State and State agencies annually. Consequently, the soundness and success of an investment program is of primary importance to meet the State's funding needs.

The three investment goals are based on the following principles:

Liquidity – Securities that qualify as liquid assets are defined within each portfolio's liquid asset requirements.

Preservation of Capital – In order to minimize the potential for loss of principal, only investment grade fixed income securities are to be purchased. A range of maturities and diversification among issuers is desirable as a defense against the susceptibility to price change of the STO Investment Portfolios' assets.

Rate of Return – Enhancement of purchasing power through consistent compounding of underlying principal at rates exceeding the portfolio's respective benchmark.

Investment policies and procedures shall comply with applicable state law and are designed to guide and assist the STO Staff toward achieving the stated objectives. To meet these objectives, various resources may be used, including an Investment Advisor, an Electronic Marketing Communications Network (i.e. Bloomberg), various economic reports, and daily communication with various brokers and financial institution investment officers.

PERFORMANCE STANDARDS

The STO has developed investment performance standards as a management tool to monitor performance and compliance issues in the Government Investment Portfolios. STO may delegate such a role to the Investment Consultant.

Performance Evaluation

Investment Portfolios will be evaluated against their stated investment objectives and investment performance standards, and it is expected that each Investment Portfolio meet or exceed these investment objectives over a complete market cycle (generally three- to five-years). Performance will be compared relative to the Investment Portfolios' benchmarks. A list of the STO Government Investment Portfolios and their respective benchmarks is provided below. Performance will be measured and analyzed quarterly. Evaluation will take into consideration both rates of return and volatility of returns.

Portfolio ID	Portfolio Name	Maturity	Benchmark

Shading indicates Investment Portfolios being monitored and reviewed by Investment Consultant.

*Given the portfolio structure, this portfolio is not measured against a benchmark.

OBJECTIVES & PARAMETERS OF SPECIFIC INVESTMENT PORTFOLIOS

Each STO Government Investment Portfolio possesses unique purposes and cash flows. As a result, the STO has developed custom guidelines for each STO Investment Portfolio that reflects their respective attributes. Some STO Government Investment Portfolios are *General Deposit Portfolios* while others are *Separate Portfolios*.

General Deposit Portfolios

- State General Fund
- State Investment Pool
- Insurance Reserve Fund
- Long Term Pool
- Education Improvement Fund
- Ordinary Sinking Fund
- Treasury Fund

Separate Portfolios

- Local Government Investment Pool
- Composite Reservoir Account
- SC Retirement Health Insurance - OPEB
- Long Term Disability Insurance - OPEB

A summary of the guidelines pertaining to each STO Investment Portfolio are provided on the following pages.
