Kelly has shared her message of “courage” in education – to take risks, to advocate, to lead, and to share ideas. She says that technology is an essential component off today's students' skill set, calling them “digital natives.” And tools like *StreamlineSC* and Knowitall.org allow her to actively engage students in the learning process to create successful learners. Through her teaching and this experience as our SC Teacher of the Year, she is honored to be able to give back to public education and our state.

ITV Checklist – Thank You...Still Time to Send!

Thank you to all the Media Specialists who have sent in the “ITV Checklist Fall 2010.” Your input is critical as we consider what resources to delete, add more programs to *StreamlineSC*, determine what new resources are needed by teachers, try to get our programs closed captioned, and continue to work with ETV to migrate to new delivery systems.

And, with continued challenges in funding, your input is still needed more than ever.

If you have not responded, there is still a little time. The 15 questions in the “ITV Checklist Fall 2010” can be accessed from the ITV Web site at www.itv.scetv.org or found in the back of the January edition of the *ITV Update*. Please fax to 803-737-3278 by February 18.

If you can't find the checklist in either place, contact us and we will e-mail or fax it to you. Contact Rhonda Raven at rraven@scetv.org, 803-737-3275 or toll free at 1-877-885-5272. We can better serve schools when we know your needs. **This is your last opportunity to provide input and help us keep the resources and services you need to support curriculum. Thank you!**

Special block feed of ALL ten lessons in series Feb. 17, 8:00 a.m.–2:55 p.m. Channel 1

(ALL with unlimited rights) The teacher's guide is being updated to include new lessons!

Produced by ITV and ETV and directed by ETV's Pat Henry, the stories in this series are being adapted with permission and input from author Idella Bodie. They are dramatizations of the stories from her book *South Carolina Women*. Recommended to support social studies standards for South Carolina history for elementary and middle grade students, the programs are also good for use during Women's History Month with students in grades 3–12. Each dramatization tells the story of women who have shaped South Carolina history and politics. The stories have been produced at historical sites and homes.

Program Nine - Dorcas Richardson*

The movie *The Patriot* was based loosely on Francis Marion fighting Colonel Banastre Tarleton in South Carolina during the American Revolutionary War. The Dorcas Richardson program tells the true story about one of Francis Marion's men, Richard Richardson, his wife Dorcas and their "battle" with Colonel Tarleton. Captain Richardson served under Francis Marion, better known as the Swamp Fox. After six years of fighting, Richard was left scarred from small pox and when he and his escort returned to his home, he discovered that Marion's enemy Tarleton was there, holding his wife Dorcas prisoner. This story depicts the courage and steadfast love of Dorcas Richardson for her family and her newly formed nation. Despite tremendous effort by Tarleton to force Dorcas into betraying her husband's whereabouts, she remained true to both her husband and the American cause. Taped at Historic Camden, this story takes us back in time to where South Carolinians fought each other and the British. (* Please preview before use.)

Program Ten - Dr. Anne Austin Young

Dr. Anne Austin Young fought the norm that women could not be at the top of their college class nor become a medical doctor. Anne was one of the first female doctors in South Carolina to practice medicine. This story covers her humble beginnings to later in life being inducted into the South Carolina Hall of Fame. Despite prejudice from both her family and community, Anne proved that women could succeed. Taped on location at several sites throughout the state, this drama inspires young people to achieve, despite any odds or prejudice. Dr. Anne Austin Young had many battles to win before being allowed into medical school. Even upon graduation, she faced prejudice that she wasn't good enough just because she was a woman. This story shows the many trials she encountered and worked to overcome in order to follow her dream.

Other Programs in ITV's Idella Bodie's SC Women Series

* Special block feed of ALL ten lessons in series Feb. 17, 8:00 a.m.–2:55 p.m. Channel 1 (ALL with unlimited rights) The teacher's guide is being updated to include new lessons!

Program One – Grace and Rachel Martin

This is the story of two sisters-in-law living alone in the South Carolina back country who waylaid a British Courier with valuable papers by dressing up as colonial men. They risked their lives to stop the flow of information. Taped on location with historical costumes and artifacts, it takes place in the cabin considered to be the oldest frontier house still standing in SC.

Program Two – Emily Geiger

Emily is a young girl who risked her life by serving as a messenger for the Colonial army during the Revolutionary War. Captured by the British and interrogated as a spy, she managed to trick Lord Rawdon into believing she was innocent, outwitting her captors in a most unique manner. Taped in part at the actual location where the interrogation took place, this drama covers the story of Emily's journey from her assignment with General Greene to her release by Lord Rawdon.

Program Three – Mary Chesnut

Mary kept a diary during the turbulent times of the Civil War. This drama portrays various events in the life of the South Carolina heroine prior to and during the Civil War. The events dramatized are actual happenings that occurred to Mary and most of the words come straight from her diary. Mary actually spent time at Kensington Plantation, the location of the drama.

Program Four – The Grimké Sisters

Sarah Moore Grimké (1792–1873) and Angelina Emily Grimké (1805–1879), followed a similar path, speaking out about what they believed and leaving their home to join the fight for the causes of the abolition of slavery and equal rights for women. Today women are leaders in the community and in the business world, working along side their male counterparts in voicing and making their decisions, but it was not the same in the 1800's. These two sisters helped lead the way to change the course of history. From a young age they both stood up for what they believed were the wrongs of society. They spoke out against slavery, finding the courage to fight for their right to have a voice.

Program Five – Wil Lou Gray

Tells the story of Dr. Wil Lou Gray who began the South Carolina Opportunity School. The program follows her from the time that she was a young girl struggling with the loss of her dear mother through Dr. Gray's valiant efforts to get the Legislature to fund schooling for illiterate adults and children. Through reenactment of scenes in her life and interviews taped with Dr. Gray by ETV in the 1980's, we hear in Dr. Gray's own words her passion to help others to learn while we learn about what life was like during the early 1900's for many South Carolinians.

Program Six – Mary McLeod Bethune (NOTE: Recommended for Black History Month)

This is the story of one woman's struggle to gain equality for herself and her students. The drama begins with Mary as a young child growing up in rural South Carolina and concludes with her hard work to start a school for African American students in Florida. The struggle that Mary encountered just to be given the chance to learn to read and then to teach others, including being threatened with bodily harm is shown. The drama shows how she started with nothing and ended up being an advisor to a President!

Program Seven – Modjeska Simkins (NOTE: Recommended for Black History Month)

This is the story of an African American girl born to a half-white, half-black brick mason. She came from relative wealth and married into wealth, but dedicated her life to helping the disadvantaged to be treated equally. She was one of the organizers of the Supreme Court Case Briggs Vs. Elliott, which was the first filed of the four cases that later became combined Brown vs. Board of Education.

Program Eight – Mary Gordon Ellis

Mary Gordon Ellis was the first female to be elected to the South Carolina Legislature. This drama depicts her life from the challenges of being the school superintendent of Jasper County Schools where she addressed equality, making bold changes to impact education, to her time in office as an elected official until her untimely death at an early age.

Colonial Williamsburg Electronic Field Trips 2010–11

***Freedom Bound* Airs February 10th on ETV and ITV**

The CWEFT programs use 21st century technology to enrich the teaching of history and social studies, making the subjects exciting and relevant to today's classrooms. The field trips are correlated to national standards and provide a dramatic and compelling learning experience for 4th and 5th grade students. Though schools may view the programs free and record them with 10-day fair use rights (can tape and use for 10 days from broadcast date, but must erase tape within 45 days), there are definite advantages to paying the fee to Colonial Williamsburg to participate.

By paying the fee to participate, schools get the outstanding teacher materials, get to keep the recorded program for the life of the tape and have access to the re-enactors and historians online and via a toll-free number. Schools pay approximately \$500 per school for all seven programs, but rights for individual programs can be purchased. For information on paying the fee to participate in CWEFT, contact Dale Van Eck at CWEFT 1-800-761-8331 or dvaneck@cwf.org.

Congratulations to Debbie Cooper, Library Media Specialist at Fairfield Magnet School for Math and Science in the Fairfield County District, for receiving a scholarship for her school from ITV for the February program! (See description below.)

Setting Up and Managing a Multi-age Classroom - LATTIS

Repeats Feb. 10, 2:00–2:54 p.m. Channel 2 Also available in Educator+ and *StreamlineSC*
Repeats March 3, 2:00–2:54 p.m. Channel 2 (Unlimited rights)

During the last year, the South Carolina Department of Education has piloted an initiative based on looping and multi-age classroom configurations and teaming ("LATTIS" – Looping Advances Teacher Teaming and Innovation in Schools). This is a no-cost way to improve academic achievement, parental involvement, student attendance, and discipline. According to SCDE's Office of School Choice and Innovation, the data has been overwhelmingly positive. As a result, requests have been received about how to set up and manage a looping or multi-age classroom and how to become involved in the LATTIS initiative. This program was developed to meet this need.

Setting Up and Managing a Multi-age Classroom, a 54-minute ITV professional development program, is designed for educators interested in setting up and managing a looping or multi-age classroom. However, the strategies shared are useful when managing multiple levels of student needs in a traditional classroom. The two teachers featured in the program are from **Mountain View Elementary** in Greenville County. They teach students with an age span of 5–7 years, but the effective strategies they share are applicable for meeting all student needs for grades K–8. Looping or multi-age configurations create a sense of belonging and family engagement for students, teachers and parents in the educational process. Mary Ruzga, SCDE's Office of School Choice and Innovation, worked with ITV to coordinate content of these professional development resources that are free for SC schools by broadcast in the ITV schedule and online delivery. For more information on content, please e-mail Mary Ruzga at mruzga@ed.sc.gov.

Repeats March 1, 3:00–4:00 p.m. Channel 2 (Unlimited rights)

The South Carolina Department of Education has partnered with Atlantic Research Partners in order to provide a comprehensive, research-driven program to accomplish two fundamental objectives; measurably increase student engagement and deepen teaching effectiveness within the classroom, specifically focusing on ELA. *Power of Teaching* provides a straightforward means to analyze, measure and improve the delivery of instruction in ELA classrooms and the quality of teaching time in ELA instruction.

Please join host Jennifer Brown, Literacy Specialist with SCDE, with special guest Becca Doswell, Education Associate for Literacy and Early Learning with SCDE, when the topic will be *Power of Teaching*. *Power of Teaching* weaves four factors into a seamless whole: standards, teaching thinking, research based strategies, and critical inquiry. The model connects selected district/state standards, thinking routines from Harvard University Project Zero Research Center, Marzano's research based strategies for improving student achievement, and the critical inquiry (How do learners make thinking visible?). These factors become a framework for teaching and learning in the 21st century. *Power of Teaching* provides a framework to design differentiated professional development.

IMPORTANT - In the near future, ETV will be launching a new TV channel just for schools called "K-12 Instructional Media." The channel will be on your local school channel, either through your TV selection or your district's new streaming portal. Watch for the announcement coming to your district soon. For more information contact Dean Byrd at dbyrd@scetv.org

Newsy

Notes

- Join us in our excitement...One of our ITV producers is going to produce! David Moore and his lovely wife are expecting their first child around June 10! David will be a wonderful dad and we are so happy for them, especially Rhonda as she just can't wait to get her hands on a baby!
- While many of us were "socked in" at home due to some unusual southern snow and ice, Ellen Mancke and husband Rudy were trekking northwest to find more of it! A first-time winter trip to Yellowstone with the ETV Endowment was their destination! If you ever get to go on one of the trips with Rudy/Ellen and ETV-supporter gang, you'll be in for a real treat and learn so much along the way.
- Hey...media specialists and DES folks...send us news to share for next issues of the *ITV Update*. We'd love to hear from you! bjamison@scetv.org
