# INTRODUCTION

---

Since 1971 the South Carolina Department of Education has collected and analyzed data on school dropouts. The *Report on Student Dropout Rates* provides an assessment of the progress made by state and local school districts in their effort to reduce the number of school dropouts and increase the graduation rate.

The annual data collection process employed in South Carolina reports students who leave school during a twelve-month period including those who leave over the summer. The process allows those who reenroll during the collection period and remain in school to be excluded from the count.

The 2010–11 dropout report consists of nine tables. Table 1 contains a comparison of the total number of dropouts with the total enrollment in grades nine through twelve. This comparison, called an “event rate,” shows the proportion of students who drop out in one year. The resulting percentage may be compared yearly as an indicator of progress. Tables 2 through 9 compare the number of dropouts with enrollment by ethnicity and gender categories in grades nine through twelve.

# ADULT EDUCATION

---

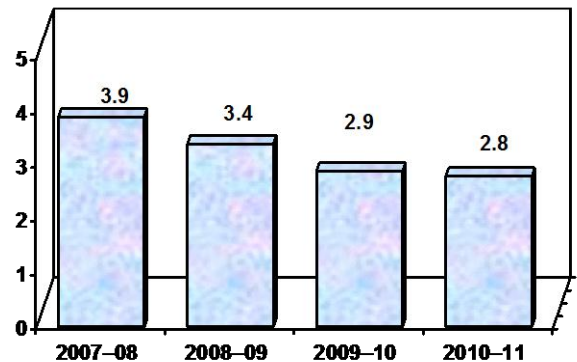

During the 2010–11 school year more than 17,319 students between the ages of seventeen and twenty-one were enrolled in adult education programs in South Carolina. In that year 1,816 of these students between the ages of seventeen and twenty-one earned General Educational Development diplomas (GEDs).

## GLOSSARY

---

**average daily membership.** The aggregate number of days for which students are enrolled in school divided by the number of days in the reporting period. The average daily membership (ADM) is computed for all public schools and districts at the end of 45 days and 135 days of school. The latter count is considered official for funding purposes.

**dropout.** A student who leaves school for any reason other than death before graduation or completion of a program of studies and does not transfer to another school or institution.

**dropout collection cycle.** A twelve-month collection cycle that begins the first day of school and ends the day before the first day of school the following year.

**dropout (event) rate.** The proportion of students who during a single year leave high school without having completed a program of studies and do not transfer to another school or institution.

**enrollment 180 days.** The cumulative 35-day enrollment at the end of 180 days of school. A student is counted in the 35-day enrollment on the 35th day the student has been present in school provided the student has not been counted in the 35-day enrollment of any other school in the state.

**enrollment precode.** Student-level information reported by school districts in January of each year and updated in March.

**ethnicity.** The classification of large groups of people according to common racial, national, or cultural origin or background.

**White.** The racial/ethnic category designating a person having origins in any of the peoples of Europe, North Africa, or the Middle East.

**Nonwhite.** A racial/ethnic category that includes African Americans, Hispanics, Asian/Pacific Islanders, and American Indians.
