# PUBLIC TRANSIT DATA REPORT – BACKGROUND

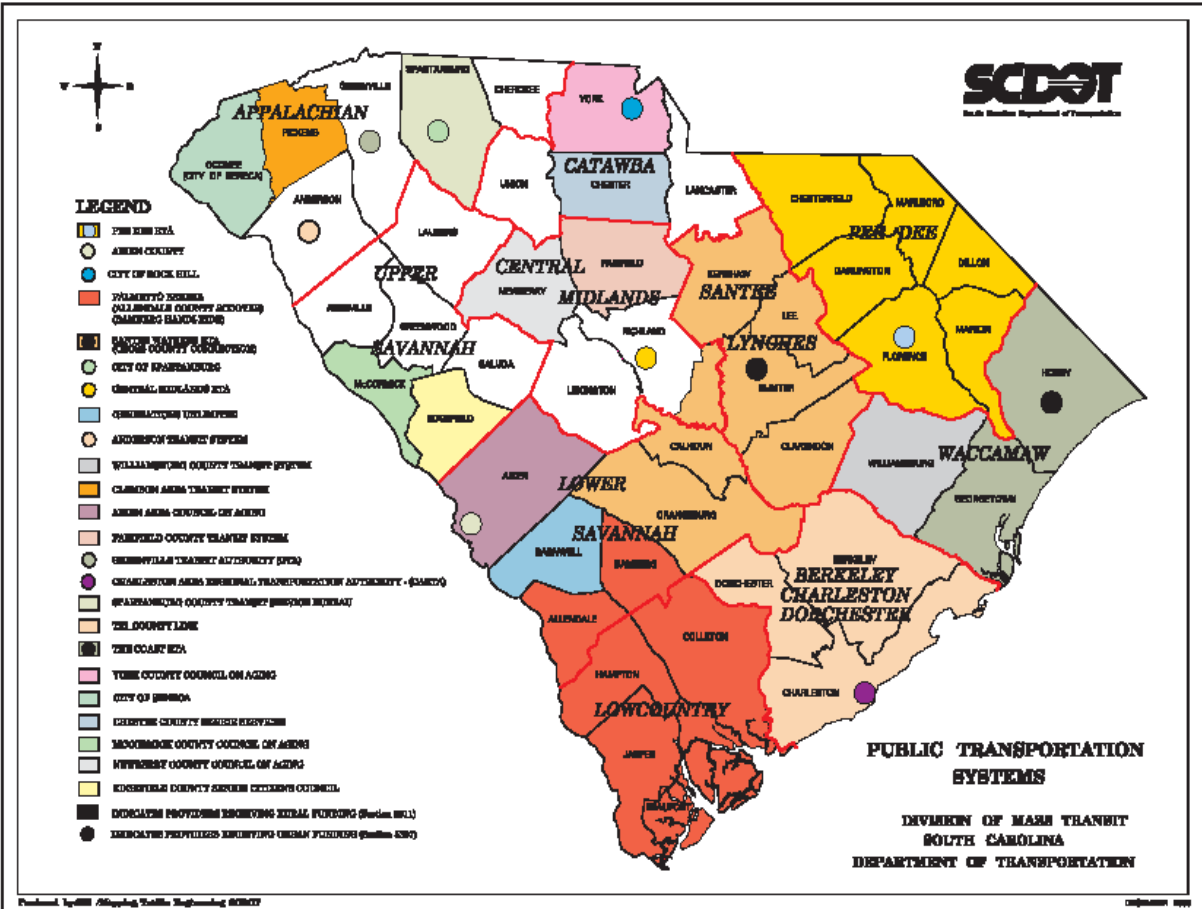

## SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION

### FISCAL YEAR 2009-2010

Public transit service meets a variety of needs in South Carolina, including those of commuting workers, students, shoppers and medical patients. At least one transit agency operates in each of the ten planning regions in the state. Commuter transit service has been used in some communities to address high unemployment and the lack of local job opportunities. The rural characteristics of many South Carolina communities make the provision of transit service more of a challenge as compared to urban communities where there are generally higher population densities. Transit services have been implemented in some communities through existing human service agencies that have agreed to provide general public transportation service in addition to their human service transportation activities.

The map below identifies current transit systems in South Carolina by the county of location and by planning region. There are 26 transit service operations operated by 24 separate transit agencies. Santee Wateree RTA provides general public transit services for two distinct service areas, and reports the two activities as separate entities. They also provide a contract service in two other counties in another planning region.

### SERVICE AREAS FOR GENERAL PUBLIC TRANSIT SYSTEMS IN SOUTH CAROLINA

**PUBLIC TRANSIT DATA REPORT – BACKGROUND**  
**SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**  
**FISCAL YEAR 2009-2010**

**APPALACHIAN PLANNING REGION**

The Appalachian Planning Region consists of Anderson, Cherokee, Greenville, Oconee, Pickens and Spartanburg counties. The region has six transit operations that provide general public transit services. They are the City of Anderson Transit System, the Greenlink transit service operating in the urbanized area of Greenville, the City of Seneca Transit System, Clemson Area Transit, the City of Spartanburg Transit System and Spartanburg County Transit System. Greenville County has the largest population of any county in the state and the industrial development in and around the Greenville Urbanized Area could represent opportunities for commuter transit development. A unique operation in the Appalachian planning region is the Spartanburg County Government transit system, operated by the Spartanburg Regional Hospital System that provides demand response transit service in the urbanized area and general public service for the rural parts of the County as well.

**BERKELEY-CHARLESTON-DORCHESTER PLANNING REGION**

The Berkeley-Charleston-Dorchester Planning Region contains the counties that identify its name (Berkeley, Charleston and Dorchester counties). There are two general public transit systems that operate in the B-C-D region, Charleston Area Transportation Authority (CARTA) and the Tri-County Link (formerly known as the Berkeley-Charleston-Dorchester RTMA). CARTA operates in the urbanized areas of Charleston County, while the Tri-County Link provides services to the rural communities within the three-county region.

**CATAWBA PLANNING REGION**

The Catawba Planning region is made up of the counties of Chester, Lancaster, Union and York counties. The Catawba planning region abuts the North Carolina border on its northeast section and is impacted in terms of commuter traffic into the Charlotte metropolitan area. There are three general public transit systems operating in the region; the City of Rock Hill transit service, the Senior Services Incorporated of Chester County, which operates a new public transit service called the “Chester County Connector” and the York County Government transportation services.

**CENTRAL MIDLANDS PLANNING REGION**

The Central Midlands planning regions consist of Fairfield, Lexington, Newberry, and Richland counties. This region includes the city of Columbia, the state capital; and Richland County which is the second largest county in terms of population with an estimated 345,167 residents in 2005. Three general public transit systems operate in the Central Midlands regions: the Central Midlands RTA operates in Columbia area; the Fairfield County Transit System in Winnsboro and the Newberry County Council on Aging.

**PUBLIC TRANSIT DATA REPORT – BACKGROUND  
SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION  
FISCAL YEAR 2009-2010**

**LOWCOUNTRY PLANNING REGION**

The Lowcountry Planning Region is made up of Beaufort, Colleton, Hampton and Jasper counties. The Palmetto Breeze (Lowcountry Regional Transit Authority) is the only general public transit entity operating in the region. Having proximity to the popular Hilton Head tourist destination, the Palmetto Breeze provides work-related commuter trips from rural communities in the region to employment destinations at Hilton Head Island, as well as demand response and contract transit services. Except for Beaufort County, the counties of the Lowcountry planning region are primarily rural.

**LOWER SAVANNAH PLANNING REGION**

The Lower Savannah planning region contains Aiken, Allendale, Bamberg, Barnwell, Calhoun and Orangeburg counties. Most of the general public transit entities in this region are managed by the Lower Savannah Regional Transit Management Association (Lower Savannah RTMA). The Lower Savannah RTMA functions as a transportation management organization for the entire Lower Savannah planning region. Palmetto Breeze and the Aiken Area Council on Aging are the only service providers not managed by the RTMA. Through its transportation management functions, the Lower Savannah RTMA also manages demand response and fixed route services provided by other transit agencies in Allendale, Bamberg (Palmetto Breeze); Barnwell (Generations Unlimited); and Calhoun and Orangeburg Counties (Santee-Wateree RTA). The following general public service activities are found in the Lower Savannah region:

<b>GENERAL PUBLIC SERVICES IN THE LOWER SAVANNAH PLANNING REGION</b>				
<b>SERVICE NAME</b>	<b>TYPE SERVICE</b>	<b>MANAGING AGENCY</b>	<b>SERVICE PROVIDER</b>	<b>SERVICE AREA</b>
Aiken Area COA	Demand Response	Aiken Area COA	Aiken Area COA	Rural Aiken County
Best Friend Express	Fixed Route & DR	LS RTMA	Aiken Area COA	Urban Aiken County
Allendale Scooter	Demand Response	LS RTMA	Palmetto Breeze	Allendale County
Bamberg HandiRide	Demand Response	LS RTMA	Palmetto Breeze	Bamberg County
Local Motion	Demand Response	LS RTMA	Generations Unlimited	Barnwell County
Cross County Connection	Fixed Route & DR	LS RTMA	Santee-Wateree RTA	Calhoun County Orangeburg County

Source: SCDOT Mass Transit & Planning Offices

Five of the services listed in the table show the Lower Savannah RTMA as the managing agency. The service agreement Lower Savannah RTMA established with Palmetto Breeze has made general public transit service available to residents of Allendale and Bamberg counties. The agreement established with Santee-Wateree RTA makes service available to residents of Calhoun and Orangeburg Counties and an agreement with Generations Unlimited makes general public service available to residents of Barnwell County. The Lower Savannah RTMA also manages the urban Aiken County service through the Aiken Area Council on Aging.

**PUBLIC TRANSIT DATA REPORT – BACKGROUND**  
**SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**  
**FISCAL YEAR 2009-2010**

**PEE DEE PLANNING REGION**

The Pee Dee planning region is comprised of Chesterfield, Darlington, Dillon, Florence, Marion and Marlboro counties. The Pee Dee RTA is the only general public transit provider in the region and provides general public service to all six counties. The counties of the Pee Dee planning region reflect a collection of some of the highest unemployment rates in the state. The Pee Dee RTA currently provides commuter trips to the Myrtle Beach area for residents who are employed or seeking employment in the Grand Strand region.

**SANTEE LYNCHES PLANNING REGION**

The Santee Lynchess planning region has Clarendon, Kershaw, Lee and Sumter counties. The Santee Wateree RTA is the only general public transit system in the planning region. The Santee Lynchess planning region includes the Shaw Air Force Base military installation and the City of Sumter. According to recent Census data, Sumter County is predominantly urban, while the other three counties in the region are predominantly rural. Lee and Sumter counties have unemployment rates that were both higher than the state annual average for 2009. Offering an option for employment outside of the region, the Santee Wateree RTA has regular commuter trips to the Myrtle Beach area.

**UPPER SAVANNAH PLANNING REGION**

The Upper Savannah planning region contains the counties of Abbeville, Edgefield, Greenwood, Laurens, McCormick and Saluda. Currently operating general public transit services in the Upper Savannah region are the Edgefield County Senior Citizen Council (ECSCC) and the McCormick County Senior Center. Both of these agencies are primarily human service entities, offering programmatic services to senior citizen clients. Transportation is generally a key component with the successful operation of many human service agencies. The provision of general public transit service is open to all residents in the respective service areas of both the ECSCC and the McCormick County Senior Center.

**WACCAMAW REGIONAL PLANNING REGION**

The Waccamaw Regional planning region has Georgetown, Horry and Williamsburg counties, with two general public transit providers operating in the region (the Coast RTA and the Williamsburg County Transit System). This planning region includes the tourist and service employment centers of the Grand Strand and Myrtle Beach area. Four of the general public transit systems make regular commuter destination trips into the Grand Strand area of the Waccamaw Regional planning region. With tourism and development expected to continue to grow in this region, the need for additional service-related employment would also increase the need for transporting more workers to the region.

**PUBLIC TRANSIT DATA REPORT – BACKGROUND**  
**SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**  
**FISCAL YEAR 2009-2010**

**STATEWIDE ISSUES**

Most of the 46 counties in South Carolina have some level of general public transit services. The counties listed below have been identified as not having general public transit service.

<b>COUNTIES WITHOUT GENERAL PUBLIC TRANSIT SERVICES SELECTED DEMOGRAPHIC FACTORS</b>						
	<b>COUNTY</b>	<b>Population</b>	<b>Over 65</b>	<b>% Rural<sup>1</sup></b>	<b>% In Poverty</b>	<b>2009 Unemployment</b>
1	Abbeville	26,167	14.2%	76.6%	13.7%	14.7%
2	Cherokee	52,537	11.9%	61.3%	13.9%	16.7%
3	Greenwood	66,271	13.3%	43.2%	14.2%	13.5%
4	Lancaster	61,351	11.9%	61.4%	12.8%	18.9%
5	Laurens	69,567	12.2%	65.7%	14.3%	11.7%
6	Saluda	19,181	13.7%	81.3%	15.6%	9.2%
7	Union	29,881	15.2%	64.3%	14.3%	20.4%
	<b>South Carolina</b>	<b>324,955</b>	<b>11.6%</b>	<b>39.5%</b>	<b>14.1%</b>	<b>12.1%</b>

Source: SCDOT Mass Transit Office, South Carolina Statistical Abstract

<sup>1</sup>Rural definition is Census-derived.

While the indicators given in the preceding table are not an exhaustive list of transit-related factors, they are often associated with the evaluation of transit needs. Using the state average as a benchmark of comparison, nearly all of the counties surpass the state level in population over 65 years of age, percent rural communities, percent of county population in poverty and annual average unemployment level. Except for Greenwood County, all of the counties identified as not having general public transit service have more than fifty percent of their population living in rural communities. Rural communities present a particular challenge to the planning of transit services because of the relatively lower population density as compared to typical urban areas and fewer facilities that can serve as ideal bus stops for rural passengers.

Feasibility is a major factor in the consideration to implement transit services in a particular community. The identification of an existing agency partner, such as a human service agency, could help to make new general public transit start ups more practical for communities that have demonstrated the need for such service. Recent new general public transit operations have typically been human services agencies (specifically senior-related human services agencies) that accepted general public transit service as an additional function.

Some of the counties that have comparatively high unemployment rates may benefit from employment-based commuter transit activities. The coordination of commuter services with other demonstrated transit needs, such as senior and human services transportation and local general public services, may represent a more feasible proposal for new transit services with the communities that currently have no service.

**PUBLIC TRANSIT DATA REPORT – BACKGROUND**  
**SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**  
**FISCAL YEAR 2009-2010**

As of June 30, 2010, South Carolina had 24 public transit agencies operating in 26 areas of the State. Of these, 7 are exclusively urbanized, 15 are exclusively rural or non-urbanized, and 4 offer both urbanized and rural services. The state’s public transit operations presented in this report are listed in the following table.

**PUBLIC TRANSIT DATA REPORT – BACKGROUND**  
**SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**  
**FISCAL YEAR 2009-2010**

A common issue affecting transit service in the state is the rural nature of many of the communities in South Carolina. While rural community characteristics do not preclude the establishment of transit service, it can present a challenge for service effectiveness.

Another common issue affecting transit service statewide is the exposure and perception of transit services in some communities. According to the United States Census figures, less than 1.0% of the South Carolina workers use public transportation as a means of getting to and from their work sites. At the same time, 79.9% of the state's workers drive to work alone in some type of motor vehicle. Transit is obviously not viewed as a practical or personal option for many of the state's workers. However, there are some efforts that seek to counter this. Examples include the ongoing SmartRide commuter-focused transit services and the Sumter Vanpool in the greater Columbia area, and the CARTA Express and Tri-County Link Commuter Solutions in the greater Charleston region. There are multiple examples of rural express and vanpool options throughout the state, collectively increasing the number of modal choices for South Carolinians.

Beginning with Fiscal Year 2007-2008, SCDOT's Office of Planning developed and implemented a new transit data acquisition and analysis program called OPSTATS (Operating Statistics). The purpose of the OPSTATS program is to better assist SCDOT in gathering and analyzing data for assessing operating and capital needs, conducting annual trend analyses, monitoring performance, and ongoing reporting to local, state and federal entities. This report represents the results of OPSTATS' initial data analyses based on submissions from transit operators statewide.

### **STATEWIDE TRENDS**

From FY 2008 to the end of FY 2010, South Carolina saw an overall increase in transit ridership statewide of 3.4%. Transit ridership in the state's urbanized areas increased 11.9%, while transit ridership in the rural communities decreased by -15.1% over the same period. Overall ridership increase was experienced while statewide transit revenues decreased by -9.8% from FY 2008 to FY 2010.

Statewide cost per passenger trip improved from FY 2008 to FY 2010 from \$5.38 per trip to \$5.18, or a reduction of -3.7% in the cost to generate each passenger trip. This performance measure indicates suggests improving overall efficiency in delivering passenger trips. The collective efforts of South Carolina's general public transit providers have demonstrated growth in transit ridership to meet the various needs of their patrons around the state, while attaining greater efficiencies during periods of decreased revenues.

**PUBLIC TRANSIT DATA REPORT – BACKGROUND**  
**SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**  
**FISCAL YEAR 2009-2010**

The report is divided into three sections: statewide summary, statewide performance, and provider summaries, inclusive of provider performance based on reported data. Beginning with this year's report, there is also an appendix on Section 5311 funding allocation data. It is important to note that the data presented herein is as provided by the state's public transit operators with review and validation, where appropriate, by SCDOT's Division of Mass Transit. The following key is to be used as a reference to the Statewide Summary and Performance charts.

- ◆ AIKEN – Aiken Area Council on Aging, Inc.
- ◆ BFE – Best Friend Express/Lower Savannah RTMA
- ◆ CMRTA – Central Midlands Regional Transit Authority
- ◆ CARTA – Charleston Area Regional Transit Authority
- ◆ AND – City of Anderson Transit System
- ◆ CLEM – Clemson Area Transit System
- ◆ RKHL – City of Rock Hill Transit
- ◆ SENC – City of Seneca Transit/CAT
- ◆ SPARTA – City of Spartanburg/d.b.a. SPARTA
- ◆ COAST – Waccamaw Regional Transportation Authority/d.b.a. COAST
- ◆ CROSS – Cross County Connection/Lower Savannah RTMA
- ◆ ECSCC – Edgefield County Senior Citizens Council
- ◆ FCTS – Fairfield County Transit System
- ◆ GU – Generations Unlimited
- ◆ GRNL – Greenville Transit Authority/d.b.a. GreenLink
- ◆ MCRK – McCormick County Senior Center
- ◆ NCOA – Newberry County Council on Aging
- ◆ PLBZ – Lowcountry Regional Transportation Authority/d.b.a. Palmetto Breeze
- ◆ PDRTA – Pee Dee Regional Transportation Authority
- ◆ SWRTA – Santee Wateree Regional Transportation Authority
- ◆ SWLR – Santee Wateree RTA at Lower Richland
- ◆ CHSTR – Senior Services of Chester County
- ◆ SCGV – Spartanburg County Transportation Service Bureau
- ◆ TCL – Berkeley-Charleston-Dorchester RTMA/d.b.a. Tri-County Link
- ◆ WCTS – Williamsburg County Transit System
- ◆ YORK – York County Access

“N/A” indicates a reported data item or performance factor that is Not Applicable to a particular transit operation or that the required data was not provided by a transit agency.

Farebox Recovery includes both fare revenues from transit patrons and contract revenues for transit services provided by a transit agency.
