PUBLIC HEALTH

SERVICES

LOWCOUNTRY

www.scdhec.gov

SERVICES WE OFFER

BIRTH CONTROL (FAMILY PLANNING)

We can help you plan your pregnancies. We provide reproductive health services that include a health exam and needed lab tests. We will also provide you information and counseling on your chosen method of birth control. Our clinics serve both females and males.

All services are confidential, meaning we don't share information about you or your visit with anyone.

PREGNANCY TESTING

Think you might be pregnant? We can do a pregnancy test. If it turns out that you are pregnant, we will help you find out if you face any special pregnancy health risks.

We will refer you to a prenatal doctor and other medical services.

POSTPARTUM/NEWBORN HOME VISITS

If you're a Medicaid-eligible mom with a new baby and your doctor would like us to visit you, our nurse can see you one to two times. The nurse will check your baby to make sure he/she is growing well and hasn't developed any problems since leaving the hospital.

The nurse will also make sure you are doing well after having a baby.

COMMUNITY HEALTH AND CHRONIC DISEASE PREVENTION

We help local communities promote positive public health policies and environmental changes to help prevent heart disease, stroke, cancer, diabetes, and obesity.

SERVICES FOR CHILDREN/TEENS WITH SPECIAL HEALTH CARE NEEDS

Does your child have a chronic illness, disabling condition or developmental delay? If so, we can see if you qualify for your child to get the special health care services he or she needs.

We may be able to help you pay for certain services.

Your child must be under 18 years of age to apply.

SHOTS (IMMUNIZATIONS/ VACCINATIONS)

Wondering which shots your child will need to attend day care or school? We'll tell you which ones are needed and make sure your child gets the required shots.

We also provide immunizations for adults, including shots for:

• FLU • PNEUMONIA • TETANUS/ WHOOPING COUGH (PERTUSSIS)

TB (TUBERCULOSIS) TREATMENT

If you have been diagnosed with TB, we'll give you medicines to help treat the disease. We will also help you get any other medical services you may need. Since TB is very easily passed from person to person, our staff will work to try to find out how you were exposed and attempt to locate anyone else who may have been exposed. We'll encourage them to get medical care as well. This will help limit the spread of TB.

SEXUALLY TRANSMITTED INFECTIONS (STI)

Are you worried you may have a sexually transmitted infection? We can test your blood and urine for HIV, syphilis, gonorrhea, chlamydia and other sexually transmitted infections.

If we find that you do have an STI, we can give you medicines to treat it, and we will refer you to additional health care services if needed.

We can also give you information to help you protect yourself and your partner from STIs in the future.

All services are confidential, meaning we promise to protect your identity.

In some cases we may need to notify your partner(s) that they may have been exposed to an STI so that they can get medical care, but we will not use your name.

OTHER SERVICES OFFERED AT SOME PUBLIC HEALTH CLINICS – VITAL RECORDS

We maintain and issue certified copies of birth and death certificates.

The long-form birth certificate includes names of parents and can be obtained from the main DHEC office located at 2600 Bull Street, Columbia, SC 29201, or at regional Vital Record offices located across the state.

Addresses and phone numbers for these offices are available at: (803) 898-3630 or www.scdhec.gov/VitalRecords/Locations.

The main DHEC office also maintains and issues certified copies of marriage records back to 1950 and reports of divorce back to 1962.
