

It's easy to recycle tires in Horry County.

It's the right thing to do. It's also the law.

Improperly disposed of tires can harm the environment and cause potential health risks, so they must be recycled.

If you are a Horry County resident* take your old tires to one of the county's 24 Residential Recycling and Convenience Centers. Visit www.solidwasteauthority.org or call (843) 347-1651 for more information.

Recycle your old tires.

We have a lot riding on it.

*Residents ONLY. Businesses must secure a recycling vendor.

Your old tires still have a lot of miles left on them.

Recycled tires can become all kinds of products including boat bumpers, carpet padding, wire and pipe insulation, landscape mulch and tire-derived fuel.

Recycled tires also can be turned into asphalt for roads. That's right – you could be driving on your old tires.
