DEAR LOTTERY BENEFICIARIES:

As we approach the beginning of our 11th year in business, the South Carolina Education Lottery (SCEL) is understandably proud of the success we have attained. Our mission is to earn funds which are appropriated by the General Assembly to improve education in South Carolina. These funds are used to support educational programs for students of all ages. Since the launch of the Lottery in 2002 through Fiscal Year 2011-12, the General Assembly has appropriated more than \$2.8 billion to a variety of educational programs. Indeed, we are making a difference.

Each lottery dollar transferred for deposit in the Education Lottery Account (ELA) is critical to enhancing educational opportunities; therefore, we strive to manage our costs responsibly. During Fiscal Year 2010-11, 25.8 percent of every dollar earned by the Lottery was transferred to the ELA. Approximately 63.6 percent was paid as prizes to winning players. Retailers earned commissions of 7.0 percent. Of the total amount, 3.6 percent was paid for a combination of operating costs and gaming contract costs, advertising, and product development. It is our desire to be viewed as a fiscally conservative, ethically underpinned, and socially aware enterprise that provides a net positive benefit to South Carolina and her citizens.

We appreciate your interest in and support of SCEL. When you play the games of the South Carolina Education Lottery, you are not just taking a chance, you are giving one!

Imagine the possibilities.

Yours truly,

Paula Harper Bethea
South Carolina Education Lottery
Executive Director

HOW EDUCATION WINS

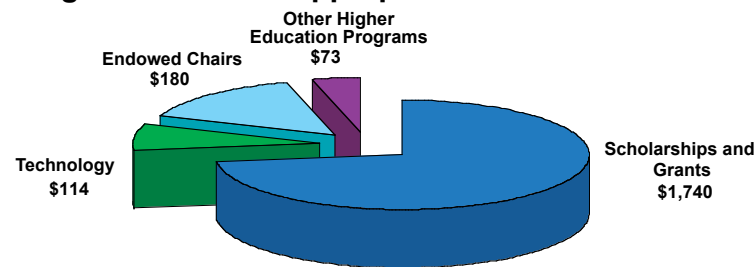

Since the inception of the Lottery, more than **\$2.8 BILLION** has been appropriated to enhance education through June 2012.

Since launch, the South Carolina Education Lottery (SCEL) continues to focus on its objective: to support new educational opportunities for the citizens of the Palmetto State by providing entertainment options to adults who play our games. SCEL's annual beneficiary message is to inform the public of how lottery proceeds enhance educational programs. We pride ourselves on the operation of a conservative lottery, both fiscally in earning revenues and socially as a result of the benefits South Carolinians receive from appropriations to education. To ensure that lottery revenues are expended for new educational purposes, the General Assembly requires that the net proceeds, "... supplement and not supplant existing funds used for education." Code of Laws of South Carolina, 1976, Section 59-150- 350(C)(2).

The General Assembly of South Carolina allocates and determines the distribution of net funds generated by SCEL. Since the Lottery's start on January 7, 2002 through June 30, 2012, the S.C. General Assembly has appropriated more than \$2.8 billion to enhance the educational opportunities for South Carolinians. Lottery funds have been used to support a variety of educational programs, including:

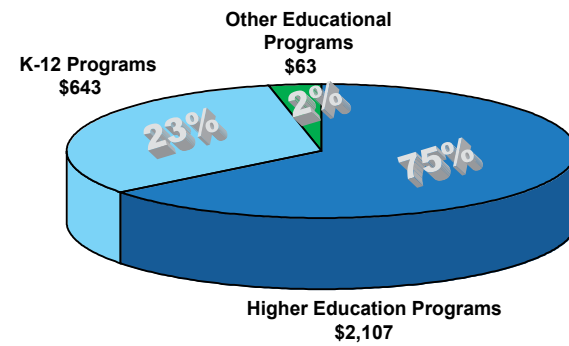

- More than 920,000 lottery-funded scholarships and grants awarded to South Carolina's students through academic year 2009-10
- \$180 million for the Endowed Chairs Program at the University of South Carolina, Clemson University, and the Medical University of South Carolina from FY 2003-04 through FY 2007-08

Our History

On November 7, 2000, the state's voters approved a referendum by a vote of 54 percent in support of the implementation of a state-run lottery in South Carolina. On June 7, 2001, the South Carolina General Assembly ratified the South Carolina Education Lottery Act (Act 59 of 2001). The Governor signed the Act into law, and the South Carolina Education Lottery (SCEL) was established.

The legislation that created SCEL also established a board of nine members appointed to staggered three-year terms. The South Carolina Education Lottery Commission was created as an instrument of the State and a public commission, with powers comparable to those exercised by commissions engaged in entrepreneurial pursuits. Three commissioners are appointed by the Governor, three are appointed by the President *Pro Tempore* of the Senate, and three are appointed by the Speaker of the House of Representatives. The South Carolina Education Lottery Commissioners are:

- Tim Madden, Chairman
- Moffatt Burriss, Treasurer
- Sam Litchfield, Secretary
- Dr. Edward Keith
- Karen Ballentine
- Peter Bristow
- Nancy Latham
- Deedee Vaughters
- Vacancy

Proceeds of lottery games must be used to support improvements and enhancements for educational purposes and programs as provided by the General Assembly. Appropriations from the Education Lottery Account must be used to supplement and not supplant existing funds used for education.

South Carolina Education Lottery's Powerball® Jackpot Winners

Powerball® is a multi-jurisdictional game played in 42 states, Washington, D.C., and the U.S. Virgin Islands. Managed by the Multi-State Lottery Association, Powerball® drawings take place at Universal Studios in Orlando, FL, on Wednesday and Saturday at 10:59 p.m. South Carolina's first Powerball® drawing was held Wednesday, October 9, 2002. Since joining, the South Carolina Education Lottery has had six jackpot winners:

\$88.7 Million

SCEL's first Powerball® jackpot winners were Anthony and Monica Wilson, of Charlotte, N.C. The couple won an \$88.7 million jackpot in the May 7, 2003 drawing. Mr. Wilson worked in Columbia and stopped at Red Rocket Fireworks in Fort Mill to purchase tickets on his drive home.

\$110.7 Million

While traveling through S.C. on New Year's Eve, Norman "Norm" Shue purchased \$20 in Powerball® tickets at Clover Shop & Save in Clover. The first ticket was one of two tickets that matched the six numbers drawn in the December 31, 2003 drawing to split a \$220 million jackpot. Norman, the Lottery's second jackpot winner, and his wife, DeAnna, were residents of Concord, N.C.

\$65.8 Million

An admitted first time Powerball® player, who prefers to be unnamed, was the Lottery's third jackpot winner. The winning ticket worth \$65.8 million was purchased from The Spinx Company, Inc., in Townville. The North Carolina resident purchased the ticket for the June 26, 2004 drawing after spotting a Powerball® billboard advertising the jackpot.

\$15 Million

Dick Sandlin, of Wilmington, N.C., claimed the \$15 million jackpot for the April 4, 2007 drawing to become the fourth Powerball® jackpot winner. Amoco Food Shop #3 in Florence sold the winning ticket. Dick and Colleen Sandlin were returning from Florida and purchased lottery tickets in every state they traveled through on their journey home to North Carolina.

\$35.3 Million

Beginners luck or divine intervention, Jonathan Vargas, 19, was the first South Carolinian to win a Powerball® jackpot but the fifth SCEL player. The Gaston resident purchased the winning ticket for the \$35.3 million jackpot from Raceway #6747 in West Columbia. Vargas was working a construction job when the Powerball® numbers came to him. He purchased a ticket for the May 17, 2008 drawing and selected his numbers using his siblings' birth dates.

Surrounded by a swell of media, Murphy USA's District Manager Joe Lewis (center) and Store Manager Drew Evans (right) joined Paula Harper Bethea (left) in announcing their store sold the jackpot-winning Powerball® ticket worth \$259.9 million.

\$259.9 Million

Solomon Jackson Jr. is the South Carolina Education Lottery's newest Powerball® jackpot winner. The Columbia native purchased the jackpot-winning ticket worth \$259.9 million from Murphy USA #7057 in Columbia. A retired state employee, Jackson purchased a single Powerball® quick pick with PowerPlay® for the August 19, 2009 drawing to win the jackpot.

POWERBALL®: Did You Know...

...the Powerball® jackpot starts at \$20 million and grows each drawing until won.

...the largest Powerball® jackpot won was \$365 million in February of 2006. The winning ticket was sold in Nebraska.

...SCEL offers a 1 percent retailer commission to a retailer who sells a redeemed winning ticket worth \$10,000 or more. Retailer commissions are capped at \$50,000.

...players can purchase PowerPlay® for an additional \$1 per play and multiply their non-jackpot winnings by 2,3,4 or 5 times depending on the PowerPlay® number selected. If a player matches all five white balls with the purchase of PowerPlay®, the prize is \$1 MILLION.

...Jonathan Vargas, 19, SCEL's fifth Powerball® jackpot winner, was the first South Carolinian to win. Vargas, a Gaston resident, won the \$35.3 million jackpot in May of 2008.

PLAY RESPONSIBLY

HAVE FUN. PLAY SMART. PLAY RESPONSIBLY®

The games of the Lottery can be a lot of fun. As with any game, the games of the South Carolina Education Lottery are designed for just that... fun. SCEL encourages our players to play responsibly.

Nationally, the gambling industry recognizes March as "Play Responsibly" month. SCEL and the Department of Alcohol and Other Drug Abuse Services (DAODAS) have teamed up in support of increased public awareness of the availability and benefits of problem gambling treatment. This effort is designed to help educate the public about the warning signs of problem gambling and where to call to obtain treatment services. Conspicuous signage and printed literature available at all retail locations, along with television and radio public service announcements are all ways SCEL encourages responsible play.

In March 2004, SCEL provided marketing support when DAODAS launched a toll-free helpline in accordance with Section 59-150-230(l) of the South Carolina Education Lottery Act which requires lottery funds be directed toward the prevention and treatment of compulsive gambling disorder.

Managed by DAODAS, this helpline is available to assist individuals and families affected by problem and compulsive gambling. If you or someone you know has a gambling problem, treatment is not only available, but also effective in improving the lives of problem gamblers and their families. The South Carolina Gambling Helpline is available 24-hours a day, toll-free at 1-877-452-5155.

In Fall 2008, SCEL launched a website devoted to increasing public awareness of problem gambling and the community treatment services available. Visit PlayResponsiblySC.com for details.

Nationally, persons who believe they may have a gambling problem can seek help by calling a 24-hour confidential live hotline at 1-800-522-4700. When playing the games of the Lottery, remember to Have Fun. Play Smart. Play Responsibly.™

AMBER Alert America's Missing: Broadcast Emergency Response

The AMBER Alert emergency broadcast program is named for Amber Hagerman, a 9-year-old girl who was abducted and murdered. In the aftermath of her murder, the Arlington, Texas, community requested that radio stations broadcast special "alerts" in the event of child abductions to assist law enforcement in disseminating information. The AMBER Alert Plan was developed in 1996 and is a voluntary partnership between law enforcement agencies and broadcasters. In 2002, President Bush called for the appointment of a national AMBER Alert coordinator through the Department of Justice. There are now AMBER Alert plans in all 50 states and increased interstate coordination.

On August 27, 2003, the machines that dispense lottery tickets were programmed to help distribute information about South Carolina's child abductions. Once an alert has been issued by the South Carolina Law Enforcement Division (SLED), the information is sent to lottery terminals where the alert can be printed and posted in licensed lottery retail locations. During the fall of 2009, Player Information Displays (PIDs) were installed across the retailer network. In the event of an AMBER Alert, marketing messages are interrupted and the 15-inch PID screens are utilized to display photos and other vital details concerning a missing child.

Law enforcement statistics indicate the first three hours after a child is abducted are a critical window for a successful recovery. As a result of being able to quickly distribute AMBER Alert information to the retailer network, the community gains another tool to be used to disseminate information during those important first three hours.

LOTTERY RETAILERS

In the nine and a half years since the first lottery ticket was sold, retailers across the state have demonstrated tremendous support for the Lottery. Make no mistake, the South Carolina Education Lottery's network of approximately 3,700 licensed retailers (as of June 30, 2011) are the reason transfers since startup have surpassed the \$2.5 BILLION mark.

Because lottery tickets can only be purchased in South Carolina, all lottery retailers are located within the state. While a majority of lottery tickets are sold at convenience stores, lottery tickets can also be purchased at some grocery stores, package stores and newsstands in the state. Tickets must be purchased with cash, and retailers will redeem winning tickets up to and including \$500 as required by contract.

For every ticket sold, a lottery retailer receives a 7 percent sales commission. Once claimed, lottery retailers also earn a 1 percent retailer commission for selling a ticket with winnings of \$10,000 or more. The retailer commission is capped at \$50,000.

To the right is a listing of the MILLION DOLLAR SALES CLUB for retailers with sales of more than \$1 million in Fiscal Year 2010-11. A total of 46 retailers are MILLION DOLLAR SALES CLUB members.
