

TRAFFIC COLLISION INVESTIGATION – TECHNICAL - PHASE II

Class Limit: 25

Course Location: See course schedule for location. Housing is available for CJA course location.

Course Description:

This is the second course in the collision investigation series. This course is designed to teach the students how to calculate the speed of vehicles involved in a collision using airborne, linear momentum, kinetic energy and time/distance equations. The student will learn how to use vector diagramming in their investigation.

Who Should Attend?

Class 1 certified law enforcement officers who are assigned traffic enforcement and accident investigation duties.

Attendees must have successfully completed the Traffic Collision Investigation – At Scene – Phase I class to be eligible to attend.

CLEE Credits: 80 CLEE Hours
