RESULTS OF PROFESSIONAL EXAMINATIONS

Applicable to all sectors – Reported for April 1, 2018- March 31, 2019

The collection of results data for professional examinations should include first-time test takers (except the teacher education exams at four-year institutions, which include all test takers) for those students who completed an examination during the period of **April 1, 2018 through March 31, 2019**. The following tables display the exams that each sector has reported in the past. Please use this list as a guide for the exams you report this year on the table provided. **Please be aware that your institution may have students taking certification exams that have not been reported in the past.** This would be the case if students were just beginning to complete a new program. In such cases, please report the scores and indicate that the exam is new to the table.

Praxis exams are reported separately in the following table.

Please note that Praxis results are reported on all test-takers. Other exams are reported on first-time test-takers.
