

South Carolina Department of Social Services
Child Welfare Quality Assurance Review: Bamberg County
Summary Report

This summary report describes the results of the South Carolina Department of Social Services (DSS) Bamberg County Quality Assurance Review, conducted October 13-17, 2014. The period under review was October 1, 2013 to September 30, 2014.

DSS Child Welfare Quality Assurance Reviews are conducted using the *Onsite Review Instrument* (OSRI) finalized by the federal Administration for Children & Families (ACF) in July 2008. This instrument is used to review foster care and family preservation services cases. Fourteen cases were reviewed including 4 foster care and 10 family preservation cases. It should also be noted that there was 100% sampling of foster care cases that met sampling requirements in this county.

The OSRI is divided into three sections: safety, permanency, and child and family well-being. There are two safety outcomes, two permanency outcomes, and three well-being outcomes. Reviewers collect information on a number of *items* related to each of the outcomes through case file review, the use of the Child and Adult Protective Services System (CAPSS), and case related interviews. CAPSS is South Carolina’s Statewide Automated Child Welfare Information System (SACWIS), which contains all case related information. This information is detailed on the OSRI as support for rating selection.

The ratings for each *item* are combined to determine the rating for the outcome. The *items* are rated as *strength*, *area needing improvement*, or not applicable. Outcomes are rated as being substantially achieved, partially achieved, not achieved, or not applicable. Ratings for each of the outcomes are displayed in Table 1.

Table 1. Child Welfare QA Onsite Reviews – Ratings by Outcome

Outcome	Substantially Achieved	Partially Achieved	Not Achieved
Safety 1 CHILDREN ARE, FIRST AND FOREMOST, PROTECTED FROM ABUSE AND NEGLECT	89% (8)	0% (0)	11% (1)
Safety 2 CHILDREN ARE SAFELY MAINTAINED IN THEIR HOMES WHENEVER POSSIBLE AND APPROPRIATE	50% (7)	14% (2)	36% (5)
Permanency 1 CHILDREN HAVE PERMANENCY AND STABILITY IN THEIR LIVING SITUATIONS	25% (1)	75% (3)	0% (0)
Permanency 2 THE CONTINUITY OF FAMILY RELATIONSHIPS AND CONNECTIONS IS PRESERVED FOR CHILDREN	50% (2)	50% (2)	0% (0)
Well-Being 1 FAMILIES HAVE ENHANCED CAPACITY TO PROVIDE FOR THEIR CHILDREN’S NEEDS	29% (4)	57% (8)	14% (2)
Well-Being 2 CHILDREN RECEIVE APPROPRIATE SERVICES TO MEET THEIR EDUCATIONAL NEEDS	75% (3)	0% (0)	25% (1)
Well-Being 3 CHILDREN RECEIVE ADEQUATE SERVICES TO MEET THEIR PHYSICAL AND MENTAL HEALTH NEEDS	75% (9)	8% (1)	17% (2)

Results for outcomes and *items* are reported by the number of cases and the percentage of total cases given each rating. In addition, the percentage of *strengths* is calculated for each *item*. This percentage is calculated by adding the number of *strengths* and the number of *areas needing*

improvement. The number of *strengths* is divided into this total to determine the *percentage of strengths*. Appendix 1 provides more detailed analysis of issues impacting the *ANI* ratings.

SECTION II: FOSTER HOME LICENSE REVIEW

As part of the Quality Assurance Review Process in Bamberg County, ten Foster Home Licenses were randomly selected from the list of all licenses issued for the county during the period under review. These licenses are reviewed using the *South Carolina Department of Social Services Quality Assurance Foster Home License Review Instruments*. There is one instrument for issuance of initial licenses and another instrument for the renewal of licenses. Each instrument contains a section of deficiencies, namely agency oversight, data entry, and qualitative issues. Deficiencies noted in this section may not invalidate the license but still require attention and correction by county management. Each instrument includes the appropriate agency, state, and federal requirements.

Initial License review criteria include the following *items*:

- Information related to firearms and ammunition in the house
- Pet vaccination information
- Background checks
- Convictions
- Required trainings
- Medical reports
- Fire inspections/re-inspections
- DHEC/Lead inspections
- Central registry check on alternative caregiver, if applicable
- A review of any conflicts noted between file documents and CAPSS
- Completion and issuance of the 1513 prior to the license being issued
- Guidelines regarding in-ground swimming pools

Renewal License review criteria include the following *items*:

- Convictions
- Training hours
- Medical reports if a new household member has been added or if there is a change in foster parent's medical status
- Fire inspections
- FBI checks, if applicable
- Guidelines regarding in-ground swimming pools
- 1513 completed prior to issuance of the license
- Any amendments to the license, if applicable
- Documentation regarding if there are more than five children in the home
- Annual firearms location update
- Safety checks of alternative caregivers
- A review of child protective service allegations
- Pet vaccination information
- A review of any regulatory infractions
- A review of any conflicts noted between file documents and CAPSS

Possible *deficiencies* found in Initial and Renewal cases include:

- Updated home studies
- Discipline Agreements
- Fire drills
- Quarterly home visits
- Disaster Preparedness Plans
- Information concerning the alternative caregivers
- Alternative caregiver forms
- Applications
- Autobiography information
- Financial information
- Child factor's checklists
- Initial home assessment studies
- References

Areas noted as having occurred as required on the assessment are rated as *strengths*. Those *items* that were not met are rated as *area needing improvement (ANI)*. If the issue is not applicable, it is rated N/A.

Additionally, the percentage of *strengths* is also calculated for each *item*. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided into this total to determine the percentage of *strengths*. Results of the review are noted in Table 10.

Foster Home Licensing Findings for Bamberg County

Initial License Cases. No foster home issuances for initial/standard license were reviewed.

Renewal License Cases. Ten foster home license renewals were reviewed. Information for ratings was obtained by reviewers through case file documentation, which includes the use of CAPSS. Eight cases reviewed were rated as *ANI* because some pieces of the licensing requirements were not met prior to authorization of the license renewal. Issues identified that led to the rating of *ANI* for eight cases include:

Table 10. Summary of Ratings for Initial and Renewal Cases

Rating	Initial	Renewal
<i>Strength</i>	0 (0%)	2 (20%)
<i>Area needing improvement</i>	0 (0%)	8 (80%)
Total	0 (100%)	10 (100%)
<i>% Strengths</i>	N/A	2 (20%)

- There was no documentation in the case file to verify that central registry, SLED, sex offender registry, and/or FBI checks for all applicable individuals were completed in a timely manner, or were completed at all. (8 cases)

SECTION III: CHILD PROTECTIVE SERVICE NO ACTION REPORTS REVIEW

A review of ten no action reports was completed to determine whether agency policy and procedures were followed. These were all of the reports on which no action was taken by the county during the period under review. The *South Carolina Department of Social Services Quality Assurance Review No Action Reports Instrument* was used to conduct the review. This instrument includes a description of the allegation and fourteen questions regarding the no action decisions and processes (see Table 11).

SECTION III: CHILD PROTECTIVE SERVICES UNFOUNDED REPORTS REVIEW

Five unfounded reports were reviewed to determine whether agency policy and procedures were followed. The reports were randomly selected from the list of all reports unfounded by the county during the period under review. The review was conducted using the *South Carolina Department of Social Services Quality Assurance Review Unfounded Report Instrument*. This instrument includes a description of the allegation and items regarding three primary areas (see Table 13):

- Timeliness of initiating investigations of reports of child maltreatment,
- Repeat maltreatment, and
- Risk assessment and safety management.

The percentage of *strengths* is calculated for each decision to unfound. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided of *strengths*. Findings of these reviews are noted into this total to determine the percentage in Table 14.

SECTION IV: FAMILY STRENGTHENING SERVICES REVIEW

A review of five allegations was completed to determine whether agency policy and procedures were followed for reports referred to Family Strengthening Services (FSS). The reports were randomly selected from the list of reports referred to a Community-Based Prevention Services Provider by the county during the period under review. The *South Carolina Department of Social Services Quality Assurance Review Community-Based Prevention Services Assessment Instrument* was used to conduct the review. This instrument includes a description of the allegation and sixteen questions regarding the referral to the (FSS) Community-Based Prevention Services Provider and processes (see Table 15).

11. Community-based provider entered an account in CAPSS	5	0	0	5
12. Family accepted services from Community-Based Prevention Services Provider	5	0	0	5

*Note: A single case may have more than one issue identified.

The percentage of *strengths* is also calculated for the cases reviewed. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided into this total to determine the percentage of *strengths*. Findings of these reviews are noted in Table 16.

Table 16. Summary of Ratings for FSS Review

Rating	Were agency policy and procedures followed?
<i>Strength</i>	0 (0%)
<i>Area needing improvement</i>	5 (100%)
Total	5 (100%)
<i>% Strengths</i>	0 (0%)

Information for ratings was obtained by reviewers through case file documentation, which includes the use of CAPSS. In five cases reviewed, there were pieces of agency policy and procedures that were not followed. Issues identified that led to the rating of *ANI* include:

- Some of the areas in the Risk Matrix and/or other documentation did not include statements to address all documented allegations made by the reporter, with no reconciliation of facts documented. (4 cases)
- Documentation did not verify that all indicated and appropriate collateral contacts were made. (3 cases)
- Documentation did not verify that the intake worker thoroughly researched CAPSS and/or other agency systems for prior CPS involvement. (3 cases)
- Statements documented in the Risk Matrix were contradictory to the documentation of the allegations, with no reconciliation of the facts documented. (2 cases)
- The agency did not make an independent assessment under Assessment Options prior to making the decision to determine that the case was No Action. (1 case)
- The agency did not include statements to verify the typologies chosen by the agency in the Maltreatment Tab documentation. (1 case)
- The agency provided a “YES” response to the Maltreatment Tab, indicating that alleged behavior met the legal definition of maltreatment, but the documentation in the Intake Referral did not support the response with no reconciliation of facts documented. (1 case)

SECTION V: VOLUNTARY CASE MANAGEMENT REVIEW

A review of five allegations was completed to determine whether agency policy and procedures were followed for reports referred to Voluntary Case Management (VCM). The reports were randomly selected from the list of reports referred to a Community-Based Prevention Services Provider by the county during the period under review. The *South Carolina Department of Social Services Quality Assurance Review Community-Based Prevention Services Assessment Instrument* was used to conduct the review. This instrument includes a description of the allegation and sixteen questions regarding the referral to the VCM Community-Based Prevention Services Provider and processes (see Table 17).

*Note: A single case may have more than one issue identified.

The percentage of *strengths* is also calculated for the cases reviewed. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided into this total to determine the percentage of *strengths*. Findings of these reviews are noted in Table 18.

Table 18. Summary of Ratings for VCM Review

Rating	Were agency policy and procedures followed?
<i>Strength</i>	1 (20%)
<i>Area needing improvement</i>	4 (80%)
Total	5 (100%)
<i>% Strengths</i>	1 (20%)

Information for ratings was obtained by reviewers through case file documentation, which includes the use of CAPSS. In four cases reviewed, pieces of agency policy and procedures were not followed. Issues identified that led to the rating of *ANI* include:

- Statements documented in the Risk Matrix were contradictory to the documentation of the allegations, with no reconciliation of the facts documented. (2 cases)
- Some of the areas in the Risk Matrix and/or other documentation did not include statements to address all documented allegations made by the reporter, with no reconciliation of facts documented. (2 cases)
- Documentation did not verify that the intake worker thoroughly researched CAPSS and/or other agency systems for prior CPS involvement. (2 cases)
- Documentation did not verify that all indicated and appropriate collateral contacts were made. (1 case)
- The agency provided a “YES” response to the Maltreatment Tab, indicating that alleged behavior met the legal definition of maltreatment, but the documentation in the Intake Referral did not support the response, with no reconciliation of the facts documented. (1 case)
