2007	23,375	391	372	24,138	452	1.9%
2008	23,889	373	375	24,637	499	2.0%

1 This category of inmates does not take up bedspace in SCDC facilities due to placement in diversionary programs. These programs include Extended Work Release, Supervised Furlough, and Provisional Parole. Special Placements include inmates assigned to hospital facilities, as well as Interstate Corrections Compact, and authorized absences. Special placements includes inmates serving South Carolina sentences concurrently in other jurisdictions-for FY 2008 this number averaged 239.

2 Suitable city, county, and state facilities have been designated to house State inmates as a means of alleviating overcrowded conditions in SCDC facilities, and facilitating work at the facilities and in the community.

3 The jurisdiction count on this table does not include YOA parolees or inmates conditionally released under the Emergency Prison Overcrowding Powers Act (EPA); (S.C. Code of Laws 1976, Section 24-3-1110) invoked in September, 1983, and EPA II invoked in May, 1987. The average EPA counts were as follows: FY 1984 - 24; FY 1985 - 271; FY 1986 - 574; FY 1987 - 768; FY 1988 - 654(EPA), 126(EPA II); FY 1989 - 377(EPA), 213(EPA II); FY 1990 - 171(EPA), 189(EPA II); FY 1991 - 146(EPA), 164(EPA II); FY 1992 - 150(EPA), 160(EPA II); FY 1993 - 145(EPA), 156(EPA II); FY 1994 - 131(EPA), 33(EPA II); FY 1995-124(EPA), 22(EPA II); FY 1996 - 110(EPA), 14(EPA II); FY 1997 - 105 (EPA), 12 (EPA II); FY 1998 - 105 (EPA), 12 (EPA II); FY 1999 - 1 (EPA II); 0 EPA II after 1999.

# **Mission Critical Funding Needs**

**January 31, 2007**

Jon Ozmint, Director  
Department of Corrections

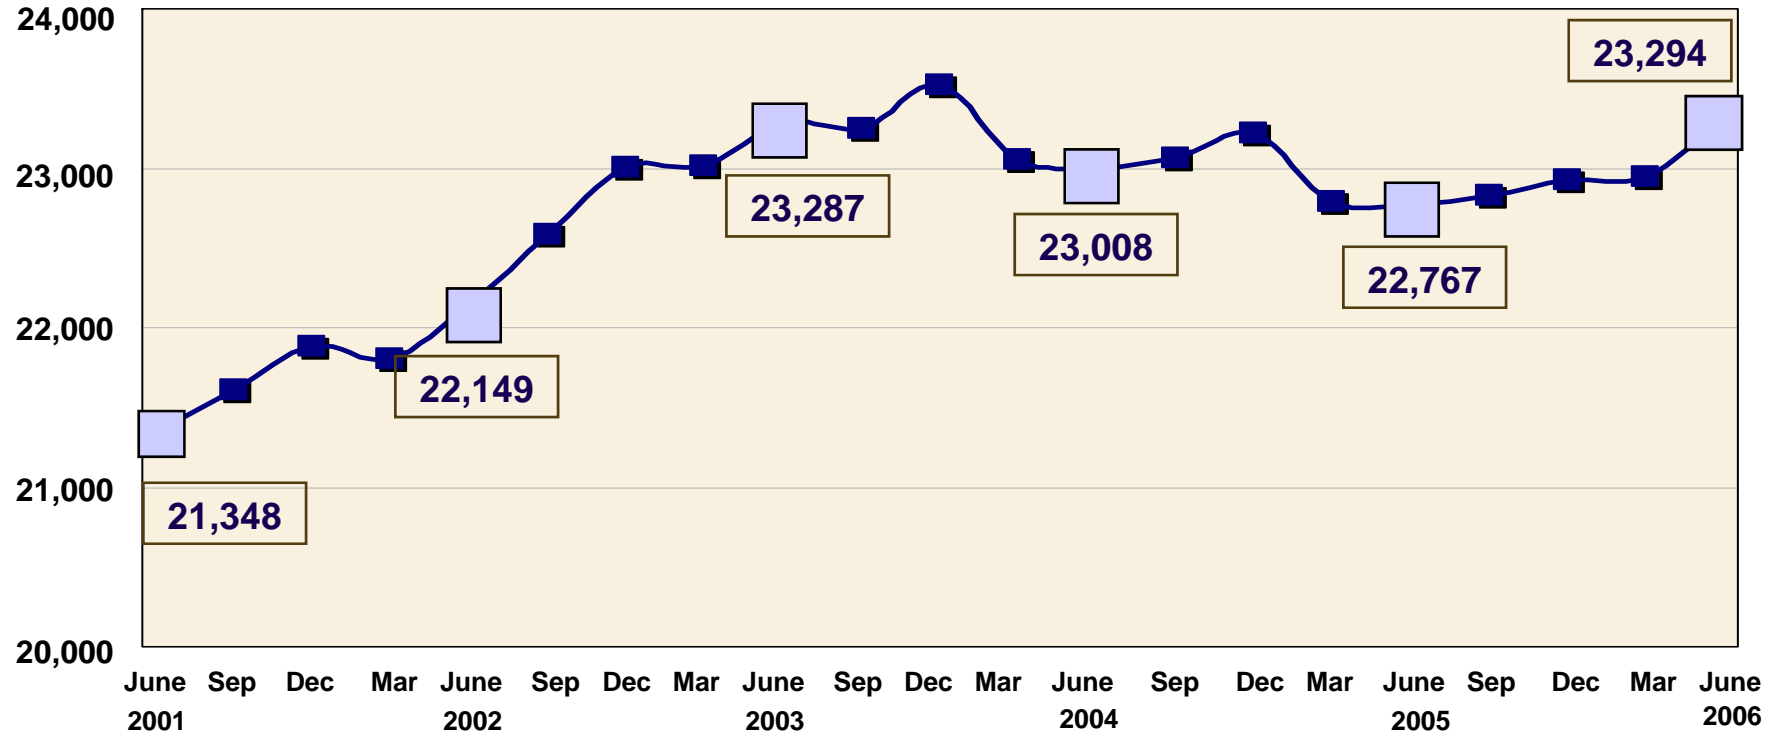

# **South Carolina Department of Corrections (SCDC): Performance and Accountability**

**The South Carolina prison system is among the most cost effective and efficient in the nation: fewer dollars were expended while achieving outcomes that are among the best in the nation.**

- **SCDC per inmate cost is ranked 50<sup>th</sup> (lowest in the nation) while its staffing per inmate ratio ranked 48th.**
- **Yet, South Carolina's three year recidivism rate of 32.7% continues to be better than the national average of 33.8%. There were no major disturbances/major incidents, and few escapes. Prisons remain safe with low assault rates and increased contraband control.**

# Increasing Demands from a Growing Population

## Increase in Institutional Population

- Between June 15, 2001 and June 15, 2006, SCDC's institutional count increased by 1,946 (9%).
- By law, SCDC must provide security, housing, clothing, food, and healthcare - these basic needs require more dollars as SCDC daily count increases.
- To prepare inmates for re-entry into community, SCDC provides education, work, and addiction treatment programs.

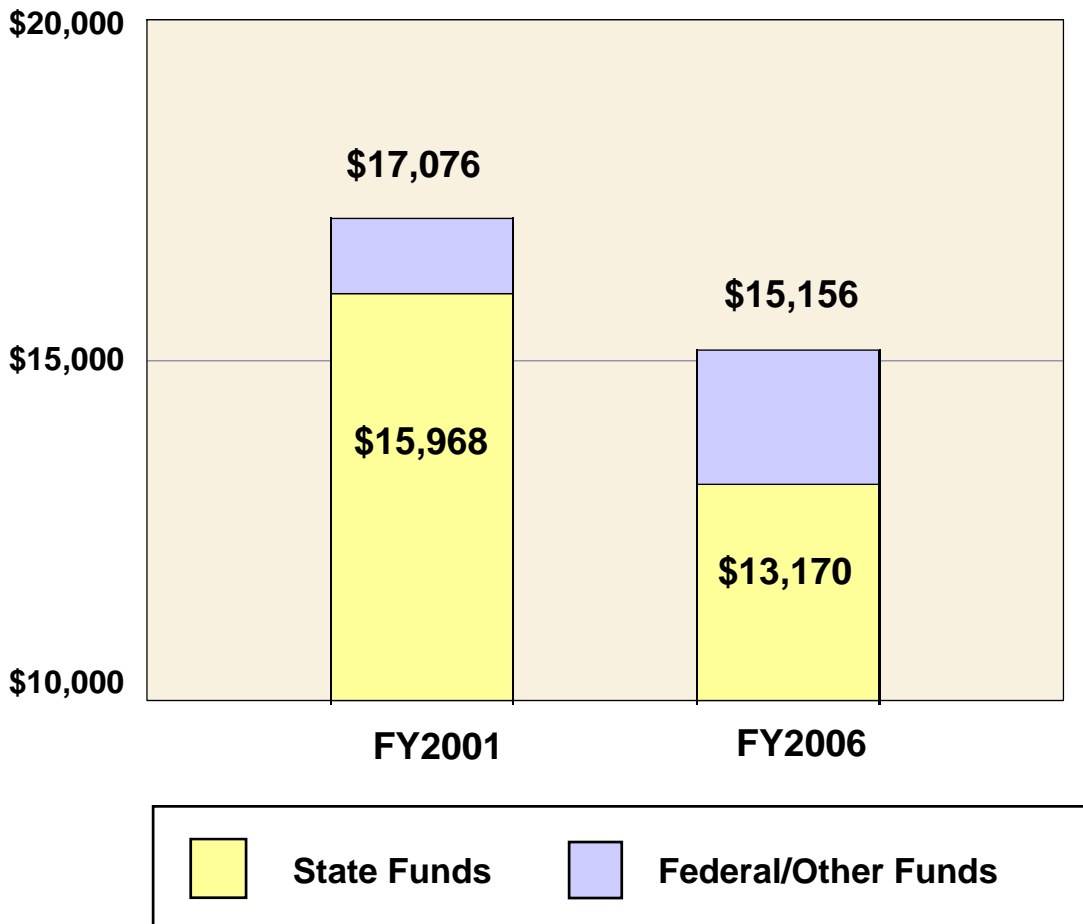

# Increasing Demands from a Growing Population

## More Difficult and More Service Intensive Inmates

- More Truth-in-Sentencing (TIS) inmates (ineligible for parole; must serve 85% of their sentence; prone to more infractions)
  - In June 2000, 3,915 inmates (18% of population).
  - In June 2006, 9,124 inmates (40% of population).
  - Eventually, at least 48% of population will be TIS inmates.
- 11,778 violent offenders (51% of population).
- 2,362 mentally ill inmates (10% of population).
- More than half of population has medical problems (61%).
- More than half cannot read at 9<sup>th</sup> grade level (52%).
- Nearly half have chemical dependency (41%).

# Decreasing Dollars

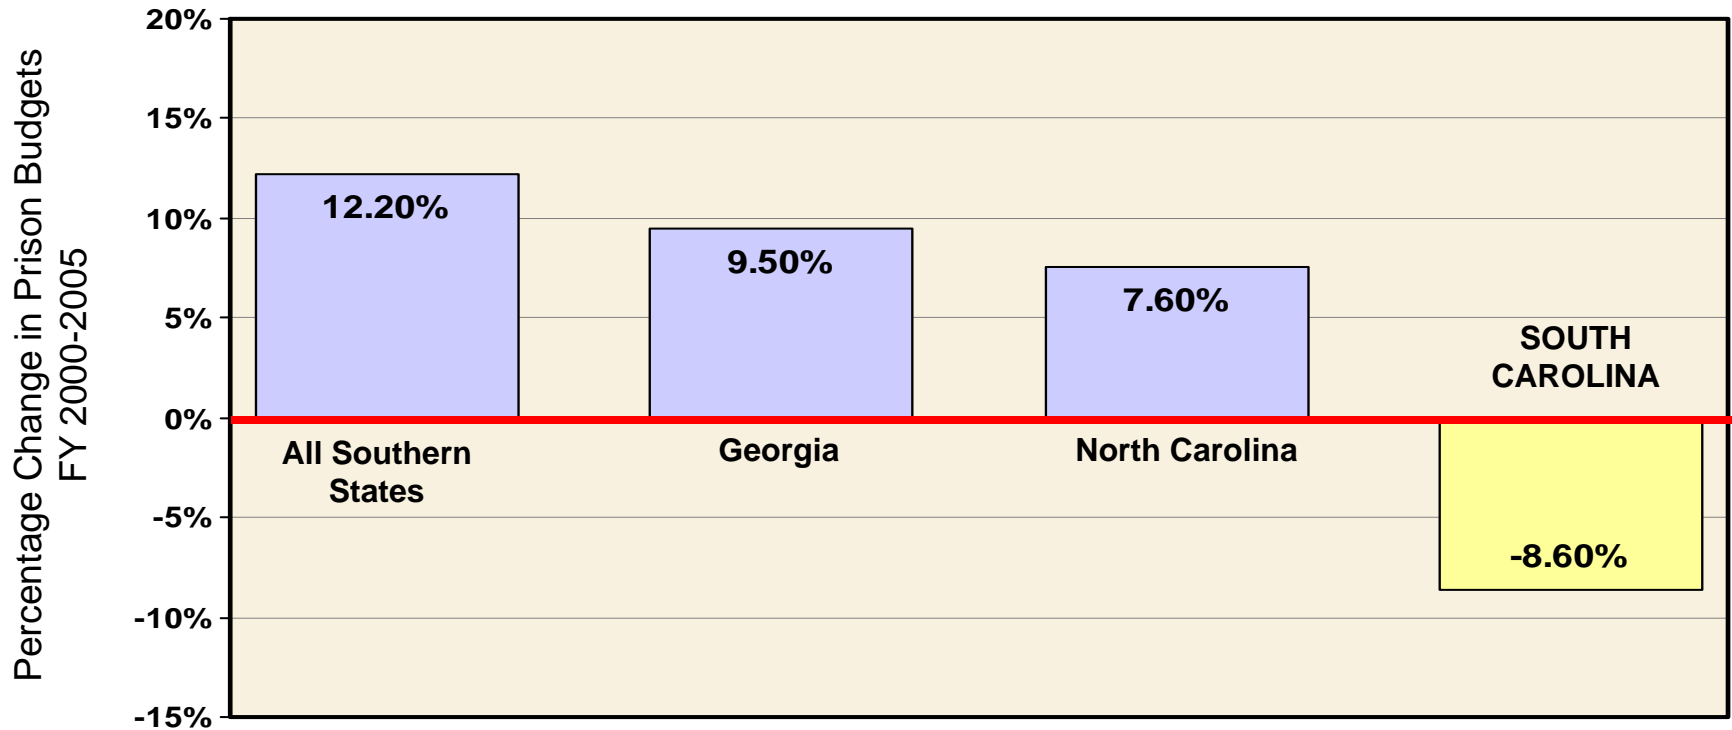

Between FY 2001 and 2006, SCDC Per Inmate Cost Based on State Funds Decreased by \$2,798 (18%)

- Between 2001 and 2006, annual average per inmate cost based on State funds decreased by \$2,798; 18% less than in FY 2001.
- Between 2001 and 2006, annual average per inmate cost based on all funds decreased by \$1,920; 11% less than in FY 2001.
- **South Carolina is the only state in the nation which failed to restore prison funding back to the level before the economic downturn in 2000-2002.** SCDC funding is \$40 million less than 1999 appropriations.

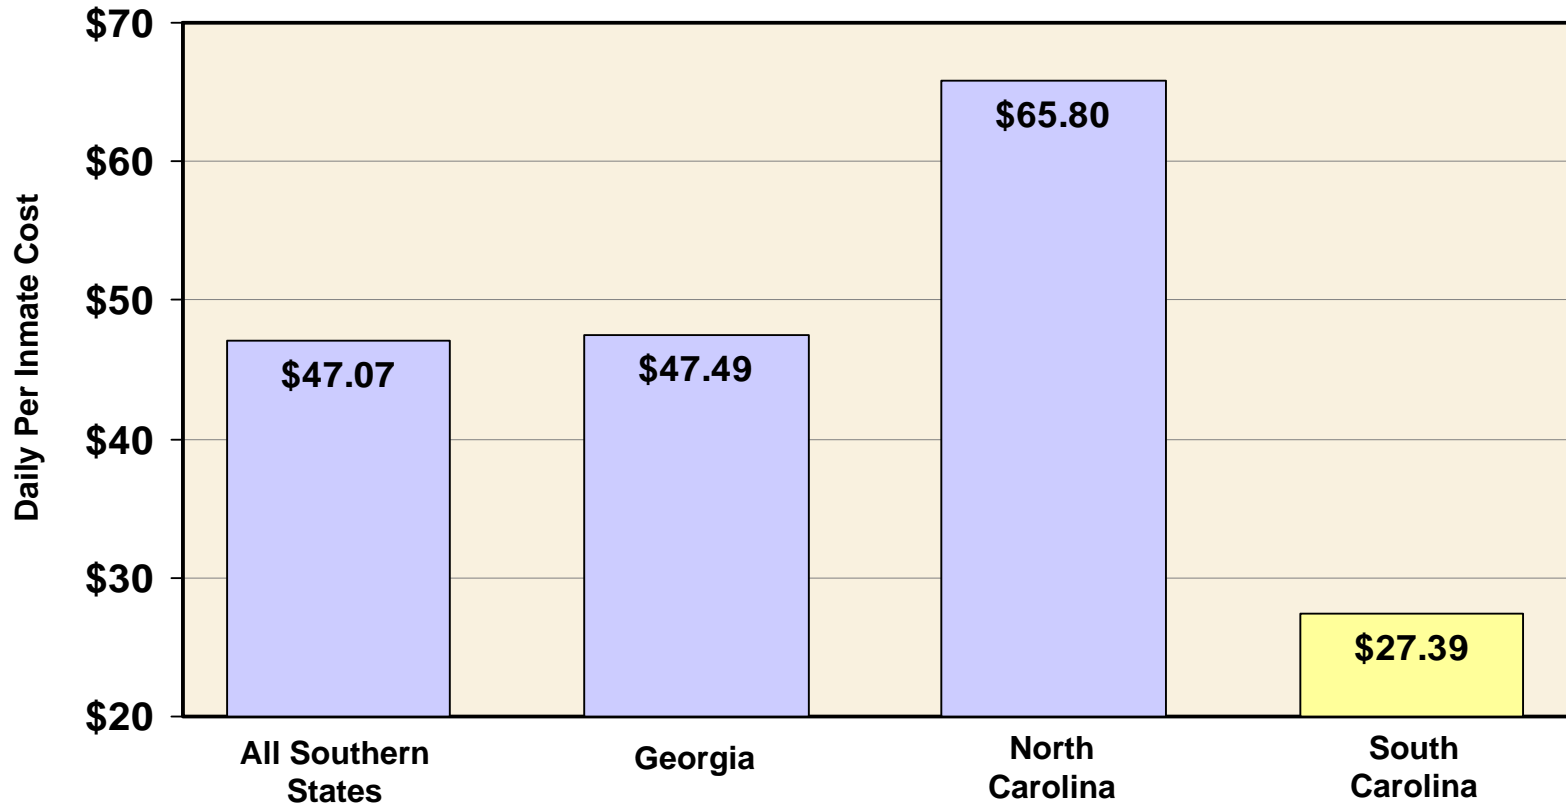

# Comparing State Appropriations Percentage Changes in Southern States FY 2000 - FY 2005

**South Carolina: Only Southern State Spending Less on Prisons**

Between FY 2000 and 2005, all other Southern States increased their prison budgets, South Carolina appropriated 8.6% less to its adult correctional system, despite a 9% increase in inmate population.

# Comparing State Funded Per-Inmate Institutional Operating Cost in Southern States FY 2005

The Southern Legislative Conference compares per inmate institutional operating costs without administrative and centralized expenses. Data shows South Carolina's state funded per inmate cost of \$27.39 per day is only 58% of the average state funded cost for all Southern States. North Carolina spent 2.4 times that of South Carolina. Georgia's cost is 1.7 times.

# South Carolina versus Southern States

- **Similarly High Incarceration but Lower Expenditures**
  - South Carolina incarcerates 539 per 100,000 (compared with an average rate of 540 among Southern States).
  - Between FY 2000 and 2005, SCDC's total expenditures decreased by 8.6%. Southern States collectively increased correctional spending by 12.2%.
- **More Economical Prison Operations and Construction than Other Southern States**
  - SCDC's daily per inmate cost is 42% less than the average for other Southern States (based on FY 2005 figures - Southern Legislative Conference).
  - Prison construction is 16% less (based on FY 2005 figures of \$56,000 in South Carolina vs. \$66,400 per bed).

# South Carolina versus Southern States

- **Our Security Staff Work Harder for Less**
  - **South Carolina's 9.6 inmates per correctional officer is 74% higher than the Southern States' average of 5.5.**
  - Recently, the Legislature increased correctional officers' starting salary to \$22,709 (from \$20,645 in 2005).
  - **Current correctional officers' starting salaries are still lower than the average of Southern States and other local entities.**
  - According to the SCDC salary survey of South Carolina counties:

Richland - \$23,472	Charleston - \$27,378
Florence - \$21,263	Greenville - \$24,587
Lexington - \$29,714	Spartanburg - \$25,885
  - Select Southern States:

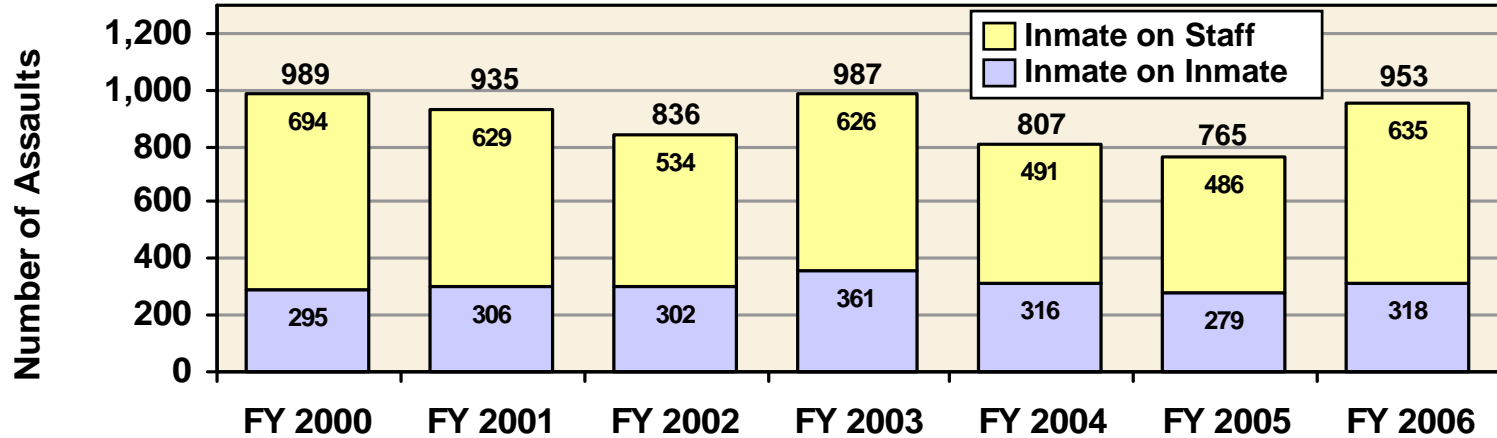

Alabama - \$25,352
Georgia - \$23,613
North Carolina - \$23,894

# Commitment to Prison Security and Safety

## Low Assault Rate

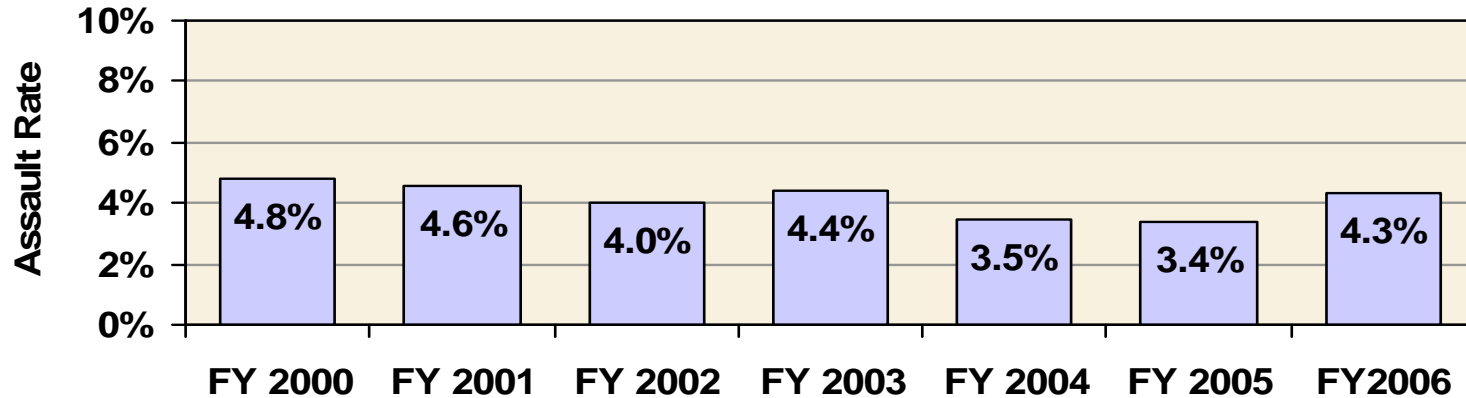

### TOTAL ASSAULT CHARGES

Based on Management Information Notes (MINS)

### TOTAL ASSAULT RATE

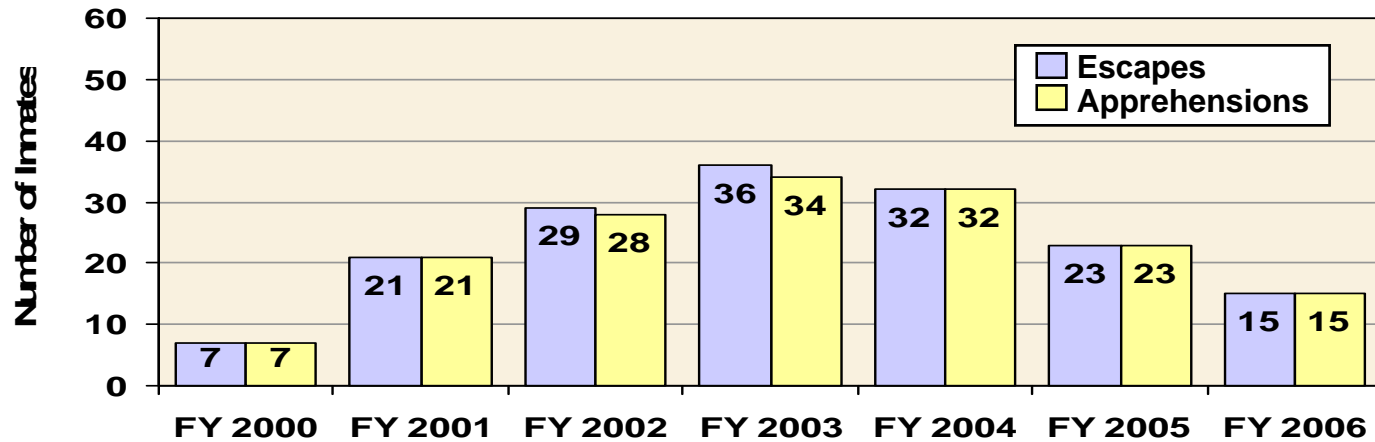

As a Percentage of the Average Daily Institutional Population

# Commitment to Prison Security and Safety

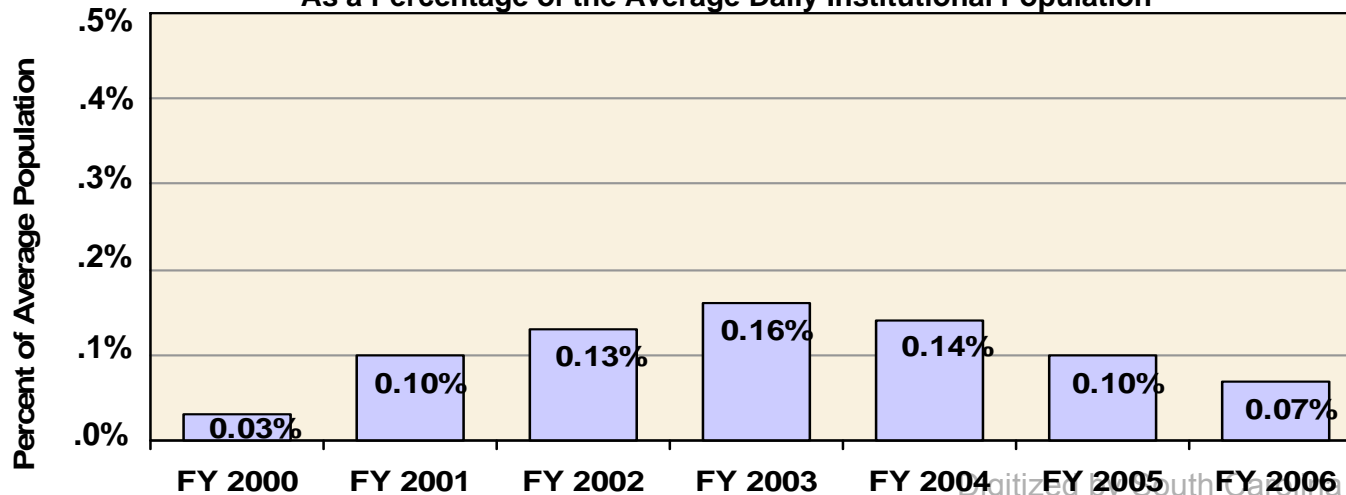

## Few Escapes

### INMATE ESCAPES AND APPREHENSIONS

### ESCAPE RATE

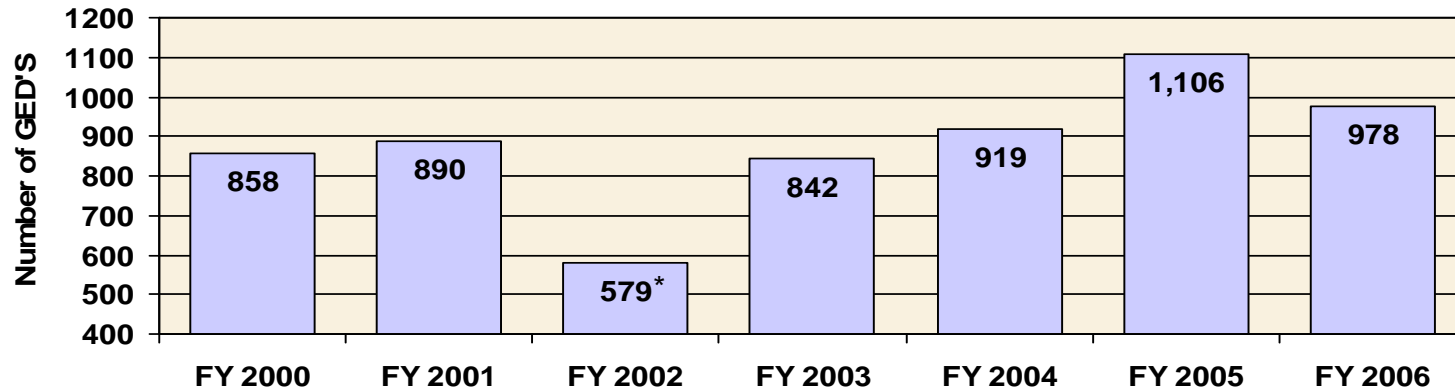

As a Percentage of the Average Daily Institutional Population

# Commitment to Inmate Rehabilitation

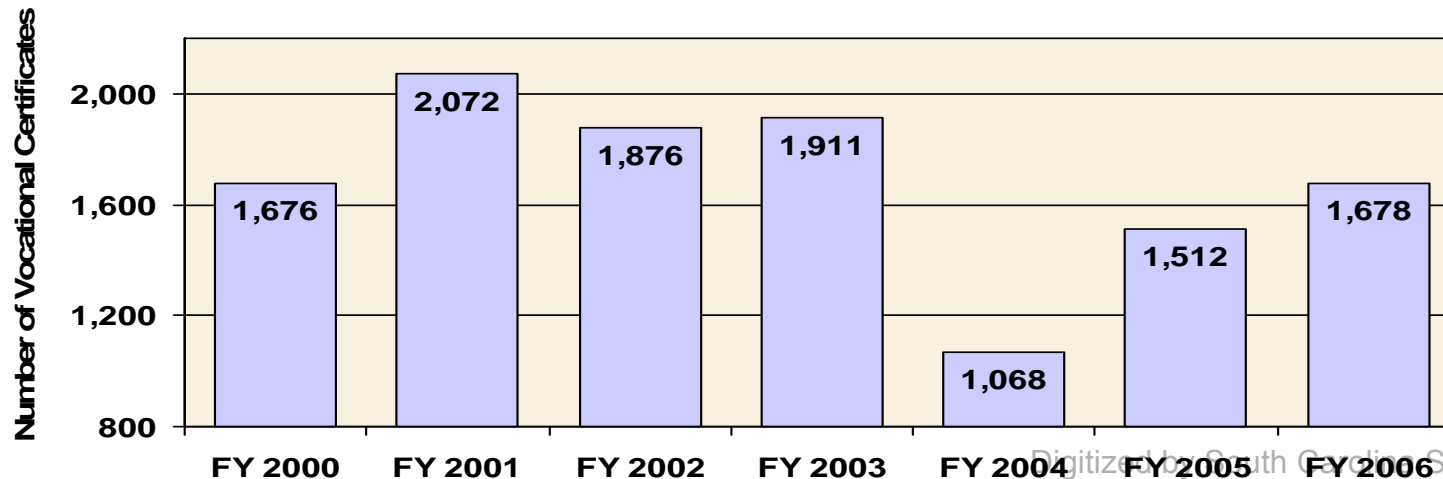

## Educational Accomplishments

GED'S EARNED BY INMATES

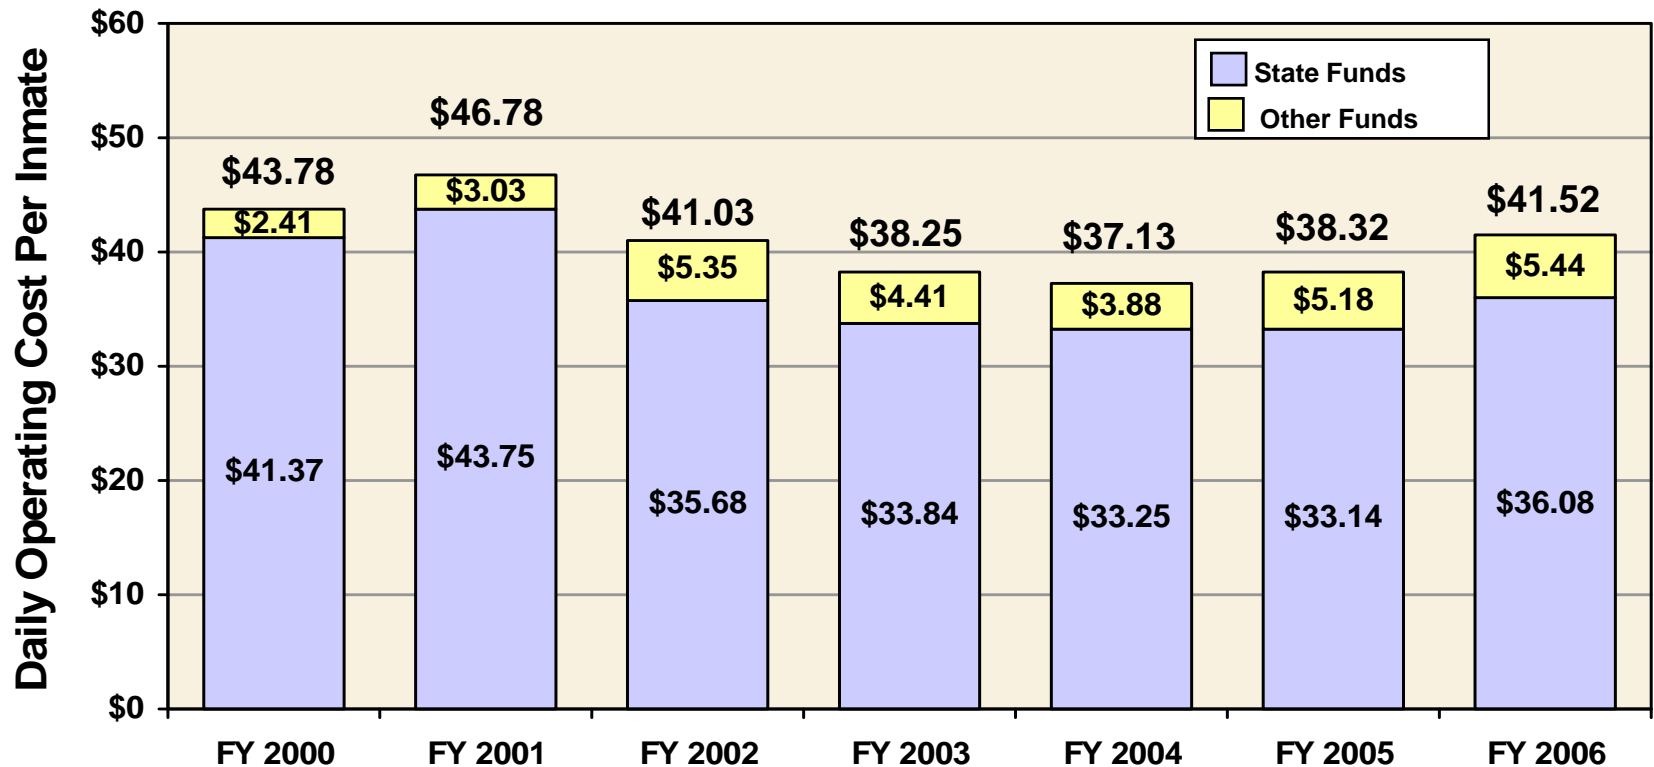

\*The GED Test was reorganized during FY 2002, therefore, the SC Dept. of Education did not administer tests for a six month period.

VOCATIONAL CERTIFICATES EARNED BY INMATES

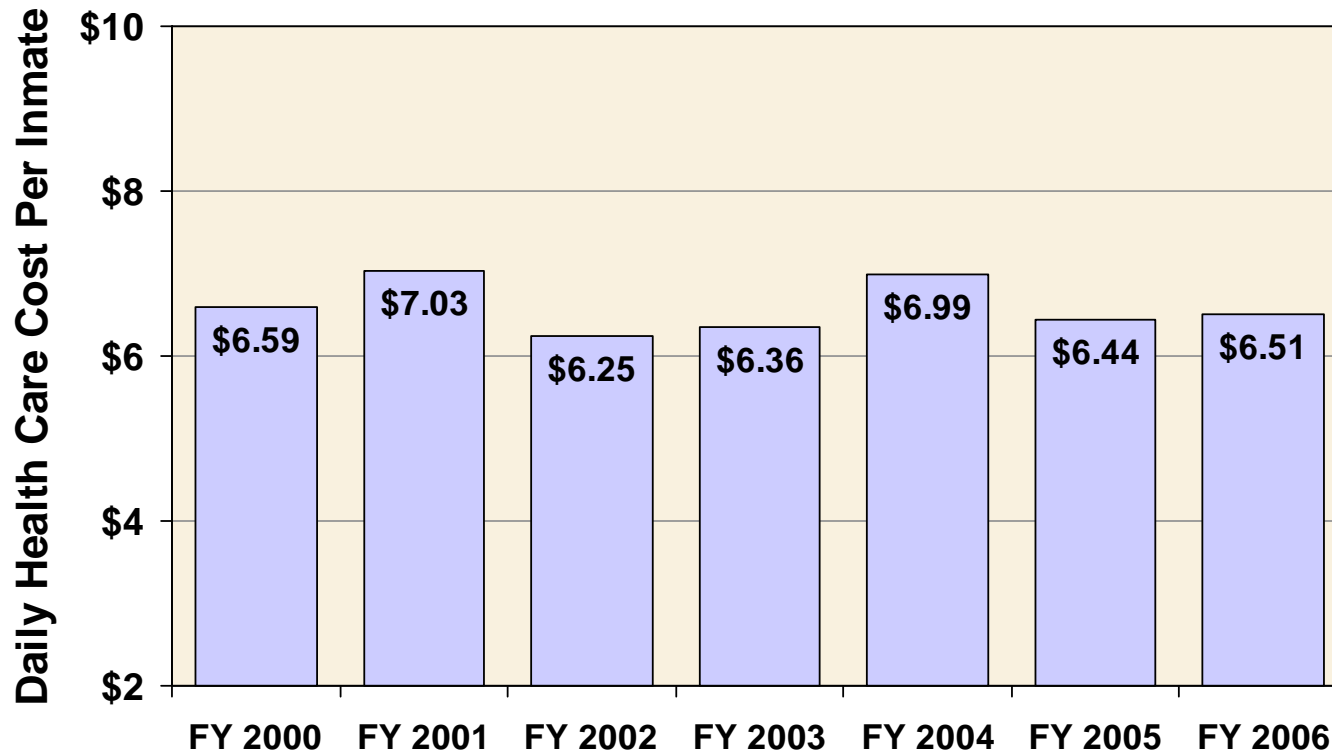

# Commitment to Cost Efficiency

## Consistently Low Daily Operating Cost Per Inmate

# Commitment to Cost Efficiency

## Controlling Health Care Costs

# **South Carolina Department of Corrections (SCDC): Mission Critical Funding Needs**

**SCDC Budget requests are necessary to:**

- **Sustain past performance of safe prisons.**
- **Control emerging problems (critical facility/equipment disrepair; staff attrition).**
- **Meet legal challenges (mental health).**

# Inadequate and Aging Facilities

- Shortage of Level II general housing beds (On December 15, 2006, 8,077 Level II inmates exceeded capacity of 7,475).
- Deferred maintenance has resulted in deteriorating prisons, posing health, safety and security risks.
- Many SCDC sites have asbestos problems and reported substandard fences, locks and doors.
- Roof/road repairs are needed at over 20 sites.
- Identified deferred maintenance totaled \$25 million.

# Obsolete Equipment

- **Vehicles**

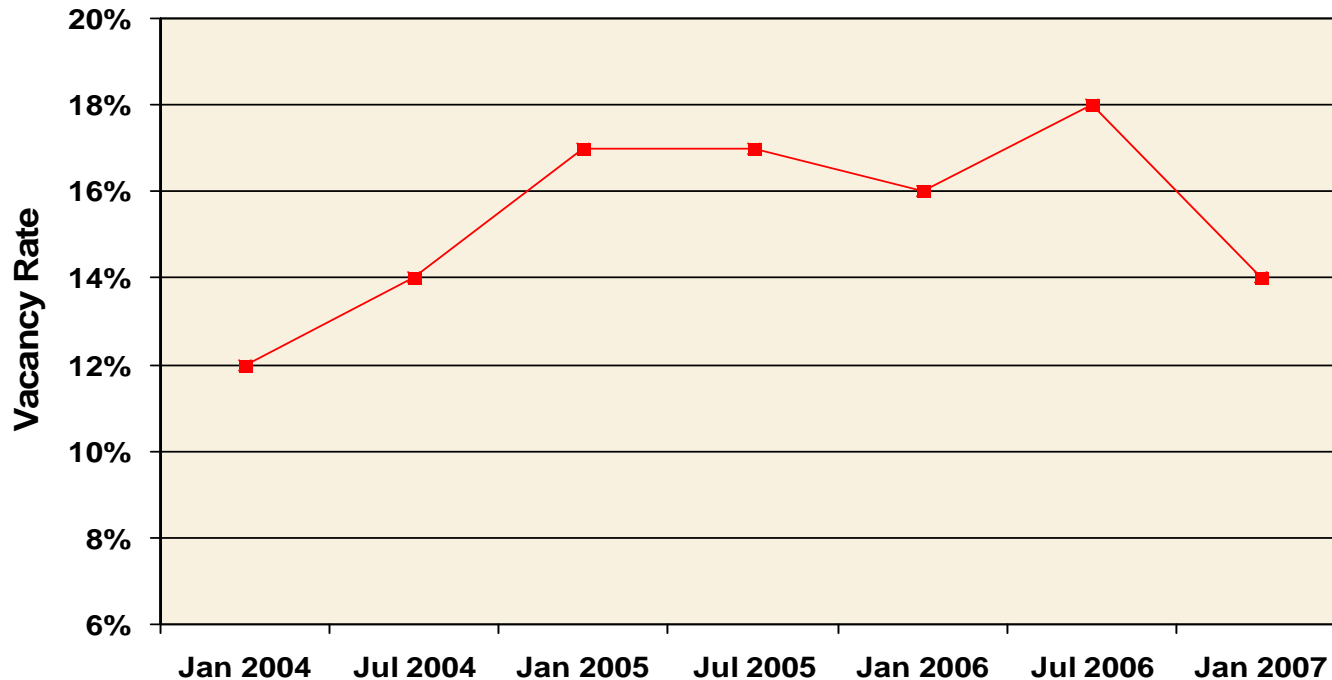

- For inmate transport and prison operations.
- 453 vehicles (54% of current fleet) register over 100,000 miles and 250 (30%) register over 150,000 miles.

- **Security Equipment**

- For communications, monitoring, and screening.
- Obsolete and inadequate equipment impedes detection of contraband.
- New technologies are available to control contraband (including detection of cell phones).

# Addressing the Problem of Staff Retention

## The Vacancy Rate for Security Positions at Medium/Maximum Facilities Declined After the Recent Incentive Pay Increase

- Cadets, Corporal II and Correctional Officer II at medium/maximum facilities received incentive pay increases in July 2005 and July 2006.
- Vacancy rate is the total number of vacancies in these job categories, expressed as a percentage of the total number of authorized positions in these job categories.
- In January 2007, six months after the second incentive pay raise in July 2006, SCDC medium/maximum institutions' vacancy rate declined to 14% (18% in July 2006).

# Retention of Security Staff

## **A Lower Percentage of Security Staff Resigned Within Their First Six Months of Employment After the Recent Incentive Pay Increase**

- SCDC monitored the retention rate of three cohorts of security staff hired in FY 2004, FY 2005, and FY 2006, respectively (security staff consists of Cadet, Corporal II and Officer II positions).
- In FY 2005, SCDC hired 777 security staff, 156 of whom resigned within six months, for a six-month resignation rate of 20%.
- In FY 2006, SCDC hired 916 security staff; 164 resigned within six months, for a six-month resignation rate of 17.9%.

# Retention of Security Staff

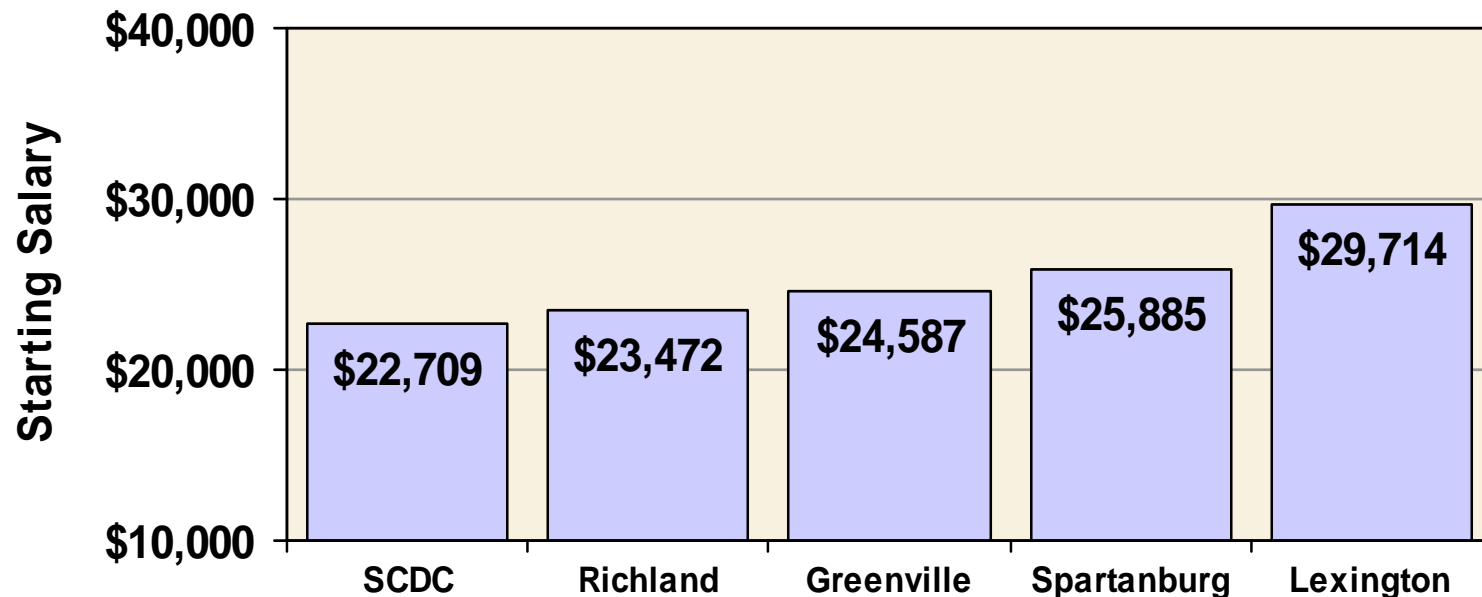

## Fewer Medium/Maximum Facilities Have a Critical Number of Vacant Security Positions Since the Recent Incentive Pay Increase

- In July 2006, SCDC had 357 vacant security positions at medium/maximum institutions. In January 2007, the number of vacant security positions dropped to 283, a 21% reduction in security position vacancies, just six months after the incentive increase.
- In July 2006, six of SCDC's 16 medium/maximum institutions (38%) had more than 30 vacant security positions. In January 2007, only two medium/maximum institutions had 30 or more vacant security positions.

# Recruiting and Retaining Security Staff

Despite Recent Pay Increases, SCDC Starts New Correctional Officers at a Lower Salary than Large South Carolina Counties

STARTING SALARY FOR CORRECTIONAL OFFICERS\*

\*Based on starting salary figures for correctional officers with “no experience.”

# SCDC FY 07-08 Budget Request

<b>Critical Needs</b>	<b>Annual Operating Funds</b>	<b>One-Time Expenditures</b>
<b>Facility Maintenance Requirements</b>		<b>\$ 8,500,000</b>

**Population Counts and Capacities of SCDC Institutions**  
(Sorted by Level)  
October 15, 2008

**Housing/Inmate Categories**

Operating Capacity for an institution represents the reasonable number of inmates that can be accommodated under normal circumstances, based on staff, programs, and services within the institution, and addressing relevant legal/professional standards. Thus, temporary or emergency beds (such as triple-cell beds) and out of service beds are excluded. Operating capacity includes several bedtypes:

- 1) "General Housing" - beds for inmates not designated/requiring "special" supervision and/or services;
- 2) "Special Management" - beds for inmates designated/requiring "special" supervision such as crisis intervention; deathrow; hospital, maximum custody; mental health; protective custody; pre-hearing detention; security detention; safekeeper; and temporary holding (transient); and
- 3) "Programs" - beds for inmates in specific locations for program participation such as assisted living; addictions treatment; Educational Finance Act eligible inmates; habilitation; handicap; Youthful Offender Act programs; reception/evaluation; shock incarceration; transitional care; HIV therapeutic; and sex offender treatment.

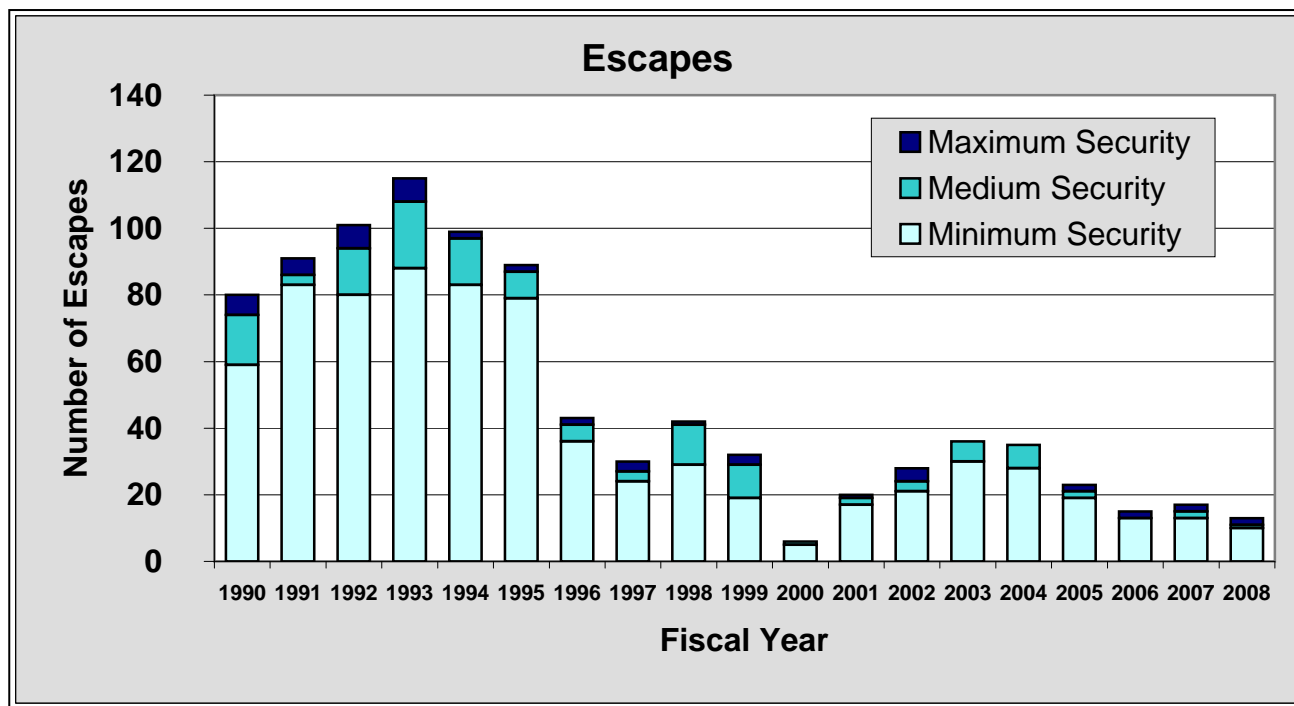

This table reports counts of beds and the number of inmates housed by security level. Security level of housing, however, does not necessarily reflect the security classification of the inmates. The security levels reflect their designation as of the date of this report. \*Allendale, Evans and Kershaw were converted from Level 3 to Level 2 facilities on April 9, 2003, June 1, 2005 and February 28, 2003, respectively.

Highlighted areas indicate most common offenses for each fiscal year. Inmates often are committed to SCDC with many offenses, with each carrying a specific sentence, county of commitment, etc. To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence determined MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

\*\*New Crime categories added FY 1996.

Note: Percentages may not add up due to rounding.

\*Highlighted areas indicate most common offenses for each demographic group. Inmates often are committed to SCDC with many offenses, with each carrying a specific sentence, county of commitment, etc. To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence determined MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

All percentages rounded.

<sup>1</sup> Excludes Lifers, Death-Row & YOA's

<sup>2</sup> Include inmates to be released to Community Supervision under Truth-in-Sentencing, excludes Lifers, Death-Row and YOA's

<sup>3</sup> Based on inmate self-reported information at intake

<sup>4</sup> Substance Abuse Subtle Screening Inventory (SASSI) stopped being used in January 1997. Currently Texas Christian University Drug Dependency Screen (TCUDDS) is used.

<sup>5</sup> To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence determined MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

Note: Percentages may not add up due to rounding.

\*Highlighted areas indicate most common offenses for each demographic group. Inmates often are committed to SCDC with many offenses, with each carrying a specific sentence, county of commitment etc. To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence was determined to be MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

\*\*Includes Interstate Corrections Compact, county safekeepers, and pre-sentence observation.

All percentages rounded.

\* Includes Interstate Corrections Compact, county safekeepers, and pre-sentence observation.

\*\* Highlighted areas indicate most common offenses for each fiscal year. Inmates often are committed to SCDC with many offenses, with each carrying a specific sentence, county of commitment, etc. To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence determined MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

Note: Percentages may not add up due to rounding.

\*Calculation of the SCDC per inmate costs is based on the average number of inmates in SCDC facilities and a small number of authorized absences and does not include state inmates held in designated facilities, institutional diversionary programs, or other non-SCDC locations.

\*\*State, Federal and Special Revenues (Excludes Permanent Improvement, Purchases for Resale, Canteen, Prison Industries, Improvement Enterprise Funds, and Interest and Principle Payments)

Based on 365 days per year, except leap year when 366 days are used.
