SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION

Qualified Manufacturers to Supply Steel Grates and Frames for Catch Basin Covers

New manufacturers may be qualified by contacting the Structural Materials Engineer, South Carolina Department of Transportation, PO Box 191, Columbia, South Carolina 29202 and requesting an inspection of their facilities and procedures and by meeting the requirements listed on the Department's standard drawings.

Office of Materials and Research Inspectors will not stencil shipped units, however, the source name is stenciled on each unit for identification purposes. The project inspector is expected to determine if there are problems with shipped units that would warrant the attention of the Office of Materials and Research.
