

SOUTH CAROLINA'S
LAKE WARREN
STATE PARK

Picnic facilities, a spacious lake for fishing and boating, and a community building are prominent features of Lake Warren State Park. Perhaps the most intriguing aren't manmade, however.

The Hampton County park boasts a floodplain forest that supports four species of pines and other large tracts of wetlands and woodlands that are home to a wide variety of plants and animals including whitetail deer, raccoons, wild turkeys, migratory songbirds, armadillos and American alligators.

In addition to its 200-acre lake, Lake Warren also has a tiny pond, two nature trails, playground equipment and all the setting needed for an ideal day at the park in South Carolina's beautiful Lowcountry woodlands.

Counties: Hampton

Acreage: 440
