## Introduction

This report provides a labor market profile of Jasper County. It is intended to compliment the information found on our Labor Market Information website:

<http://www.sces.org/lmi/>

The report is divided into the following three major sections:

- 1.) Demographic Profile
- 2.) Economic Profile
- 3.) Education Profile

## Demographic Profile

### Overview

This Demographic Profile provides an in-depth analysis of the population in Jasper County. Most of the data is produced by the U.S. Census Bureau, and includes demographic characteristics such as age, race, and gender.

### Related Terms and Definitions

#### Ability To Speak English

For people who speak a language other than English at home, the response represents the person's own perception of his or her ability to speak English. Because census questionnaires are usually completed by one household member, the responses may represent the perception of another household member.

#### Age

The age classification is based on the age of the person in complete years as of April 1, 2000. The age of the person usually was derived from their date of birth information. Their reported age was used only when date of birth information was unavailable.

#### Gender

The data on gender were derived from answers to a question that was asked of all people. Individuals were asked to mark either "male" or "female" to indicate their gender. For most cases in which gender was not reported, it was determined by the appropriate entry from the person's given (i.e., first) name and household relationship. Otherwise, gender was imputed according to the relationship to the householder and the age of the person.

#### Race

The concept of race as used by the Census Bureau reflects self-identification by people according to the race or races with which they most closely identify. The categories are sociopolitical constructs and should not be interpreted as being scientific or anthropological in nature. Furthermore, the race categories include both racial and national-origin groups.

### Population by Age

	Jasper County	South Carolina	United States
Under 5 Years	1,511	263,343	19,175,798
5 to 9 Years	1,623	286,291	20,549,505

## Economic Profile

### Overview

This Economic Profile of Jasper County includes several data sets produced by the South Carolina Employment Security Commission. The profile contains industry and occupation data, as well as employment and unemployment information.

### Related Terms and Definitions

#### Average Weekly Wage

Computed as average quarterly wages divided by 13.

#### Consumer Price Index (CPI)

The Consumer Price Index measures the average change over time in the prices paid by urban consumers for a representative market basket of consumer goods and services.

#### Local Employment Dynamics (LED)

The Local Employment Dynamics Program at the Census Bureau, together with its state partners, provides employment information at the county, city, and Workforce Investment Area level. This information tracks workers in different industries by age and gender and provides statistics on job creation, separation, turnover, and wages.

#### Quarterly Census of Employment and Wages (QCEW)

A federal/state cooperative program that collects and compiles employment and wage data for workers covered by state unemployment insurance (UI) laws and the federal civilian workers covered by Unemployment Compensation for Federal Employees (UCFE). These data are maintained at the state in micro and macro levels and also sent to BLS quarterly.

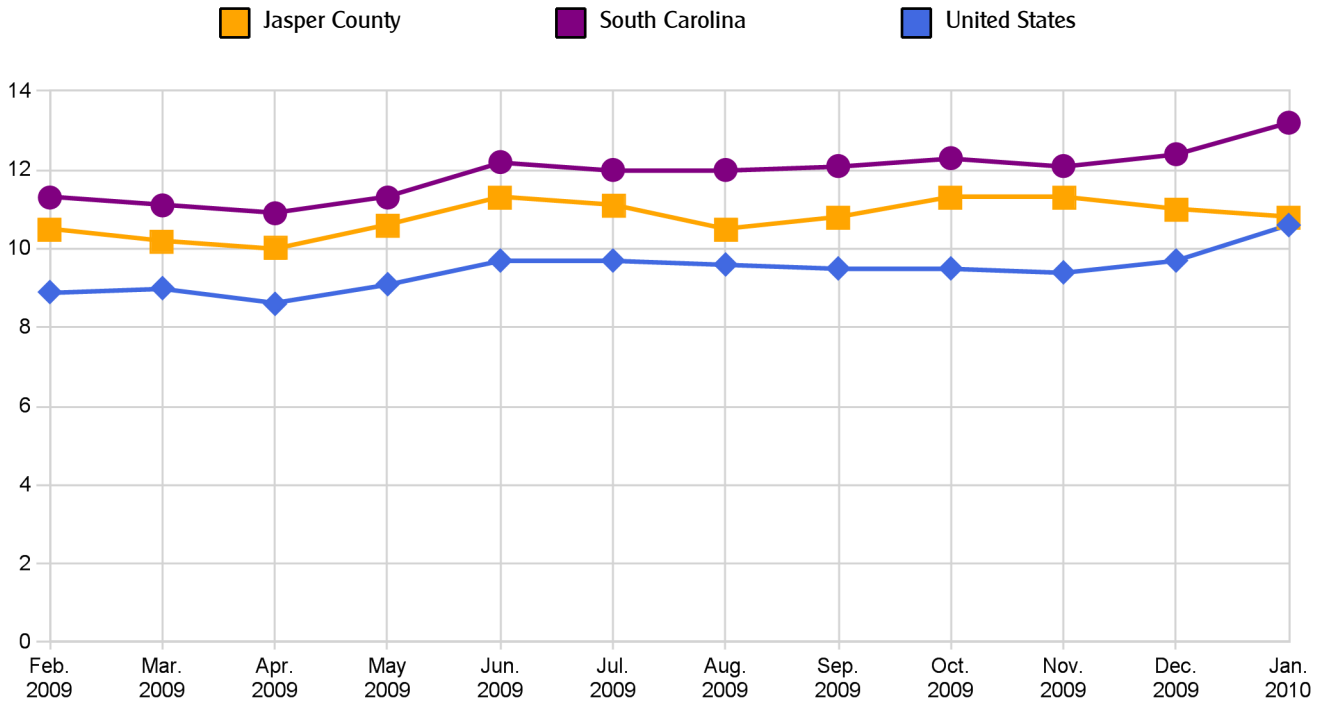

#### Unemployment Insurance (UI)

Unemployment insurance is a program for the accumulation of funds paid by employers to be used for the payment of unemployment insurance to workers during periods of unemployment which are beyond the workers' control. Unemployment insurance replaces a part of the worker's wage loss if he becomes eligible for payments. UI serves as an economic stabilizer by maintaining an individual's purchasing power when unemployed.

#### Unemployment Rate

The number of unemployed people as a percentage of the labor force.

Consumer Price Indexes (CPI) Program.

## Education Profile

### Overview

This Education Profile of Jasper County consists of information collected from the U.S. Census Bureau and the National Center for Education Statistics.

### Related Terms and Definitions

#### Associate's degree

An award that normally requires at least two but less than four years of full-time equivalent college work.

#### Bachelor's degree

An award that normally requires at least four but not more than five years of full-time equivalent college-level work.

#### Post-baccalaureate certificate

An award that requires completion of an organized program of study equivalent to 18 semester credit hours beyond the bachelor's. It is designed for persons who have completed a bachelor's degree, but do not meet the requirements of a master's degree.

#### Master's degree

An award that requires the successful completion of a program of study of at least the full-time equivalent of one but not more than two academic years of work beyond the bachelor's degree.

#### Post-master's certificate

An award that requires completion of an organized program of study equivalent to 24 semester credit hours beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's level.

#### Doctor's degree

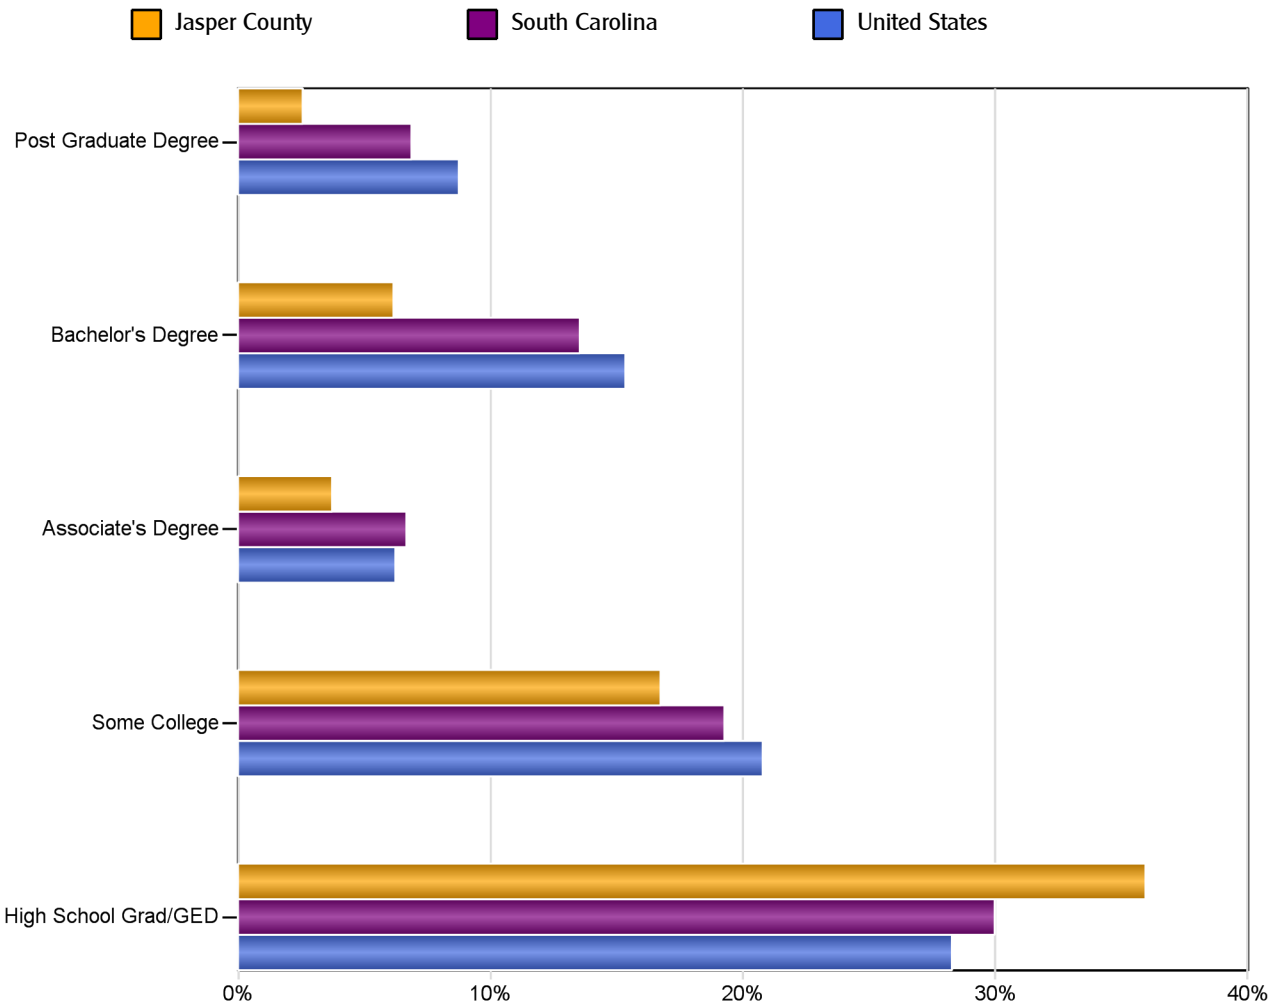

The highest award a student can earn for graduate study.

#### First-professional degree

An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least two years of college work prior to entering the program; and (3) a total of at least six academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself.
