

QUALIFIED PRODUCTS POLICY 70

August 1, 2008

**QUALIFIED PRODUCTS POLICY FOR HYDRAULIC MULCH (HM)
QUALIFIED PRODUCTS LIST 70**

This policy covers Hydraulic Mulch (HM) for use as erosion control. When certified affidavits and test results from a qualified independent laboratory show a HM meets the SCDOT criteria, that particular product will be listed on Qualified Products List 70. Affidavits and test results shall be required every two years. Only the products that appear on Qualified Products List 70 by the SCDOT Office of Materials and Research, entitled "Qualified HM" or otherwise accepted by the Engineer shall be used.

Performance Requirements for Hydraulic Mulch (HM)

Refer to the Hydraulic Mulch Specifications for HM material and performance requirements.

Requests for qualification should be submitted to:

G. Michael Lockman
Geotechnical Materials Engineer
SCDOT Office of Materials and Research
PO Box 191
Columbia, SC 29202
(803) 737-6692
