

DOD telephones are provided for the transmission of official government information and are subject to communications security monitoring at all times. Use of official DOD telephones constitutes consent to monitoring per DOD Directive 4640.6. Do not discuss classified information on non-secure telephones. Official DOD telephones are subject to monitoring for communications security purposes at all times.

General Information

1. PHONETIC ALPHABET

The phonetic alphabet shown below, used in pronouncing isolated letters and spelling out words normally difficult to understand over voice communications, is authorized for combined, joint and Intra-Air Force use.

A - ALPHA	J - JULIET	S - SIERRA
B - BRAVO	K - KILO	T - TANGO
C - CHARLIE	L - LIMA	U - UNIFORM
D - DELTA	M - MIKE	V - VICTOR
E - ECHO	N - NOVEMBER	W - WHISKEY
F - FOX TROT	O - OSCAR	X - XRAY
G - GOLF	P - PAPA	Y - YANKEE
H - HOTEL	Q - QUEBEC	Z - ZULU
I - INDIA	R - ROMEO	

AUDIX VOICE MESSAGING

The Audix System has a limited number of voice message mailboxes available to individual telephone extensions. Mailbox users can setup personalized answering messages and access their messages from anywhere by dialing into the system. There are several other features outlined in the Audix Voicemail Messaging User Guide which is issued to each mailbox user.

(1) From off base, dial commercial (803) 647-8634 or DSN 583-8634.

(2) Enter your four-digit mailbox ID which will be the same as your extension followed by the pound sign (#). (3) Enter your password followed by the pound sign (#).

If you have problems with your current account, contact Telephone Communications (169 CF/SCOS, 647-8622).

To establish a new Mailbox, the unit CST or unit ITEC must submit a work order request via WOMS.

PROCEDURES FOR PLACING OFFICIAL CALLS

A. Dialing Local Exchanges: Local telephone exchanges:

Can be reached by dialing "99" plus the seven-digit number.

B. Federal Telephone System (FTS)-Commercial Toll Class:

(1) Personnel desiring to place CONUS commercial long distance official toll calls will apply to their respective

Telephone Control Officers for a Pin Number.
(2) When you receive your Pin Number, you will be given a dialing code to place your long distance calls.

(3) In placing long distance calls outside of the local calling area, preference shall always be given to the use of

the \DSN.
(4) Toll Free Numbers. All 800, 877 or 888 toll free numbers can be reached by dialing 99-1-800/888+7 digit number.

Outgoing Access Codes:

94 - DSN –Stateside

94 +Country Code – Global DSN

98 - Long Distance

99 – Local

TELEPHONE SERVICE REQUESTS

A. Official Telephone. Request for initial installations, reclassification,

changes, or discontinuation to existing telephone, will be submitted to 169 CF/SCOI via WOMS by the unit CSA or ITEC. Information submitted should include, at a minimum:

- (1) Individual's name
- (2) Telephone Number(s) involved
- (3) Building(s) and room numbers(s)
- (4) Floor plan showing new configuration (If applicable)

B. Classification of Telephones: (Official/Unofficial Classes)

(1) CLASS "A": (Official) Telephone lines accessing central offices, toll trunks, government telephone systems and services, and DSN.

(2) CLASS "B": (*Unofficial*) When obtained from the government, the subscriber pays all charges according to Title 10 U.S.C. Section 2481, Utilities and Services: Sale Expansion and Extension Of Systems and Facilities. The AF reserves the right to enter premises where it provides such telephones to inspect, repair, or remove equipment.

(3) CLASS "C": (Official) Telephone lines for transacting official Government business on AF installations. It does not provide direct-dial access to off-base trunk lines (toll trunks, DSN).

(4) CLASS "D": (Official) Restrict use of these lines to special services such as fire, sentry, and crash alarms.

General Information

6. REPORTING NUISANCE AND THREATENING CALLS

Anyone who receives nuisance calls should call the Emergency Hotline at 647-8911.

REPORTING NUISANCE AND THREATENING CALLS: Calls of a threatening, malicious, or abusive nature including those in which obscene or profane language is used are prohibited. If a call is recognized as threatening get all of the information you can. Report the call to SDOC (Sector Defense Operations Center). Include any background noise, accents, and actual statements made. If a call is recognized as harassment or a nuisance, HANG UP. You control your telephone and can end these calls by simply hanging up. For procedures to correctly handle a **Bomb Threat refer to AF FORM 440**, yellow card near your phone, or **bomb threat checklist (section E.7, page 19)**. Malicious, threatening, abusive, indecent, annoyance or harassing telephone calls are prohibited by state and federal laws. The following actions should be taken:

BOMB THREATS:

- 1). All threatening calls must be taken seriously. After recognizing the call as a bomb threat, follow the BOMB THREAT CHECK-LIST (AF Form 440 (yellow Card near your phone).
- 2). Keep the caller talking. Ask the questions shown on the check-list. For example, location of the bomb, time of detonation, etc. Attempt to get as much information from the caller as possible.
- 3). Have another person in the area contact the SDOC from another line. Advise of the situation and provide any information obtained from the caller. Do not hang up until instructed to do so.
- 4). If the bomb threat involves the facility called and the detonation time is an hour or more away, have another individual initiate a rapid search of the building. If a suspicious item is found, do not touch or move it.
- 5). Evacuate everyone from the building immediately. If the detonation time is not given or is less than one hour away, evacuate the building immediately. Building evacuees should report to a predetermined reassembly area. The senior person present is responsible for initiating personnel accountability for building evacuees.
- 6). If the caller hangs up before any information can be received, immediately report the incident to SDOC and comply with paragraphs 4 and 5.

REPORTABLE COMSEC INCIDENTS

- (1) Unauthorized user making a secure call on a STE.
- (2) Secure call completed using an expired key.
- (3) Any instance where the authentication information displayed during a secure call is not representative of the distant terminal.
- (4) Keyed STE (FORTEZZA inserted) must not be left unattended.

EMERGENCY PROCEDURES: In the event of a fire, natural disaster, or covert threat, remove the FORTEZZA from the STE. Secure it or keep it in the personal direction of an authorized individual.

In the event of a REAL-WORLD EMERGENCY, it may become necessary to destroy your STE. When directed by the appropriate authority, you should use ZEROIZE TERMINAL function. All authorized users may access the ZEROIZE TERMINAL menu.

CAUTION! DO NOT USE THE ZEROIZE FUNCTION AS A MEANS OF TRYING TO CLEAR PROBLEMS IN THE STE TERMINAL. FOLLOW THE RECOMMENDED MAINTENANCE PROCEDURES.

When the ZEROIZE TERMINAL function is initiated, all configuration settings are reset to the STE's default values. In addition, terminal user associations including the current TPA are removed. However, if the Initial Secure Mode had been set to "Secure-Only" the setting is retained. Audit Information is also retained after zeroization.

To zeroize the terminal, depress MENU and then depress SCROLL twice to display the ZEROIZE TERMINAL menu. You will see in the display window ZEROIZE TERMINAL and underneath you will see SELECT, SCROLL, and BACK. Depress SELECT.

When SELECT is depressed, the confirmation menu is displayed. You will see in the display window ZEROIZE TERMINAL and underneath you will see CONFIRM and ABORT. Depress CONFIRM. This process takes approximately one minute. When notified that the process is complete, depress CONTINUE.

- C. Communications Security (COMSEC) is everyone's business.
